Notes.—The British Protectorates in Africa (except Zanzibar) are included in the main body of this Volume, and not in the Appendix.

A statement is given on pp. xii-xviii, showing the bases of the Statistical Values adopted for Imports and Exports in the Trade Returns of the various British Self-Governing Dominions, Crown Colonies, Possessions, and Protectorates.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, CROWN COLONIES, POSSESSIONS, and PROTECTORATES.

[Compiled from information received from the various Colonial Governments.]

STRAITS SETTLEMENTS :—

IMPORTS :

The values given by European importers represent the invoice value of the goods, inclusive of insurance, freight and value of packages (C.I.F.) at the port of despatch, but not of any charges in the Straits Settlements.

Native importers declare the price ruling in the Straits Settlements markets.

[The cost of freight, insurance and packing is shown on the invoices, which are not inspected, except in case of obvious error.]

EXPORTS :

The value of the goods is the "market price" in the Straits Settlements, exclusive of shipping charges, as declared by exporters.

CEYLON :—

IMPORTS :

The values given include the invoice value of the goods, freight, insurance, and value of packages (C.I.F.).

When the charges for freight, &c., are not known, an addition of 10 per cent. to the invoice values is made on ordinary cargo in lieu of composite charges; the addition is higher in the case of glassware, beads, &c. (Sec. 42 of Ord. No. 17 of 1869.)

Where no reliable values can be ascertained, as in the case of certain rated articles imported by Native traders, an average price is officially fixed for calculating the value of the goods.

[The Ceylon Government states that the cost of freight, &c., entered on approved invoices is accepted.]

EXPORTS :

The values declared by the exporters are accepted by the Customs Authorities (except in the case of cocoa, coffee, cinchona bark, coir, coconut oil, cinnamon, plumbago, tea, and horns of deer and sambur, the values of which are ascertained annually from the Ceylon Chamber of Commerce). (Sec. 51 of Ord. 17 of 1869.)

MAURITIUS :—

IMPORTS :

The values of the goods are those at the place of purchase, inclusive of insurance, freight, and value of packages (C.I.F.).

When the cost of freight, &c., is not shown on the invoices, a percentage is added to each description of goods for freight, &c., which is calculated on information obtained from the mercantile community.

[The Government of Mauritius states that there is no law in force dealing with valuations.]

EXPORTS :

The value of the goods on the market is given, exclusive of shipping charges.

SEYCHELLES :—

IMPORTS :

The values of the goods are those at the place of purchase, exclusive of insurance, freight, and value of packages. [The Seychelles Government states that the cost of freight, &c., is not entered on the Customs Bills.]

EXPORTS :

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

PAPUA, TERRITORY OF :—

IMPORTS :

The values of the goods are those at the place of purchase, exclusive of insurance, freight, and value of packages.

EXPORTS :

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

HONG KONG :—

No complete trade returns are published for this Colony.

COMMONWEALTH OF AUSTRALIA :—

IMPORTS :

The value of the goods imported represents the amount on which duty is payable, or would be payable, if the duty were *ad valorem*. The value of goods subject to duty is taken to be the "fair market value" in the usual ordinary commercial acceptance of the term, in the principal markets of the country whence the same were exported, free on board (F.O.B.) at the port of export in such country, with an addition of 10 per cent. on such market value. (Act No. 6 of 1901.)

The Commonwealth Government states that for the purposes of valuation for duty, the fair market value is based on the price of the goods for home consumption and not on export prices. (Section 154 of Act No. 6 of 1901) and that the "value for duty" is the value taken for statistical purposes, including, according to a Memorandum issued by the Commonwealth Customs Department on November 16th, 1908 :—

Inland carriage, coastal freight and other charges (including lighterage), incurred in conveying the goods to and placing them on board the exporting vessel.

Cost of labour and materials (except outside packages) used in packing, including flock, kapok, straw, and other inside packing.

Insurance to port of shipment.

Canal dues.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, CROWN COLONIES, POSSESSIONS, and PROTECTORATES—continued.

COMMONWEALTH OF AUSTRALIA—continued.

IMPORTS—continued.

The following are excluded :

Outside packages (including zinc linings and tarred paper) in which goods are ordinarily imported.
Stamp duty on bills of lading.
Agents' charges.
Bank exchange.
Interest.
Brokerage and dock dues.
Commission (buying).
Insurance (over-sea).
Sea freight to Australia.

EXPORTS :

The value of goods exported is the value in the principal markets of the Commonwealth in the usual and ordinary commercial acceptance of the term.

DOMINION OF NEW ZEALAND :—

IMPORTS :

Goods subject to *ad valorem* rates of duty are taken at their invoice value. The value of such goods shall be understood to be the fair market value thereof when sold for home consumption in the principal markets of the country whence, and at the time when, the same were exported, including the value of the case, cask or covering of any kind in which such goods are contained, with 10% added.

The fair market value shall be the fair market value of the goods in the usual and ordinary commercial acceptance of the term, at the usual and ordinary credit, and not the cash value of such goods, except in cases where the article imported is, by universal usage, considered and known to be a cash article. Discount for cash shall not in any case be allowed in deduction of the fair market value. (Secs. 55, 56 and 58 of Act No. 36 of 1908.)

The value of all other goods includes freight and charges (C.I.F.) to time of arrival at port of discharge.

[The New Zealand Government states that the cost of freight, &c., is usually accepted as stated on the invoice, but if any doubt arises these charges are verified by the Customs Officers by reference to the ship's agents or to other importers.]

EXPORTS :

The "free on board" (F.O.B.) value is given as obtained from Customs Entries.

[The New Zealand Government states that the Collector of Customs examines the values given for the chief articles, and compares them with current price lists to prevent any over-estimate. As a further safeguard, the values of wool, frozen meat, oats, wheat, tallow, phormium fibre, butter and cheese are submitted to the various Chambers of Commerce for approval before publication.]

FIJI :—

IMPORTS :

The invoice value of the goods only is given, without any charges for freight, &c., whatever. (Sec. 1 of Ord. No. 2 of 1898.)

EXPORTS :

The value of the goods "free on board" (F.O.B.) at the port of shipment is given, including cost of packages. (Sec. 32 of Ord. No. 1 of 1895.)

FALKLAND ISLANDS :—

IMPORTS :—

The values of the goods are those at the place of purchase, inclusive of insurance, freight, and value of packages (C.I.F.).

[The Falkland Islands Government states that there is no uniform practice of ascertaining the cost of the freight, &c. In some cases it is included in the invoice values, and in others it appears as a separate item on the bill of entry.]

EXPORTS :

The values of the exports, which consist almost entirely of wool and skins, are not known until sold in England. The values entered are the estimated sale-values given by the shippers.

UNION OF SOUTH AFRICA :—

NATAL :—

IMPORTS :

The values of the goods imported represent the true current value for home consumption in the open market for similar goods at the place of purchase, bought in the ordinary manner from the manufacturer or supplier in normal quantities, including the cost of packing and packages.

Insurance and freight are *not included*, nor is Agent's commission, unless it exceeds 5 per cent. (Sec. 62 of Act No. 13 of 1899, as amended by sec. 2 (d) of Act No. 9 of 1906 and Sec. 2 (f) of Act No. 6 of 1908.)

[The Natal Government states that when the suppliers' or manufacturers' invoices do not show the cost of packing, the packer's invoice is always demanded and produced.]

EXPORTS :

The values of the goods are based on the cost at place of purchase, including packages. (Regulations under Act No. 13 of 1899.)

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, CROWN COLONIES, POSSESSIONS, and PROTECTORATES—*continued.*

UNION OF SOUTH AFRICA—*cont.*

CAPE OF GOOD HOPE :—

IMPORTS :

Same as Natal. (Sec. 13 of Act No. 1 of 1906 as amended by Sec. 6 of Act No. 9 of 1908.)

[The Cape Government states that with regard to the practice followed of ascertaining the *cost* of the packages added to the invoice values, particulars are kept of the various prices of packages imported, and any departure from these values would lead to enquiries being made.]

EXPORTS :

Same as Natal. (Sec. 24 of Act No. 10 of 1872.)

ORANGE FREE STATE :—

IMPORTS :

Same as Natal. (Sec. 4 (6) of Ord. No. 14 of 1906 as amended by Sec. 4 (1) of Act No. 12 of 1908.)

[The Orange Free State Government states that the *cost* of freight, &c., is estimated at 33½ per cent. and this percentage should be added to the invoice value to arrive at the total value of goods imported.]

(a) i.e., between Singapore, Christmas Island, Penang, Dindings, Malacca, and Labuan. For the value of the Inter-Settlement Trade, see the next Table.

(b) It is stated in the original Returns that "Imports represent goods sent to the different Settlements for consumption and distribution, but do not include those articles sent to other countries via Singapore and Penang; either when transhipped direct or temporarily stored."

"The first port of shipment is generally accepted as denoting the country of production, and Switzerland, for instance, which has no seaboard, does not appear in the returns."

"Produce is frequently shipped to Europe on optional bills of lading, and the first port stated is in such cases taken as denoting the country of consumption, but in any comparison of such goods it is more accurate to treat the Continent of Europe as a whole."

(c) Excluding copper coin.

(d) The Foreign trade of Christmas Island is included with that of Singapore, and the Foreign trade of Dindings with that of Penang. The value of such trade in each of the years 1909, 1910, and 1911 was as follows:—

Note.—The Commonwealth Government states that the only official intimation of shipbuilding is the registration of the ship. Such registration may not be effected for some years after the ship is built, and consequently the figures are subject to amendment from year to year.

In addition to the above *sailing* and *steam* vessels, a few oil motor boats, pontoons, dredgers, &c., are built, from time to time, in various States of the Commonwealth.

(a) Exclusive of Ships' Stores, for value of which see note (a) to Table No. 38 on p. 167.

(b) In the above Table the exports are credited to the State from which they were finally despatched from the Commonwealth. The following Table shows, so far as possible, the proportion of the Export Trade of the Commonwealth actually contributed by each State, after adjustments have been made for goods transferred by sea from one State to another for transhipment to overseas countries—the value of such goods being included in the figures for the States from which they were originally despatched:—

Year.	New South Wales.	Victoria.	South Australia. (c)	Western Australia.	Tasmania.	Queensland	TOTAL COMMONWEALTH.

There are no complete returns of the origin of goods transferred overland, and afterwards exported by sea. Such goods are included in the overseas exports of the State in which the goods were shipped.

(c) Including the Northern Territory, vested in the Commonwealth on 1st January 1911.

(d) Owing to the discontinuance of Inter-State Trade records in 1910, it is not now possible to refer transhipped goods to the State from which they were originally consigned.

Note.—An Act providing for the payment of old age pensions throughout Australia was passed by the Commonwealth Parliament in 1908, with effect from the 1st July, 1909. This Act, which superseded the State Acts in so far as provision for old age is concerned, also provided for the payment of invalid pensions which came into force by Proclamation on the 19th November, 1910, the first payments of such invalid pensions being made on 15th December of that year.

For an *old age pension* the age qualification is fixed at 65 years, or, in the event of permanent incapacitation for work, at 60 years. The Act provides that the age qualification for women may be fixed, by Proclamation, at 60 years and that was effected by Proclamation, dated 19th November, 1910, the first payments thereunder being made on the 15th December, 1910.

For an *invalid pension* the age qualification is attainment of the age of 16 years if accompanied by permanent incapacitation for work.

The rate of pension payable, whether for old age or invalidity, is to be determined by the Commissioner or one of the Deputy Commissioners appointed under the Act, but must not exceed £20 per annum, nor be at such a rate as to make the pensioner's income, together with pension, exceed £52 per annum.

(a) The countries which constituted the South African Customs Union were the Cape of Good Hope, Natal, Orange River Colony (now Orange Free State), Transvaal, Basutoland, Bechuanaland Protectorate, Swaziland, Southern Rhodesia, and North-Western Rhodesia.

On the formation of the "Union of South Africa" on the 31st May, 1910, the Customs Union Tariff was terminated on 30th June, 1910, but it was arranged under various Customs Agreements that the Customs Union Tariff provided for in the Convention of 1906, as subsequently amended, should, until altered by legislation enacted by the Union Government or the Administrations of the various Territories, continue in force in British South Africa. The Customs Union Tariff remained in force in the Union of South Africa and S. and N.W. Rhodesia during the year 1911. For the Import Tariff of North-Eastern Rhodesia in force in 1911, see the next Table.

Preferential treatment was accorded to goods imported into British South Africa, the produce or manufacture of the United Kingdom, Dominion of Canada, the Commonwealth of Australia, and the Dominion of New Zealand during the year 1911.

Provision was made in the tariffs for Southern and North-Western Rhodesia to grant, upon all goods and articles, the growth, produce, and manufacture of any part of His Majesty's Dominions or of any British Protectorate, a rebate of the Customs Duties payable under the above tariffs equal in amount to the difference between the said duties payable, as aforesaid, and the highest duties which it is permissible to impose under Clause 47 of the Southern Rhodesia Order in Council, 1908, or Clause 16 of the North-Western Rhodesia Order in Council, 1909, respectively. The effect of these clauses is to reduce the duties on some articles of British production imported into S. and N.W. Rhodesia to rates somewhat lower than those leviable under the South African Customs Union tariff.

All raw produce of South Africa imported overland, and all articles grown, produced, or manufactured within the Customs Union, were free of duty, with the exception of blasting compounds, spirits, beer, patent medicines, cigarettes, and sulphuric acid, in case of the imposition of a duty under Article XVI. of the Convention of 1906, as amended in 1908 and 1909, under which a provision is made that an import duty may be imposed on these articles when the produce or manufacture of any other Colony or Territory within the Union, provided that such duty is not in excess of any excise duty leviable on them. Where an excise duty is levied, these articles may be removed in bond from one part of the Union to another.

(b) Tobacco, the produce of South Africa, imported overland, free; Sheep dip, 3% *ad val.* if imported under the General Tariff, otherwise, free.

(c) With an additional surtax on cigarettes of 1d. per ½ oz. nett weight or fraction thereof from 1st July, 1911.

(d) Wine exceeding 50% of proof spirit to be classed as 'spirit.'

RAILWAYS.—It is stated in the Uganda Report for 1910-11 that in the early part of 1910 an expenditure of £160,000—subsequently increased to £180,000—was authorized for the construction of a railway, to connect the Lake Kioga waterways at Kakindu with the Victoria Nyanza at Jinja, the headquarters of the Eastern Province.

The Report of 1911-12 states that “the railway from Jinja to Kakindu, on the Victoria Nile, was officially opened for traffic by His Excellency the Governor, on the 1st January, 1912. Traffic was, however, accepted, for carriage along the completed section before that date. In order to provide better facilities for the Lake Kioga steamers and to avoid the danger of sleeping sickness infection by tsetse fly, the line is being extended to Namasagali, a point 7 miles below Kakindu. It was decided that this railway should be known as the ‘Busoga Railway.’”

The railway is worked as an extension of the Uganda Railway, and runs in connection with the steamer service on Lakes Kioga and Victoria. Arrangements are being made for the through booking of goods from Mombasa to Lake Kioga ports.

The length of line partly opened for traffic on the 31st March, 1912, was 54 miles, the receipts up to that date being £1,740. The working expenses cannot be stated.

For particulars respecting the *Mombasa-Victoria (Uganda) Railway*, see under the East Africa Protectorate, Table No. 19, page 413.

AGRICULTURE.—No complete statistics of production are available. For *domestic exports* of Uganda produce, see Table No. 11, page 397.

It is stated in the Uganda Report for 1911-12 that there was a “large increase in the area devoted to *cotton*. The Eastern Province showed the greatest advance. There seems to have been a considerable improvement in the yields of cotton, and the selected varieties which have been introduced during the last two years were specially satisfactory in this respect.”

“With the exception of cotton, little of the agricultural produce of the country is sold for export—the most important products, after cotton, being *chillies*, *sem sem* and *ground nuts*.”

“Plantation crops do not figure very largely in the exports, but they will probably do so in the near future. *Coffee* easily leads the way in this class, and the acreage is increasing rapidly; a large acreage of *rubber* and a certain quantity of *cacao* are also being put down.”

The "Thika Tramway" was under construction by the Public Works Department, and when completed will also be taken over and worked by the Uganda Railway. This tramway—which is to be worked by steam—runs from Nairobi to the Thika river, a distance of about 30 miles.

(a) This railway—known as the "Uganda Railway"—connects Mombasa with Port Florence, on Lake Victoria. A portion of the line was originally in the Eastern Province of Uganda, which territory was transferred to the East Africa Protectorate on 1st April, 1902.

The "Busoga Railway" in the Uganda Protectorate is worked as an extension of the "Uganda Railway," and runs in connection with a steamer service on Lakes Kioga and Victoria. This railway was opened for traffic on 1st January, 1912. See note on "Railways" in the Uganda Protectorate, p. 400.

(b) There was a slight alteration made in the track of the original line in 1910-11.

(a) The Customs duties accruing on all *sea-borne* goods imported via Southern Nigeria are collected at the coast ports of entry, and are included in the revenue accounts of the Government of Southern Nigeria. The Northern Nigerian Government, however, collect an extra duty on sea-borne salt imported from Southern Nigeria. In lieu of the payment of the Customs duties collected by the Southern Nigerian Government, an annual contribution is made to the Government of Northern Nigeria by that of Southern Nigeria.

PUBLIC DEBT.—The Protectorate Government states that the Protectorate of Northern Nigeria has been advanced sums amounting to £1,330,000 on 31st December, 1911, from loans raised by the Colony and Protectorate of Southern Nigeria for the construction of the Baro-Kano Railway; also a sum of £150,000 advanced by the Imperial Exchequer for the construction of the Bauchi Light Railway.

Note.—It is stated in the Blue Book for Northern Nigeria for 1911 that the Protectorate, possessing no coast line of its own, has no reliable statistics of imports, as a great proportion of the articles entering this Protectorate are consigned to Southern Nigeria and distributed from that place. The Customs duties are collected at the various ports at which such goods enter, and are credited to the revenue of Southern Nigeria.

The Customs duty on goods consigned *direct* to Northern Nigeria are collected at Forcados and credited to the revenue of Southern Nigeria.

Considerable *overland* trade is carried on between Northern and Southern Nigeria, and also between North Africa and the Northern Provinces, but owing to lack of staff no detailed returns have been kept.

It is not possible to furnish any reliable statistics of Exports, as a great proportion of the trade with the adjacent French and German territories is by barter, and much of the produce of the South-Eastern corner of the Protectorate, inhabited chiefly by pagan tribes, is carried into Southern Nigeria and bartered.

During the dry season (December to April) large caravans journey from the Northern Provinces to the Coast. There is a considerable trade in horses and cattle between Northern and Southern Nigeria.

(a) These figures relate to the period from 1st February to 31st December, 1911, only.

Notes.—The importation of goods manufactured or produced wholly or in part by prison labour, or which have been made within or in connection with any prison, jail, or penitentiary is prohibited.

As regards *under-valued* goods it is provided, under Act No. 11 of 1907, which came into force on November 30th, 1906, that if the export or actual selling price to an importer in Canada is less than the fair market value of such article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada, there shall, in addition to the duties otherwise established be levied, collected, and paid on such article on its importation into Canada a *special* [or dumping] duty equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption, but such special duty shall be levied on such article, although it is not otherwise dutiable. The special duty is not to exceed 15% *ad val.* in any case, and the following goods are exempt therefrom:—goods whereon the duties otherwise established are equal to 50% *ad val.*; goods of a class subject to Excise duty in Canada; sugar refined in the United Kingdom; binder twine, or twine for harvest binders, manufactured from New Zealand hemp, istle, or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply, and measuring not exceeding 600 feet to the pound; also (from 31st October, 1911) certain iron and steel tubing.

Conversions into £ sterling have been made at the rate of 4s. 1½d. per dollar.

(a) Certain articles the produce, or manufacture of the United Kingdom and certain British Possessions, when imported direct from any British country were entitled, under the *British Preferential Tariff*, to preferential treatment at various fixed preferential rates of duty.

Every manufactured article to be admitted under the British Preferential Tariff must be *bonâ fide* the manufacture of a British country entitled to the benefits of the British Preferential Tariff, and a substantial portion of the value of the manufactured article must have been produced by labour in one or more of such countries.

The countries, the products of which were entitled to preferential treatment, were—

| The United Kingdom. | Dominion of New Zealand. |
| British India. | Union of South Africa: |
| Straits Settlements. | Natal. |
| Ceylon. | Cape of Good Hope. |
| Bermuda. | Orange Free State. |
| British Guiana. | Transvaal. |
| British West India Islands. | Southern Rhodesia. |

(This list was extended to various other parts of the British Empire, with effect from 1st February, 1913.)

In addition to British Preferential and General Tariffs provided for in the Tariff Act of 1906, provision is also made for an *Intermediate Tariff* (i.e. a Tariff imposing, for the most part, duties lower than under the General Tariff, but higher than under the British Preferential Tariff) on goods the produce or manufacture of any country in consideration of reciprocal benefits satisfactory to the Governor in Council. This Intermediate Tariff was applied to certain products of various countries on the operation of the Franco-Canadian Convention of 1907, with effect from 1st February, 1910, whilst a few goods—the produce of those countries—were also entitled to the benefits of a *Special Tariff*, which was provided for in that Convention from the same date.

Such "Intermediate" and "Special" Tariff rates of duty were applied to the products of those parts of the British Empire which were not already entitled to the benefits of the British Preferential Tariff as well as to the products of France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate. The advantages granted to France and her Possessions were also extended to the products of the following Foreign Countries entitled to most-favoured-nation treatment in tariff matters by Canada:—

|---------------------|----------|--------------|
| Argentine Republic. | Denmark. | Spain. |
| Austria-Hungary. | Japan. | Sweden. |
| Bolivia. | Norway. | Switzerland. |
| Colombia. | Russia. | Venezuela. |

The Intermediate Tariff was, under various Orders-in-Council, also *partly* extended to certain products of Belgium, the Netherlands and Italy, with effect from 10th June, 1910.

(a) Exclusive of a subsidy of £2,000 per annum, payable by the Government under Act No. 6 of 1906, for a period of 10 years.

No. 23.—AGRICULTURE:—It is stated in the Annual Blue Books for Barbados for 1909-10 to 1911-12 that there were "about 74,000 acres of cultivated land in the Colony, of which about 35,000 acres are planted annually in sugar-canes, the remainder being under rotation and catch crops and in preparation for next year's crop."

The Barbados Government, however, states that the *area under sugar cane* in 1910 and 1911 was about 33,000 acres—the decrease being due to the cultivation of cotton and also to the fact that a number of estates have been sold to peasants mainly for provision grounds.

With regard to the *production of sugar*, it is stated in the Report on the Blue Book for 1910-11 that, "owing to the fact that at the present time a considerable quantity of what is known as 'fancy' molasses is manufactured direct from the juice of the sugar cane, it is impossible, without equating the fancy molasses so made into sugar, to get an adequate idea of how the sugar crop compares with those of past years."

In the Report for 1911-12 the production of sugar, equating "fancy" molasses thereto, is given as 40,375, 59,771, and 54,411 hogsheads in 1909, 1910, and 1911, respectively.

Particulars of other crops are not available, but for quantities and values of Colonial produce *exported*, see Table No. 15, page 676.

The prices in other Districts are stated to differ very little from those quoted for Belize.

(a) Under an Annex to the Convention of the 4th June 1878 between Great Britain and Turkey, the former Power has undertaken to pay to the Porte annually a sum representing the excess of revenue over expenditure calculated on the average of the five years preceding the date of the Convention, excluding the produce of the State and Crown Lands let or sold during that period.

The amount to be paid has been determined to be £87,686 per annum. Under the same Annex, a sum of £114 per annum has also become payable since 4th September 1884 when the Cyprus Government took over the administration of the Lighthouse Service in the island. This sum represents 22% of the receipts of the Ottoman Lighthouse Administration, which the Sublime Porte enjoyed under the concession granted the Company for lighting the coast of Cyprus.

By a further Agreement of 3rd February 1879, a sum of £5,000 is to be paid annually to the Porte in respect of the produce of State Lands.

In addition to the above sums, amounting to £92,800, there is an obligation under the Convention of 1878 to deliver annually at the Salt Lakes 4,166,220 okes of salt, if demanded by the Porte. (An oke = 2·8 lbs.)
