Note.—For purposes of abbreviation the term *Rx.* has, in some cases, been used in the Tables in this Abstract to denote 10 rupees. In India 1 pice = 3 pies (¼d.); 12 pies = 1 anna (1d.); 16 annas = 1 rupee (1s. 4d.). A lakh (*lac*) is 100,000 rupees, and a crore is 100 lakhs.

(a) In the **Straits Settlements** the standard coin of the Colony was, by an Order in Council of 2nd February 1895, the silver Mexican dollar, the British dollar and old Hong Kong dollar being also legal tender. By a Proclamation dated 5th October 1903, issued under the Straits Settlements (Coinage) Order in Council of 25th June 1903 the *Straits Settlements silver dollar* was made the standard coin of the Colony, and the Mexican dollar was treated, by the same Order in Council, as its equivalent.

Under a Notice issued on 24th August 1904, Mexican, British, and Hong Kong dollars ceased to be legal tender after 31st August 1904.

Under an Order in Council of October 22nd, 1906 the *sovereign* was made legal tender within the Colony for the payment of any amount at the rate of 7 sovereigns for 60 Straits Settlements dollars (2s. 4d. per dollar) and it is provided by the same Order in Council that the Straits Settlements silver dollar shall remain the standard coin of the Colony. By an Order in Council of 11th February 1907 the weights of the Straits Settlements silver dollar and 50 cent piece were reduced in order to preserve the fixed ratio to gold.

Conversions of the silver dollar into £ sterling have been made, as follows:—  
In 1899, at 1s. 11½d.; in 1900, at 2s.; in 1901, at 1s. 11d.; in 1902, at 1s. 8½d.; in 1903 at 1s. 9d.; in 1904, at 1s. 10½d.; in 1905, at 2s.; and in 1906 and later years, at 2s. 4d.

In **Labuan**, the Straits Settlements silver dollar was made the standard coin under Notification No. 22 of September 9th, 1905. Prior to this date, Mexican, British, and Hong Kong dollars were current. Conversions into £ sterling have been made at the same rates as those shown for the Straits Settlements.

In the **Federated Malay States**, the Straits Settlements silver dollar was made the standard coin in 1903, the British and Mexican dollars being treated as its equivalent to 31st August 1904, when they ceased to be legal tender.

In the **Protected Malay States**, the Straits Settlements silver dollar is current. In Kelantan, it was made the standard coin of the State by Enactment No. 15 of 1910.

In **British North Borneo and Sarawak**, the Straits Settlements silver dollar has also been made the standard coin—British, Mexican and other dollars ceasing to be legal tender.

In **British North Borneo**, all silver coinage of any denomination whatsoever, being subsidiary to the silver dollar of the Straits Settlements, is legal tender, provided that the limit of such tender of such subsidiary coinage shall not exceed the value of 10 dollars (Proclamation No. 9 of 1912).

In **Hong Kong**, the Mexican, British, and Hong Kong dollars are current.

(a) For 9 months ended 31st December 1905. (p) Only the profit on the Uganda Railway (68,8% of £) was brought to account in 1905-6. In later years, both receipts and payments are included in the finance returns.  
 (q) Excluding Head Office Revenue of the British South Africa Company. (r) The reduced revenue from 1906 inclusive is due to the exclusion of the transactions of local bodies and to an alteration in the manner of showing the earnings and working expenses of the State railways. From that date, the net receipts of the railways are shown under Revenue, the working expenses being deducted from the total earnings instead of being entered on the expenditure side as previously.  
 (s) Inclusive of 492,100l. collected in previous years, but not brought to account till 1906-7.  
 (t) For the 12 months ended 30th September of the years stated. (u) Including Railway and certain Departmental receipts, previously excluded. (v) Excluding receipts from mines, land, &c., in "South Africa"—the receipts from such sources being included with those given for Southern Rhodesia in years prior to 1908-9. (n) The Customs Revenue was collected by the Commonwealth Government from January 1st, 1901, but the Trade Returns were first compiled for Australia as a whole by the Commonwealth Government in 1903, and not by each State as in former years. The figures given from that date represent the net receipts from "Customs" according to the Treasury Statement of the Commonwealth Government—allowance having been made for inter-State transfers. The receipts have not been allocated to the several States from 1911, inclusive. (o) Including Excise Duties. (p) There is a slight duplication in the figures on account of the duties collected on goods imported via Southern Nigeria for Northern Nigeria being included in the figures for both Southern and Northern Nigeria respectively, in years prior to 1913. See (f) and (n) notes. (q) For the 9 months ended 31st December 1912. (r) The figures for Labuan include the amounts paid by Farmers for the right of levying duties on the importation or sale of dutiable articles. (s) The figures include receipts from the export and sales of rubber and ivory. (t) Customs duties were first imposed in Southern Rhodesia on August 1st 1899. (u) For the 11 months ended 30th May 1910. (v) Including duties collected on the seaboard on goods passing through Southern to Northern Nigeria. (w) For the 12 months ended 30th September of the year stated.

(l) Excluding inter-provincial shipping (i.e. between Cape of Good Hope and Natal), included in years prior to 1910.  
(m) The figures given for 1904 and later years represent the shipping of Australia direct with places outside the Commonwealth—the shipping returns having been compiled for the first time by the Federal Government in 1904, and not by each State as in former years. Comparative figures (i.e. excluding inter-State shipping) for years prior to 1904 cannot be given for the Commonwealth as a whole, as vessels trading with more than one State from or to places outside the Commonwealth were, as a rule, included in the returns of each of those States.  
(n) For the 15 months ended 31st March 1904.  
(o) One line of steamers ceased to make fortnightly calls at Kingstown in 1906.  
(p) The Colony and Protectorate of Southern Nigeria were placed under the same administration from May 1st, 1906, and the trade and shipping returns for the Colony and the Protectorate have been amalgamated from 1906 inclusive—the trade between the Colony and Protectorate being treated as Coasting Trade.  
(q) The figures given represent gross tons.  
(r) Including the tonnage of steam vessels calling for coals and stores, excluded in years prior to 1910.  
(s) Excluding the tonnage of vessels calling to coal, amounting to 1,816,376 tons in 1913.  
(t) For the 12 months ended 30th September of the years stated.

(a) The Commonwealth Government states that the only official intimation of ship building is the registration of the ship. Such registration may not be effected for some years after the ship is built, and consequently the figures for past years are subject to amendment from year to year. In addition to the above sailing and steam vessels, a few oil motor boats, pontoons, dredgers, &c. were built in various States of the Commonwealth, during the above-mentioned years.

**NOTE**—There are no complete Returns of the Trade of Hong Kong and Gibraltar. For the trade (a) For rates of conversion into £ sterling, see Table No. 2, p. 5. (b) Excluding bullion and specie. (c) For the 12 months ended 31st March of the year following that stated above. (d) The figures given represent the exports (including Inter-Settlement trade) from Singapore, Buiting, Penang, and Malacca, and also, from 1903 inclusive, from Labuan and the Christmas and Cocos Islands—which now form part of the Colony of the Straits Settlements. (e) Excluding exports of bunker coal. (f) Domestic produce only. (g) In consequence of the formation of the Union of South Africa on 31st May 1910, the figures, from 1910 inclusive are not available for the several Provinces, but only for the Union of South Africa as a whole. The value of exports, *via* Natal and Cape ports, for the inland Provinces is included in the figures for those Provinces, as well as in those for the maritime Provinces, in years prior to 1910. The value of gold *in transit* from places outside the Union for shipment is excluded from the Union figures from 1910 inclusive, but included in previous years. The figures given for Natal *via* the Cape of Good Hope for 1900-9 represent Exports by Sea, *exclusive* of Inter-State trade, which were previously included. From 1910 inclusive, the Union figures include exports *overland* to other places in South Africa. (h) For the 12 months ended 30th June of the years stated. (i) Including transshipments. (j) Inclusive of shipping charges on the principal products and manufactures of Mauritius from 1910 inclusive, previously excluded. (k) Approximate estimate of the total exports after deducting, so far as has been found practicable, the value of the articles which pass in transit from the inland Territories, &c. to the maritime Provinces, and are, therefore, included in the accounts of more than one Province or Territory.

NOTES.—The above figures represent the Imports into Singapore, Penang, Dindings, and Malacca, and also, from 1908 inclusive, into Labuan and the Christmas and Cocos Islands, exclusive of Inter-Settlement Trade. In 1908, Labuan and the Christmas and Cocos Islands were, for the first time, treated in the trade returns as part of the Colony of the Straits Settlements. The trade of Labuan, as well as the rail traffic between Penang and Perak, was, in 1905, included in the total only—details of the separate articles not being available. From 1909 inclusive, however, the Labuan trade and the rail traffic between Penang and Perak are also included in the details.

For rates of conversion of dollars into £ sterling, see Note (a), Table No. 2, p. 5.

NOTES.—The above figures represent the Imports into Singapore, Penang, Dindings, and Malacca, and also, from 1903 including into Labuan and the Christmas and Cocos Islands, exclusive of Inter-Settlement Trade. In 1906 Labuan and the Christmas and Cocos Islands were, for the first time, treated in the trade returns as part of the Colony of the Straits Settlements. The trade of Labuan, as well as the rail traffic between Penang and Perak, was, in 1903, included in the total only—details of the separate articles not being available. From 1909 inclusive, however, the Labuan Trade and the rail traffic between Penang and Perak are also included in the details.

For rates of conversion of dollars into £ sterling, see Note (a), Table No. 2, p. 5.

(a) Native waist-cloths and petticoats.

(b) It is stated by the Straits Settlements Government that, previous to 1912, Para Rubber transhipped at Singapore and Penang from all parts of the Malay Peninsula was inserted in the Trade Returns as Imports and Exports. From 1912, only Rubber marketed is included in the import figures, and Rubber marketed, as well as that locally produced, in the export figures. Therefore, to afford a true comparison, this article in 1911 would be less by, approximately, 57,809 cwt. and £1,493,333—the imports from the Federated and non-Federated Malay States and exports to the United Kingdom being affected to this extent.

Note.—It is stated in the original returns that the figures are to be taken as accurate only so far as the years 1903 and later years are concerned. In the preceding years the articles have been classified as nearly as possible on the same basis as in later years, but it has been found a matter of great difficulty, owing not only to the want of uniformity in the classification of articles in the various States, but also to the differences between the classification followed in the earlier years and that adopted in 1903 and later years.

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was not the practice in the various State Customs Offices to record transshipments. It follows that goods arriving from beyond the Commonwealth at any Australian port and thence transhipped to another State were recorded in the State in which they ultimately arrived as an import from the transshipping State, and not, as they are now, as an over-sea import. The figures shown above represent the estimated value of such transshipments, and must be added to the recorded imports to obtain the true gross import from Countries beyond the Commonwealth.

(b) Ribbons, galloons, &c., included in 1910 and prior years with velvets, &c., are included with "Trimmings" from 1911 inclusive.

(c) Excluding feathers made up into trimmings and natural birds and wings, included with "other kinds of apparel" from 1912 inclusive.

(d) Including locomotive wheels in 1913—previously excluded.

Note.—It is stated in the original returns that the figures are to be taken as accurate only so far as the years 1903 and later years are concerned. In the preceding years the articles have been classified as nearly as possible on the same basis as in later years, but this has been found a matter of great difficulty, owing not only to the want of uniformity in the classification of articles in the various States, but also to the differences between the classification followed in the earlier years and that adopted in 1903 and later years.

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was the practice in most of the States for goods of local produce despatched from one Australian State to another for transshipment beyond the Commonwealth to be recorded only as inter-State transfers from the original State, no notice being taken of the oversea export. The present uniform practice is to count such goods as being exported from the place where they are actually placed on board oversea vessels so as to avoid the possibility of transshipment being treated as exports at the place of production and at the place of final export. No reliable estimate of the values of these transshipments prior to September 1st, 1903, can be given, but in 1904 they amounted to 3,655,128*l*.

(b) Exclusive of the value of goods shipped as ship's stores in Australian ports on board vessels bound for oversea countries in 1900 and later years, previously included. For amounts, see note (d), p. 219.

(c) Silver-lead Bullion is included with "Silver contained in matte" and with "Lead contained in matte" in 1907 and later years.

(d) Including Concentrates from 1909 inclusive.

(e) Including Wool "tops" from 1909 inclusive, not distinguished in prior years.

(a) The Canadian Authorities state that practically all the coal imported into Canada may be taken to be imported at Atlantic ports, the source of this coal being either from over seas or from the coal-exporting States of the American Republic. It is to be added that the larger proportion of this coal is brought into Canada by railway.

NOTE.—From 1903 the Trade Returns were compiled by the Commonwealth Government for Australia as a whole with places outside the Commonwealth, and not by each State, as in former years.

The Totals compiled by the Commonwealth Government for comparative purposes for years prior to 1903, differ slightly, in some cases, from those obtainable from the State Returns. For total value of Imports and Exports in those years according to Commonwealth Returns, see pp. 211 and 218, respectively.

				(a)				

(a) From 1st September 1903 to 1909 inclusive, the value of goods removed from one State of the Commonwealth to another for transhipment abroad is uniformly included in the figures shown for the State from which the goods were originally despatched. From 1910 inclusive, exports are credited to the State from which they were finally despatched from the Commonwealth. Owing to the discontinuance of the Inter-State Trade Records, it is not possible to refer transhipped goods to the State from which they were originally consigned. See note (a), p. 105.

(b) Exclusive of ships' stores in 1906 and later years—previously included. For amounts, see note (d), p. 219.

(c) Exclusive of Inter-State transhipments of overseas goods in 1903 and prior years. See note (a), p. 101.

(d) Value of Australian warships to the value of 2,495,000*l.*, not allocated to the various States.

NOTES.—Preferential treatment has been accorded to certain goods the produce or manufacture of some part of the British Dominions, on importation into New Zealand, from November 16th, 1903. The preference was extended to certain other British goods from July 17th, 1907, and from April 1st, 1908, respectively.

All South African goods (except spirits) have also been accorded preferential treatment from January 1st, 1907. (a) Certain British Possessions and Protectorates (viz., Cyprus, Federated Malay States, Zanzibar, Gilbert and Ellice Islands, and the Tonga or Friendly Islands) are classed with "Foreign Countries," in the original trade returns. From 1911, however, they have been included with "British Possessions," and not with "Foreign Countries," in the above Table.

(a) Excluding British Possessions on the "Windward" and "Leeward" coasts of Africa. It is stated in the original returns that "vessels which had called (in the case of those arriving in the Colony), or which intended to call (in the case of those leaving the Colony), at more ports than one on the West Coast of Africa, were said to have come from, or to have left for the 'Windward Coast' when the ports are to the north, or the 'Leeward Coast' when the ports are to the south, of Sierra Leone." From 1903 inclusive, the trade at ports on the Windward and "Leeward" coasts was separately distinguished.

NOTES.—For rate of conversion of dollars into £ sterling, see Table No. 2, p. 5.

The *Reciprocal Tariff Act No. 16 of 1897* came into force on 23rd April 1897, and goods (except alcoholic liquors, tobacco and sugar), the produce or manufacture of the United Kingdom and certain British Colonies and Foreign Countries, when imported direct, were entitled to a reduction of 4th of the duty to 30th June 1898 and 4th of the duty to 31st July 1898.

In August 1898, this Tariff Act was superseded by the *British Preferential Tariff Act No. 37 of 1898* which continued the benefits to goods (except alcoholic liquors, tobacco, and in certain cases, sugar), the produce or manufacture of the United Kingdom and certain British Possessions when imported direct, and a reduction of 4th of the general duty was allowed to the 30th June 1900, and 1rd of the duty, under Act No. 15 of 1900, after that date. Preferential Treatment was extended to South African products from 1st July 1904. Slight amendments of the preference allowed on woollens, cordage, china, tableware and common window glass were made from June 7th, 1901, under Act No. 11 of 1901.

Under Act No. 11 of 1907, which came into force on November 30th, 1906, the Customs Tariff was revised, and varying rates of preferential duties were accorded to various products of the United Kingdom and certain British Colonies and Possessions. This Act also provided for an "Intermediate Tariff" (i.e., a tariff which provides, for the most part, for the imposition of duties lower than the General, but higher than the British Preferential, Tariff rates of duty), which could be applied from time to time to the products of any country in consideration of benefits satisfactory to the Governor-in-Council. The Intermediate Tariff has been partly applied to various articles—the produce of certain British Possessions and Foreign countries—in consequence of the Franco-Canadian Convention of 1897, under Act No. 23 of 1909, with effect from 1st February, 1910, and also under certain Commercial Agreements, to similar articles, when the produce of Belgium and the Netherlands, with effect from 10th June 1910, and to some of those articles—when the produce of Italy, with effect from the same date. A Special Tariff—limited to a few articles—which was provided for in the Franco-Canadian Convention of 1907 has also been applied to the products of certain countries, with effect from 1st February 1910.

The Customs Tariff was further revised by Act No. 15 of 1913, which came into force on the 13th May 1913, and which gave effect to the Canada and West-Indian Reciprocity Agreement of 1912. The benefits of the British Preferential Tariff were extended by an Order-in-Council of the 25th January 1913, with effect from 1st February 1913, to the products of certain other British Colonies, Possessions, and Protectorates.

Under Act No. 15 of 1903, articles which were the growth, produce, or manufacture of Germany, were, from April 17th 1903, subjected to a surtax of 4rd of the duties charged under the General Tariff. This surtax was continued by the Customs Tariff Act No. 11 of 1907 to 1st March 1910, when it was suspended by an Order-in-Council, dated 15th February 1910.

The bulk of the wheat imported into Canada from the United States passes in transit duty-free through the Dominion for export to the United Kingdom and other Countries. Such wheat is included in both the Canadian Import and Export Returns.

The Canadian authorities state that wheat shipped from Canada via United States Ports is credited to the country of destination, the wheat being in bonded cars and not opened, except for the purpose of transfer to ocean vessels.

NOTE.—A small quantity of cane-sugar is produced in the Nyasaland Protectorate for local consumption and of beet and maple sugar in the Dominion of Canada.  
In Canada, the acreage and production of beet sugar were as follows:—

Years.	Acreage.	Production.	Years.	Acreage.	Production.
1909	11,100	Cwts. 197,118	1912	18,800	Cwts. 248,779
1910	9,350	177,482	1913	17,000	272,321
1911	20,878	200,120			

Particulars of Imports and Exports of beet Sugar are not distinguished in the Trade Returns. The Canadian Government states that 100 lbs. of raw sugar equals 88 lbs. of refined sugar.  
(a) The production figures given for 1909 and prior years relate to Natal only. According to the 1911 census returns only very small areas of sugar cane are grown in the other Provinces of the Union.

(e) A large quantity of "Fancy Molasses" has been made from 1911 inclusive, direct from the juice of the sugar-cane, and, consequently, the yield of "sugar" made from the acreage given is lower than it otherwise would be. It is estimated that the quantity of "Fancy Molasses" produced in 1913 was 4,139,120 old wine gallons, while that of "Choice Molasses" was 916,830 old wine gallons.

(f) Owing to the reduced price of sugar and molasses about 1,500 tons of sugar, and 10,000 gallons of molasses were in the hands of the shippers at the close of 1913.

Note.—A small quantity of cotton is grown in Papua. In 1912-13 the exports were 1,488 lbs., valued at 74l. (a) The figures are for 12 months ended 31st March of the years stated. The exports are by sea only. For total exports by land, see Table No. 20, pp. 76-7.

(b) The figures in above statement relating to the area and production in British India are as revised in the Returns giving estimates of the yield of the cotton crop, and which are compiled in the Statistical Department of the Government of India. They include the Native States. The figures for production represent "cleaned" cotton (i.e., with the seeds extracted), and conversions have been made from bales to lbs. at the rate of 400 lbs. to the bale.

(c) For rates of conversion of rupees into £ sterling see Table No. 2, p. 5.

(d) The figures given represent "unginned" cotton produced in the State of Queensland. Cotton is not grown to any extent in any other State of the Commonwealth, but small areas (about 15 acres in 1912) are planted in the Northern Territory.

(e) Inclusive of crops owned by natives. In some cases the figures are only approximate.

(f) Ginned cotton.

(g) Certain production figures for "ginned" and "unginned" cotton are available, but the Nyasaland Protectorate Government states that the export figures for "ginned" cotton are more reliable.

(h) The export figures include kapok, or tree cotton, as well as cotton for spinning. (i) Ginned cotton—the exports of “unginned” cotton having been converted on the assumption that 1 lb. of “ginned” cotton is obtained from 3 lbs. of “unginned” cotton. (j) The figures given, represent the exports to the United Kingdom, classified according to the “Country of ultimate destination,” so far as known, from the year stated, and not according to the “Country to which exported” as in previous years. (k) Figures for Natal only in years prior to 1910. In 1910 the figures relate to the production in the Transvaal only—the particulars for other parts of the Union of South Africa not being available. (l) The figures are for the 12 months ended 31st March of the years following those stated. (m) Ginned and unginned cotton—the quantity of each kind not being separately stated. (n) For the 18 months ended 30th June 1911. (o) Very little cotton, of domestic produce, is exported from Southern Rhodesia.

(a) Exclusive of loans repaid.

(b) Inclusive of the amount expended on the construction of railways.

(c) The import duties for Pahang prior to 1911 were farmed. The figures given for 1910 for Pahang represent the Government share of import duty on opium—the amount in previous years having been included in the General Farm receipts.

(d) Excluding Pahang's share (\$1,237,704) of the cost of the construction of the Pahang Trunk Road which took a little over four years to complete. The sums expended were advanced by Selangor.

(e) See note (a) on the previous page.

(f) Exclusive of interest on loans in 1901 and prior years. The amounts due were added to the debts owing to Selangor and Perak until the end of 1901, when a sum of \$350,206 was remitted by those States.

(a) An Enactment was passed in each of the Federated Malay States in 1904, which provided for the Registration of Imports and Exports.

(b) It is stated in the original returns that the value of the imports into Pahang for 1899 is probably over-estimated, as a large quantity of goods, of which the real value was unknown, was arbitrarily valued at \$150,000.

(c) The returns of imports and exports by sea are for the principal ports only. Overland trade is included, so far as possible.

(d) Including "Gold (cyanide)" and "Gold concentrates."

(a) The figures show the quantity of Tin in the Tin Ore exported (calculated at 68% of the gross weight to October 31st, 1904, and thereafter 70%), this being the weight on which export duty was paid.

(b) Domestic exports from 1909 inclusive, such exports not being previously distinguished.
