NOTES.—The British Protectorates in Africa (except Zanzibar) are included in the main body of this Volume, and not in the Appendix.

A statement is given on pp. xii-xviii, showing the bases of the Statistical Values adopted for Imports and Exports in the Trade Returns of the various British Self-Governing Dominions, Colonies, Possessions and Protectorates.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS, and PROTECTORATES.

[Compiled from information received from the various Colonial Governments.]

STRAITS SETTLEMENTS :—

IMPORTS :

The values given by European importers represent the invoice value of the goods, inclusive of insurance, freight and value of packages (C.I.F.) at the port of despatch, but not of any charges in the Straits Settlements.

Native importers declare the price ruling in the Straits Settlements markets.

[The cost of freight, insurance and packing is shown on the invoices, which are not inspected, except in case of obvious error.]

EXPORTS :

The value of the goods is the "market price" in the Straits Settlements, exclusive of shipping charges, as declared by exporters.

CEYLON :—

IMPORTS :

The values given include the invoice value of the goods, freight, insurance and value of packages (C.I.F.).

When the charges for freight, &c., are not known, an addition of 10 per cent. to the invoice value is made on ordinary cargo in lieu of composite charges; the addition is higher in the case of glassware, beads, &c. (Sec. 42 of Ord. No. 17 of 1869.)

Where no reliable values can be ascertained, as in the case of certain rated articles imported by Native traders, an average price is officially fixed for calculating the value of the goods.

[The Ceylon Government states that the cost of freight, &c., entered on approved invoices is accepted.]

EXPORTS :

The values declared by the exporters are accepted by the Customs Authorities (except in the case of cocoa, coffee, cinchona bark, coir, coconut oil, cinnamon, plumbago, tea and horns of deer and sambur, the values of which are ascertained annually from the Ceylon Chamber of Commerce). (Sec. 51 of Ordinance No. 17 of 1869.)

MAURITIUS :—

IMPORTS :

The values of the goods are those at the place of purchase, inclusive of insurance, freight and value of packages (C.I.F.).

When the cost of freight, &c., is not shown on the invoices, a percentage is added to each description of goods for freight, &c., which is calculated on information obtained from the mercantile community.

[The Government of Mauritius states that there is no law in force dealing with valuations.]

EXPORTS :

The value of the goods on the market is given, exclusive of shipping charges.

SEYCHELLES :—

IMPORTS :

The values of the goods are those at the place of purchase, exclusive of insurance, freight and value of packages.

[The Seychelles Government states that the cost of freight, &c., is not entered on the Customs Bills.]

EXPORTS :

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

HONG KONG :—

No complete trade returns are published for this Colony.

COMMONWEALTH OF AUSTRALIA :—

IMPORTS :

The value of the goods imported represents the amount on which duty is payable, or would be payable, if the duty were *ad valorem*. The value of goods subject to duty is taken to be the "fair market value" in the usual ordinary commercial acceptation of the term, in the principal markets of the country whence the same were exported, free on board (F.O.B.) at the port of export in such country, with an addition of 10 per cent. on such market value. (Act No. 6 of 1901.)

The Commonwealth Government states that for the purposes of valuation for duty, the fair market value is based on the price of the goods for home consumption and not on export prices. (Sec. 154 of Act No. 6 of 1901.)

The "value for duty" is the value taken for statistical purposes. According to a Memorandum issued by the Commonwealth Customs Department on November 10th, 1908, as amended by a notice issued by the Office of the High Commissioner for the Commonwealth of Australia in London, dated October 29th, 1913, the charges included or excluded in the value for duty, respectively, are as follows :—

Charges included in the Value for Duty.

Inland carriage :—

(a) When the goods are shipped from the country where purchased, the whole inland carriage.

(b) When the goods are bought in one country and shipped from a contiguous country (*e.g.*, bought in Austria, shipped from Germany), inland freight to the frontier of the country in which the goods are purchased;

Coastal freight (*i.e.*, when goods are shipped from one port to another in the same country, but are not actually consigned to Australia from the first port) and other charges (*including lighterage*) incurred in conveying the goods to, and placing them on board, the exporting vessel;

Cost of labour and materials (except outside packages) used in packing, including flock, kapok, straw and other inside packing;

[When flock, kapok, straw or horsehair packing is separately invoiced and has a commercial value of its own after unpacking in Australia, such value is not included in the value for duty, and the materials mentioned are dealt with under the appropriate tariff heading.]

Insurance to port of shipment;

Canal dues (*i.e.*, when canal dues form portion of inland freight charge to the port of shipment);

Inland Revenue Duty, only when the goods bear Inland Revenue Duty stamps affixed to them in the country

of export; and

Royalties.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS and PROTECTORATES—continued.

COMMONWEALTH OF AUSTRALIA—continued.

IMPORTS—continued.

Charges excluded from the Value for Duty.

- Outside packages (including zinc linings and tarred paper) in which goods are ordinarily imported ;
Stamp duty on bills of lading ;
Agents' charges ;
Bank exchange ;
Interest ;
Brokerage ;
Dock dues ;
Buying or indent commission, being a charge made to the importer by the buying or indent agent for services rendered and not an allowance made by the manufacturer to the buying agent ;
Insurance (oversea) ;
Sea freight (oversea) ;
Export duty ;
Inspection fees; and
Postage and Petties.

EXPORTS :

The value of goods exported is the value in the principal markets of the Commonwealth in the usual and ordinary commercial acceptation of the term.

PAPUA, TERRITORY OF :—

IMPORTS :

The values of the goods are those at the place of purchase, exclusive of insurance, freight and value of packages.

EXPORTS :

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

DOMINION OF NEW ZEALAND :—

IMPORTS :

Goods subject to ad valorem rates of duty are taken at their invoice value. The value of such goods shall be understood to be the "fair market value" thereof when sold for cash in the ordinary course of business for home consumption in the principal markets of the country whence, and at the time when, the same were exported, with 10 per cent. added to such "fair market value." (Sec. 114 of Act No. 63 of 1913.)

The value of all other goods includes freight and charges (C.I.F.) to time of arrival at port of discharge.

[The New Zealand Government states that the cost of freight, &c., is usually accepted as stated on the invoice, but if any doubt arises these charges are verified by the Customs Officers by reference to the ship's agents or to other importers.]

EXPORTS :

The "free on board" (F.O.B.) value is given as obtained from Customs Entries.

[The New Zealand Government states that the Collector of Customs examines the values given for the chief articles, and compares them with current price lists to prevent any over-estimate.]

FIJI :—

IMPORTS :

The invoice value of the goods only is given, without any charges for freight, &c., whatever. (Sec. 1 of Ord. No. 2 of 1898.)

EXPORTS :

The value of the goods "free on board" (F.O.B.) at the port of shipment is given, including cost of packages. (Sec. 32 of Ord. No. 1 of 1895.)

FALKLAND ISLANDS :—

IMPORTS :

The values of the goods are those at the place of purchase, inclusive of insurance, freight and value of packages (C.I.F.).

[The Falkland Islands Government states that there is no uniform practice of ascertaining the cost of the freight, &c. In some cases it is included in the invoice values, and in others it appears as a separate item on the bill of entry.]

EXPORTS :

The values of the exports, which consist almost entirely of wool and skins, are not known until sold in England. The values entered are the estimated sale-values given by the shippers.

UNION OF SOUTH AFRICA :—

IMPORTS :

The values of the goods imported represent the true current value for home consumption in the open market of similar goods in the principal markets of the country from and at the time which the goods were imported, including carriage to the port of shipment, and the cost of packing and packages, but not including agents' commission when such commission does not exceed 5 per cent. (Sec. 7 of the Customs Tariff Act No. 26 of 1914.)

Under the Customs Regulations framed under the Customs Management Act, No. 9 of 1913, as laid down in Government Notice No. 1094 of 1913, it is provided that :—

"The value of goods for Customs duty purposes shall be ascertained by a declaration at the foot of the appropriate bill of entry in the manner and form as follows :—

"I, the undersigned.....for importer, do hereby declare that the above is a true description and complete return of all goods contained in the above-mentioned packages and of the value of such goods, and that the values are the 'true current values' of same as defined by law, including the cost of packing and packages."—(Regulation No. 102.)

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS and PROTECTORATES—*continued.*

UNION OF SOUTH AFRICA—*continued.*

IMPORTS—*cont.*

"The person entering the goods at importation shall produce, if required by the proper Officer of Customs, any document relating to the goods, and the invoice shall contain a statement in a prominent place made by the suppliers showing clearly the current value for home consumption in the open market for similar goods at the place of purchase bought in the ordinary manner from the manufacturer or supplier in normal quantities. The invoice and any covering statement shall also clearly show cost of packing and packages."—(Regulation No. 103.)

EXPORTS :

The values of the goods are based on the cost at place of purchase, including packages.

BASUTOLAND, BECHUANALAND PROTECTORATE AND SWAZILAND :—

In consequence of various Customs Agreements entered into between the Union of South Africa and the Territories of Basutoland, Bechuanaland Protectorate and Swaziland in 1910, separate Trade Returns are not now compiled for these Territories.

RHODESIA :—

IMPORTS :

The values of the goods imported represent the "true current value" for home consumption in the open market for similar goods at the place of purchase, bought in the ordinary manner from the manufacturer or supplier in normal quantities, including the cost of packing and packages. Insurance and freight are *not included*, nor is Agent's commission, unless it exceeds 5 per cent.

(S. Rhodesia, Sec. 14 of Ord. 6 of 1906 as amended by Sec. 8 of Ord. 8 of 1908, and N. Rhodesia (Barotziland), Sec. 11 of Proc. 20 of 1912.)

NYASALAND PROTECTORATE :—

IMPORTS :

The Nyasaland Government states that the value of the imports is the home invoice price, exclusive of trade discounts, and of freight, insurance, and other charges.

The cost of freight, insurance and packages represents, it is stated, roughly about 65 per cent. of the cost of the goods.

EXPORTS :

The values of the exports are fixed for each quarter on the home market values.

UGANDA PROTECTORATE :—

IMPORTS :

The values given include the invoice value of the goods at the place of purchase, insurance, freight and value of packages (C.I.F.), plus all charges accruing on them at Mombasa and railway freight to Uganda, *i.e.*, the value is the price at which they could be sold in the Customs House without profit or loss to the importer. (Ord. No. 6 of 1910.)

EXPORTS :

The values are as declared by exporters at the place of exportation, exclusive of the export duty payable on exportation. (Ord. No. 6 of 1910.)

[The Uganda Government states that the values of dutiable articles are fixed by the Director of Customs on the basis of the current market value of the goods. The value given for cotton is furnished periodically by the British Cotton Growing Association through the Colonial Office, and is the approximate value at the ports of shipment based on the value in England, less freight and charges. In other cases the declarations of exporters are accepted.]

EAST AFRICA PROTECTORATE :—

IMPORTS :

The values given include the invoice value of the goods at the place of purchase, insurance, freight and value of packages (C.I.F.) and cost of landing (less trade discount). (Ord. No. 1 of 1910.)

[The East Africa Protectorate Government states that power is given to the Customs Authorities to add percentages to the first cost of the goods where charges are not shown on the invoices.]

EXPORTS :

Same as the Uganda Protectorate.

SOMALILAND PROTECTORATE :—

IMPORTS :

The values given include the invoice value of the goods at the place of purchase, freight and value of packages (C.I.F.). (Sec. 14 of Reg. No. 2 of 1902.)

[The Somaliland Protectorate Government states that the value of the freight is ascertained by enquiry from the consignees, shipping firms and masters, and by the substantiation of documents and private inquiries. The value of goods and live stock, other than those enumerated in the Customs Tariff, is assessed according to the prevailing market price.]

EXPORTS :

Same as the Uganda Protectorate. (Sec. 14 of Reg. No. 2 of 1902.)

ST. HELENA :—

IMPORTS :

Same as the Uganda Protectorate (C.I.F.).

EXPORTS :

The values given represent the estimated value of the goods when exported.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS and PROTECTORATES—continued.

SOUTHERN NIGERIA:—

IMPORTS:

The values given include the invoice value of the goods at the place of purchase, insurance, freight and value of packages (C.I.F.).

NOTE.—The cost of "packages, freight, &c.," is separately enumerated in the Article Table of the Import Returns of Southern Nigeria under the heading of "Packages, freight, &c.," and is thus not included in the values shown for each article, but only in the total value of imports.

[The Nigerian Government have issued a notice that it is their intention to include, for statistical purposes, the cost of packages, &c., in the value of each Article imported, with effect from January 1st, 1915.]

The cost of such packages, &c., is, however, allocated to the value of the imports from the various Countries in the Country Table of the original trade returns.

[The S. Nigeria Government states that the cost of freight, &c., is obtainable from the invoices.]

EXPORTS:

The values are as declared by exporters at the port of shipment (F.O.B.).

GOLD COAST:—

IMPORTS:

Same as the Uganda Protectorate (C.I.F.). (Secs. 59-61, Ord. No. 10 of 1876.)

[The Gold Coast Government states that the cost of freight, &c., is ascertained from the invoices which are presented by merchants, and verified by the Customs Officers from a schedule of percentages which has been drawn up as a departmental guide to give checking officers an idea as to what such charges should be.]

EXPORTS:

The values are as declared by exporters at the port of shipment (F.O.B.).

SIERRA LEONE:—

IMPORTS:

Same as the Uganda Protectorate (C.I.F.). (Ord. No. 12 of 1902.)

[The Sierra Leone Government states that in cases where the cost of freight, &c., is not given on the invoices, a percentage is added to the net invoice value of the goods at the port of shipment. This percentage is based on monthly averages obtained from such charges as are shown on perfect bills of entry for similar goods.]

EXPORTS:

The values are as declared by exporters at the port of shipment (F.O.B.).

GAMBIA:—

IMPORTS:

The values given include the invoice value of the goods at the place of purchase, insurance, freight and value of packages (C.I.F.).

[The Gambia Government states that there is no special Ordinance regulating the valuation of goods in the Colony. The cost of freight, insurance, &c., is ascertained from invoices and other documents produced by merchants at the time of the entry of the goods; these charges are distributed to the various classes of goods in proportion to their quantities, values, &c. In cases where invoices are not produced, an average amount of the freight payable is made upon a reasonable basis.]

EXPORTS:

The values are as declared by exporters, exclusive of cost of packages, but *not* free on board at the port of shipment.

DOMINION OF CANADA:—

IMPORTS:

It is stated in the Trade Returns of the Dominion Government that the value of the goods imported is governed by Sec. 40 of Cap. 48 (Revised Statutes of Canada), which provides that the value of imported goods subject to *ad valorem* duties shall be "the fair market value thereof when sold for home consumption in the principal markets of the country whence, and at the time when, the same were exported directly to Canada."

EXPORTS:

The value of the "Canadian produce" is the value at the time of exportation at the ports of Canada whence shipped. The value of "goods not the produce of Canada" is the actual cost of such goods. (Sec. 99 of Cap. 48 Revised Statutes.)

NEWFOUNDLAND:—

IMPORTS:

The values are governed by the value of goods subject to *ad valorem* duties. Whenever any duty *ad valorem* is imposed on any goods imported into Newfoundland the value for duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Newfoundland. Such market value shall be the fair market value of such goods in the usual and ordinary commercial acceptance of the term at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is by universal usage considered and known to be a cash article, and so *bona fide* paid for in all transactions in relation to such article; and all invoices representing cash values, except in the special cases herein referred to, shall be subject to such additions as to the Collector or appraisers of the port at which they are presented appear just and reasonable to bring up the amount to the true and fair market value, as required. (Secs. 55 and 56 of Act No. 13 of 1898.)

It is further provided by Act No. 28 of 1907 (as amended by Acts Nos. 14 of 1912 and 33 of 1913) that, in determining the dutiable value of goods, except when imported from Great Britain, Ireland, Canada, the United States, and from any other country which by Treaty is entitled to most-favoured-nation treatment, there shall be added to the cost, or the actual wholesale price, or fair market value, at the time of exportation in the principal markets of the country from whence the same have been imported into Newfoundland, the cost of inland transportation, shipment and transshipment, with all the expenses included, from the place of growth, production, or manufacture, whether by land or water, to the vessel in which shipment is made, either *in transitu* or direct to Newfoundland, subject to such regulations as are made by the Governor-in-Council. Provided, that in case of any dispute respecting the proper amount of such inland transportation charges, the Minister of Finance and Customs may determine the same, and his decision shall be final in that respect.

The values of the goods are as declared by exporters, "free on board" (F.O.B.) at the port of shipment. (Sec. 100 of Act No. 13 of 1898.)

Note.—Conversions into £ sterling have been made at the rate of 2s. 4d. per dollar in each of the above-mentioned years. (a) i.e., between Singapore, Christmas Island, Penang, Dindings, Malacca, and Labuan. For the value of the Inter-Settlement Trade, see the next Table.

(b) It is stated in the original Returns that "Imports represent goods sent to the different Settlements for consumption and distribution, but do not include those articles sent to other countries via Singapore and Penang, either when transhipped direct or temporarily stored."

"The first port of shipment is generally accepted as denoting the country of production, and Switzerland, for instance, which has no seaboard, does not appear in the returns."

"Produce is frequently shipped to Europe on optional bills of lading, and the first port stated is in such cases taken as denoting the country of consumption, but in any comparison of such goods it is more accurate to treat the Continent of Europe as a whole."

(c) Excluding copper coin.

(d) The Foreign trade of Christmas Island is included with that of Singapore, and the Foreign trade of Dindings with that of Penang. The value of such trade in each of the years 1910, 1911 and 1912 was as follows:—

Years.	Christmas Island.		Dindings.	
	Imports.	Exports.	Imports.	Exports.
	Dollars.	Dollars.	Dollars.	Dollars.
1910	133,594	3,540,858	8,955	37,515

1912	40,109	3,564,960	2,835	75,983

(e) The Straits Settlements Government states that, previous to 1912, Para rubber transhipped at Singapore and Penang from all parts of the Malay Peninsula was included in the Trade Returns as Imports and Exports. In 1912, only rubber marketed is included in the Import figures, and rubber marketed, as well as that locally produced, in the Export figures. To afford a true comparison, this article in 1911 would be less by, approximately, 57,800 cwt., and £1,493,333; the Imports from the Federated and non-Federated Malay States, and the Exports to the United Kingdom being affected to this extent.

In Labuan, the Straits Settlements Opium Ordinance of 1906 was applicable under the Labuan Ordinance No. 4 of 1906, whereby no person, except the Opium Farmer, might import opium otherwise than in an original unbroken chest without written permission. (b) The exclusive right of collecting and retaining the duties on intoxicating liquors in Labuan was vested in the Farmer under the Straits Settlements Liquors Ordinance No. 19 of 1906, which was made applicable to Labuan under the Labuan Ordinance No. 4 of 1906. The Straits Settlements Liquors Revenue Ordinance No. 22 of 1909, as subsequently amended, was made operative in Labuan from 1st January, 1913.

(c) It is provided under the Petroleum Revenue Ordinance No. 19 of 1909, which was assented to on 26th November, 1909, that all petroleum landed in the Colony must be deposited in a Petroleum Store and can only be removed therefrom by permit on payment of the above duty, except when for export.

(d) The Liquor duties in Christmas Island were imposed under the Straits Settlements Ordinance No. 19 of 1906, and were the same as shown above for Labuan.

(a) Under the "Customs Tariff Act, 1908," provision was made for the preferential treatment of certain goods imported into the Commonwealth when the produce or manufacture of the United Kingdom—provided that the goods were shipped in the United Kingdom for Australia and not transhipped or, if transhipped, then only if it is proved that the goods have not, since they were shipped in the United Kingdom, been subjected to any process of manufacture.

By Act No. 17 of 1906, preferential treatment was granted (from 1st October, 1906) to certain goods, the produce or manufacture of the British Colonies and Protectorates which formed the South African Customs Union (*viz.*, Cape of Good Hope, Natal, Orange Free State, Transvaal, Swaziland, Basutoland, Bechuanaland Protectorate, and Southern and North-Western Rhodesia). The duties on such goods were, for the most part, 25 per cent. or 33½ per cent. lower than the rates leviable under the General Tariff.

Note.—An Act providing for the payment of old age pensions throughout Australia was passed by the Commonwealth Parliament in 1908, with effect from the 1st July, 1909. This Act, which superseded the State Acts in so far as provision for old age pensions was concerned, also provided for the payment of invalid pensions which came into force by Proclamation on the 10th November, 1910, the first payments of such invalid pensions being made on 15th December of that year.

For an old age pension the age qualification is fixed at 65 years, or, in the event of permanent incapacitation for work, at 60 years. The Act provides that the age qualification for women may be fixed, by Proclamation, at 60 years and that was effected by Proclamation, dated 10th November, 1910, the first payments thereunder being made on the 15th December, 1910.

For an invalid pension the age qualification is attainment of the age of 16 years, if accompanied by permanent incapacitation for work.

The rate of pension payable, whether for old age or invalidity, is to be determined by the Commissioner or one of the Deputy-Commissioners appointed under the Act, but must not exceed £26 per annum, nor be at such a rate as to make the pensioner's income, together with pension, exceed £52 per annum.

(a) Inclusive of persons who have exchanged State Old Age Pensions for those payable by the Commonwealth.

(b) Approximate figures.

Note.—The figures given in the above Table represent the *gross* amount of duty collected in the Union of South Africa on the various articles imported for consumption in the several parts of British South Africa. For the actual amount of Import Duty paid into the Union Treasury, see Table No. 11, p. 300.

(a) The countries which constituted the South African Customs Union were the Cape of Good Hope, Natal, Orange River Colony (now Orange Free State), Transvaal, Basutoland, Bechuanaland Protectorate, Swaziland, Southern Rhodesia, and North-Western Rhodesia.

On the formation of the "Union of South Africa" on the 31st May, 1910, the Customs Union Tariff was terminated on 30th June, 1910, but it was arranged under various Customs Agreements between the several parties to the Customs Union that the Customs Union Tariff provided for in the Convention of 1906, as subsequently amended, should, until altered by legislation enacted by the Union Government or the Administrations of the various Territories, continue in force. The South African Customs Union Tariff continued in force in the Union of South Africa during the year 1912.

Rebates of duty were allowed on certain goods, the produce or manufacture of the United Kingdom, and the reciprocating British Colonies (*viz.*: Dominion of Canada, Commonwealth of Australia, and Dominion of New Zealand)—on importation into the Union of South Africa during the year 1912.

All raw produce of South Africa imported overland, and all articles grown, produced, or manufactured *within* the Customs Union, were free of duty, with the exception of blasting compounds, spirits, beer, patent medicines, cigarettes, and sulphuric acid, should a duty be imposed under Article XVI. of the Convention of 1906, as amended in 1908, under which a provision is made that an import duty may be imposed on these articles when the produce or manufacture of any other Colony or Territory within the Union, provided that such duty is not in excess of any excise duty leviable on them. Where an excise duty is levied, these articles may be removed in bond from one part of the Union to another.

(b) Tobacco, the produce of South Africa, imported overland, free; Sheep dip, 3 per cent. *ad val.* if imported under the General Tariff, otherwise, free.

(c) With an additional duty of $\frac{1}{4}$ d. per $\frac{1}{2}$ oz. nett weight or fraction thereof.

(d) Wine exceeding 50 per cent. of proof spirit to be classed as "spirit."

Note.—A Radio-Telegraph Station was opened at Durban on the 13th June, 1910. It is stated in the Report of the Postmaster-General for 1911 "that the work of installing a Wireless Telegraph Station at Slang Kop, near Cape Town, was taken in hand by the Marconi Company early in the year, and subsequent progress had been made by April to admit of Radio-Telegrams being exchanged with ships at sea."

The work was finally completed and taken over from the Company on the 18th October, 1911. The Report for 1912 states that the Imperial Government has been notified that the Union Government will bear the cost of erection within the Union of a Wireless Telegraph Station capable of communicating with a station to be erected in British East Africa. The locality of the site in South Africa was under consideration in 1912, but it was stated that it would probably be near Pretoria.

In addition to the rebates allowed under the South African Customs Union Tariff (i.e., on goods—the produce of the United Kingdom and the reciprocating British Possessions, viz.—the Dominion of Canada, the Commonwealth of Australia, and the Dominion of New Zealand) in Southern and North-Western Rhodesia, there were also additional rebates granted in consequence of the operation of Clause 47 of the Southern Rhodesian Order in Council of 1898 and Clause 19 of the Northern Rhodesian Order in Council of 1911 (known as the "Rhodes Clause") which read:—"No Customs duties levied on any articles produced or manufactured in any part of His Majesty's Dominions or in any British Protectorate, and imported into Southern or North-Western Rhodesia (as the case may be) shall exceed in amount the duties levied on such articles according to the Tariff in force in the South African Customs Union at the date of the coming into operation of the Southern Rhodesia Order in Council, 1898, or the Tariff contained in the Customs Union Convention concluded between the Colony of the Cape of Good Hope, the Orange Free State, and the Colony of Natal, in May, 1898, whichever shall be the higher." The Customs Union Tariffs referred to in the Orders in Council came into operation on 1st July, 1897, and 2nd January, 1899, respectively.

In accordance with the provisions of a Customs Agreement of 1910, as subsequently amended, made between the Government of the Union of South Africa and the Administrations of Southern and Northern Rhodesia, the contracting parties thereto shall collect the Customs duties payable upon all goods imported within its borders from abroad, and the collecting party shall pay over to the consuming party the duties so collected on all goods removed from the former to the latter, subject to a deduction of 5 per cent. of the duty collected.

No. 20—AGRICULTURE.—Complete statistics are not available. It is stated in the Report of the Directors of the British South Africa Company for 1911-12 that the "general agricultural outlook is most promising. Progress has been steady and continuous. Examples are seen on all sides of improvement in methods, of operations on a larger scale, and of new enterprises and undertakings for increasing the productivity of farms by such means as irrigation schemes, dairy herds, orange groves, tobacco barns, threshing outfits, dipping tanks, windmill pumps, and the like."

The Southern Rhodesia Director of Agriculture states that the total area under cultivation in 1911, excluding vegetable gardens and land cultivated by natives for their own benefit, was 132,105 acres.

The Census Returns for 1911 show the following results:—

Wheat	3,606 bags.
Maize	393,166 "
Oats	5,790,000 lbs.
Manna Hay	5,320,000 "
Peas and Beans	4,019 bags.
Coffee	13,688 lbs.
Tobacco	606,219 "

Oranges and lemons are being steadily planted in increasing numbers, although as yet no commerce in these citrus fruits has been established.

In Northern Rhodesia it is stated that "the cultivation of cotton continues to attract attention. The total acreage devoted to this crop in 1911-12 was 4,892 acres, of which 4,000 acres were in North-Eastern Rhodesia, chiefly in the neighbourhood of Fort Jameson."

"Northern Rhodesia is rich in various species of rubber-producing vines, shrubs and plants, which are distributed over wide areas."

Maize continues to be the principal crop. Experiments with tobacco have been made in several localities, and 327 acres were planted in 1911-12.

RAILWAYS.—The *Busoga Railway* from Jinja (Ripon Falls) to Kakindu (54 miles), on the Victoria Nile, was officially opened for traffic by His Excellency the Governor, on the 1st January, 1912. Traffic was, however, accepted, for carriage along the completed section before that date. In order to provide better facilities for the Lake Kioga steamers and to avoid the danger of sleeping sickness infection by tsetse fly, the line has been extended to Namasagali, a point 7 miles below Kakindu.

The extension of the railway from Kakindu to Namasagali will not be opened for traffic until the completion of the station buildings and piers.

The *Busoga Railway* is worked as an extension of the Uganda Railway, and runs in connection with the steamer service on Lakes Kioga and Victoria. Arrangements were being made for the through booking of goods from Mombasa to Lake Kioga ports.

The length of line partly opened for traffic on the 31st March, 1913, was 54 miles, the receipts being 8,149*l.* and the working expenses 6,897*l.* for the year ended 31st March, 1913.

The *Kampala-Port Bell Railway* (7 miles in length) was under construction in 1912-3.

For particulars respecting the "*Mombasa-Victoria Railway*," see under the "*East Africa Protectorate*," Table No. 20, page 406.

AGRICULTURE.—No complete statistics of production are available. For domestic exports of Uganda produce, see Table No. 13, page 391.

It is stated in the Uganda Report for 1911-12 that there was a "large increase in the area devoted to cotton. The Eastern Province showed the greatest advance. There seems to have been a considerable improvement in the yields of cotton, and the selected varieties which have been introduced during the last two years were specially satisfactory in this respect."

"With the exception of cotton, little of the agricultural produce of the country is sold for export—the most important products, after cotton, being *chilies*, *sem sem* and *ground nuts*."

"Plantation crops do not figure very largely in the exports, but they will probably do so in the near future. *Coffee* easily leads the way in this class, and the acreage is increasing rapidly; a large acreage of *rubber* and a certain quantity of *cacao* are also being put down."

Note.—It is stated in the Blue Book for Northern Nigeria for 1912 that the Protectorate, possessing no coast line of its own, has no reliable statistics of imports, as a great proportion of the articles entering this Protectorate are consigned to Southern Nigeria and distributed from that place. The Customs duties are collected at the various ports at which the goods enter, and are credited to the revenue of Southern Nigeria.

The Customs duty on goods consigned *direct* to Northern Nigeria are collected at Forcados and Lagos, and credited to the revenue of Southern Nigeria.

Considerable *overland* trade is carried on between Northern and Southern Nigeria, and also between North Africa and the Northern Provinces, but owing to lack of staff no detailed returns have been kept.

It is not possible to furnish any reliable statistics of Exports, as a great proportion of the trade with the adjacent French and German Territories is by barter, and much of the produce of the South-eastern corner of the Protectorate, inhabited chiefly by pagan tribes, is carried into Southern Nigeria and bartered.

During the dry season (December to April) large caravans journey from the Northern Provinces to the Coast. There is a considerable trade in horses and cattle between Northern and Southern Nigeria.

SOUTHERN NIGERIA.

(Under an Order-in-Council which came into force on 1st January, 1914, the name of the Colony of Southern Nigeria was changed to "Colony of Nigeria," whilst the Protectorates of Northern and Southern Nigeria were amalgamated, and designated the "Protectorate of Nigeria.")

No. 1.—ESTIMATED AREA, and POPULATION of EACH SEX according to the CENSUS taken in each of the Years 1901 and 1911 (so far as can be stated).

ESTIMATED AREA. (a) Sq. Miles.	PROVINCES.	YEARS.	POPULATION.				TOTAL.

Note.—The Colony of Lagos and the Protectorate of Southern Nigeria were placed under one administration by Letters Patent dated 28th February, 1906, under the style of the "Colony and Protectorate of Southern Nigeria." For purposes of administration, the Colony and Protectorate of Southern Nigeria was divided into three Provinces, viz.: the Western Province (comprising the former Colony of Lagos and its Protectorate), the Central Province and the Eastern Province—these two latter Provinces comprising what was formerly known as the "Protectorate of Southern Nigeria." From 1st January, 1914, the name of the Colony of Southern Nigeria was changed to "Colony of Nigeria," whilst the Protectorates of Northern and Southern Nigeria were amalgamated, and designated the "Protectorate of Nigeria."

(a) The figures for area represent the total area of the Colony and Protectorate of Southern Nigeria according to the most recent computation.

(b) Estimated figures. A census of the several districts of the Western Province (Lagos) was not taken in 1901 as this, it is stated in the Lagos Report on the Blue Book for 1902, "would have entailed a large expenditure of money."

Note.—The above Table has been compiled from a statement given in the Gold Coast Blue Book for 1912. The classification of the articles would appear to differ, in some respects, from that adopted in the United Kingdom Trade Returns. For instance, in the Colonial Export Returns, "raw cocoa" has been classed, apparently, as "Raw materials," and "Palm oil" as "Food, &c.," and not as "Food, &c.," and "Raw materials," respectively, as in the United Kingdom Trade Returns.

Notes.—The importation of goods manufactured or produced wholly or in part by prison labour, or which have been made within or in connection with any prison, jail, or penitentiary is prohibited.

As regards *under-valued* goods it is provided, under Act No. 11 of 1907, which came into force on November 30th, 1906, that if the export or actual selling price to an importer in Canada is less than the fair market value of such article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada, there shall, in addition to the duties otherwise established be levied, collected, and paid on such article on its importation into Canada a *special* [or dumping] duty equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption, but such special duty shall be levied on such article, although it is not otherwise dutiable. The special duty is not to exceed 15 per cent. *ad val.* in any case, and the following goods are exempt therefrom:—Goods whereon the duties otherwise established are equal to 50 per cent. *ad val.*; goods of a class subject to Excise duty in Canada; sugar refined in the United Kingdom; binder twine, or twine for harvest binders, manufactured from New Zealand hemp, istle, or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply, and measuring not exceeding 600 feet to the pound; also certain iron and steel tubing.

Conversions into £ sterling have been made at the rate of 4s. 1¼d. per dollar.

(a) Certain articles the produce, or manufacture of the United Kingdom and certain British Possessions, when imported direct from any British Country were entitled, under the *British Preferential Tariff*, to preferential treatment at various fixed preferential rates of duty.

Every manufactured article to be admitted under the British Preferential Tariff must be *bona fide* the manufacture of a British Country entitled to the benefits of the British Preferential Tariff, and a substantial portion of the value of the manufactured article must have been produced by labour in one or more of such Countries.

The Countries, the products of which were entitled to preferential treatment, were—

The United Kingdom.	Dominion of New Zealand.
British India.	Union of South Africa :
Straits Settlements.	Natal.
Ceylon.	Cape of Good Hope.
Bermuda.	Orange Free State.
British Guiana.	Transvaal.
British West India Islands.	Southern Rhodesia.

Under an Order-in-Council, the benefits of the British Preferential Tariff were extended to the following British Countries, with effect as from the 1st February, 1913, viz. :—

Swaziland.	Federated Malay States.
Basutoland.	British North Borneo.
Bechuanaland Protectorate.	Sarawak.
Northern Rhodesia.	Brunei.
Nyasaland Protectorate.	Mauritius and Dependencies thereof.

Protectorate of Northern Nigeria.	Ascension.
Colony and Protectorate of Southern Nigeria.	Friendly or Tonga Islands.
Gold Coast.	Fiji.
Sierra Leone.	Falkland Islands, and
Gambia.	British Honduras.
Somaliland Protectorate.	

In addition to the British Preferential and General Tariffs provided for in the Tariff Act of 1906, as subsequently amended, provision is also made for an *Intermediate Tariff* (i.e., a Tariff imposing, for the most part, duties lower than under the General Tariff, but higher than under the British Preferential Tariff) on goods the produce or manufacture of any country in consideration of reciprocal benefits satisfactory to the Governor in Council. This Intermediate Tariff was applied to certain products of various countries on the operation of the Franco-Canadian Convention of 1907, with effect from 1st February, 1910, whilst a few goods—the produce of those countries—were also entitled to the benefits of a *Special Tariff*, which was provided for in that Convention from the same date.

Such "Intermediate" and "Special" Tariff rates of duty were applied to the products of those parts of the British Empire which were not already entitled to the benefits of the British Preferential Tariff, as well as to the products of France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate. The advantages granted to France and her Possessions were also extended to the products of the following Foreign Countries entitled to most-favoured-nation treatment in tariff matters by Canada :—

Argentine Republic.	Denmark.	Spain.
Austria-Hungary.	Japan.	Sweden.
Bolivia (to 17th November, 1913).	Norway.	Switzerland.
Colombia.	Russia.	Venezuela.

The Intermediate Tariff was, under various Orders-in-Council, also partly extended to certain products of Belgium, the Netherlands and Italy, with effect from 10th June, 1913.

(b) For the amount of duty collected on goods imported and entered for consumption from various countries, see Table No. 35 on the next page.

No. 34.—EXPORT DUTIES :—

YUKON :

An Ordinance passed on 21st May, 1902, provides that a royalty of 2½ per cent. *ad val.* shall be levied on all "GOLD sought to be shipped from the Yukon Territory."

No. 23.—AGRICULTURE. There are about 74,000 acres of cultivated land in the Colony, of which 33,000 acres were under *sugar cane* in each of the years 1910 to 1912.

With regard to the *production of sugar*, it is stated in the report on the Barbados Blue Book for 1910-11 that, "owing to the fact that at the present time a considerable quantity of what is known as 'fancy' molasses is manufactured direct from the juice of the sugar cane, it is impossible, without equating the fancy molasses so made into sugar, to get an adequate idea of how the sugar crop compares with those of past years."

In the Report for 1912-13 the production of sugar (equating "fancy" molasses thereto), is given as 59,771, 54,411, and 51,220 hogsheads in 1910, 1911, and 1912 respectively.

Particulars of other crops are not available, but for quantities and values of Colonial produce *exported*, see Table No. 15, page 671.

(a) Under an Annex to the Convention of the 4th June, 1878, between Great Britain and Turkey, the former Power has undertaken to pay to the Porte annually a sum representing the excess of revenue over expenditure calculated on the average of the five years preceding the date of the Convention, excluding the produce of the State and Crown Lands let or sold during that period.

The amount to be paid has been determined to be £87,686 per annum. Under the same Annex, a sum of £114 per annum has also become payable since 4th September, 1884, when the Cyprus Government took over the administration of the Lighthouse Service in the island. This sum represents 22 per cent. of the receipts of the Ottoman Lighthouse Administration, which the Sublime Porte enjoyed under the concession granted the Company for lighting the coast of Cyprus.

By a further Agreement of 3rd February, 1879, a sum of £5,000 is to be paid annually to the Porte in respect of the produce of State Lands.

In addition to the above sums, amounting to £92,800, there is an obligation under the Convention of 1878 to deliver annually at the Salt Lakes 4,166,220 oke of salt, if demanded by the Porte. (An oke = 2·8 lbs.)

TONGAN ISLANDS PROTECTORATE.

[By the Convention of the 14th November, 1899, Germany renounced all rights over the Tonga Islands and Savage Island. A Treaty was concluded between the British Government and the King of Tonga in 1900, and a British Protectorate was proclaimed in Tonga and, also by the consent of the chiefs, in Savage Island during that year. The Kingdom of Tonga embraces the groups of islands of Tongatabu, Haabai, and Vavau, together with the outlying islands of Niuatobutabu, Tafahi, and Niuafouu.]
