Note.—For purposes of abbreviation the term *Rx.* has, in some cases, been used in the Tables in this Abstract to denote 10 rupees. In India 1 pice = 3 pies (*1d.*); 12 pies = 1 anna (*1d.*); 16 annas = 1 rupee (*1s. 4d.*). A lakh (*lac*) is 100,000 rupees, and a crore is 100 lakhs.

(a) The *rupee* has been converted into £ sterling, as follows:—
For **British India, Aden, and the Uganda, East Africa, Somalliland and Zanzibar Protectorates** at *1s. 4d.*

For **Ceylon, Mauritius and Seychelles**, in the year ended 31st December 1898, at *1s. 3½d.*; and in 1899 and later years, at *1s. 4d.*

(b) In the **Straits Settlements** the standard coin of the Colony was, by an Order in Council of 2nd February 1895, the silver Mexican dollar, the British dollar and old Hong Kong dollar being also legal tender. By a Proclamation dated 5th October 1903, issued under the Straits Settlements (Coinage) Order in Council of 25th June 1903 the *Straits Settlements silver dollar* was made the standard coin of the Colony, and the Mexican dollar was treated, by the same Order in Council, as its equivalent.

Under a Notice issued on 24th August 1904, Mexican, British, and Hong Kong dollars ceased to be legal tender after 31st August 1904.

Under an Order in Council of October 22nd, 1906 the *sovereign* was made legal tender within the Colony for the payment of any amount at the rate of 7 sovereigns for 60 Straits Settlements dollars (*2s. 4d.* per dollar) and it is provided by the same Order in Council that the Straits Settlements silver *dollar* shall remain the standard coin of the Colony. By an Order in Council of 11th February 1907 the weights of the Straits Settlements silver dollar and 50 cent piece were reduced in order to preserve the fixed ratio to gold.

Conversions of the silver *dollar* into £ sterling have been made, as follows:—
In 1898, at *1s. 11d.*; in 1899, at *1s. 11½d.*; in 1900, at *2s.*; in 1901, at *1s. 11d.*; in 1902, at *1s. 8½d.*; in 1903, at *1s. 9d.*; in 1904, at *1s. 10½d.*; in 1905, at *2s.*; and in 1906 and later years, at *2s. 4d.*

In **Labuan**, the Straits Settlements silver *dollar* was made the standard coin under Notification No. 22 of September 9th, 1905. Prior to this date, Mexican, British, and Hong Kong dollars were current. Conversions into £ sterling have been made at the same rates as those shown for the Straits Settlements.

In the **Federated Malay States**, the Straits Settlements silver *dollar* was made the standard coin in 1903, the British and Mexican dollars being treated as its equivalent to 31st August 1904, when they ceased to be legal tender.

In the **Protected Malay States**, the Straits Settlements silver *dollar* is current. In Kelantan, it was made the standard coin of the State by Enactment No. 15 of 1910.

In **British North Borneo and Sarawak**, the Straits Settlements silver *dollar* has also been made the standard coin—British, Mexican and other dollars ceasing to be legal tender.

In British North Borneo, all silver coinage of any denomination whatsoever, being subsidiary to the silver dollar of the Straits Settlements, is legal tender, provided that the limit of such tender of such subsidiary coinage shall not exceed the value of 10 dollars (Proclamation No. 9 of 1912).

In **Hong Kong**, the Mexican, British, and Hong Kong dollars are current.

Conversions into £ sterling have been made at the same rates as those shown for the Straits Settlements for 1905 and prior years. In 1906 conversions into £ sterling have been made at the rate of *2s. 2½d.* per dollar; in 1907, at *2s. 1½d.*; in 1908, at *1s. 8½d.*; in 1909, at *1s. 8½d.*; in 1910, at *1s. 9d.*; in 1911, at *1s. 8½d.*; and in 1912, at *1s. 11½d.*

o) For 9 months ended 31st December 1905. (*p*) Only the profit on the Uganda Railway (68,830*l.*) was brought to account in 1905-6. In later years, both receipts and payments are included in the finance returns.
q) Excluding Head Office Revenue of the British South Africa Company. (*r*) The reduced revenue from 1896 inclusive is due to the exclusion of the transactions of local bodies and to an alteration in the manner of showing the earnings and working expenses of the State railways. From that date, the net receipts of the railways are shown under Revenue, the working expenses being deducted from the total earnings instead of being entered on the expenditure side as previously. (*s*) Inclusive of 498,102*l.* collected in previous years, but not brought to account till 1906-7.
t) For the 10 months ending 31st March 1911. (*u*) Including Railway and certain Departmental receipts, previously excluded. (*v*) Excluding receipts from mines, land, &c., in "South Africa"—the receipts from such sources being included with those given for Southern Rhodesia in years prior to 1908-9. (*w*) Including appropriations-in-aid. (*x*) Excluding receipts from State coal mines. (*y*) Excluding Commonwealth subsidy.
z) For the 12 months ended 30th September of the years stated.
* For the 9 months ended 31st December 1912. † For the 12 months ended 31st March of the year stated.

(a) For rates of conversion into £ sterling, see Table No. 2, p. 5. (b) For the 12 months ended 31st March of the year following that stated above. (c) Excluding expenditure in respect of State coal mines. (d) For the 12 months ended 30th June of the years stated. In the case of the Union of South Africa this note is only applicable to years prior to 1910. (e) For six months ended 30th June 1901. (f) See note (h) on p. 16. (g) The cost of administration in excess of the revenue was borne by the States of Queensland, New South Wales, and Victoria in 1898, after which date the excess was met from the "Accumulated Revenue Fund." From 1st July 1901, the expenditure has been guaranteed by the Commonwealth Government. The figures in the above Table are inclusive of sums spent on the maintenance of the Government steamer. (h) For cause of decrease from 1906, see note (r) to the previous Table on p. 17. (i) Excluding expenditure from Imperial grants. (j) Excluding surplus returned to States. (n) Including only the share (one-third) of the Immigration expenses charged to General Revenue to 1902 inclusive. In 1903 and later years the planters paid the whole cost of the introduction of immigrants into the Colony. (o) The increase in expenditure in 1899 was due to the transference of 1,500,007l. expended from loans to general revenue.

(a) The Customs Revenue was collected by the Commonwealth Government from January 1st, 1901, but the Trade Returns were first compiled for Australia as a whole by the Commonwealth Government in 1903, and not by each State as in former years. The figures given from that date represent the net receipts from "Customs" according to the Treasury Statement of the Commonwealth Government—allowance having been made for Inter-State transfers. The receipts have not been allocated to the several States from 1911, inclusive. (b) Including Excise Duties. (c) Excluding Export Duties, which were suspended on 1st January 1890. (d) The figures for Labuan include the amounts paid by Farmers for the right of levying duties on the importation or sale of dutiable articles. (e) The figures include receipts from the export and sales of rubber and ivory. (f) Customs duties were first imposed in Southern Rhodesia on August 1st 1898. (g) For the 11 months ended 30th May 1910. (h) For the 10 months ended 31st March 1912. (i) For the 12 months ended 30th September of the years stated. (j) For the 9 months ended 31st December 1912. (k) Including duties collected on the seaboard on goods passing through Southern to Northern Nigeria. (l) For the 12 months ended 31st March of the year stated. (m) Excluding Cayman Islands in 1898-1899, 1907 and 1910. (n) There is a slight duplication in the figures on account of the duties collected on goods imported via Southern Nigeria for Northern Nigeria being included in the figures for both Southern and Northern Nigeria. See (f) and (g) notes.

- (l) Excluding inter-provincial shipping (i.e., between Cape of Good Hope and Natal), included in years prior to 1910.
- (m) The figures given for 1904 and later years represent the shipping of Australia direct with places outside the Commonwealth—the shipping returns having been compiled for the first time by the Federal Government in 1904, and not by each State as in former years. Comparative figures (i.e., excluding Inter-State shipping) for years prior to 1904 cannot be given for the Commonwealth as a whole, as vessels trading with more than one State from or to places outside the Commonwealth were, as a rule, included in the returns of each of those States.
- (n) For the 15 months ended 31st March 1904.
- (o) One line of steamers ceased to make fortnightly calls at Kingstown in 1906.
- (p) The Colony and Protectorate of Southern Nigeria were placed under the same administration from May 1st, 1900, and the trade and shipping returns for the Colony and the Protectorate have been amalgamated from 1900 inclusive—the trade between the Colony and Protectorate being treated as Coasting Trade.
- (q) The figures given represent gross tons.
- (r) Including the tonnage of steam vessels calling for coals and stores, excluded in years prior to 1910.
- (s) Excluding of the tonnage of vessels calling to coal, amounting to 2,032,397 tons in 1912.

(a) The Commonwealth Government states that the only official intimation of ship building is the registration of the ship. Such registration may not be effected for some years after the ship is built, and consequently the figures for past years are subject to amendment from year to year. In addition to the above sailing and steam vessels, a few oil motor boats, pontoons, dredgers, &c., were built in various States of the Commonwealth, during the above-mentioned years.

(d) The figures given represent the imports (excluding Inter-Settlement trade) into Singapore, Penang, Dindings, and Malacca, and also, from 1908 inclusive, into Labuan and Christmas and Cocos Islands, which now form part of the Colony of the Straits Settlements. (e) Including the value of Coal for supply to steamships. (f) Including transhipment trade. (g) For the 12 months ended 30th June of the years stated. (h) Imports for consumption. (i) Durable goods only. (j) For value of imports into each State, see Table No. 27, pp. 214-5. (k) Reduction partly due to the imports into the Australian Commonwealth being classified according to "Countries of Origin" from 1903 inclusive, and not according to "Countries of Shipment" as in prior years. (l) In consequence of the formation of the Union of South Africa on 31st May 1910 the figures from 1910 inclusive are not available for the several Provinces, but only for the Union of South Africa as a whole. The figures for all years are inclusive of the value of goods in transit for the interior, but in years prior to 1910 the imports *via* Natal or the Cape of Good Hope in transit to other places in South Africa were included in the figures shown for those Provinces, as well as in those of final destination. For 1905 and prior years, *overland* trade is excluded from the figures for Natal, but partly included in those for the Cape of Good Hope, whilst those for 1906-9 represent imports by Sea, *exclusive* of inter-State trade. From 1910, the Union figures include imports *overland* (other than gold in transit) from other places in South Africa. (m) Approximate estimate of the total imports after deducting, so far as has been found practicable, the value of articles which pass in transit from the maritime Provinces to the inland Territories, &c., and are therefore included in the accounts of more than one Province or Territory.

(a) For rates of conversion into £ sterling, see Table No. 2, p. 5. (b) For the 12 months ended 31st March of the year following that stated above. (c) Exports by sea only. (d) The figures represent the exports of Bullion and Specie from the various Settlements, exclusive of the value of Bullion and Specie interchanged between the Settlements. See Note (d), p. 60. (e) For the 12 months ended 30th June of the years stated. (f) Excluding Government Treasure. (g) Including Transit Trade, excluded in years prior to 1904-5. (h) The figures show for years prior to 1903 the excess of Gold Bullion and Specie exported from Australia to non-Australian countries over imports thereof from such countries. From 1903, the returns were compiled by the Commonwealth Government for Australia as a whole, and the figures given represent the domestic exports of Gold Bullion and Specie to places beyond the Commonwealth. (i) Excluding the value of gold (the produce of places outside the Union of South Africa) in transit via Natal or the Cape of Good Hope for shipment from 1910 inclusive. In years prior to 1910, however, the value of all gold in transit was included in the figures shown for the maritime Provinces, as well as in those for the Province, &c., from which originally exported. NOTES.—The above figures represent the Imports into Singapore, Penang, Dindings, and Malacca, and also, from 1908 inclusive, into Labuan and the Christmas and Cocos Islands, exclusive of Inter-Settlement Trade. In 1908, Labuan and the Christmas and Cocos Islands were, for the first time, treated in the trade returns as part of the Colony of the Straits Settlements. The trade of Labuan, as well as the rail traffic between Penang and Perak, was, in 1909, included in the total only—details of the separate articles not being available. From 1900 inclusive, however, the Labuan-trade and the rail traffic between Penang and Perak are also included in the details.

For rates of conversion of dollars into £ sterling, see Note (b), Table No. 2, p. 5.

NOTES.—The above figures represent the Imports into Singapore, Penang, Dindings, and Malacca, and also, from 1903 inclusive, into Labuan and the Christmas and Cocos Islands, exclusive of Inter-Settlement Trade. In 1903 Labuan and the Christmas and Cocos Islands were, for the first time, treated in the trade returns as part of the Colony of the Straits Settlements. The trade of Labuan, as well as the rail traffic between Penang and Perak, was, in 1903, included in the total only—details of the separate articles not being available. From 1909 inclusive, however, the Labuan Trade and the rail traffic between Penang and Perak are also included in the totals.

(a) Native waist-cloths and pebblecoats.
(b) It is stated by the Straits Settlements Government that, previous to 1912, Para Rubber transhipped at Singapore and Penang from all parts of the Malay Peninsula was inserted in the Trade Returns as Imports and Exports. In 1912, only Rubber marketed is included in the import figures, and Rubber locally produced in the export figures. Therefore, to afford a true comparison, this article in 1911 would be less by, approximately, 57,800 cwt., and £1,403,333—the imports from the Federated and non-Federated Malay States and exports to the United Kingdom being affected to this extent.

Note.—Particulars for the year 1898 for the Australian Commonwealth as a whole cannot be given. It is stated in the original returns that the figures are to be taken as accurate only so far as the years 1903 and later years are concerned. In the preceding years the articles have been classified as nearly as possible on the same basis as in later years, but it has been found a matter of great difficulty, owing not only to the want of uniformity in the classification of the various States, but also to the differences between the classification followed in the earlier years and that adopted in 1903 and later years.

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was not the practice in the various State Customs Offices to record transshipments. It follows that goods arriving from beyond the Commonwealth at any Australian port and thence transhipped to another State were recorded in the State in which they ultimately arrived as an import from the transshipping State and not, as they are now, as an overseas import. The figures shown above represent the estimated value of such transshipments, and must be added to the recorded imports to obtain the true gross import from Countries beyond the Commonwealth.

(b) Ribbons, galloons, &c., included in 1910 and prior years with velvets, &c., are included with "Trimmings" from 1911 inclusive.

(c) Excluding feathers made up into trimmings and natural birds and wings, included with "other kinds of apparel" in 1912.

							(INCLUDING BULLION

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was the practice in most of the States for goods of local produce despatched from one Australian State to another for transshipment beyond the Commonwealth to be recorded only as inter-State transfers from the original State, no notice being taken of the overseas export. The present uniform practice is to count such goods as being exported from the place where they are actually placed on board overseas vessels so as to avoid the possibility of transshipment being treated as exports at the place of production and at the place of final export. No reliable estimate of the values of these transshipments prior to September 1st, 1903, can be given, but in 1904 they amounted to 3,655,123.

(b) Exclusive of the value of goods shipped as ship's stores in Australian ports on board vessels bound for overseas countries in 1900 and later years, previously included. For amounts, see note (d), p. 213.

(c) Silver-lead Bullion is included with "Silver contained in matte" and with "Lead contained in matte" in 1907 and later years.

(d) Including Concentrates from 1909 inclusive.

(e) Including Wool "tops" from 1909 inclusive, not distinguished in prior years.

(a) The Canadian Authorities state that practically all the coal imported into Canada may be taken to be imported at Atlantic ports, the source of this coal being either from over seas or from the coal-exporting States of the American Republic. It is to be added that the larger proportion of this coal is brought into Canada by railway.

From 1910 inclusive, exports are credited to the State from which they were finally despatched from the Commonwealth. Owing to the discontinuance of the Inter-State Trade Records, it is not possible to refer transhipped goods to the State from which they were originally consigned. See note (a), p. 103.
 (b) Exclusive of ships' stores in 1906 and later years—previously included. For amounts, see note (d), p. 213.

NOTES.—Preferential treatment has been accorded to certain goods the produce or manufacture of some part of the British Dominions, on importation into New Zealand, from November 10th, 1903. The preference was extended to certain other British goods from July 17th, 1907, and from April 1st, 1908.

All South African goods (except spirits) have also been accorded preferential treatment from January 1st, 1907.

(a) Certain British Possessions and Protectorates (viz., Cyprus, Federated Malay States, Zanzibar, Gilbert and Ellice Islands, and the Tonga or Friendly Islands) are classed with "Foreign Countries," in the original trade returns. From 1911, however, they have been included with "British Possessions," and not with "Foreign Countries," in the above Table.

(a) Excluding British Possessions on the "Windward" and "Leeward" coasts of Africa. It is stated in the original returns that "vessels which had called (in the case of those arriving in the Colony), or which intended to call (in the case of those leaving the Colony), at more ports than one on the West Coast of Africa, were said to have come from, or to have left for the 'Windward Coast' when the ports are to the north, or the 'Leeward Coast' when the ports are to the south, of Sierra Leone." From 1909 inclusive, the trade at ports on the "Windward" and "Leeward" coasts was separately distinguished.

The *Reciprocal Tariff Act* No. 16 of 1897 came into force on 23rd April 1897, and goods (except alcoholic liquors, tobacco and sugar), the produce or manufacture of the United Kingdom and certain British Colonies and Foreign Countries, when imported direct, were entitled to a reduction of $\frac{1}{4}$ th of the duty to 30th June 1898, and $\frac{1}{4}$ th of the duty to 31st July 1898.
In August 1898, this Tariff Act was superseded by the *British Preferential Tariff Act* No. 37 of 1898 which confined the benefits to goods (except alcoholic liquors, tobacco, and in certain cases, sugar), the produce or manufacture of the United Kingdom and certain British Possessions when imported direct, and a reduction of $\frac{1}{4}$ th of the general duty was allowed to the 30th June 1900, and $\frac{1}{4}$ th of the duty, under Act No. 15 of 1900, after that date. Preferential Treatment was extended to South African products from 1st July 1904. Slight amendments of the preference allowed on woollens, cordage, china, tableware and common window glass were made from June 7th, 1904, under Act No. 11 of 1904.

Under Act No. 11 of 1907, which came into force on November 30th, 1906, the Customs Tariff was revised, and varying rates of preferential duties were accorded to various United Kingdom and Colonial products. This Act also provided for an "Intermediate Tariff" (i.e., a tariff which provides, for the most part, for the imposition of duties lower than the General, but higher than the British Preferential, Tariff rates of duty) whilst a *Special Tariff*—limited to a few articles—was provided for under the Franco-Canadian Convention of 1907. The Intermediate Tariff has been partly applied to various articles—the produce of certain British Possessions and Foreign countries—in consequence of that Convention, with effect from 1st February, 1910, and also under certain Commercial Agreements, to similar articles, when the produce of Belgium and the Netherlands, with effect from 10th June 1910, and to some of those articles—when the produce of Italy, with effect from the same date. The *Special Tariff* provided for in the Franco-Canadian Convention of 1907 has also been applied to the products of certain countries, with effect from 1st February 1910.

The Customs Tariff was further revised by Act No. 15 of 1913, which came into force on the 13th May 1913, and which gave effect to the Canada and West-Indian Reciprocity Agreement of 1912.

Under Act No. 15 of 1903, articles which were the growth, produce, or manufacture of Germany, were, from April 17th, 1903, subjected to a *surtax* of 4rd of the duties charged under the General Tariff. This *surtax* was continued by the Customs Tariff Act No. 11 of 1907 to 1st March 1910, when it was suspended by an Order in Council, dated 15th February 1910.

(a) For details of the production of wheat in the several Australian States and Territories, see Table No. 41, pp. 310-1.

(b) The trade returns were compiled by the Commonwealth Government for the first time in 1903, instead of by each State as in former years, but comparative statements were given from 1899 inclusive. Prior to that date the domestic exports from the Commonwealth cannot be given, as re-exports of Australian wheat are not distinguished in the trade returns for certain States of the Commonwealth.

 (b) Inclusive of confectionery in all years. Molasses are also included in the imports for years prior to 1900.
 (c) The figures given are for the 12 months ended 31st March of the years following those stated.
 (d) The Imports and Exports are by sea only.
 (e) The acreage excludes the Native States, but the estimated yield includes the production of sugar in certain of these States. It is stated in the original returns that the *yield*, as above given, ordinarily represents the production of about 98 per cent. of the area under "sugar-cane" only.

NOTE.—A small quantity of cane-sugar is produced in the *Nyasaland Protectorate* for local consumption and of beet and maple sugar in the *Dominion of Canada*.

In Canada, the acreage under *beet* sugar in 1911-12 was about 10,000 acres and the quantity of such sugar produced amounted to 222,123 cwts. in that year.

(a) The production figures given for 1909 and prior years relate to Natal only. According to the 1911 census returns only very small areas of sugar cane are grown in the other Provinces of the Union.

(b) The trade figures for years prior to 1906 relate to Natal only, inclusive of Inter-State trade. From 1906 to 1910 inclusive, they represent the trade of British South Africa as a whole, exclusive of Inter-State trade, and from 1911 inclusive, in consequence of the formation of the Union of South Africa on 31st May 1910, the figures are for the Union of South Africa, inclusive of overland trade.

It is estimated that the quantity of "Fancy Molasses" produced in 1912 was 63,511 puncheons, while that of "Choice Molasses" was 21,520 puncheons.

(a) The figures are for 12 months ended 31st March of the years stated. The exports are by sea only. For total exports by land, see Table No. 20, pp. 74-5.

(b) The figures in above statement relating to the area and production in British India are as revised in the return giving the 1912-13 estimates of the yield of certain crops compiled in the Statistical Department of the Government of India. They include the Native States. The figures for production represent "cleaned" cotton (i.e., with the seeds extracted), and conversions have been made from bales to lbs. at the rate of 400 lbs. to the bale.

(c) For rates of conversion of rupees into £ sterling see Table No. 2, p. 5.

(d) The figures given represent "unginned" cotton produced in the State of Queensland. Cotton is not grown to any extent in any other State of the Commonwealth, but small areas (about 20 acres in 1911) have been planted in the Northern Territory.

(e) Inclusive of crops owned by natives. In some cases the figures are only approximate.

(f) Ginned cotton.

(g) Certain production figures for "unginned" cotton are available, but the Nyasaland Protectorate Government states that the export figures for "ginned" cotton are more reliable.

(a) An Enactment was passed in each of the Federated Malay States in 1904, which provided for the Registration of Imports and Exports.

(b) It is stated in the original returns that the value of the imports into Pahang for 1899 is probably over-estimated, as a large quantity of goods, of which the real value was unknown, was arbitrarily valued at \$450,000.

(c) The returns of imports and exports by sea are for the principal ports only. Overland trade is excluded for 1898; in later years it is included, so far as possible.

(d) Including "Gold (cyanide)" and "Gold concentrates," from 1899 inclusive.
