Note.—For purposes of abbreviation the term *Rx. has*, in some cases, been used in the Tables in this Abstract to denote 10 rupees. In India 1 pice = 3 pies (¼d.); 12 pices = 1 anna (1d.); 16 annas = 1 rupee (1s. 4d.). A lakh (lac) is 100,000 rupees, and a crore is 100 lakhs.

(a) In the **Straits Settlements** the standard coin of the Colony was, by an Order in Council of 2nd February 1895, the silver Mexican dollar, the British dollar and old Hong Kong dollar being also legal tender. By a Proclamation dated 5th October 1903, issued under the Straits Settlements (Coinage) Order in Council of 25th June 1903 the *Straits Settlements silver dollar* was made the standard coin of the Colony, and the Mexican dollar was treated, by the same Order in Council, as its equivalent.

Under a Notice issued on 24th August 1904, Mexican, British, and Hong Kong dollars ceased to be legal tender after 31st August 1904.

Under an Order in Council of October 22nd, 1906 the *sovereign* was made legal tender within the Colony for the payment of any amount at the rate of 7 sovereigns for 60 Straits Settlements dollars (2s. 4d. per dollar), and it is provided by the same Order in Council that the Straits Settlements silver *dollar* shall remain the standard coin of the Colony. By an Order in Council of 11th February 1907 the weights of the Straits Settlements silver dollar and 50 cent piece were reduced in order to preserve the fixed ratio to gold.

Conversions of the silver *dollar* into £ sterling have been made, as follows:—

In 1900, at 2s.; in 1901, at 1s. 11d.; in 1902, at 1s. 8½d.; in 1903 at 1s. 9d.; in 1904, at 1s. 10½d.; in 1905, at 2s.; and in 1906 and later years, at 2s. 4d.

In **Labuan**, the Straits Settlements silver *dollar* was made the standard coin under Notification No. 22 of September 9th, 1905. Prior to this date, Mexican, British, and Hong Kong dollars were current. Conversions into £ sterling have been made at the same rates as those shown for the Straits Settlements.

In the **Federated Malay States**, the Straits Settlements silver *dollar* was made the standard coin in 1903, the British and Mexican dollars being treated as its equivalent to 31st August 1904, when they ceased to be legal tender. Provision was made for the continuance of the Straits Settlements silver *dollar* as the standard coin of the Federated Malay States by the Federal Enactment No. 21 of 1913, which repealed various State Enactments of 1907.

In the **Malay States, not in the Federation**, the Straits Settlements silver *dollar* is the standard coin. In Kelantan, it was made the standard coin of the State by Enactment No. 15 of 1910, and in Trengganu by a Proclamation dated 27th April 1915. In Johore, Kedah and Perlis it is recognised as the standard coin by established custom, but is not declared to be such by any Statute.

In **British North Borneo, Sarawak, and Brunei** the Straits Settlements silver *dollar* has also been made the standard coin—British, Mexican and other dollars ceasing to be legal tender.

In British North Borneo, all silver coinage of any denomination whatsoever, being subsidiary to the silver dollar of the Straits Settlements, is legal tender, provided that the limit of such tender of such subsidiary coinage shall not exceed the value of 10 dollars (Proclamation No. 9 of 1912).

In **Hong Kong**, the Mexican, British, and Hong Kong dollars are current.

Conversions into £ sterling have been made at the same rates as those shown for the Straits Settlements for 1905 and prior years. In 1906 conversions into £ sterling have been made at the rate of 2s. 2½d. per dollar; in 1907, at 2s. 1½d.; in 1908, at 1s. 8¾d.; in 1909, at 1s. 8½d.; in 1910, at 1s. 9d.; in 1911, at 1s. 8½d.; in 1912, at 1s. 11½d.; in 1913, at 1s. 11½d.; and in 1914, at 1s. 9½d.

(a) For 9 months ended 31st December 1905. (p) Only the profit on the Uganda Railway (£8,836L.) was brought to account in 1905-6. In later years, both receipts and payments are included in the finance returns.
 (q) Excluding Head Office Revenue of the British South Africa Company. (r) The reduced revenue from 1906 inclusive is due to the exclusion of the transactions of local bodies and to an alteration in the manner of showing the earnings and working expenses of the State railways. From that date, the net receipts of the railways are shown under Revenue, the working expenses being deducted from the total earnings instead of being entered on the expenditure side as previously.
 (s) Inclusive of 492,106L. collected in previous years, but not brought to account till 1906-7.
 (t) For the 12 months ended 30th September of the years stated. (u) Including Railway and certain Departmental receipts, previously excluded. (v) Excluding receipts from mines, land, &c., in "South Africa"—the receipts from such sources being included with those given for Southern Rhodesia in years prior to 1908-9. (w) Including appropriations-in-aid. (x) Excluding receipts from State coal mines and secondary production. (y) Excluding Commonwealth subsidy.
 (z) The Customs, Marine, and Railway Departments of Northern Nigeria were each amalgamated on the 1st January 1913, with the corresponding Department of Southern Nigeria, and their Revenue and Expenditure included in the Southern Nigeria accounts. * For six months ended 30th June 1911.

(a) The Customs Revenue was collected by the Commonwealth Government from January 1st, 1901, but the Trade Returns were first compiled for Australia as a whole by the Commonwealth Government in 1903, and not by each State as in former years. The figures given from that date represent the net receipts from "Customs" according to the Treasury Statement of the Commonwealth Government—allowance having been made for Inter-State transfers. The receipts have not been allocated to the several States from 1911, inclusive. (b) Including Excise Duties. (c) There is a slight duplication in the figures on account of the duties collected on goods imported via Southern Nigeria for Northern Nigeria being included in the figures for both Southern and Northern Nigeria respectively, in years prior to 1913. See (f) note. (d) For the 6 months ended 31st December 1912. (e) The figures for Labuan include the amounts paid by farmers for the right of levying duties on the importation or sale of dutiable articles. (f) The figures include receipts from the export and sales of rubber and ivory. (g) For the 12 months ended 30th September of the year stated. (h) For the 11 months ended 30th May 1910.

(b) Excluding inter-provincial shipping (i.e., between Cape of Good Hope and Natal), included in years prior to 1910.
 (m) The figures given for 1904 and later years represent the shipping of Australia direct with places outside the Commonwealth—the shipping returns having been compiled for the first time by the Federal Government in 1904, and not by each State as in former years. Comparative figures (i.e., excluding inter-State shipping) for years prior to 1904 cannot be given for the Commonwealth as a whole, as vessels trading with more than one State from or to places outside the Commonwealth were, as a rule, included in the returns of each of those States.
 (n) For the 15 months ended 31st March 1904.
 (o) One line of steamers ceased to make fortnightly calls at Kingstown in 1906.
 (p) The Colony and Protectorate of Southern Nigeria were placed under the same administration from May 1st, 1906, and the trade and shipping returns for the Colony and the Protectorate have been amalgamated from 1906 inclusive—the trade between the Colony and Protectorate being treated as Coasting Trade.
 (q) The figures given represent gross tons.
 (r) Including the tonnage of steam vessels calling for coals and stores, excluded in years prior to 1910.
 (s) Excluding the tonnage of vessels calling to coal, amounting to 1,720,353 tons in 1914.

(a) The Commonwealth Government states that the only official intimation of ship building is the registration of the ship. Such registration may not be effected for some years after the ship is built, and consequently the figures for past years are subject to amendment from year to year.

In addition to the above sailing and steam vessels, a few oil motor boats, pontoons, dredgers, &c. are built, from time to time, in the various States of the Commonwealth.

NOTE.—There are no complete Returns of the trade of Hong Kong and Gibraltar. For the trade

(a) For rates of conversion into £ sterling, see Table No. 2, p. 5. (b) Excluding Bullion and Specie. (c) For the 12 months ended 31st March of the year following that stated above. (d) The figures given represent the Imports (excluding Inter-Settlement trade) into Singapore, Penang, Dindings, and Malacca, and also, from 1908 inclusive, into Labuan and Christmas and Cocos Islands, which now form part of the Colony of the Straits Settlements. (e) Including the value of Coal for supply to steamships. (f) Including transshipments. (g) For the 12 months ended 30th June of the years stated. (h) Imports for consumption. (i) Dutiable goods only. (j) For value of Imports into each State, see Table No. 27, pp. 220-1. (k) Reduction partly due to the imports into the Australian Commonwealth being classified according to "Countries of Origin" from 1908 inclusive, and not according to "Countries of Shipment" as in prior years. (l) In consequence of the formation of the Union of South Africa on 31st May 1910 the figures from 1910 inclusive are not available for the several Provinces, but only for the Union of South Africa as a whole. The figures for all years are inclusive of the value of goods in transit for the interior, but in years prior to 1910 the Imports via Natal or the Cape of Good Hope in transit to other places in South Africa were included in the figures shown for those Provinces, as well as in those of final destination. For 1905 and prior years, overland trade is excluded from the figures for Natal, but partly included in those for the Cape of Good Hope, whilst those for 1906-9 represent Imports by Sea, exclusive of inter-State trade. From 1910, the Union figures include imports overland (other than gold in transit) from other places in South Africa. (m) Approximate estimate of the total Imports after deducting, so far as has been found practicable, the value of articles which pass in transit from the maritime Provinces to the inland Territories, &c., and are therefore included in the accounts of more than one Province or Territory.

NOTES.—The above figures represent the imports into Singapore, Penang, Dindings, and Malacca, and also, from 1903 inclusive, into Labuan and the Christmas and Cocos Islands, exclusive of Inter-Settlement Trade. In 1906, Labuan and the Christmas and Cocos Islands were, for the first time, treated in the trade returns as part of the Colony of the Straits Settlements. The trade of Labuan, as well as the rail traffic between Penang and Perak, was, in 1905, included in the total only—details of the separate articles not being available. From 1903 inclusive, however, the Labuan trade and the rail traffic between Penang and Perak are also included in the details.

For rates of conversion of dollars into £ sterling, see Note (a), Table No. 2, p. 5.

(b) It is stated by the Straits Settlements Government that, previous to 1912, Para Rubber transhipped at Singapore and Penang from all parts of the Malay Peninsula was inserted in the Trade Returns as Imports and Exports. From 1912, only Rubber marketed is included in the import figures, and Rubber marketed, as well as that locally produced, in the export figures. Therefore, to afford a true comparison, this article in 1911 would be less by, approximately, 67,800 cwt., and £1,493,858—the imports from the Federated and non-Federated Malay States and exports to the United Kingdom being affected to this extent.

Note.—It is stated in the original returns that the figures are to be taken as accurate only so far as the years 1903 and later years are concerned. In the preceding years the articles have been classified as nearly as possible on the same basis as in later years, but it has been found a matter of great difficulty, owing not only to the want of uniformity in the classification of articles in the various States, but also to the differences between the classification followed in the earlier years and that adopted in 1903 and later years.

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was not the practice in the various State Customs Offices to record transshipments. It follows that goods arriving from beyond the Commonwealth at any Australian port and thence transhipped to another State were recorded in the State in which they ultimately arrived as an import from the transshipping State, and not, as they are now, as an overseas import. The figures shown above represent the estimated value of such transshipments, and must be added to the recorded imports to obtain the true gross import from Countries beyond the Commonwealth.

(b) Ribbons, galloons, &c., included in 1910 and prior years with velvets, &c., are included with "Trimmings" from 1911 inclusive.

(c) Excluding feathers made up into trimmings and natural birds and wings, included with "Other kinds of apparel" from 1912 inclusive.

(d) Including locomotive wheels in 1913—previously excluded.

Note.—It is stated in the original returns that the figures are to be taken as accurate only so far as the years 1903 and later years are concerned. In the preceding years the articles have been classified as nearly as possible on the same basis as in later years, but this has been found a matter of great difficulty, owing not only to the want of uniformity in the classification of articles in the various States, but also to the differences between the classification followed in the earlier years and that adopted in 1903 and later years.

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was the practice in most of the States for goods of local produce despatched from one Australian State to another for transhipment beyond the Commonwealth to be recorded only as inter-State transfers from the original State, no notice being taken of the overseas export. The present uniform practice is to count such goods as being exported from the place where they are actually placed on board overseas vessels so as to avoid the possibility of transhipment being treated as exports at the place of production and at the place of final export. No reliable estimate of the values of these transhipments prior to September 1st, 1903, can be given, but in 1904 they amounted to 3,655,128l.

(b) Exclusive of the value of goods shipped as ship's stores in Australian ports on board vessels bound for overseas countries in 1906 and later years, previously included. For amounts, see note (d), p. 219.

(c) Silver-lead Bullion is included with "Silver contained in matte" and with "Lead contained in matte" in 1907 and later years.

(d) Including Concentrates from 1900 inclusive.

(e) Including Wool "tops" from 1900 inclusive, not distinguished in prior years.

(a) The Canadian Authorities state that practically all the coal imported into Canada may be taken to be imported at Atlantic ports, the source of this coal being either from over seas or from the coal-exporting States of the American Republic. It is to be added that the larger proportion of this coal is brought into Canada by railway.

NOTE.—From 1903 the Trade Returns were compiled by the Commonwealth Government for Australia as a whole with places outside the Commonwealth, and not by each State, as in former years.
The Totals compiled by the Commonwealth Government for comparative purposes for years prior to 1903, differ slightly, in some cases, from those obtainable from the State Returns. For total value of Imports and Exports in those years according to Commonwealth Returns, see pp. 214 and 218, respectively.

(a) From 1st September 1903 to 1909 inclusive, the value of goods removed from one State of the Commonwealth to another for transhipment abroad is uniformly included in the figures shown for the State from which the goods were originally despatched. From 1910 inclusive, exports are credited to the State from which they were finally despatched from the Commonwealth. Owing to the discontinuance of the Inter-State Trade Records, it is not possible to refer transhipped goods to the State from which they were originally consigned. See note (a), p. 105.

(b) Exclusive of ships' stores in 1906 and later years—previously included. For amounts, see note (d), p. 210.

(c) Exclusive of Inter-State transshipments of overseas goods in 1903 and prior years. See note (a), p. 101.

(d) Inclusive of Australian warships to the value of 2,405,000*l.* in 1913 and 233,500*l.* for the six months ended 30th June 1914, not allocated to the various States.

All *South African* goods (except spirits) have also been accorded preferential treatment from January 1st, 1907.

(a) Certain British Possessions and Protectorates (viz., Cyprus, Federated Malay States, Zanzibar, Gilbert and Ellice Islands, and the Tonga or Friendly Islands) are classed with "Foreign Countries," in the original trade returns. From 1911, however, they have been included with "British Possessions," and not with "Foreign Countries," in the above Table.

(b) The Imports are classified according to "Countries of Origin" in 1914, and not according to "Countries whence Imported" as in previous years.

(c) Imports from Asia Minor in years prior to 1913.

(a) The designation of the Colony of Lagos was changed to the Colony of Southern Nigeria by Letters Patent dated February 28th, 1906, the provisions of which came into force on May 1st, 1906. The Colony and Protectorate of Southern Nigeria were placed under the same administration from that date. Under the provisions of certain Orders-in-Council, dated November 22nd, 1913, the designation of the Colony of Southern Nigeria has been changed to the "Colony of Nigeria," whilst the Protectorates of Southern and Northern Nigeria have been amalgamated under the name of "Protectorate of Nigeria," with effect from January 1st, 1914. The Trade Returns for the Colony and Protectorate of Southern Nigeria were combined from 1908 to 1913 inclusive, and for Nigeria as a whole from January 1st, 1914.

(b) Including Grand Canary, Madeira, and Tenerife.

(c) Mostly transit trade, which was largely increased in consequence of the abolition of transit fees on March 20th, 1905.

(d) For details for the Protectorate of Southern Nigeria for 1905 and prior years, see previous issues of this Abstract.

(e) In transit to and from Porto Novo only.

(f) The Imports are classified according to "Countries whence Consigned" from 1910 inclusive, and not according to "Countries whence Imported," as in previous years.

(a) Excluding British Possessions on the "Windward" and "Leeward" coasts of Africa. It is stated in the original returns that "vessels which had called (in the case of those arriving in the Colony), or which intended to call (in the case of those leaving the Colony), at more ports than one on the West Coast of Africa, were said to have come from, or to have left for the 'Windward Coast' when the ports are to the north, or the 'Leeward Coast' when the ports are to the south, of Sierra Leone." From 1900 inclusive, the trade at ports on the "Windward" and "Leeward" coasts was separately distinguished.

NOTES.—For rate of conversion of dollars into £ sterling, see Table No. 2, p. 5.

The *Reciprocal Tariff Act* No. 16 of 1897 came into force on 23rd April 1897, and goods (except alcoholic liquors, tobacco and sugar), the produce or manufacture of the United Kingdom and certain British Colonies and Foreign Countries, when imported direct, were entitled to a reduction of $\frac{1}{4}$ th of the duty to 30th June 1898 and $\frac{1}{4}$ th of the duty to 31st July 1898.

In August 1898, this Tariff Act was superseded by the *British Preferential Tariff Act* No. 37 of 1898 which confined the benefits to goods (except alcoholic liquors, tobacco, and in certain cases, sugar), the produce or manufacture of the United Kingdom and certain British Possessions when imported direct, and a reduction of $\frac{1}{4}$ th of the general duty was allowed to the 30th June 1900, and $\frac{1}{4}$ th of the duty, under Act No. 15 of 1900, after that date. Preferential Treatment was extended to South African products from 1st July 1904. Slight amendments of the preference allowed on woollens, cordage, china, tableware and common window glass were made from June 7th, 1904, under Act No. 11 of 1904.

Under Act No. 11 of 1907, which came into force on November 30th, 1906, the Customs Tariff was revised, and varying rates of preferential duties were accorded to various products of the United Kingdom and certain British Colonies and Possessions. This Act also provided for an "Intermediate Tariff" (i.e., a tariff which provides, for the most part, for the imposition of duties lower than the General, but higher than the British Preferential, Tariff rates of duty), which could be applied from time to time to the products of any country in consideration of benefits satisfactory to the Governor in Council. The Intermediate Tariff has been partly applied to various articles—the produce of certain British Possessions and Foreign countries—in consequence of the Franco-Canadian Convention of 1907, under Act No. 28 of 1908, with effect from 1st February, 1910, and also under certain Commercial Agreements, to similar articles, when the produce of Belgium and the Netherlands, with effect from 10th June 1910, and to some of those articles—when the produce of Italy, with effect from the same date. A Special Tariff—limited to a few articles—which was provided for in the Franco-Canadian Convention of 1907 has also been applied to the products of certain countries, with effect from 1st February 1910.

The Customs Tariff was further revised by Act No. 15 of 1913, which came into force on the 15th May 1913, and which gave effect to the Canada and West Indian Reciprocity Agreement of 1912. The benefits of the British Preferential Tariff were extended by an Order-in-Council of the 25th January 1913, with effect from 1st February 1913, to the products of certain other British Colonies, Possessions, and Protectorates.

A *surtax* has been imposed on practically all articles by Act No. 3 of 1915, which came into force on the 12th February 1915, with the effect that such articles were accorded preferential treatment on importation into the Dominion.

Under Act No. 15 of 1903, articles which were the growth, produce, or manufacture of Germany, were, from April 17th 1903, subjected to a *surtax* of 1rd of the duties charged under the General Tariff. This *surtax* was continued by the Customs Tariff Act No. 11 of 1907 to 1st March 1910, when it was suspended by an Order-in-Council, dated 15th February, 1910.

(f) The Imports are practically all from the United States. The bulk of the wheat imported into Canada from the United States passes in transit duty-free through the Dominion for export to the United Kingdom and other Countries. Such wheat is included in both the Canadian Import and Export Returns.

The Canadian authorities state that wheat shipped from Canada *via* United States Ports is credited to the country of destination, the wheat being in bonded cars and not opened, except for the purpose of transfer to ocean vessels.

(j) The figures given are only approximate, being exclusive, in some instances, of small areas cultivated in patches. The returns for 1913 show a great decrease in the area under Sugar-cane in Province Wellesley.

(k) Excluding beet sugar, which is grown in Victoria.

NOTE.—A small quantity of beet and maple sugar is produced in the Dominion of Canada. The acreage and production of beet sugar were as follows:—

Years.	Acres.	Production.	Years.	Acres.	Production.
		Cwts.			Cwts.
1900	11,100	175,098	1912	18,900	222,124

1911	20,677	184,036	1914	12,100	279,477

Particulars of Imports and Exports of beet Sugar are not distinguished in the Trade Returns. The Canadian Government states that 100 lbs. of raw sugar equals 85 lbs. of refined sugar.

(a) The production figures given for 1900 and prior years relate to Natal only. According to the 1911 census returns only very small areas of sugar cane are grown in the other Provinces of the Union.

(e) A large quantity of "Fancy Molasses" has been made from 1911 inclusive, direct from the juice of the sugar-cane, and, consequently, the yield of "sugar" made from the acreage given is lower than it otherwise would be. It is estimated that the quantity of "Fancy Molasses" produced in 1914 was 9,182,399 old wine gallons, while that of "Choice Molasses" was 1,897,108 old wine gallons.

(f) Owing to the reduced price of sugar and molasses about 1,500 tons of sugar, and 10,000 puncheons of molasses were in the hands of the shippers at the close of 1913.

(a) The figures are for 12 months ended 31st March of the years stated. The exports are by sea only. For total exports by land, see Table No. 26, pp. 76-7.

(b) The figures in above statement relating to the area and production in British India are as revised in the Returns giving estimates of the yield of the cotton crop, and which are compiled in the Statistical Department of the Government of India. They include the Native States. The figures for production represent "cleaned" cotton (i.e., with the seeds extracted), and conversions have been made from bales to lbs. at the rate of 400 lbs. to the bale.

(c) For rates of conversion of rupees into £ sterling see Table No. 2, p. 5.

(d) The figures given represent "unginned" cotton produced in the State of Queensland. Cotton is not grown to any extent in any other State of the Commonwealth, but small areas (about 15 acres in 1912) are planted in the Northern Territory.

(e) Inclusive of crops owned by natives. In some cases the figures are only approximate.

(f) Ginned cotton.

(g) Certain production figures for "ginned" and "unginned" cotton are available, but the Nyasaland Protectorate Government states that the export figures for "ginned" cotton are more reliable.

(h) The figures are for the 12 months ended 30th June of the years stated.

(i) Ginned cotton—the exports of “unginned” cotton having been converted on the assumption that 1 lb. of “ginned” cotton is obtained from 3 lbs. of “unginned” cotton in years prior to 1914-15. In that year “unginned” cotton may be taken to represent 50 per cent. lint and 70 per cent. seed. (j) The figures given, represent the exports to the United Kingdom, classified according to the “Country of ultimate destination,” so far as known, from the year stated, and not according to the “Country to which exported” as in previous years. (k) Figures for Natal only in years prior to 1910. In 1910 the figures relate to the production in the Transvaal only—the particulars for other parts of the Union of South Africa not being available. (l) The figures are for the 12 months ended 31st March of the years following those stated. (m) Ginned and unginned cotton—the quantity of each kind not being separately stated. (n) For the 18 months ended 30th June 1911. (o) Very little cotton, of domestic produce, is exported from Southern Rhodesia. (p) Seed or “unginned” cotton.

(a) The figures show the quantity of Tin in the Tin Ore exported (calculated at 68% of the gross weight to October 31st, 1904, and thereafter 70%), this being the weight on which export duty was paid.

(b) Domestic exports from 1909 inclusive, such exports not being previously distinguished.

(7) RAILWAYS.

In *Johore* the State Railway of 121 miles, which was formerly a continuation of the Federated Malay States Railway System, has now, owing to the purchase of the Singapore Railway by the Federated Malay States Government, become a connecting link between the two sections of the one Administration.

By provisional arrangement the *Johore* Railway was leased to the Federated Malay States Government from 1st January 1912.

For further particulars of the Federated Malay States Railway System, see under Federated Malay States, Table No. 13, p. 427.

There is also, in *Johore*, a State *light railway* running from Bandar Maharani to Parit Pechah in the Muar Division, with a total length of 14 miles opened for traffic in 1913.

The receipts of this line were \$52,646 in 1912 and \$63,440 in 1913. The working expenses cannot be stated.

In *Kedah* a line was under construction from Muda River to Alors Star. This line was linked up with the Federated Malay States Railways in 1914, and the total section of 56 miles was expected to be opened for traffic in 1915.

In *Kelantan* the construction of a railway in connection with the Federated Malay States Railway system was commenced in 1912, and was practically completed from Tumpat to Tanah Merah in 1913.
