Notes.—The British Protectorates, other than those specified above, are included in the main body of this Volume, and not in the Appendix.

A statement is given on pp. xii-xviii, showing the bases of the Statistical Values adopted for Imports and Exports in the Trade Returns of the various British Self-Governing Dominions, Crown Colonies, Possessions, and Protectorates.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, CROWN COLONIES, POSSESSIONS, and PROTECTORATES.

[Compiled from information received from the various Colonial Governments.]

STRAITS SETTLEMENTS :—

IMPORTS :

The values given by European importers represent the invoice value of the goods, inclusive of insurance, freight and value of packages (C.I.F.) at the port of despatch, but not of any charges in the Straits Settlements.

Native importers declare the price ruling in the Straits Settlements markets.

[The *cost* of freight, insurance and packing is shown on the invoices, which are not inspected, except in case of obvious error.]

EXPORTS :

The value of the goods is the "market price" in the Straits Settlements, exclusive of shipping charges, as declared by exporters.

LABUAN :—

IMPORTS :

The values of the goods are those at the place of purchase, *exclusive* of insurance, freight, and value of packages.

EXPORTS :

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

CEYLON :—

IMPORTS :

The values given include the invoice value of the goods, freight, insurance, and value of packages (C.I.F.).

When the charges for freight, &c., are not known, an addition of 10 per cent. to the invoice values is made on ordinary cargo in lieu of composite charges; the addition is higher in the case of glassware, beads, &c. (Sec. 42 of Ord. No. 17 of 1869.)

Where no reliable values can be ascertained, as in the case of certain rated articles imported by Native traders an average price is officially fixed for calculating the value of the goods.

[The Ceylon Government states that the *cost* of freight, &c., entered on approved invoices is accepted.]

EXPORTS :

The values declared by the exporters are accepted by the Customs Authorities (except in the case of cocoa, coffee, cinchona bark, coir, coconut oil, cinnamon, plumbago, tea, and horns of deer and sambur, the values of which are ascertained annually from the Ceylon Chamber of Commerce). (Sec. 51 of Ord. 17 of 1869.)

MAURITIUS :—

IMPORTS :

The values of the goods are those at the place of purchase, inclusive of insurance, freight, and value of packages (C.I.F.).

When the *cost* of freight, &c., is not shown on the invoices, a percentage is added to each description of goods for freight, &c., which is calculated on information obtained from the mercantile community.

[The Government of Mauritius states that there is no law in force dealing with valuations.]

EXPORTS :

The value of the goods on the market is given, exclusive of shipping charges.

SEYCHELLES :—

IMPORTS :

The values of the goods are those at the place of purchase, *exclusive* of insurance, freight, and value of packages.

[The Seychelles Government states that the *cost* of freight, &c., is not entered on the Customs Bills.]

EXPORTS :

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

PAPUA, TERRITORY OF :—

IMPORTS :

The values of the goods are those at the place of purchase, *exclusive* of insurance, freight, and value of packages.

EXPORTS :

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

HONG KONG :—

No complete trade returns are published for this Colony.

COMMONWEALTH OF AUSTRALIA :—

IMPORTS :

The value of the goods imported represents the amount on which duty is payable, or would be payable, if the duty were *ad valorem*. The value of goods subject to duty is taken to be the "fair market value" in the usual ordinary commercial acceptation of the term, in the principal markets of the country whence the same were exported, free on board (F.O.B.) at the port of *export* in such country, with an addition of 10 per cent. on such market value. (Act No. 6 of 1901.)

The Commonwealth Government states that for the purposes of valuation for duty, the fair market value is based on the price of the goods for home consumption and not on export prices. (Section 154 of Act No. 6 of 1901) and that the "value for duty" is the value taken for statistical purposes, including, according to a Memorandum issued by the Commonwealth Customs Department on November 16th, 1908 :—

Inland carriage, coastal freight and other charges (including lightering), incurred in conveying the goods to and placing them on board the exporting vessel.

Cost of labour and materials (except outside packages) used in packing, including flock, kapok, straw, and other inside packing.

Insurance to port of shipment.

Canal dues.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, CROWN COLONIES, POSSESSIONS, and PROTECTORATES—*continued.*

COMMONWEALTH OF AUSTRALIA—*continued.*

IMPORTS—*continued.*

The following are excluded :

- Outside packages (including zinc linings and tarred paper) in which goods are ordinarily imported.
- Stamp duty on bills of lading.
- Agents' charges.
- Bank exchange.
- Interest.
- Brokerage and dock dues.
- Commission (buying).
- Insurance (over-sea).
- Sea freight to Australia.

EXPORTS :

The value of goods exported is the value in the principal markets of the Commonwealth in the usual and ordinary commercial acceptance of the term.

DOMINION OF NEW ZEALAND :—

IMPORTS :

Goods subject to *ad valorem* rates of duty are taken at their invoice value. The value of such goods shall be understood to be the fair market value thereof when sold for home consumption in the principal markets of the country whence, and at the time when, the same were exported, including the value of the case, cask or covering of any kind in which such goods are contained, with 10% added.

The fair market value shall be the fair market value of the goods in the usual and ordinary commercial acceptance of the term, at the usual and ordinary credit, and not the cash value of such goods, except in cases where the article imported is, by universal usage, considered and known to be a cash article. Discount for cash shall not in any case be allowed in deduction of the fair market value. (Secs. 55, 56 and 58 of Act No. 36 of 1908.)

The value of all *other* goods includes freight and charges (C.I.F.) to time of arrival at port of discharge.

[The New Zealand Government states that the *cost* of freight, &c., is usually accepted as stated on the invoice, but if any doubt arises these charges are verified by the Customs Officers by reference to the ship's agents or to other importers.]

EXPORTS :

The "free on board" (F.O.B.) value is given as obtained from Customs Entries.

[The New Zealand Government states that the Collector of Customs examines the values given for the chief articles, and compares them with current price lists to prevent any over-estimate. As a further safeguard, the values of wool, frozen meat, oats, wheat, tallow, phormium fibre, butter and cheese are submitted to the various Chambers of Commerce for approval before publication.]

FIJI :—

IMPORTS :

The invoice value of the goods only is given, without any charges for freight, &c., whatever. (Sec. 1 of Ord. No. 2 of 1898.)

EXPORTS :

The value of the goods "free on board" (F.O.B.) at the port of shipment is given, including cost of packages. (Sec. 32 of Ord. No. 1 of 1895.)

FALKLAND ISLANDS :—

IMPORTS :—

The values of the goods are those at the place of purchase, inclusive of insurance, freight, and value of packages (C.I.F.).

[The Falkland Islands Government states that there is no uniform practice of ascertaining the *cost* of the freight, &c. In some cases it is included in the invoice values, and in others it appears as a separate item on the bill of entry.]

EXPORTS :

The values of the exports, which consist almost entirely of wool and skins, are not known until sold in England.

The values entered are the estimated sale-values given by the shippers.

UNION OF SOUTH AFRICA :

NATAL :—

IMPORTS :

The values of the goods imported represent the true current value for home consumption in the open market for similar goods at the place of purchase, bought in the ordinary manner from the manufacturer or supplier in normal quantities, including the cost of packing and packages.

Insurance and freight are *not included*, nor is Agent's commission, unless it exceeds 5 per cent. (Sec. 62 of Act No. 13 of 1899, as amended by sec. 2 (d) of Act No. 9 of 1906 and Sec. 2 (f) of Act No. 6 of 1908.)

[The Natal Government states that when the suppliers' or manufacturers' invoices do not show the cost of packing, the packer's invoice is always demanded and produced.]

EXPORTS :

The values of the goods are based on the cost at place of purchase, including packages. (Regulations under Act No. 13 of 1899.)

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, CROWN COLONIES, POSSESSIONS, and PROTECTORATES—*continued.*

CAPE OF GOOD HOPE :—

IMPORTS :

Same as Natal. (Sec. 13 of Act No. 1 of 1906 as amended by Sec. 6 of Act No. 9 of 1908.)

[The Cape Government states that with regard to the practice followed of ascertaining the *cost* of the packages added to the invoice values, particulars are kept of the various prices of packages imported, and any departure from these values would lead to enquiries being made.]

EXPORTS :

Same as Natal. (Sec. 24 of Act No. 10 of 1872.)

ORANGE FREE STATE :—

IMPORTS :

Same as Natal. (Sec. 4 (6) of Ord. No. 14 of 1906 as amended by Sec. 4 (1) of Act No. 12 of 1908.)

There are no regulations affecting exports.

SWAZILAND :—

IMPORTS :

Same as Natal. (Sec. 2 of Proc. 46 of 1908.)

RHODESIA :—

NYASALAND PROTECTORATE :—

IMPORTS :

EXPORTS :

The values of the exports are fixed for each year on the local market values.

UGANDA PROTECTORATE :—

IMPORTS :

The values given include the invoice value of the goods at the place of purchase, insurance, freight and value of packages (C.I.F.). (Ord. No. 6 of 1910.)

[The Uganda Government states that, as regards this Protectorate, articles (such as ivory and rubber) for which the values at the place of purchase are not always ascertainable, a uniform value is fixed by the Chief of Customs throughout the Protectorate. In the case of other imports, the declarations of the importers are accepted.]

The value given for cotton is furnished periodically by the British Cotton Growing Association through the Colonial Office, and is the approximate value at the ports of shipment based on the value in England, less freight and charges. In other cases, the declarations of exporters are accepted.]

The values are governed by the value of goods subject to *ad valorem* duties. Whenever any duty *ad valorem* is imposed on any goods imported into Newfoundland the value for duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Newfoundland. Such market value shall be the fair market value of such goods in the usual and ordinary commercial acceptance of the term at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is by universal usage considered and known to be a cash article, and so *bona fide* paid for in all transactions in relation to such article; and all invoices representing cash values, except in the special cases herein referred to, shall be subject to such additions as to the Collector or appraisers of the port at which they are presented appear just and reasonable to bring up the amount to the true and fair market value, as required. (Secs. 55 and 56 of Act No. 13 of 1898). It is further provided by Act No. 28 of 1907 that, in determining the dutiable value of goods, except when imported from Great Britain, Ireland and Canada, there shall be added to the cost, or the actual wholesale price, or fair market value, at the time of exportation in the principal markets of the country from whence the same have been imported into Newfoundland, the cost of inland transportation, shipment and transshipment, with all the expenses included, from the place of growth, production, or manufacture, whether by land or water, to the vessel in which shipment is made, either *in transitu* or direct to Newfoundland, subject to such regulations as are made by the Governor-in-Council. Provided, that in case of any dispute respecting the proper amount of such inland transportation charges, the Minister of Finance and Customs may determine the same, and his decision shall be final in that respect.

(a) i.e., between Singapore (including Christmas Island), Penang (including Dindings), Malacca, and Labuan. For the Inter-Settlement Trade, see the next Table.

(b) It is stated in the original Returns that "Imports represent goods sent to the different Settlements for consumption and distribution, but do not include those articles sent to other countries via Singapore and Penang, either when transhipped direct or temporarily stored."

"The first port of shipment is generally accepted as denoting the country of production, and Switzerland, for instance, which has no seaboard, does not appear in the returns."

"Produce is frequently shipped to Europe on optional bills of lading, and the first port stated is in such cases taken as denoting the country of consumption but in any comparison of such goods it is more accurate to treat the Continent of Europe as a whole."

(c) Excluding copper coin.

(d) Including the trade of Christmas Island. The value of such trade (excluding Inter-Settlement trade) in each of the years 1908, 1909, and 1910 was as follows:—

Note.—For Inter-State Trade, see the next Table.

(a) Exclusive of Ships' Stores. See note (a) to Table No. 38, p. 156.

(b) In the above Table the exports are credited to the State from which they were finally despatched from the Commonwealth. The following Table shows—so far as possible—the proportion of the Export Trade of the Commonwealth actually contributed by each State, after adjustments have been made for goods transferred by sea from one State to another for transhipment to oversea countries—the value of such goods being included in the figures for the States from which they were originally despatched:—

Years.	New South Wales.	Victoria.	South Australia. (c)	Western Australia.	Tasmania.	Queensland	TOTAL COMMONWEALTH.
1908	£ 23,720,940	£ 14,154,887	£ 8,860,874	£ 8,520,518	£ 2,034,178	£ 6,960,622	£ 61,311,058

There are no complete returns of the origin of goods transferred *overland*, and afterwards exported by sea. Such goods are included in the oversea exports of the State in which the goods were shipped.

(c) Including the Northern Territory of South Australia.

(d) Owing to the discontinuance of Inter-State Trade records it is not possible to refer transhipped goods to the State from which they were originally consigned.

Note.—By Act No. 17 of 1906, preferential treatment was granted (from 1st October, 1906) to certain goods, the produce or manufacture of the British Colonies and Protectorates which formed the South African Customs Union (viz., Cape of Good Hope, Natal, Orange Free State, Transvaal, Swaziland, Basutoland, Bechuanaland Protectorate, and Southern and North-Western Rhodesia). The duties on such goods were, for the most part, 25% or 33½% lower than the rates leviable under the General Tariff.

(a) Under the "Customs Tariff Act, 1908," provision was made for the preferential treatment of certain goods imported into the Commonwealth when the produce or manufacture of the United Kingdom—provided that the goods were shipped in the United Kingdom for Australia and not transhipped or, if transhipped, then only if it is proved that the goods have not, since they were shipped in the United Kingdom, been subjected to any process of manufacture.

(b) If containing more than 35% of proof spirit, for each 1% of proof spirit over 35% up to and including 40% 6d. per gallon additional; if containing more than 40% of proof spirit, 14s. per gallon.

(e) Excluding drawbacks and refunds of duty.

Note.—An Act providing for the payment of old age pensions throughout Australia was passed by the Commonwealth Parliament in 1908, with effect from the 1st July, 1909. This Act, which superseded the State Acts in so far as provision for old age is concerned, also provided for the payment of invalid pensions which came into force by Proclamation on the 19th November, 1910, the first payments of such invalid pensions being made on 15th December of that year.

For an *old age pension* the age qualification is fixed at 65 years, or, in the event of permanent incapacitation for work, at 60 years. The Act provided that the age qualification for women could be fixed at 60 years and that was effected by Proclamation, dated 19th November, 1910, the first payments thereunder being made on the 15th December, 1910.

For an *invalid pension* the age qualification is attainment of the age of 16 years if accompanied by permanent incapacitation for work.

The rate of pension payable whether for old age or invalidity, is to be determined by the Commissioner or one of the Deputy-Commissioners appointed under the Act, but must not exceed £26 per annum, nor be at such a rate as to make the pensioner's income, together with pension, exceed £52 per annum.

(a) Inclusive of persons who have exchanged *State Old Age Pensions* for those payable by the Commonwealth.

No. 11.—AGRICULTURE—Complete statistics are not available. It is stated in the Report of the Directors of the British South Africa Co. for 1910-11, that, in *Southern Rhodesia*, the "progress of agriculture, which was so marked in 1909, has been fully maintained. The agricultural progress of Rhodesia is not to be measured by her export lists, as happily the market for most products grown is within the country and keeps pace, except in the case of mealies, with production."

The staple crop is the *mealie*, but it is stated that new interest is being taken in the possibilities of other crops. *Linseed* has now amply proved its suitability in the country, especially on the strong soils. Other crops which are in the same experimental stage at present are *ground nuts*, *broom corn* and *Mauritius hemp*, whilst *tobacco* may be said to have recently emerged from that condition.

Coffee continues to flourish at Melsetter, where existing plantations are being enlarged and new ones established.

Cotton cultivation is extending in Northern Rhodesia.

Note—For amount of duty collected on various articles imported, see Table No. 17 on the next page.

(a) On the formation of the "Union of South Africa" on the 31st May, 1910, the Customs Union Tariff was terminated on 20th June, 1910, but it was arranged under various Customs agreements that the Customs Union Tariff provided for in the Convention, as subsequently amended, should, until altered by legislation enacted by the Union Government or the Administrations of the various Territories, continue in force in British South Africa. For the Import Tariff of North-Eastern Rhodesia, see the next Table.

The countries which constituted the South African Customs Union were the Cape of Good Hope, Natal, Orange River Colony (now Orange Free State), Transvaal, Basutoland, Bechuanaland Protectorate, Swaziland, Southern Rhodesia, and North-Western Rhodesia.

Preferential treatment was accorded to goods imported into British South Africa, the produce or manufacture of the United Kingdom, Dominion of Canada, the Commonwealth of Australia, and the Dominion of New Zealand during the year 1910.

Provision was made in the tariffs for Southern and North-Western Rhodesia to grant, upon all goods and articles, the growth, produce, and manufacture of any part of His Majesty's Dominions or of any British Protectorate, a rebate of the Customs Duties payable under the above tariffs equal in amount to the difference between the said duties payable, as aforesaid, and the highest duties which it is permissible to impose under Clause 47 of the Southern Rhodesia Order in Council, 1908, or Clause 15 of the North-Western Rhodesia Order in Council, 1908, respectively. The effect of these clauses is to reduce the duties on some articles of British production imported into S. and N.W. Rhodesia to rates somewhat lower than those leviable under the South African Customs Union tariff.

All raw produce of South Africa imported overland, and all articles grown, produced, or manufactured *within* the Customs Union, were free of duty, with the exception of blasting compounds, spirits, beer, patent medicines and sulphuric acid, should a duty be imposed under Article XVI. of the Convention of 1903, as amended in 1908, under which a provision is made that an import duty may be imposed on these articles when the produce or manufacture of any other Colony or Territory within the Union, provided that such duty is not in excess of any excise duty leviable on them. Where an excise duty is levied, these articles may be removed in bond from one part of the Union to another.

(b) Tobacco, the produce of South Africa, imported overland, free; Sheep dip, 3% *ad val.* if imported under the General Tariff, otherwise, free.

(c) Wine exceeding 50% of proof spirit to be classed as 'spirit.'

RAILWAYS.—It is stated in the Uganda Report for 1910-11 that 'in the early part of 1910, an expenditure of £160,000—subsequently increased to £180,000—was authorized for the construction of a railway, about 62 miles in extent, to connect the Lake Kioga waterways at Kakindu with the Victoria Nyanza at Jinja, the headquarters of the Eastern Province.'

'The new line is to be worked as an extension of the Uganda Railway, and the construction and working are to be entrusted to the administration of that railway, Uganda being entitled to any profits eventually earned. The survey of the route was begun on 17th June 1910. The construction of the earthworks was commenced at Jinja pier on 8th Sept. 1910, and on 24th Nov. 1910, the first rail was laid by the Acting-Governor.' For particulars respecting the Mombasa-Victoria (Uganda) Railway, see under the East Africa Protectorate, Table No. 19, page 398.

AGRICULTURE.—No complete statistics of production are available. For domestic exports of Uganda produce, see Table No. 10, page 383.

It is stated in the Uganda Report for 1910-11 that "cotton stands out pre-eminently as the chief product, but this has been developed at the expense of other products of the country. Great activity has been shown in coffee cultivation, and there is little doubt that in the next five years this commodity will rival cotton in its importance. The export of chillies also shows a considerable increase. Rubber will not show any great increase until the large areas now being planted come into bearing."

(a) The shipping returns given in the Blue Book for the East Africa Protectorate do not distinguish vessels trading with 'Aden' from those trading with other parts of Arabia.
According to information received from the Protectorate Government, the steam vessels are entered from and cleared to 'Aden,' and the sailing vessels (or dhows) from and to the "foreign ports of Arabia."

No. 8.—CUSTOMS TARIFF.—The rates of duty on goods *imported* into Northern Nigeria were, at the end of 1910, the same as those in force in Southern Nigeria (for which see Table No. 16, p. 431), except as regards salt, on which the duties were as follows:—

Salt (except table salt):	s. d.
If imported from Southern Nigeria ... per cwt.	1 0

The Spirit duties were slightly amended, with effect from 1st May, 1910, and thereby made similar to those in force under the Tariff of Southern Nigeria.

The Customs duties accruing on all sea-borne goods entering the Protectorate of Northern Nigeria from Southern Nigeria are collected at the coast ports of entry.

All goods (except salt) on which duty has been paid at a British port in Southern Nigeria may be imported into Northern Nigeria free of duty. In the case of salt (other than table salt), an extra duty of 1s. per cwt. is levied on importations from S. Nigeria. (See Note (a) to Table No. 3 on p. 416.)

As regards goods *exported*, provision is made under rules issued under the "Forestry Proclamation, 1906," for the imposition of a *royalty* on export of timber of 5% *ad val.* at the place of *export*, and for a license fee of 5*l.* per annum to export rubber.

It eventually joins the Baro-Kano Railway in Northern Nigeria at Minna—a distance of about 426 miles from Lagos.

(a) The rail extension of the Lagos Railway beyond 200 miles is in Northern Nigeria, but is controlled by the Southern Nigeria Government.

(b) Exclusive of cost of construction of tramway works, Carter and Denton Bridges and the new Iddo wharf, amounting to £228,987 up to the end of 1910.

TRAMWAYS, &C.—There is a steam tramway running from Lagos Town to Iddo Island—a distance of $3\frac{1}{2}$ miles, and also a motor transport service between Ibadan and Oyo. Arrangements have been made to provide special trips to Iseyin—27 miles beyond Oyo—but the inauguration of a regular service for this extension was not settled in 1910.

Notes.—The importation of goods manufactured or produced wholly or in part by prison labour, or which have been made within or in connection with any prison, jail, or penitentiary is prohibited.

As regards *under-valued* goods it is provided, under Act No. 11 of 1907, which came into force on November 30th, 1906, that if the export or actual selling price to an importer in Canada is less than the fair market value of such article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada, there shall, in addition to the duties otherwise established be levied, collected, and paid on such article on its importation into Canada a *special* [or dumping] duty equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption, but such special duty shall be levied on such article, although it is not otherwise dutiable. The special duty is not to exceed 15% *ad val.* in any case, and the following goods are exempt therefrom:—goods whereon the duties otherwise established are equal to 50% *ad val.*; goods of a class subject to Excise duty in Canada; sugar refined in the United Kingdom; also binder twine, or twine for harvest binders, manufactured from New Zealand hemp, istle, or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply, and measuring not exceeding 600 feet to the pound.

Conversions into £ sterling have been made at the rate of 4s. 1½d. per dollar.
(a) Certain articles the produce, or manufacture of the United Kingdom and certain British Possessions, when imported direct from any British country were entitled, under the *British Preferential Tariff*, to preferential treatment at various fixed preferential rates of duty.

Every manufactured article to be admitted under the British Preferential Tariff must be *bonâ fide* the manufacture of a British country entitled to the benefits of the British Preferential Tariff, and a substantial portion of the value of the manufactured article must have been produced by labour in one or more of such countries.

The countries, the products of which were entitled to preferential treatment, were—
The United Kingdom. British Guiana.
British India. British West India Islands.
Straits Settlements. Dominion of New Zealand.
Ceylon. British South Africa.
Bermuda.

In addition to British Preferential and General Tariffs provided for in the Tariff Act of 1906, provision is also made for an *Intermediate Tariff* (i.e., a Tariff imposing, for the most part, duties lower than under the General Tariff, but higher than under the British Preferential Tariff) on goods the produce or manufacture of any country in consideration of reciprocal benefits satisfactory to the Governor in Council. This Intermediate Tariff was applied to certain products of various countries on the operation of the Franco-Canadian Convention of 1907, with effect from 1st February, 1910, whilst a few goods—the produce of those countries—were also entitled to the benefits of a *Special Tariff*, which was provided for in that Convention from the same date.

Such "Intermediate" and "Special" Tariff rates of duty were applied to the products of those parts of the British Empire which were not already entitled to the benefits of the British Preferential Tariff as well as to the products of France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate. The advantages granted to France and her Possessions were also extended to the products of the following Foreign Countries entitled to most-favoured-nation treatment in tariff matters by Canada:—

Argentine Republic.	Denmark.	Spain.
Austria-Hungary.	Japan.	Sweden.
Bolivia.	Norway.	Switzerland.
Colombia.	Russia.	Venezuela.

The Intermediate Tariff was, under various Orders-in-Council, also *partly* extended to certain products of Belgium, the Netherlands and Italy, with effect from 10th June, 1910.

(b) For the amount of duty collected on goods imported and entered for consumption from various countries, see Table No. 33 on the next page.

No. 32.—EXPORT DUTIES.—The British Columbia Acts, Nos. 37 of 1900 and 49 of 1908, provide for the imposition of a tax, payable by owners of coal mines or coke ovens in British Columbia, on coal and coke shipped, exported, or in any way delivered from the coal mines or coke ovens. The following are the taxes levied :—

Coal (except on shipments to coke ovens in the Province)—10*cts.* per ton (2,240 lbs.).

Coke—15 *cts.* per ton (2,240 lbs.).

Note.—The Act further provides that the above taxes are to be in addition to any royalty imposed, but in substitution of taxes upon the land from which the coal is mined and of taxes upon the personal property used in working coal mines or coke ovens.

An Ordinance passed on 21st May, 1902, provides that a *royalty* of 2½% *ad val.* shall be levied on all "GOLD sought to be shipped from the Yukon Territory." For the purpose of estimating such *royalty* the gold shall be valued at \$15 per ounce.

(a) Exclusive of a subsidy of £2,000 per annum, payable by the Government under Act No. 6 of 1907, for a period of 10 years.

No. 22.—AGRICULTURE:—It is stated in the Annual Blue Books for Barbados for 1908-9 to 1910-11 that there were "about 74,000 acres of cultivated land in the Colony, of which about 35,000 acres are planted annually in sugar-canes, the remainder being under rotation and catch crops and in preparation for next year's crop."

The Barbados Government, however, states that the *area under sugar cane* in 1910 was about 33,000 acres—the decrease being due to the cultivation of cotton and also to the fact that a number of estates have been sold to peasants mainly for provision grounds.

With regard to the *production of sugar*, it is stated in the Report on the Blue Book for 1910-11 that the "sugar crop for the year 1910 was 35,906 hogsheads of muscovado sugar, 3,993 hogsheads of vacuum pan crystals, and 77,722 puncheons of molasses. This is 22,104 hogsheads of sugar and 8,686 puncheons of molasses more than that of the previous year. Owing to the fact that at the present time a considerable quantity of what is known as 'fancy' molasses is manufactured direct from the juice of the sugar cane, it is impossible, without equating the fancy molasses so made into sugar, to get an adequate idea of how the sugar crop compares with those of past years. To arrive at this it may be stated, that for some years prior to the time when 'fancy molasses' was manufactured, it was found that 88 wine gallons of molasses were exported for every ton of sugar shipped, and as the average contents of a puncheon is 110 wine gallons, the quantity of choice molasses from the sugar exported in 1910 would be 27,930 puncheons, and the remainder, 49,792 puncheons, would, therefore, be fancy molasses. This 49,792 puncheons, on the basis of 315 gallons of fancy molasses being equal to one ton of sugar with its molasses, would be equivalent to 19,872 hogsheads of sugar. The total crop for the year 1910, therefore, if no fancy molasses had been made, would have been 59,771 hogsheads, that is, 19,396 hogsheads more than the previous year."

Particulars of other crops are not available, but for quantities and values of Colonial produce *exported*, see Table No. 14, page 637.

(b) A telephone line connects Guinea Grass and Orange Walk (10 miles), whilst a southern line extends from Belize to Punta Gorda, a distance of about 164 miles. A line was also constructed, in 1910, between Belize and the Cayo, a distance of approximately 100 miles, whilst a local telephone exchange is in operation in the town of Belize.

Note.—The above figures relate to the 'Stann Creek Railway,' the first section of which was opened for traffic on 17th October, 1908, but it is stated in the British Honduras Report for 1908-9 'that very little use of the railway was made by the public before the end of the year.'

The railway, which has a gauge of 3 feet, starts from a deep-water pier at Commerce Bight, Stann Creek, and extends in the interior to Middlesex—a distance of 25 miles.

No. 23.—TRAMWAYS.—There are two tramways in the Colony (in the Districts of Stann Creek and Toledo), having a total length of about 12 miles in 1908, 1909, and 1910. These tramways are open for public traffic, but are principally used for the carriage of bananas from the interior to the coast for shipment.

(a) It is stated in the original returns that prices in the Cayo District are generally much higher than those in the other Districts, owing to its remoteness, to the lack of proper facilities of transport, and, in the dry season, to the inability of the motor launches to reach the Cayo. The prices in other Districts are stated to differ very little from those quoted for Belize.

(a) Under an Annex to the Convention of the 4th June 1878 between Great Britain and Turkey, the former Power has undertaken to pay to the Porte annually a sum representing the excess of revenue over expenditure calculated on the average of the five years preceding the date of the Convention, excluding the produce of the State and Crown Lands let or sold during that period.

The amount to be paid has been determined to be £87,686 per annum. Under the same Annex, a sum of £114 per annum has also become payable since 4th September 1884 when the Cyprus Government took over the administration of the Lighthouse Service in the island. This sum represents 22% of the receipts of the Ottoman Lighthouse Administration, which the Sublime Porte enjoyed under the concession granted the Company for lighting the coast of Cyprus.

By a further Agreement of 3rd February 1879, a sum of £5,000 is to be paid annually to the Porte in respect of the produce of State Lands.

In addition to the above sums, amounting to £92,800, there is an obligation under the Convention of 1878 to deliver annually at the Salt Lakes 4,166,220 okes of salt, if demanded by the Porte. (An oke = 2·8 lbs.)

It is stated in the Kedah Report for 1910 that "Langkawi Island having been made a free port in the latter part of 1909, North Kedah is now free of a Customs House. The Kulim and Krian districts in South Kedah have always been free, and the Kuala Muda and Baling districts are now the only districts in which there are Customs Houses."—"The farm for these two districts has still more than six years to run."	
The following is a list of duties in force at the end of 1910 in the various districts from which the Government derived Revenue :—
