## INTRODUCTORY NOTES.

The following notes, which contain such regulations as are of general application to the Customs Tariffs of the respective British Self-Governing Dominions, Colonies, Possessions, and Protectorates, are given here in order to avoid repetition in the various pages in the body of this Return.

[For notes relating to Regulations affecting dutiable articles sent by *Parcel Post* from the United Kingdom to the British Self-Governing Dominions, Colonies, Possessions, and Protectorates, see Appendix V.]

## British India.

The following articles may be imported *free of duty*:-

- (i) Goods belonging to the Government (sec. 20 of Act No. 8 of 1878).
- (ii) Military band instruments (other than stringed instruments) imported by a regiment of His Majesty's regular forces serving in India, and certified to be for the exclusive use of the regimental band, also certain accessories therefor. [Such instruments, &c., are also exempt from duty when imported for the use of native regiments, military police battalions and Imperial service troops (Customs' Notices of April 23rd and Oct. 20th, 1908).]
- (iii) Arms and parts and appurtenances thereof, ammunition, accoutrements, bicycles, typewriters, instruments for telegraphic or visual signalling, telephones, uniforms, medals and decorations, saddlery of a military pattern, binoculars and telescopes, veterinary instruments and appliances, range-finders, drawing, surveying, educational and gymnastic instruments and parts thereof, and appliances for games, tools and machinery for regimental workshops, and imported direct by any unit of H.M. regular forces serving in India, or by units of the Imperial Service Troops (Notifications No. 582 S.R., dated 26th January 1904, and No. 6311-85, dated 25th August 1909).
- (iv) Arms, ammunition, uniforms, saddlery of a military pattern, binoculars and telescopes, medicines and drugs, medical, &c. instruments, range-finders, drawing and surveying instruments, and medals and decorations, imported for his own use direct, under certain prescribed regulations, by an officer of H.M. - (v) Instruments, apparatus, and appliances imported by a passenger as part of his personal luggage, and in actual use by him in the exercise of his profession or calling.
- (vi) Samples of goods *not intended for sale*, and which are re-imported by commercial travellers after duty has once been paid on them, subject to certain prescribed conditions (Customs Circular No. 8 of 1907). [Articles of merchandise of foreign production taken out of the country by *bonâ fide* commercial travellers on behalf of *bonâ fide* firms having their headquarters in British India, or sent by post or otherwise by firms in British India "on approval," shall be exempt from the payment of Customs duties on re-importation; or, in the alternative, such goods may, at the option of the exporter, be exported subject to a drawback of 1/3 of the duty paid on them at the time of original importation, 1/3 only of the duty payable being charged on subsequent re-importation; provided, in either case, that the articles not sold are re-imported within one year from the date of exportation, and that the Collector of Customs is satisfied of the identity of the articles re-imported.]

Goods transmitted under Customs seal may, under certain conditions, be imported free of duty *viâ* the Hoshiarpur, Leh, and Srinagar routes through British India and the territories of H.H. the Maharajah of Kashmir and Jammu to Russian and Chinese Turkestan. The drawbacks allowed under this Regulation are specified under the various articles affected in the body of this Return.

INTRODUCTORY NOTES—*continued.*Commonwealth of Australia—*cont.*

The Customs Tariff of 1908-11 provides that :—

(i) Any article, not otherwise dutiable, composed of a combination of other articles, some of which are dutiable when imported separately and of others free of duty when imported separately, shall be dealt with as follows :—

(a) When the value of the dutiable portion exceeds the value of the free portion, duty shall be charged upon the whole article at the same rate as would be chargeable on that portion of the dutiable portion which, if imported separately, would be liable to the highest rate of duty.

(b) When the value of the free portion exceeds the value of the dutiable portion of such article, the whole article shall be admitted free of duty.

(ii) Whenever any goods are composed of two or more separate parts, any part though imported by itself shall, if so directed by the Minister, be dealt with under the item applicable to the complete goods.

[Under a Customs Notice, dated 17th January 1912 (Customs Order No. 1512 of 1912) it is directed that, except where otherwise expressly provided by the Customs Tariff 1908-11, any part of any goods which are dutiable *ad valorem* or exempt from duty shall, though imported by itself, be dealt with under the tariff item applicable to the complete goods, provided that, in terms of sec. 138 of the Customs Act, 1901-10, if any such part is commercially usable on more than one article, the part shall be classified under the tariff item applicable to the higher or highest rated article with which it is commercially usable. These provisions are not applicable to any part or parts, which may, by notice published in the "Commonwealth Gazette" from time to time, be individually or collectively exempted from their operation.

Under a further Notice of 22nd February 1912, it is directed that parts of any article, machine, or appliance shall, though specifically or generically provided for in the tariff as parts, if imported with any such article, machine or appliance, in a complete or substantially complete state, be classifiable under the item applicable to such article, machine, or appliance.

Articles, machines, and appliances shipped in an unassembled condition ready or practically ready for assembling shall be treated as though actually assembled.]

The Tariff Act, No. 7 of 1908 (which came into force on 8th August 1907), as amended by Acts Nos. 39 of 1910 and 19 of 1911, provides for preferential rates of duty on certain goods imported into the Commonwealth, when the produce or manufacture of the

and which are shipped in the United Kingdom to Australia and not transhipped, or if transhipped, then the preferential duties are only allowed if it is proved to the satisfaction of the Collector of Customs that the goods have not, since they were shipped in the United Kingdom, been subjected to any process of manufacture.

Numerous articles are accorded preferential treatment, and the preference allowed varies with the article as shown in the body of this Return.

The Customs Regulations provide that the Preferential Tariff on goods the produce or manufacture of the United Kingdom will not be recognised as applying to any goods unless, on importation into the Commonwealth and entry of the goods, the importer shall produce to the proper Officer of Customs, at the option of the latter :—

**Regulations for  
entry of goods  
under the British  
Preferential Tariff.**

- (i) A certificate (a) by the suppliers or manufacturers, as the case may be, in prescribed form; and/or
- (ii) Such other or further evidence as the Officer of Customs may require, proving that the goods are *bonâ fide* the produce or manufacture of the United Kingdom; or

(a) In instances where manufacturers' invoices accompany suppliers' invoices, and it is clear from the marks and numbers or other evidence on the documents that the manufacturer was aware that the goods were destined for Australia, the Preference Certificate must be made on the manufacturers' invoice if entry is claimed under the British Preferential Tariff (Supplement No. 13 to the Customs Tariff Guide).

INTRODUCTORY NOTES—*continued.***Commonwealth of Australia—*cont.***

- (iii) A duly attested statutory declaration that the goods described in the invoice of the goods shown in entry presented are the produce or manufacture of the United Kingdom; or

[The declaration of an importer or his agent will not be accepted except in cases where there is undoubted corroborative evidence of origin.]

- (iv) A certificate to the same effect under the seal of a British Chamber of Commerce or of any British Manufacturers' Association registered with the Board of Trade.

The certificate is to be written, printed, or stamped on the invoice, or attached thereto, otherwise such particulars of the goods must be shown on the certificate as will satisfy the Officer of Customs that the certificate and invoice refer to the same goods. The statutory declaration, if furnished, is also to be attached to the invoice and satisfactorily identified with it.

With regard to the necessity of having the signature to the certificates witnessed, it is stated that the witness need not necessarily be a magistrate, notary or other public official, but may be any person competent to sign as a witness to signatures on ordinary business documents.

[It is stated in a Notice issued by the Commonwealth Department of Trade and Customs on the 19th January 1912 that the ordinary signatures of declarants and witnesses are sufficient at the foot of the certificate, the full name of the declarant being shown at the head of the form as prescribed.]

In an Order No. 1592, dated 16th September 1912, it is stated that a number of declarations are arriving in the Commonwealth not signed or made in a personal capacity.

Importers are informed that the requirements of the Department in this connection must be strictly complied with, otherwise the declarations will be refused.]

In the case of *postal packages*, not exceeding 10*l.* in value, if the contents of such packages are not merchandise for sale, a special certificate in prescribed form will be accepted if signed in the presence of a postal officer of the British Post Office at which the package is posted.

It is prescribed in the Form of Certificate of Origin which is required to be produced with entry and invoices of any imported goods claimed to be entered under the Preferential Tariff as being the produce or manufacture of the United Kingdom that there shall be a declaration to the following effect:—

- (1) That the said invoice is in all respects true and correct;
- (2) That every article mentioned in the said invoice has been either wholly or partially produced or manufactured in the United Kingdom;
- (3) As regards those articles only partially produced or manufactured in the United Kingdom:—

- (a) That the final process or processes of manufacture have been performed in the United Kingdom;
- (b) That the expenditure in material of British production and / or British labour (*calculated subject to the qualification hereunder*) in each and every article is not less than one-fourth of the *factory or works cost* of such article in its finished state;

- (4) That in the calculation of such proportion of British production or British labour none of the following items has been included or considered:—

Manufacturer's profit or the profit or remuneration of any trader, agent, broker, or other person dealing in the article in its manufactured finished condition;  
Cost of outside packages or any cost of packing the goods thereinto;  
Any cost of conveying, insuring, or shipping the goods subsequent to their manufacture.

5. With regard to any bottles, flasks, or jars being containers of goods mentioned in the invoice, that such bottles, flasks, or jars are of British manufacture, and if purchased from bottle exchanges have distinctive marks or features which enable the certifier to certify to their British origin.

(If clause 5 cannot be certified to, the certifier should strike it out.)

*Alternative Form of Certificate:*

When the facts allow of the exporter so declaring, the following abridgments may be made in the above Form of Certificate:—

- (a) Clauses 3 (a) and (b) and 4 may be omitted, and clause 2 altered to read—  
"That every article mentioned in the said invoice has been wholly produced or manufactured in the United Kingdom." (Clause 5 then becomes clause 3.)
- (b) When the invoice covers no goods put up in bottles, flasks, or jars, clause 5 and footnote thereto may be omitted.

[NOTE.—Further information as to the exact Forms of the Certificates of Origin required for the entry of goods under the British Preferential Tariff into the Commonwealth of Australia may be obtained at the office of the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.]

With regard to the manufacture of goods in the United Kingdom, provided the conditions prescribed have been complied with, preferential treatment will be accorded to goods the manufacture of which has been partly effected outside the United Kingdom, on condition that the goods have been subjected to their finishing processes in the United Kingdom, and that the total British labour, calculated in accordance with the provisions set out in these explanatory notes, represents not less than one-fourth of the works cost of the goods.

Goods will be admitted under the preferential tariff rate if the whole of the manufacturing processes have been performed in the United Kingdom, notwithstanding that the proportion of value of British labour is less than that prescribed for goods partially manufactured in the United Kingdom.

The goods must be shipped from the United Kingdom direct to Australia.

The following are the principal items which may be regarded as properly inclusive under the heading of labour :—

- (1) Raw materials of purely British origin.
- (2) Manufacturing wages.
- (3) Factory expenses, including proportion of fuel, supervision, &c.
- (4) Inside containers.

The following may *not* be included as labour :—

- (1) Foreign material entering into the composition of the goods.
- (2) Outside packages including zinc linings and tarred paper, in which goods are ordinarily exported.
- (3) Expenses incurred in placing goods in the outside packages.
- (4) Manufacturer's or exporter's profit, or the profit or remuneration of any trader, broker, agent or other person dealing in the article in its finished manufactured condition.
- (5) Carriage, insurance, &c., from place of production or manufacture to port of shipment.
- (6) Oversea freight.
- (7) Oversea insurance.
- (8) Dock dues.
- (9) Agents' or other charges for or after exportation.

Goods which, after shipment in the United Kingdom, have entered into the commerce of, or been subjected to, any process of manufacture in any other country are *not* entitled to entry at preferential rates.

When goods, after shipment in the United Kingdom have been transhipped at any port outside the United Kingdom, satisfactory proof must be produced that the conditions in these respects have not been infringed. "Transhipped" in this connection is to be interpreted in its definite sense, *i.e.*, transfer from one vessel to another for the purpose of the carriage of goods to their destination. Such transfer need not necessarily be direct—the goods may be landed if the landing is solely for transhipment, but it is essential that the goods must, during the whole time, be in the course of carriage to Australia. Goods landed for any other purpose than for transfer to another vessel (even if held in bond) cannot be regarded as having been transhipped.

By the "Australian Industries Preservation Act, 1906" (No. 9 of 1906), as amended by Acts Nos. 5 of 1908, 26 of 1909, and 26 of 1910, it is provided that the importation of goods may be prohibited or restricted if they enter into unfair competition with Australian industries, the preservation of which, in the opinion of the Comptroller-General of Customs or a Justice of the High Court, as the case may be, is advantageous to the Commonwealth, having due regard to the interests of producers, workers, and consumers.

[A Bill was introduced in the Commonwealth House of Representatives on the 5th June 1914 to make certain amendments in the provisions of the above-mentioned Acts.]

By the "Commerce (Trade Descriptions) Act, 1905" (No. 16 of 1905), which came into force by Proclamation, on June 8th, 1906, it is provided, *inter alia*, that the importation of goods to which a false trade description is applied is *prohibited*, and, further, that regulations may be issued prohibiting the importation into the Commonwealth of Australia of any specified goods, unless there is applied to them a "trade description" of such a character, relating to such matters and applied in such manner, as is prescribed.

In the case of leather other than sole leather—glucose and sugar to the extent of not more than 3 per cent. taken together, and fats and oils used in the manufacture and preparation of the leather.

[NOTE.—A Proclamation, dated 23rd May 1912, has been issued under the Customs Act, 1901-1910, prohibiting the importation of any leather, or manufactures thereof, when for human wear, containing any proportion of barium sulphate, or other barium compounds.]

- (l) In the case of *gold jewellery*, the carat quality shall be conspicuously set out in the trade description applied to the goods, and shall also, where practicable, be legibly stamped or engraved upon each article.

In the case of *jewellery wholly or partly covered by gold*, the words "rolled gold," "gold cased," "gold plated," or "gilt" as the case requires shall be conspicuously set out in the trade description applied to the goods, and shall also, where practicable, be legibly stamped upon each article.

[Under sec. (f) of a General Order (No. 1551) it is stated that with regard to imitation gold or silver, the terms "gold" or "silver," or any terms which would suggest in any degree the real article (as "American gold," "German silver," "silveroid," "albo-silver," &c.) cannot be applied to goods other than of gold or silver, without the word "imitation," or a qualification plainly indicating the true nature of the article. The term "nickel silver" may for the present be accepted when applied to articles made of an alloy known as "nickel silver." Under Customs Order (No. 1,596), dated 3rd October 1912, it is stated that, for the purposes of the Commerce Act, articles of jewellery simply coated with silver must be stamped "imitation," and also described as such.]

The Act provides that preferential treatment will not be accorded to *British* goods unless there is produced to the Collector of Customs an invoice of the goods, having written or printed thereon a certificate signed by the sender or consignor in prescribed form stating that the articles are *bonâ fide* the produce or manufacture of some part of the British Dominions. No such invoice must relate to any goods other than those to which the certificate refers. In addition to the particulars required to be given on the entry of dutiable goods, the importer or his agent shall state, to the best of his knowledge, information, and belief, the country of which such articles are the produce or manufacture, and shall satisfy the Collector, by declaration or otherwise, of the truth of such statement. In the case of parcels sent by post or through a forwarding agency, the Collector may dispense with the certificate required, if satisfactory evidence is produced that the goods are the produce, &c., of the British Dominions.

Customs Duties Act, No. 35 of 1908, respecting the Preferential Tariff are laid down in an Order in Council dated 5th June 1912, as amended by an Order in Council dated 1st July 1913, and are as follows:—

2. In the calculation of such proportion of produce or labour of the British Dominions none of the following items shall be included or considered: manufacturer's profit, or the profit or remuneration of any trader, agent, broker, or other person dealing in the article in its manufactured finished condition; cost of outside packages or any cost of packing the goods therein; any cost of conveying, insuring, or shipping the goods subsequent to their manufacture.

3. Goods landed in transit:—goods which after shipment from any part of the British Dominions have entered into the commerce of, or been subjected to any process of manufacture in, any foreign country shall not be deemed to be the produce or manufacture of the British Dominions.

**Reciprocal Agreement with South Africa.** These Acts were consolidated under the Customs Duties Act of 1908 (No. 35 of 1908), but it was therein provided that no duty shall be levied on South African products higher than that leviable under this Act of 1908 on the same goods if they were the produce or manufacture of some other part of the British Dominions.

It is also provided in the Customs Duties Act No. 35 of 1908 that nothing contained therein shall be so construed or shall so operate as to conflict with the schedule of Customs duties and exemptions (as shown below) contained in the Order-in-Council of 7th January 1907, for the purpose of carrying into effect the reciprocal agreement with the South African Colonies—provided that no higher duty shall be levied on South African products than that which would be levied under the present Act of 1908 on similar goods, the produce of any other part of the British Dominions.

Under an Order-in-Council of January 7th, 1907, as amended by an Order-in-Council of March 31st, 1909, all goods (except spirits) the produce or manufacture of the Colonies and Territories which formed part of the South African Customs Union are accorded preferential rates of duty, with effect from January 1st, 1907, on importation therefrom into the Dominion of New Zealand.

The preferential treatment of South African products is continued by Act No. 2 of 1907 for an indefinite period (*i.e.*, until terminated by the Governor by Order-in-Council gazetted).

\* The Customs Act No. 63 of 1913 provides for the imposition of an *additional* duty of ½d. per lb. on sugar and of a duty of 10% *ad valorem* on cotton (except calico), and linen piece goods, and piece goods of mixed cotton and linen, imported into the Cook Islands from New Zealand or elsewhere.

The Governor-in-Council is empowered to further amend or modify the New Zealand Tariff in its application to the Cook Islands.

imported therefrom into the Union of South Africa for consumption therein.

\* Preferential treatment was previously accorded to certain British products imported into the Union of South Africa under the South African Customs Union Convention of 1906 (as amended by Protocol in 1908).

The Convention of 1906, which came into force on the 25th May 1906, superseded the Convention of 1903, which accorded, for the first time, preferential treatment to certain products of the United Kingdom on importation into the several Provinces now forming the Union of South Africa, Basutoland, Bechuanaland Protectorate and Southern Rhodesia from the 15th August 1903. The preference was accorded to similar products on importation into Swaziland from 11th October 1904, and into North-Western Rhodesia (Barotziland) from 1st December 1905.

Similar preferential treatment to that accorded to United Kingdom goods was extended to the products of the Dominion of Canada imported into the Customs Union from 1st July 1904, of the Commonwealth of Australia from 1st October 1906, and of the Dominion of New Zealand from 1st January 1907.

INTRODUCTORY NOTES—*continued.*Union of South Africa—*cont.*

The Act also provided that a similar rebate to that granted to goods grown, produced, or manufactured in the United Kingdom on importation into the Union, shall be granted to goods which are grown, produced, or manufactured in any British Possession in which an equivalent rebate is allowed reciprocally in respect of goods imported into that Possession from the Union.

The particular British Possession in respect of which a rebate will be allowed shall be notified by the Governor-General by Proclamation in the "Gazette."

DOMINION OF CANADA.

COMMONWEALTH OF AUSTRALIA.

DOMINION OF NEW ZEALAND.

[According, however, to Customs decisions issued by the Union Government the products of such Possessions are still accorded preferential treatment similar to that granted to United Kingdom goods.]

The rebates that shall be granted are as follows:—

- (a) On certain goods charged with *specific* rates of duty, a rebate of varying amount, for which, *see under* the various articles in the body of this Return.
- (b) On certain goods liable to *mixed* rates of duty (*i.e.*, both *specific* and *ad valorem* rates), and also on all goods liable to *ad valorem* rates of duty only, a rebate of 3% *ad valorem*.\*

Provided that—

- (i) the manufactured goods in respect of which the rebate shall be allowed shall be *bonâ fide* manufactured in the United Kingdom or a reciprocating British Possession (as the case may be); and
- (ii) in the event of any question arising as to whether any goods are entitled to any such rebate the decision of the Minister in whom the control of the Customs Department is vested, shall be final.

The Customs Regulations provide that no rebate will be allowed unless there is produced on importation, for the purpose of proving the country of origin of the goods, to the proper Customs officers,—

**Regulations for entry of Goods under the British Preferential Tariff.**

- (a) A certificate by the suppliers or manufacturers, as the case may be, in prescribed form.†
- (b) Such other or further evidence as such Officer of Customs may require, proving that the goods are *bonâ fide* grown, produced, or manufactured in the United Kingdom or a reciprocating British Possession.

The certificate shall be written, printed, or stamped on the invoice, or attached thereto.

If the certificate is not written, printed, or stamped on the invoice, such particulars of the goods must be shown on such certificate as will satisfy the Customs Officers of the identity of the documents.

It is provided in the Form of Certificate of Origin† prescribed to obtain the rebate of duty on British articles that there shall be a declaration to the following effect:

"That the articles included in the invoice are *bonâ fide* grown, produced, or manufactured in the United Kingdom, or of a reciprocating British Possession (as the case may be), and that a substantial portion of the labour of that country has entered into the production of every manufactured article included in the said invoice to the extent in each article of not less than *one-fourth* of the value of every such article in its present condition ready for export to the Union."

In the case of *postal packages* not exceeding 10*l.* in value, the contents of which are not merchandise for sale, a special certificate in prescribed form will be accepted if signed in the presence of a postal officer.

\* Consequently, goods subject to a duty of 15% *ad valorem* would, if entitled to rebate, be liable to a duty of 12% *ad valorem* only.

† When the certificate is signed by some person on behalf of a manufacturer or supplier, such person must state that he is duly authorised to do so.

## INTRODUCTORY NOTES—continued.

## Union of South Africa—cont.

[NOTE.—Information as to the exact Forms of the Certificate of Origin required for the entry of goods under the British Preferential Tariff into the Union of South Africa may be obtained at the Office of the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.]

In the case of goods imported into the Union of a class or kind made or produced in the Union, if the export or actual selling price to an importer in the Union be less than the "true current value" (for definition, *see* Appendix I.) of the same goods when sold for home consumption in the usual and ordinary course in the country from which they were exported to the Union at the time of their exportation thereto, there may, in addition to the duties otherwise prescribed, be charged, levied, collected and paid on those goods on importation into the Union, a special Customs duty (or dumping duty) equal to the difference between the said selling price of the goods for export and the true current value thereof for home consumption, provided that the special Customs duty (or dumping duty) shall not in any case exceed 15% *ad valorem*.

When a bounty is granted in the country of origin on any goods, of a class or kind made or produced in the Union, an additional Customs duty equal to the amount of such bounty may be charged, levied, and collected upon the importation of these goods into the Union.

The goods in respect of which there may be charged, levied and collected any special (or dumping) Customs duty or any additional duty on bounty-fed goods shall be, from time to time, determined by the Governor-General and notified by him by Proclamation in the "Gazette."

The Customs duties, payable in respect of the importation of goods into the Union of South Africa shall not be payable in respect of goods imported as to Walvis Bay into or through the Port or Settlement of Walvis Bay.

The Customs Tariff Act No. 26 of 1914 provides that the Governor-General may enter into an Agreement with the Government of any Territory in South Africa, being a portion of the British Dominions or under the protection of the Crown, providing—

- Customs Agreements with South African Territories.**
- (a) That goods grown, produced, or manufactured in the Union shall be admitted into that Territory free of Customs duty, and that goods grown, produced, or manufactured in that Territory shall be admitted into the Union free of Customs duty;
  - (b) That one party to the Agreement shall collect on behalf of the other party the Customs duties imposed in respect of goods which, having been imported into its Territory, are removed into the Territory of the other party.

Every such Agreement shall provide that in the event of an Excise duty or surtax being imposed on any goods grown, produced, or manufactured in the Union or imported therein, a corresponding duty or surtax shall be levied on like goods, which, having been grown, produced, or manufactured in or imported into the Territory of the other party to the Agreement, are imported into the Union.

[No information has, as yet, been received that certain Customs Agreements entered into in 1910 between the Union Government and the various South African Territories and Administrations have been superseded or amended by any Customs Agreements made under the provisions of the Union Customs Tariff Act No. 26 of 1914.]

Under a Customs Agreement of 1910, as subsequently amended by Protocols, entered into between the Government of the Union of South Africa and the Territories of

<p><b>Customs Agreement with Basutoland, Swaziland, and Bechuanaland Protectorate.</b></p>	<p>BASUTOLAND, SWAZILAND, and the BECHUANALAND PROTECTORATE,</p>

it was provided that the Customs Union Tariff, as it then existed, should, subject to

certain provisos, be maintained between the contracting parties until altered by legislation enacted by the Union or the Territories.\*

It was also provided under the above-mentioned Customs Agreement that there should be a free interchange of the products and manufactures of the Union and the Territories, with the exception of spirits and beer, the duties of Customs and Excise on which should be the same as those for the time being in force in the Union.

With regard to the adjustment of duties, which shall include any Customs or Excise duty (except on Union manufactures, spirits, or beer) and any surtax, between the parties to the Agreement, it was therein decided, that this should be determined on the basis laid down in Sec. 12 of the Schedule to the South Africa Act, 1909, provided that the adjustment should be made quarterly instead of annually, which reads as follows:—

“There shall be paid into the Treasury of the Union all duties of Customs levied on dutiable articles imported into and consumed in the Territories, and there shall be paid out of the Treasury annually, towards the cost of administration of each Territory a sum in respect of such duties which shall bear to the total Customs revenue of the Union in respect of each financial year the same proportion as the average amount of the Customs revenue of such Territory for the three completed financial years last preceding the taking effect of the Act bore to the average amount of the whole Customs revenue for all the Colonies and Territories included in the Union received during the same period.”

It was further provided that the Territories should, as far as possible, conform to the laws and regulations for the time being in force within the Union in respect to refunds, rebates, abatements, suspensions, methylation, prohibitions, removals in bond or otherwise and interpretations of the Tariff.

Under a further Customs Agreement of 1910, as subsequently amended by Protocols, entered into between the Government of the Union of South Africa and the Administrations of

**Customs Agreement  
with Rhodesia.****SOUTHERN RHODESIA and  
NORTHERN RHODESIA,**

it was provided that the Customs Union Tariff, as it then existed, should, subject to certain provisos, be maintained by the contracting parties until altered by legislation enacted by the Union or the Administrations\* ; it being permitted, however, to the Administrations to grant certain additional rebates of duty under the “Rhodes’ Clause,”† of the Southern Rhodesian Order-in-Council of 1898 and the Northern Rhodesian Order-in-Council of 1911.

The Agreement provides that there shall be a free interchange of the products and manufactures of the Union and the Administrations, subject to certain conditions as to the imposition of countervailing Customs duties on excisable articles.

The contracting parties to the Agreement shall collect the Customs duties payable upon all goods imported within its borders from abroad, and the collecting party shall recover from and pay over to the consuming party the duty so collected on all goods removed from the former to the latter, subject to a deduction of 5 per cent. of the duty collected.

The Administrations shall, as far as possible, conform to the laws and regulations for the time being in force within the Union in respect to refunds, rebates, abatements, suspensions, methylation, prohibitions, removals in bond or otherwise, and interpretations of the Tariff: provided that the Administrations shall not be bound to accept any interpretation of any item of the Customs Tariff which may be in conflict with any judicial decision binding upon the Administrations.

\* The Governments of the Union of South Africa or of the Territories or Administrations are at liberty to retire on giving not less than three months’ notice to expire on the 30th June following, but should any of the Governments concerned amend their Customs Tariffs, or take any steps in conflict with the spirit and intent of the Agreements, each party thereto is at liberty to retire forthwith.

The Union Government enacted a new Customs Tariff Act, No. 26 of 1914, with effect from 1st May 1914, and, in order to maintain a Customs Tariff in the Territories of Basutoland, Bechuanaland Protectorate and Swaziland similar to that which exists in the Union, provision has been made, by Proclamations Nos. 24-6 and 28-33 of 1914, for security being given by importers for the payment, within a limited period, of any increased duty leviable under the Union Tariff that may eventually be imposed, by Proclamations issued in those Territories.

The Board of Trade have not, as yet, received information that such Proclamations have been issued.

† For particulars respecting the provisions of the “Rhodes’ Clause” of the Rhodesian Orders-in-Council, *see under* “Rhodesia,” p. xxxiii.

INTRODUCTORY NOTES—*continued.*Union of South Africa—*cont.*

Under a Convention made between the Governments of the Transvaal and the Province of Mozambique, and signed at Pretoria on 1st April 1909, relating to reciprocal arrangements regarding Customs and other matters, provision is made for the free importation into the Transvaal of all articles (except distilled and fermented liquors)—the produce of the Province of Mozambique—provided that the products of the industry of that Province will only be admitted free of duty if the elements or chief constituent parts thereof are the products of the soil of that Province.

[*Note.*—Distilled and fermented liquors are held to mean liquors containing more than 3% of proof spirit, equivalent to 1·716° C.]

It is also provided in the Convention that goods ex-bond and ex-open stocks within the Lourenço Marques District shall be admitted into the Transvaal upon payment of the duties in force in that Province at the time of entry thereto, such duties being estimated on the *proseca* value of the goods in the case of goods subject to *ad valorem* rates of duty. Importers will be required, on the arrival of the goods at Lourenço Marques, to pay the Transvaal duties to the Transvaal Customs, or to satisfy such Customs as to the due payment of those duties. Importers will also be required to produce, when necessary, proof to the satisfaction of the Transvaal Customs as to the values of the goods, and to furnish any further information which may be required for the protection of the Transvaal revenue. In the case of goods on which Transvaal Customs have been paid not entering the Transvaal, the amount so paid shall be refunded by the Transvaal Customs to the importers.

Merchandise of any origin or nationality imported through Lourenço Marques, and bound for the Transvaal, shall be entirely exempt from any charges whatever, excepting port and warehousing charges, and the charges now known as Industrial Contribution.

With respect to goods imported into the Transvaal and exported therefrom through the Port of Lourenço Marques, no higher export duties shall be imposed, either in the Transvaal or Lourenço Marques, than are levied on similar goods exported through the Ports of Good Hope and Natal, whilst it is further provided that no higher duties or other taxes shall be levied on goods imported into the Transvaal through the Port of Lourenço Marques than are levied on similar goods imported into the Transvaal through the Ports of the Cape of Good Hope and Natal.

The Convention is to continue for 10 years from 1st April 1909 and shall thereupon cease if either Government has given one year's notice to the other of its intention to terminate it. If no such notice has been given the Convention is to continue from year to year until either Government shall have given a year's notice to the other for its termination.

## Rhodesia.

The following articles may be imported *free of duty* :—

- (i) All animals bred, and articles grown, produced, or manufactured within such Colony, State, or Territory as may from time to time be approved by the Southern Rhodesia Administrator in Council, or by the Northern Rhodesia Administrator with the consent of the High Commissioner, except spirits, beer, patent medicines, and sulphuric acid or blasting compounds, distilled or manufactured within such Colony, State or Territory, as may from time to time be approved by the Administrator with the consent of the High Commissioner in case of the imposition of a duty or the prohibition of the manufacture for sale.

As regards imports into Northern Rhodesia, this paragraph only applies to goods intended for consumption in that portion of the Territory which does not fall within the Congo Basin. If intended for consumption in the Congo Basin they must be cleared under their respective tariff numbers, as in the case of oversea goods.

[All animals bred, and raw produce grown, within the Portuguese Province of Mozambique, south of Zambesi, may be imported into Southern Rhodesia free of duty (Customs Notice No. 161, dated 30th June 1910).]

- (ii) Public stores, imported or taken out of bond by, and *bona fide* for the sole and exclusive use of the Government of His Britannic Majesty, and of the Government of this Territory, provided that a certificate be delivered to the Customs Authorities given under the hand of an officer approved by the Principal Officer of Customs, setting forth that any duty levied on such public stores would be borne directly by the Government; and provided

INTRODUCTORY NOTES—*continued.*Free goods—*cont.*Rhodesia—*cont.*

further that no portion of such stores used, or unused, shall be sold or otherwise disposed of so as to come into the possession of or into consumption by any person not legally entitled to import the same free of duty, without the consent of the Principal Officer of Customs, and the payment of the duties to him by the officer selling or disposing of such public stores at the rate leviable at the date of sale.

(iii) Appointments and uniforms for military, naval, volunteer or other Imperial or Colonial forces of His Majesty.

(iv) Consular uniforms and appointments.

(v) Articles may be imported free of duty, or a rebate allowed, when imported by and for the use of members of His Majesty's regular forces, and also wines and spirits for the use of the Administrator.

The importation of the following articles is *prohibited* :—

(i) Goods of foreign manufacture and packages of such goods, bearing any names, brands, or marks purporting to be the names, marks or brands, of manufacturers resident in the United Kingdom or any British Possession (Southern Rhodesia).

(ii) Goods or packages of goods bearing any names, brands, or marks, purporting to be the names, brands, or marks of manufacturers who are not in fact the manufacturers thereof (Northern Rhodesia).

(iii) Prison or penitentiary-made goods.

A rebate or refund of duty may be granted on any raw, semi-manufactured or manufactured material used in the manufacture of any article within Rhodesia on its exportation beyond the limits of the Union of South Africa and of any Territory which is a party to a Customs Agreement entered into with the Union.

The Customs Union Tariff of 1906, as subsequently amended in 1908 and 1910, is still operative in **Southern Rhodesia** subject to certain modifications of the preferential rates leviable on British goods in consequence of the operation of what is known as the "Rhodes' Clause" (*see* next page), but a new Tariff, under Proclamation No. 19 of 1912, was brought into force in **Northern Rhodesia** on 1st February 1913, whereby provision is made for a division of the Territory, for tariff purposes, into two Zones, viz., the Zambesi Basin and the Congo Basin.

The rates of duty leviable on imports into the *Zambesi Basin* of Northern Rhodesia are practically identical with those operative in Southern Rhodesia, whilst in the case of imports into the *Congo Basin* of Northern Rhodesia, the rates of duty are, on the whole, lower than the rates on similar British goods imported into the Zambesi Basin, but no preference is granted on British goods imported into this part of the Territory.

Provision is made in the above-mentioned Tariffs in operation in Southern and Northern Rhodesia,\* for a *rebate* of duty to be allowed upon certain articles, the growth, produce, or manufacture of the

**British  
Preferential  
Tariff.**

UNITED KINGDOM,

imported therefrom for consumption into Southern Rhodesia and into the *Zambesi Basin* of Northern Rhodesia.

It is also provided that a similar rebate to that granted to goods imported from the United Kingdom under like provisions may be granted to goods—the growth, produce, or manufacture of any British Colony, Protectorate or Possession granting equivalent reciprocal privileges—such reciprocating British Possessions being the

DOMINION OF CANADA,  
COMMONWEALTH OF AUSTRALIA,  
DOMINION OF NEW ZEALAND.

Such rebates vary with the article in the case of those articles subject to *specific* rates of duty, whereas in the case of *ad valorem* goods a rebate of 3 per cent. *ad valorem* is allowed.

\* Preferential treatment was previously accorded to certain products of the United Kingdom imported into Southern Rhodesia under the Customs Union Convention of 1903 from the 15th August 1903 and to similar products when imported into North-Western Rhodesia (Barotsiland) from 1st December 1905.

Similar preferential treatment was extended to Canadian products from 1st July 1904, to Australian products from 1st October 1906, and to products of the Dominion of New Zealand from 1st January 1907.

INTRODUCTORY NOTES—*continued.*Rhodesia—*cont.*

Provision is also made for further *rebates* of duty to be granted to the products of all British Countries imported into Rhodesia in consequence of the operation of clause 47 of the Southern Rhodesian Order-in-Council of 1898, as amended by Order-in-Council of 10th August 1914, and clause 19 of the Northern Rhodesian Order-in-Council of 1911, as amended by Order-in-Council of 10th August 1914 (known in each case as the "Rhodes' Clause") which read :—

"No Customs duties levied on any articles, other than tobacco in any form and intoxicating liquors of any kind, produced or manufactured in any part of His Majesty's Dominions, or in any British Protectorate, and imported into Southern or Northern Rhodesia (as the case may be), shall exceed in amount the duties levied on similar articles from overseas according to the Tariff in force in the South African Customs Union at the date of coming into operation of the 'Southern Rhodesian Order-in-Council, 1898,' or the Tariff contained in the Customs Union Convention concluded between the Colony of the Cape of Good Hope, the Orange Free State, and Natal, in May 1898, whichever are the higher."

The Customs Union Tariffs referred to above came into operation on 1st July 1897 and 2nd January 1899 respectively.

[Under a Southern Rhodesia Government Notice No. 48 of 1913, dated 6th February 1913, it is provided that this further rebate of duty will only be granted under the following circumstances :—

- (a) When the duty is paid at a Customs Office within this Territory at the Rhodesia Customs Office at Beira ; or
- (b) Where duty is paid at a port in the Union of South Africa on a bill of entry for direct removal of goods to a railway station or siding between Ramaqualand and Bulawayo. In this case a refund of the further rebate may be made by the Controller of Customs upon proof of the due arrival of such goods and upon certified copies of the bill of entry and of the Customs Notice required in prescribed form.]

In consequence of the operation of the above-mentioned clauses of the Southern and Northern Rhodesian Orders-in-Council, certain *additional* rebates are accorded to most articles the produce of His Majesty's Dominions (including non-reciprocating British Possessions) on importation into Southern Rhodesia and the Zambesi Basin of Northern Rhodesia.

No special provision is made in the Northern Rhodesian Tariff for the preferential treatment of British goods imported into the Congo Basin of Northern Rhodesia, but the rates of duty on goods imported therein are, on the whole, lower than those leviable on similar goods imported into the Zambesi Basin of Northern Rhodesia.

With regard to certain alternative rates provided for in the case of various articles imported into the Congo basin of Northern Rhodesia (*e.g.*, cattle for slaughter at 30s. each, or if less, 10 per cent.), a decision has been given by the Northern Rhodesian Government to the effect that under the provisions of the Conference of Berlin, 1885, no higher rate of duty than 10 per cent *ad valorem* can be charged on such articles.

The several rates of duty leviable on the various articles imported into Southern and Northern Rhodesia are set out in detail in the body of this Return.

The Customs Regulations governing the entry of goods under the British Preferential Tariff into Rhodesia, together with the prescribed Forms of Certificate of Origin, are similar to those in force in the "Union of South Africa."

Under a Customs Agreement of 1910, as subsequently amended by Protocols, entered into between the Administrations of Southern and Northern Rhodesia with the Territories of other South African Territories.

BASUTOLAND,  
SWAZILAND, and the  
BECHUANALAND PROTECTORATE,

certain provisions were prescribed similar to those contained in the Customs Agreement of 1910, as subsequently amended, entered into between the Administrations of Southern and Northern Rhodesia and the Government of the

UNION OF SOUTH AFRICA,

for the general terms of which, *see* the notes under the "Union of South Africa."

A Notice was issued by the Chief of Customs at Mombasa on 20th February 1909, stating that goods in transit will in future be tallied both at the port of entry and at the port of exit, strictly according to marks and numbers, and that unless at the port of exit the numbers on the packages are found to agree with those given in the Transit Entry, a refund of duty paid on goods contained in such packages will not be granted. A further Notice was issued on the same date stating that no application for refund of duty paid on produce declared inwards in transit and intended for exportation will be entertained, until all the produce entered inwards on the entry in respect of which refund of duty is claimed has been duly cleared outward and been exported or otherwise accounted for to the satisfaction of the Chief of Customs.

A Certificate of Origin is required to be written, printed, or stamped on the face or back of all invoices of articles for entry as aforesaid (except raw and refined sugars). Such certificate must be made and signed by the exporter personally, or on his behalf by his manager, chief clerk, or other principal official having knowledge of the facts to be certified to, and must contain the following statement of facts :—

“That each article on the invoice is *bonâ fide* the produce or manufacture of a country entitled in Canada to the benefits of the British Preferential Tariff, and specified on the invoice as its country of origin, and that each manufactured article on the invoice in its present form ready for export to Canada has been finished by a substantial amount of labour in such country, and not less than *one-fourth* the cost of production of each such article has been produced through the industry of one or more British countries.”

The Certificate of Value and of Origin prescribed to be written, printed, or stamped on invoices, for entry under the British Preferential Tariff, may be combined in prescribed form, and in the case of goods which have been shipped to Canada on consignment prior to sale by the exporter, the Declaration Form is required to be attested to in British Countries before a Collector of Customs, Notary Public or other official authorised to administer oaths; and in other Countries before a British or other Consul, Notary Public or other official authorised to administer oaths.

[NOTE.—Information as to the exact Form of the Certificate of Origin, as well as of the combined Form of Certificate of Value and of Origin, required for the entry of goods under the British Preferential Tariff into the Dominion of Canada may be obtained at the office of the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.]

The benefits of the Intermediate Tariff may, in consideration of benefits satisfactory to the Governor in Council, be extended, *in whole or in part*, to goods, the produce or manufacture of any British or Foreign country, when imported direct from such British or Foreign country—provided that goods for which entry is claimed under the Intermediate Tariff shall be *bonâ fide* the produce or manufacture of a country which has been admitted to the benefits of such Tariff.

The Intermediate Tariff provides, for the most part, for the imposition of duties lower than the General, but higher than the British Preferential, Tariff rates of duty.

The following is a list of the articles, *in addition* to those shown on the previous page under the British Preferential Tariff, that are *not* entitled to any reduction from the General Tariff rates of duty, when entered under the Intermediate Tariff, as provided for in the Customs Tariff Act of 1907, as subsequently amended :—

It is also provided by the Act of 1908 above referred to that the advantages granted by the Convention to France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate, where (as in the case of certain articles §) these are in excess of those accorded to the United Kingdom and certain British Colonies and Possessions under the British Preferential Tariff,‡ shall be extended to the whole British Empire and that all other advantages granted by the Convention shall be extended to those British Colonies and Possessions which have not as yet been accorded the benefits of the British Preferential Tariff.

The Act further provides that the advantages granted to France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate "shall extend to any and every other foreign power which by reason of the operation of the said Convention is, under the provisions of a Treaty or Convention with His Majesty, entitled, in whole or in part, to the same or to the like advantages with respect to its commerce with Canada."

In order that products originating in France, Algeria, the French Colonies and Possession, and the Territories of the Indo-China Protectorate may enjoy the benefits of the Convention, it is requisite for them to be "conveyed without transshipment from a port of those Territories, or from a port of a territory enjoying the Preferential Tariff or Intermediate Tariff into a sea or river port of Canada."

It is stated in Customs Memo. No. 1566B of 1st January 1910, as amended by Customs Memo. It is also laid down in the above-mentioned Customs Memo. No. 1566B of 1910 that products originating in France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate may also be accorded the advantages of the Convention when such products have been conveyed without transhipment to a sea or river port of Canada *from any British country or from any country accorded most-favoured-nation treatment in Tariff matters by Canada.*

It is further provided in the Customs Memorandum referred to that, under an Order-in-Council of 17th December 1909, in order to obtain entry at the Customs House in Canada under Treaty or Convention rates, the country of origin in respect of each article imported must be specified on the margin opposite such article, or elsewhere on the invoice thereof.

A Certificate of Origin must be written, printed, or stamped on the face or back of all invoices for entry as aforesaid. Such certificate must be made and signed by the exporter personally, or on his behalf by his manager, chief clerk, or other principal official having knowledge of the facts to be certified to, and must contain the following statement of facts:—

"That each article on the invoice is *bonâ fide* the produce or manufacture of the country specified on the invoice as its country of origin.

"That each manufactured article on the invoice in its form ready for export to Canada has been finished by a substantial amount of labour in such specified country of origin, and not less than *one-fourth* the cost of production of each such article has been produced through the industry of the said country."

The Certificate of Value and of Origin prescribed to be written, printed, or stamped, on invoices for entry under Treaty or Convention Rates may be combined in prescribed form, and in the case of goods which have been shipped to Canada on consignment prior to sale by the exporter, the Declaration Form is required to be attested to in British countries before a Collector of Customs, Notary Public, or other official authorised to administer oaths; and, in other countries, before a British or other Consul, Notary Public or other official authorised to administer oaths.

INTRODUCTORY NOTES—*continued.*Dominion of Canada—*cont.*

Under the "Japan Treaty Act, 1913," which came into force, by Proclamation, on the 1st May 1913, the Treaty between the United Kingdom and Japan, which was signed at London on the 3rd April 1911, was sanctioned and declared to have the force of law in Canada, with certain specified exceptions.

It is stated in Customs Memo. No. 1729B of the 1st May 1913 that, under Article vii. of the Treaty it is, in effect, provided that articles, the produce or manufacture of Japan, upon importation into Canada, from whatever place arriving, shall enjoy the lowest rates of Customs duty applicable to similar articles of any other foreign origin.

Under these provisions, articles, the produce or manufacture of Japan, are entitled to the benefits of the French Treaty of 1907, when conveyed without transhipment to a sea or river port of Canada from Japan, or from any British Country or from any country accorded most-favoured-nation treatment in tariff matters by Canada.

Articles imported as samples for soliciting orders, by merchants, manufacturers, and their commercial travellers, may be admitted subject to the prescribed Regulations (for which, *see* p. xli).

The General Tariff is applicable in the case of those articles imported from all countries which are not entitled to the benefits either of the British Preferential (3) **General Tariff**, the Intermediate Tariff, or, in the case of certain products, to the Special Tariff provided for in the Franco-Canadian Treaty.

The rates of duty given in this Return for the various articles on importation into Canada distinguish those leviable under the British Preferential, Intermediate, or General Tariffs, as well as the Special Tariff of the Franco-Canadian Treaty, so far as they are at present in operation in the Dominion.

With regard to the Surtax Tariff, it is provided under section 7 of the Canadian Tariff Act of 1907, as subsequently amended by Act No. 26 of 1914, that :

(a) Goods, the product or manufacture of any foreign country, which (4) **Surtax Tariff** treats imports from Canada less favourably than those from other countries may be made subject by order of the Governor in Council in the case of goods already dutiable to a surtax over and above the duties specified in the Act; and in the case of goods not dutiable to a rate of duty, not exceeding, in either case, 20 per cent. *ad valorem*.

(b) Goods, the product or manufacture of any foreign country imported into Canada in vessels registered in such foreign country, admitted to registration under the laws of such foreign country, may, if such foreign country imposes higher duties of customs upon goods imported into such country in vessels registered in Canada than upon the like goods when imported in vessels of such country, be made subject by order of the Governor in Council in the case of goods already dutiable to a surtax over and above the duties specified in the Act, and in the case of goods not dutiable to a rate of duty not exceeding, in either case, 20 per cent. *ad valorem*.

(c) Within the limits prescribed any such goods may by such Order-in-Council be made subject to a surtax or rate, as the case may be, differing from the surtax or rate to which another class of goods may be thereby, or by any other such order, made subject.

(d) The Governor in Council may make regulations for carrying out the purposes of this section, and may by Order-in-Council suspend the surtax or rate in whole or in part from application to the goods of such foreign country or any class of such goods.

(e) The decision of the Governor in Council shall be final on any question which may arise regarding the application of the surtax or rate pursuant to this section.

At the present time the Surtax Tariff is *not* applied to the products of any country.

[NOTE.—The surtax previously leviable on *German* goods imported into Canada from the 17th April 1903, under Act No. 15 of 1903, and which was re-imposed by Act No. 11 of 1907, was suspended, with effect from 1st March 1910 (Customs Memo. No. 1572B of 1910).]

A Reciprocal Trading Agreement, which came into operation on the 2nd June 1913, was entered into on the 9th April 1912 between the Government of Canada and the Governments of the following West Indian Colonies :—

Reciprocity Agreement between Canada and certain West Indian Colonies.	Trinidad.	Antigua.
	British Guiana.	St. Kitts.
	Barbados.	Dominica,
	St. Lucia.	and
	St. Vincent.	Montserrat.

INTRODUCTORY NOTES—*continued.*Dominion of Canada—*cont.*

Under the Agreement, the Customs duties on certain goods\*—the produce or manufacture of Canada—imported into any of the above-mentioned West Indian Colonies—parties to the Agreement—shall not at any time be more than *four-fifths* of the duties imposed in the Colony on similar goods when imported from any foreign country—except that on flour the preference in favour of Canada shall not be less than 12 cents (*6L.*) per 100 lbs.

[The Governments of the above-mentioned British West Indian Colonies, as well as Grenada, have passed laws approving the terms of the Agreement, and have extended its benefits not only to the products of Canada, but also to the products of the United Kingdom and Newfoundland, and, in the case of Grenada, to the products of the various West Indian Colonies, parties to the Agreement, whilst, as regards Barbados, the benefits have been extended to the products of all British Countries. For details of the provisions of the laws enacted, and the Regulations issued thereunder, see under the various British West Indian Colonies concerned in these Introductory Notes.]

The duties on certain goods†—the produce or manufacture of any of the above-mentioned Colonies—imported into Canada, shall not at any time be more than *four-fifths* of the duties imposed on similar goods when imported from any foreign country, except that certain special provisions are made respecting the preference accorded to certain sugar and molasses, and for the maximum duty leviable on arrowroot, whilst cocoa beans, raw and concentrated lime juice, and fresh limes are to be accorded free entry into the Dominion, but to be subject to certain minimum rates when imported from foreign countries.

The Canadian Government approved the terms of the Agreement by the "West Indian Trade Agreement Act, No. 56 of 1913," which came into force by a Proclamation, dated 19th May 1913, on the 2nd June 1913.

- (a) at the rate of four-fifths of the several rates of duty, if any, imposed on similar goods when imported from any foreign country, or
- (b) at the British Preferential Tariff rates of duty,

whichever shall be the lower rate.

[The effect of this Act is that the British Preferential Tariff rates of duty are applicable to the articles scheduled in the Agreement—when the produce of the above-mentioned British West Indian Colonies—on importation into Canada.]

The concessions granted by Canada to any of the above-mentioned Colonies are to be extended to the undermentioned Colonies for a period of *three* years from the date of operation of the Agreement (viz., 2nd June 1913), provided that thereafter the concessions to any of such Colonies which shall not have granted reciprocal advantages to Canada shall cease :—

Bahamas.	*Grenada.
Bermuda.	Jamaica.
British Honduras.	Newfoundland.

The Governments may provide that to be entitled to the concessions, the products of the various Colonies must be conveyed by ship direct without transshipment or from one of the other Colonies entitled to the advantages of the Agreement.

The Agreement is to remain in force for 10 years and may be terminated by any of the parties thereto at the end of one year after the day upon which notice has been given by the party desiring such termination.

It is further provided by the Canadian Customs Tariff Act of 1907 : “That in the case  
**Special** “ of articles exported to Canada *of a class or kind made in Canada,*  
**(or Dumping)** “ if the export or actual selling price to an importer in Canada be less  
**Duties on** “ than the fair market value of the same article when sold for home  
**under-valued** “ consumption in the usual and ordinary course in the country whence  
**goods.** “ exported to Canada at the time of its exportation to Canada there  
 “ shall, in addition to the duties otherwise established, be levied, col-  
 “ lected and paid on such article, on its importation into Canada, a  
 “ *special duty* (or dumping duty) equal to the difference between the said selling price of  
 “ the article for export and the said fair market value thereof for home consumption :

“ Provided that the said special duty shall not exceed 15 per cent. *ad valorem* in any  
 “ case :

“ Provided also that the following goods shall be exempted from such special duty  
 “ viz. :—

- “ (a) Goods whereon the duties otherwise established are equal to 50 per cent.  
 “ *ad valorem.*
- “ (b) Goods of a class subject to excise duty in Canada.
- “ (c) Sugar refined in the United Kingdom.

 “ hemp, istle or tampico fibre, sisal grass, or sunn, or a mixture of any two  
 “ or more of them, of single ply and measuring not exceeding 600 feet to  
 “ the pound.

“ Provided further that excise duties shall be disregarded in estimating the market  
 “ value of goods for the purposes of special duty when the goods are entitled to entry  
 “ under the British Preferential Tariff.”

The expression “export price” or “selling price” above mentioned shall be held to mean and include the exporter’s price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

If at any time it shall appear to the satisfaction of the Governor in Council, on a report from the Minister of Customs, that the payment of the special duty herein provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor in Council may in any case, or class of cases, authorise such action as is deemed necessary to collect on such goods, or any of them, the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

If the full amount of any special duty of Customs be not paid on goods imported, the Customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of the foregoing sections, and for the enforcement thereof.

\* The Canadian Government have, by Proclamation of the 22nd May 1913 (Customs Memo. No. 1737B) extended the benefits of the Agreement to Grenada so long as the Colonies, parties to the Agreement, continue to be entitled to such benefits, with effect from the 2nd June 1913.

Such regulations may provide :—

- (i) for the temporary exemption from special duty of any article or class of articles when it is established to the satisfaction of the Minister of Customs that such articles are not made in Canada in substantial quantities and offered for sale to all purchasers on equal terms, under like conditions, having regard to the customs and usage of trade, or
- (ii) for the exemption from special duty of any article when the difference between the fair market value of the goods and the selling price thereof to the importer amounts only to a small percentage of their fair market value.

The following Regulations respecting the special (or dumping) duties have been made under Customs Memoranda, Nos. 1407B of May 1st, 1907, 1506B of December 1st, 1908, 1652B of 26th October 1911, and No. 1812B of the 24th August 1914 :—

- Regulations  
respecting  
Special  
(or Dumping)  
Duties.**
- (1) Invoices in duplicate, properly certified, shall be delivered at the Customs House, with the bills of entry for all imported goods.
  - (2) Every such invoice shall contain a sufficient and correct description of the goods, and in respect of goods sold by the exporter, shall show in one column the actual price at which the articles have been sold to the importer, and in a separate column the fair market value of each article as sold for home consumption in the country of export.
  - (3) The "price" and "value" of goods in every case aforesaid are to be stated as in condition packed ready for shipment at the time when, and at the place whence, the goods have been exported directly to Canada.
  - (4) When the value of goods for duty purposes is determined by the Minister of Customs under the provisions of the Customs Act, by reason of the goods being exported or imported under unusual conditions, the value so determined shall be held to be the fair market value thereof.
  - (5) In making Customs entry, the "special duty" may be shown by itself in the "net duty" column of the entry below the number of articles subject to special duty.
  - (6) Goods of a class or kind, made in Canada, are subject to special duty when sold for exportation to Canada at a less price than for home consumption in the country of export, whether such goods be otherwise free of duty or subject to specific or *ad valorem* duties, with the exception of the articles above quoted.
  - (7) Under the "special duty" provisions of the Customs Tariff, the special duty (or dumping duty) is *not* to apply in the following cases, viz. :—
    - (a) When the difference between the fair market value and the selling price of the goods to the importer in Canada does not exceed 5 per cent. of their fair market value.  
Provided that the whole difference shall be taken into account for special duty purposes when exceeding 5 per cent.  
Provided, further, that special duty (or dumping duty) under the Customs Tariff shall, without exemption allowance, apply to articles of a class or kind made in Canada when admitted free of ordinary duty, and shall also without exemption allowance apply to round rolled wire rods of iron or steel. (Memo. No. 1812B, dated 24th August 1914.)

[Decisions have also been given that, unless otherwise determined, special (or dumping) duty will be operative on :

Galvanised plate and black plate and sheet when not over 36 in. wide and 144 in. long. (Customs Memo. dated 11th December 1909.)

Chocolate and preparations of chocolate shipped to Canada on consignment without sale prior to shipment similar to the special duty payable on chocolate sold to an importer in Canada, prior to its shipment thereto. A deposit of 15 per cent. *ad valorem* is required to secure the payment of the special duty, any excess of duty paid being subsequently refunded on application through the Collector in the usual form upon proof to the satisfaction of the Minister of Customs as to the actual price realised from the sale of the goods, exclusive of all charges thereon after shipment from the place whence exported directly into Canada. (Customs Memo. No. 1594B, dated 13th June 1910.)]

(8) Articles of merchandise for use *bonâ fide* as samples for sale of similar goods are admitted without *special* duty, but are subject to the *ordinary* duties in force.

(9) The amount of any advance in the market value of goods between the time of their purchase by the importer and the date of their exportation to Canada shall not be subject to special duty, provided the goods have been exported in the usual course and the actual date of purchase established to the satisfaction of the Collector by contracts, or other sufficient documents produced for his inspection and attested to, and also further provided that in respect of goods subject to *ad valorem* duty, that the *ordinary* duty shall be collected (as heretofore) on the fair market value of the goods as at the time of their direct exportation to Canada, under the provisions of sections 40 and 41 of the Customs Act (c. 48 of the Revised Statutes of Canada, 1906).

(10) In computing the difference for special duty purposes between the "fair market value" in the country of export and the "selling price to the importer in Canada," the fair market value of the goods is to be estimated on the usual credit basis, except when the article is universally sold in the country of export for cash only, in which case the fair market value is to be estimated on a cash basis; provided that a *bonâ fide* discount for cash not exceeding 2½ per cent. when allowed and deducted by the exporter on his invoice may be allowed in estimating the fair market value of goods for duty purposes.

It is provided under the "Combines Investigation Act, 1910" (No. 9 of 1910) that whenever it appears to the satisfaction of the Governor-in-Council that with regard to any article there exists any combine to promote unduly the advantage of the manufacturers or dealers at the expense of the consumers, and that such disadvantage is facilitated by the customs duties imposed on the article, the Governor-in-Council may direct either that such article be admitted free of duty, or that the duty thereon be reduced to such rate as, in the opinion of the Governor-in-Council, will give the public the benefit of reasonable competition.

The Canadian-West Indian Reciprocity Agreement of 1912\* was adopted, and effect given thereto, by Ordinance No. 2 of 1913, which came into force on 2nd June 1913.

**British  
Preferential Tariff.**

The Ordinance provides for the preferential treatment of certain goods, the produce or manufacture of the

UNITED KINGDOM,  
DOMINION OF CANADA, and  
NEWFOUNDLAND.

The Governor-in-Council may extend, by Order, the benefits of the British Preferential Tariff to the produce or manufacture of any British Possession or Protectorate in the same manner as to similar preferential goods.

It is provided that the preferential rates of duty on certain goods specified in the Agreement, shall be *four-fifths* (i.e., a preference of 20%) of the duties imposed on foreign goods, except that in the case of wheat flour the preference shall amount to at least 6*d.* per 100 lbs.

The Governor-in-Council is empowered to make regulations for the better carrying out of the provisions of the above-mentioned Ordinance.

The Customs Regulations which have been prescribed for the purpose of governing the entry of goods under the British Preferential Tariff provide that all articles entitled to preference—being the produce or manufacture of the United Kingdom, Canada or Newfoundland—shall not be entitled to preference unless there be submitted by the importer of such goods at the time of importation a Certificate

of Origin in one or other of the prescribed forms, according to whether the articles are consigned direct or otherwise from the country of origin or manufacture.

Certificates of Origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

Certificates of Origin for goods *not* consigned direct, in order to be valid, must be attested to in British Countries before a Collector or other principal officer of Customs, Notary Public, or other official authorised to administer oaths; and in other countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate shall be valid after the expiry of six months from the date of issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach the Colony before the arrival of the certificates of origin relating to the same, it shall be competent for the Customs Authority to authorise the delivery of such article at the preferential rates of duty on the security of a deposit equal in amount to the difference in duty between the preferential and general rates.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity or value of the goods, they shall not be entitled to preference unless the Customs Authority at the port of destination is satisfied as to the origin of the goods, and that the differences are solely due to error.

It is prescribed in the Forms of the Certificate of Origin which are required to be produced to the Customs Authorities at the port of landing for goods consigned direct or otherwise, that there shall be a certified statement or a declaration signed, as the case may be, either by the exporter, or by the declarant and by the issuing authority, as above stated, to the effect that the merchandise is the growth, produce or manufacture of a British country entitled to preference,\* and that in the case of manufactured goods—

"A substantial portion of the labour of . . . (country of manufacture) has entered into the production of every manufactured article included in this certificate of origin, to the extent in each article of not less than *one-fourth* of the value of every such article in its present condition."

A declaration is also required in the case of goods not consigned direct to the effect that the

"goods are in the original packages in which they were exported from . . . , and that such goods have been under continuous Customs supervision whilst in . . . , and have not been altered in nature, quality or value since their exportation from . . . ."

[NOTE.—Information as the exact Forms of the Certificate of Origin required for the entry of goods under the British Preferential Tariff into the Colony may be obtained at the office of the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.]

Goods certified for entry under the Preferential Tariff must be packed separately from other goods. The packages, however, may be enclosed with other goods, provided the certificate of origin is endorsed accordingly.

The Canadian-West Indian Reciprocity Agreement of 1912\* was adopted, and effect given thereto, by Ordinance No. 2 of 1913, which came into force on the 2nd June 1913.

**British Preferential Tariff.** This Ordinance was superseded by Ordinance No. 6 of 1913, which came into force on the 4th June 1913, and which provides for the preferential treatment of certain goods, the produce or manufacture of the

NEWFOUNDLAND.

INTRODUCTORY NOTES—*continued.*St. Vincent—*cont.*

The Governor-in-Council may extend, by Order, the benefits of the British Preferential Tariff to the produce or manufacture of any British Possession or Protectorate in the same manner as to similar preferential goods.

The Ordinance No. 6 of 1913 specifies the rates of duty leviable under the British Preferential and General Tariffs—the British Preferential rates on certain articles being exactly *four-fifths* (i.e., a preference of 20%) of the duties leviable under the General Tariff.

It is further provided that, on and after any date to be named by the Governor in Council by Proclamation, the British Preferential Tariff rates of duty shall be only applicable to goods brought without transshipment into the Colony by ship direct from any of the countries entitled to the advantages of the Agreement or by way of any British country.

In order that goods may be entitled to entry at British Preferential Tariff rates of duty they must be accompanied by such evidence of origin as may be prescribed by the Governor in Council from time to time, and in the case of manufactured goods, upon proof being submitted that a substantial portion of the value of the manufactured article has been produced by labour in the above-mentioned Countries.

The Governor-in-Council is empowered to make regulations for the purpose of carrying out the provisions of the above-mentioned Ordinance.

**Regulations for entry of goods under the British Preferential Tariff.** The Customs Regulations which have been prescribed for the purpose of governing the entry of goods under the British Preferential Tariff, provide that all articles entitled to preference shall be *bonâ fide* the growth, produce, or manufacture of the United Kingdom, Canada, Newfoundland, or such other British Colonies as may from time to time be declared to be entitled to the advantages of the Canadian-West Indian Reciprocity Agreement of 1912.

Manufactured articles shall only be admitted at the preferential rates of duty upon proof being submitted that a substantial portion of the labour of the United Kingdom, Canada, Newfoundland, or other Colonies entitled to the advantages of the Agreement has entered into the production of such articles to the extent in each article of not less than *one-fourth* of the value thereof at the time the goods are entered for exportation with the Customs Authorities in the country of produce or manufacture.

All articles entitled to preference shall be accompanied by a Certificate of Origin in one or other of the prescribed forms, according to whether the articles are consigned direct or otherwise from the country of origin or manufacture.

Certificates of Origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

Certificates of origin for goods *not* consigned direct, in order to be valid, must be attested to in British Countries before a Collector or other principal officer of Customs, Notary Public, or other official authorised to administer oaths; and in other countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate shall be valid after the expiry of six months from the date of issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach St. Vincent before the arrival of the certificates of origin relating to the same, it shall be competent for the Customs Authorities to authorise the delivery of such articles at the preferential rates of duty on the security of the deposit equal in amount to the difference in duty between the preferential and general rates, or on bond being given for such amount for the due production of the necessary certificates within a prescribed period, provided that a general bond may be entered into to cover a series of transactions, and in a penalty suitable to the extent of such transactions.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity, or value of the goods, they shall not be entitled to preferential treatment unless the Customs Authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

It is prescribed in the Forms of Certificate of Origin which are required to be produced to the Customs Authorities at the port of landing for goods consigned direct or otherwise, that there shall be a certified statement or a declaration signed, as the case may be, either by the exporter or by the declarant and by the issuing authority, as above

stated, to the effect that the merchandise is the growth, produce, or manufacture of a British country entitled to preference,\* and that in the case of manufactured goods—

“A substantial portion of the labour of . . . . (*country of manufacture*) has entered into the production of every manufactured article included in this certificate of origin, to the extent in each article of not less than *one-fourth* of the value of every such article in the present condition.”

A declaration is also required for goods not consigned direct to the effect that the—

“goods are in the original packages in which they were exported from . . . . and that such goods have been under continuous Customs supervision whilst in . . . . and have not been altered in nature, quality, or value, since their exportation from . . . .”

[NOTE.—Information as to the exact Forms of the Certificate of Origin required for the entry of goods under the British Preferential Tariff into St. Vincent may be obtained at the office of the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.]

Goods certified for entry under the preferential tariff shall be packed separately from other goods. The packages, however, may be enclosed with other goods, provided the certificate of origin is endorsed accordingly.

In order to obtain admission at the preferential rates of duty, goods shall be imported into St. Vincent direct from the United Kingdom, Canada, Newfoundland, or the Colonies entitled to the advantages of the Agreement, provided that the source of any such goods is not to be deemed to be affected by passing through the United States or Canada, or through any of the other British Colonies—party to the Agreement—under Customs supervision for purposes of consignment or re-consignment to St. Vincent, but goods so consigned or re-consigned shall be imported into the Colony in the original packages in which they were exported, and they must not have been altered in nature, quality, or value during the time they remain in the United States, or in any other Country or Colony as aforesaid.

Goods entitled to preferential treatment shall not be entered on entries along with non-preferred goods.

Certificates of Origin for goods *not* consigned direct, in order to be valid, must be attested to in British Countries before a Collector or other principal officer of Customs, Notary Public or other official authorised to administer oaths; and in other countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate shall be valid after the expiry of six months from the date of issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach the Presidency concerned before the arrival of the certificates of origin relating to the same, it shall be competent for the Customs Authorities to authorise the delivery of such articles at the preferential rates of duty on the security of a deposit equal in amount to the difference in duty between the preferential and general rates, or on bond being given, in prescribed form, for such amount for the due production of the necessary certificates within a prescribed period, provided that a general bond may be entered into to cover a series of transactions, and in a penalty suitable to the extent of such transactions.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity, or value of the goods, they shall not be entitled to preferential treatment unless the Customs Authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

It is prescribed in the Forms of Certificate of Origin which are required to be produced to the Customs Authorities at the port of landing for goods consigned direct or otherwise, that there shall be a certified statement or a declaration, signed, as the case may be, either by the exporter or by the declarant and by the issuing authority, as above stated, to the effect that the merchandise is the growth, produce, or manufacture of a British country entitled to preference,\* and that in the case of manufactured articles—

“ a substantial portion of the labour of . . . . (*Country of manufacture*)  
 “ has entered into the production of every manufactured article included in this  
 “ certificate of origin to the extent in each article of not less than *one-fourth* of the  
 “ value of every such article in its present condition.”

A declaration is also required for goods not consigned direct to the effect that the—

“ goods are in the original packages in which they were exported from . . . . ,  
 “ and that such goods have been under continuous Customs supervision whilst in  
 “ . . . . , and have not been altered in nature, quality or value since their exportation  
 “ from . . . . .”

Goods certified for entry under the Preferential Tariff must be packed separately from other goods. The packages, however, may be enclosed with other goods, provided the certificate of origin is endorsed accordingly.

In order to obtain admission at preferential rates of duty, goods shall be imported direct from the United Kingdom, Canada, Newfoundland or any other British Possession or Protectorate respectively; provided that the source of Canadian goods is not to be deemed to be affected by passing through the United States under Customs supervision for purposes of consignment or re-consignment to the Presidency concerned, but goods so consigned or re-consigned shall be imported into the Colony in the original packages in

which they were exported from Canada, and they must not have been altered in nature, quality, or value during the time they remain in the United States.

Goods entitled to preferential treatment shall not be entered on entries along with non-preferred goods.

Provision is also made in the Customs Tariff of the various Presidencies that all goods, being the growth, produce, or manufacture of, or raised in, any of the islands composing the Colony of the Leeward Islands may be imported into any other Presidency of the Leeward Islands free of duty—provided that this exemption shall not be deemed to exempt rum from any excise duty. The full import duty is required to be paid on all rum imported into Dominica.

**Inter-Presidency Trade.** Goods upon which import duty shall have already been paid in any Presidency of the said Colony (except Dominica) shall be admitted free of duty into all other Presidencies of the Colony, *except Dominica*;

Provided that the person importing the same shall produce to the Treasurer at the time of importation thereof a certificate, signed by the Treasurer of the Island or Presidency from which the same are imported, stating that the same are exempt from the payment of duty; and

Provided that where the amount of duty already paid in any Presidency shall be less than the amount which would otherwise be payable in another Presidency, the exemption shall not extend to the difference between such amounts.

**British Preferential Tariff.** The Ordinance provides for the preferential treatment of certain goods the growth, produce or manufacture of the

UNITED KINGDOM,

It is further provided that, on and after any date to be named by the Governor in Executive Council by Proclamation, the preferential rates of duty shall only be applicable to goods brought without transshipment into the Colony by ship direct from the United Kingdom, Canada or Newfoundland, or from one of the other Colonies entitled to the advantages of the Agreement.

No certificate shall be valid after the expiry of six months from the date of issue.

Where articles entitled to preference reach the Colony before the arrival of the certificates of origin relating to the same, the Collector of Customs may authorise the delivery of such articles at the preferential rates of duty on security of a deposit equal in amount to the difference in duty between the preferential and general rates.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reasons of discrepancies as regards the marks or numbers of the packages, or the kind, quantity, or value of the goods, they shall not be entitled to preferential treatment unless the Customs Authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

In cases where any article can be classed under two or more headings in the tariff and there is a difference of duty, the highest duty is charged, except when the Comptroller of Customs is satisfied that the article only contains a very small proportion of the article bearing the higher duty.

In any case where reference is made in the tariff for articles to be packed or imported in a particular way, the same duty is imposed on such article if packed in any other way, or in any other form imported; and the amount of duty payable in any such case shall be computed by the Comptroller so as to equal as nearly as may be, but not less than, the amount of duty payable in the like case if the article had been packed or imported in the usual way. If re-imported, the importer shall pay the highest rate of duty leviable between the date of export or of re-importation.

The Comptroller may give permission to bring into the Colony any goods without payment of duty thereon upon being satisfied that such goods are brought in for *temporary* use only. Such permission shall be subject to the following conditions:—

- (i) That the goods are taken out of the Colony within three months of the date of such permission;

If such goods are not taken out of the Colony within three months of the date of permission the deposit will be forfeited—provided that the Comptroller of Customs may, in his discretion, allow any additional period in the case of paraphernalia imported by scientific expeditions and that cameras, telescopes, and binoculars, which the Comptroller of Customs is satisfied are the *bona fide* property of any person on a temporary visit to the Colony, shall be admitted free of duty.

The Comptroller of Customs was empowered, under Ordinance No. 6 of 1913, to give effect to the Canadian-West Indian Reciprocity Agreement of 1912\* by amending the Customs Ordinance, 1884, with respect to the making of **British Preferential Tariff** regulations for the better carrying into effect the provisions of that Agreement.

Provision was made under Ordinance No. 8 of 1913, which came into force on the 2nd June 1913, for according preferential treatment to various articles, the growth, produce or manufacture of the

UNITED KINGDOM,  
DOMINION OF CANADA, and  
NEWFOUNDLAND,

when imported direct from those countries, respectively, into British Guiana.

\* For provisions of the Canadian-West Indian Reciprocity Agreement of 1912, see under The Dominion of Canada, pp. l-iii.

INTRODUCTORY NOTES—*continued.*British Guiana—*cont.*

The Ordinance No. 8 of 1913 specifies the rates of duty leviable under the British Preferential and General Tariffs—the British Preferential Tariff rates on certain articles being, in practically all cases, exactly *four-fifths* (i.e., a preference of 20 per cent.) of the duties leviable under the General Tariff.

The Customs Regulations which have been prescribed for the purpose of governing the entry of goods under the British Preferential Tariff, provide that all articles entitled to preference shall be, *bonâ fide*, the growth, produce or manufacture of the United Kingdom, Canada and Newfoundland.

**Regulations for Entry of Goods under the British Preferential Tariff.** Manufactured articles shall only be admitted at the preferential rates of duty upon proof being submitted that a substantial portion of the labour of the United Kingdom, Canada, or Newfoundland has entered into the production of such articles to the extent in each article of not less than *one-fourth* of the value thereof at the time the goods are entered for exportation with the Customs Authorities in the country of produce or manufacture.

All articles entitled to preference shall be accompanied by a Certificate of Origin in one or other of the prescribed forms, according to whether the articles are consigned direct or otherwise from the country of origin or manufacture.

Certificates of Origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

Certificates of Origin for goods *not* consigned direct, in order to be valid, must be attested to in British Countries before a Collector or other principal Officer of Customs, Notary Public, or other official authorised to administer oaths; and in other Countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate shall be valid after the expiry of six months from the date of issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach British Guiana before the arrival of the certificate of origin relating to the same, it shall be competent for the Customs Authorities to authorise the delivery of such articles at the preferential rates of duty on the security of a deposit equal in the amount to the difference in duty between the preferential and general rates, or on bond being given, in prescribed form, for such amount for the due production of the necessary certificates within a prescribed period, provided that a general bond may be entered into to cover a series of transactions, and in a penalty suitable to such transactions.

Where goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies, as regards the marks or numbers of the packages, or the kind, quantity or value of the goods, they shall not be entitled to preferential treatment unless the Customs Authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

It is prescribed in the Forms of Certificate of Origin which are required to be produced to the Customs Authorities at the port of landing for goods consigned direct or otherwise, that there shall be a certified statement or a declaration, signed, as the case may be, either by the exporter or by the declarant and by the issuing authority, as above stated, to the effect that the merchandise is the growth, produce or manufacture of a British Country entitled to preference,\* and that in the case of manufactured goods—

“A substantial portion of the labour of . . . . (Country of manufacture) has entered into the production of every manufactured article included in this certificate of origin, to the extent in each article of not less than *one-fourth* of the value of every such article in its present condition.”

A declaration is also required for goods not consigned direct to the effect that the—

“goods are in the original packages in which they were exported from . . . . , and that such goods have been under continuous Customs supervision whilst in . . . . , and have not been altered in nature, quality or value since their exportation from . . . . .”

Certificates may either be printed on the back of the invoice for the goods, or separately. In the latter case, separate certificates must be submitted for each individual consignment of preferential goods.

[NOTE.—Information as to the exact Forms of the Certificate of Origin required for the entry of goods under the British Preferential Tariff into British Guiana may be obtained at the office of the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.]

[*Note*.—No folded woven goods (except silesia, Indian bafts, cashmeres, serges, alpacos, handkerchief cloth, and khaki drills) may be imported into Nigeria, unless in folds of not less than 36 inches in length. Each piece must be marked with the number of yards and inches (if any) contained therein, and such mark must be stamped upon the fabric of each piece. Any words, figures, marks or abbreviations of the words "yards" and "inches," which according to common use or the custom of trade are commonly taken to indicate the measure of folded woven goods may be used in such marking. No piece shall be made up so as to show more folds than the full number of yards it actually contains, any portion of a yard (over such number of yards) not to be shown as a fold.

It is also provided in the *Southern Nigeria "Folded Woven Goods (Amendment) Ordinance, No. 9 of 1911,"* that all pieces of handkerchief cloth (other than real Madras folded 36 inches to the fold) for which exemption is claimed:—

- (1) shall have a dividing mark between each handkerchief in the length of the piece and shall be folded in the first instance at this division;
- (2) such pieces shall not have the folds stitched together at the selvage; and
- (3) to the face of the piece as finally folded there shall be attached a ticket showing in plain figures the length and breadth of each handkerchief and the number of handkerchiefs in the piece.

And it is further provided that the following variations shall be allowed on each handkerchief:—

In width up to but not exceeding  $2\frac{1}{2}$  % below the ticketed width.

In length up to but not exceeding 4 % below the ticketed width.

The total limit of variation of length on a piece of 8 handkerchiefs shall not, however, exceed 2 % of the total ticketed length of the 8 handkerchiefs.

A decision has also been given to the effect that "fents" measuring not more than 3 yards in length may be allowed to pass through the Custom House even though the provisions of the above-named Ordinance of 1911 have not been complied with (Customs Notice, dated 18th September, 1911).]

[The following regulations are laid down in Customs By-law, No. 66 of 1909, dated 16th September 1909, respecting the importation of high-speed reciprocating steam engines :

- (a) The engine must be of the vertical reciprocating type, and must be provided with forced or splash lubrication.
- (b) The working parts of the engine must be enclosed in an oil-tight case or chamber.
- (c) The engine must be mounted, or for mounting, on the same shaft, or be coupled, or for coupling in one line by means of couplings, with an electric generator or a pump, so that the engine and the generator or pump will run at the same number of revolutions per minute.
- (d) The number of revolutions per minute at which the engine is constructed to run continuously when developing its maximum brake horse-power, must not be less than the number of revolutions per minute represented in the speed curves of high-speed engines shown in the schedule attached to the By-Law, for the given brake horse-power, according as the engine is of the single, two or three crank type.

It is, however, provided that when an engine complies with conditions (a), (b) and (c), and is normally constructed to run at a standard speed not less than that defined or represented in the said speed curves, but owing to the special requirements of the electric generator or pump with which it is, or is to be, directly coupled, must be run at a lower speed, such engine will be admitted under tariff item 160 B (*i.e.*, free under the British Preferential Tariff and 5% *ad val.* under the General Tariff) upon the production to the Comptroller-General or a State Collector of Customs of satisfactory proof that the engine is a modification of a standard type the normal speed of which is not below that defined or represented in the said speed curves.

The importer is further required to satisfy the Comptroller-General or State Collector of Customs that the engine complies with the foregoing conditions, and that it will only be used for direct coupling to an electric generator or to a pump.]

(a) A "rough-tanned" skin is one that has only been tanned, or tanned and tabled. The "tabling" really only stretches the skin and improves its appearance by removing the crinkles and creases. The following are the main features of a "rough-tanned" skin after the tabling process:-

- (i) A rough surface on the flesh side, showing presence of flesh still adhering to the pelt;
- (ii) An unevenness of substance in the skin, *i.e.*, the skin is thinner towards the offal (bellies) and thicker towards the spine. There is, in fact, a perceptible ridge down the spine line.

In the finished skin this unevenness has been shaved off and the skin runs an even thickness (or substance) throughout. Skins which have been shaved cannot be regarded as "rough tanned," but are dutiable as "rough" skins at 20% *ad valorem*. (Customs Tariff Guide.)

(a) The term “ show card ” does not include blank cards or cards showing price only. As regards “ pictures ” the above heading only applies to pictures “ used or intended to be used for advertising purposes,” and this wording is to be held to apply to pictures which are known in the trade as “ advertising pictures ” or the predominant use of which (either as imported or after printing) is for advertising purposes. *Advertising Matter by Post.*

Duty is levied on advertising catalogues, price lists, trade circulars, and all advertising matter introduced through the post, even when forwarded in single copies addressed to individuals, provided that when the duty on the total quantity posted by the consignor by any one mail to any one State of the Commonwealth does not exceed one shilling, payment of duty is waived. If there is reasonable ground for belief that this concession is being abused by the distribution of a consignment over more than one mail, the whole of the matter affected is to be charged duty.

Duty may be paid by either of the following methods:—

- (a) At the Commonwealth Office, 72, Victoria Street, London, S.W., where adhesive stamps will be issued for attachment to the postal matter to indicate that duty has been paid. Consignors paying thus will be required to furnish particulars of the amount posted to each State, so that separate accounts may be kept;
- (b) By remitting to the Deputy Postmaster General of each State (for transmission to the Customs) a sum covering the total amount of advertising matter addressed to such State;
- (c) At the Customs House in the receiving State by consignors' agent.

If payment be not made by any of above-mentioned methods, the duty will be collected from the addressee by surcharge by the Postal Department (for the Customs).

The following scale of charges will apply, whether prepaid or surcharged:—

When such sheets or cards are imported in a separate package, or when there is more than one in each package, duty is to be charged thereon.

(a) The duty on catalogues, &c., sent by post to the Union of S. Africa (i.e. Provinces of the Cape of Good Hope, Natal, Transvaal, and Orange Free State) may be prepaid by means of stamps affixed to each separate letter, packet or parcel purchasable at the office of the High Commissioner for the Union of South Africa, 32, Victoria Street, London, S.W.

In the case of catalogues, &c., for Basutoland, Bechuanaland Protectorate, and Swaziland, arrangements have been made for prepayment of duty by means of the Union stamps.

No remittances for the payment of duty on such catalogues, &c., will be accepted by the Union Postmaster-General.

A certain differentiation is made between catalogues of South African firms posted to persons or firms in the Union of South Africa and those of non-Union firms.

A South African firm is defined as a firm having a place of business in South Africa at which stocks are held for sale.

The following assessments are now in force for catalogues of non-Union firms:—

Up to 8 ozs.	-	-	-	-	Free.
Over 8 ozs. and up to 16 ozs.	-	-	-	-	1d.
„ 16 „ „ „ 24 „	-	-	-	-	3d.
„ 24 „ „ „ 32 „	-	-	-	-	4d.

and thereafter at the rate of 1d. for each additional 8 ozs. or fraction thereof.

The same scale will apply to catalogues of South African firms, except that 1d. will be charged on any catalogue weighing under 8 ozs.

The minimum duty payable by means of postage stamps is 1d. The stamps must be affixed to the top left hand corner of the packets.

Under the Imperial Post Office regulations, packages or parcels of over 5 lbs. in weight must be sent by parcel post in regard to which there are special regulations dealing with the question of Customs declaration of contents and value. (See Parcel Post Regulations, Appendix V.)

No duty can, therefore, be prepaid by means of stamps on packages of advertising matter over 5 lbs. in weight.

[*Note.*— Under the "Chandu Revenue Ordinance" (No. 21 of 1909 as amended by Ordinance No. 12 of 1914), which operates in the whole Colony (except Labuan and Christmas Island), it is provided that the exclusive right of importing opium and chandu is vested in the Government.

The term "opium" means the spontaneously coagulated juice obtained from the capsules of the *papaver somniferum* which has only been submitted to the necessary manipulations for packing and transport, and includes the leaves or wrappings in which opium balls have been wrapped.

"Chandu" means the product of opium or any preparation in which opium forms an ingredient, obtained by a series of special operations, especially by dissolving, boiling, roasting and fermentation designed to transform it into an extract suitable for consumption and includes chandu dross, but does not include (i) any of the alkaloids or salts of the alkaloids of opium, or (ii) opium or any preparation in which opium forms a part which is used or intended to be used by a chemist as defined by the "Deleterious Drugs Ordinance 1910" only in the preparation of a prescription signed by a registered medical practitioner or by a veterinary surgeon as defined by the "Deleterious Drugs Ordinance 1910" in the exercise of his profession.

In *Labuan*, the Straits Settlements Opium Ordinance (No. 20 of 1906) is in operation in accordance with the provisions of Labuan Ordinance (No. 4 of 1906). No person, except the opium farmer, may import any opium otherwise than in an original unbroken chest without written permission. No person may import chandu except the farmer, who must have a written permission.

In *Christmas Island*, the Straits Settlements Government states that, by an arrangement with the Phosphate Company, chandu is supplied at a fixed rate.

Under the "Deleterious Drugs Ordinance" (No. 27 of 1910), as amended by Ordinance No. 14 of 1913, it is provided that the exclusive right of importing deleterious drugs and syringes into the Straits Settlements is vested in the Principal Civil Medical Officer.

Any licensed practitioner or licensed chemist may, however, deliver to the Principal Civil Medical Officer, for transmission to any person or firm outside the Colony to whom or to which the same may be addressed, a written order to forward to such Officer

These provisions of the Act are not applicable to importations by the Government from any place outside the Union.

Under Government Notice, No. 366, of the 14th March 1912, certain Regulations are prescribed in accordance with the provisions of the above-mentioned Act which provide that no person shall introduce or cause to be introduced from any place over-sea or from any place in South Africa which is not a British Possession or Protectorate any bees-wax, whether crude or refined, or any Foundation Comb, unless he is in possession of a permit issued by the Department of Agriculture specially authorising the introduction. Bees-wax and Foundation Comb shall be subject, on arrival, to inspection by an officer, and shall be liable to be rejected if a permit in respect thereof has not been issued, or if such permit having been issued, it be not in accordance with such permit.

Under Government Notice No. 795, dated 8th June 1912, it is required that a sworn statement from the supplier, declaring that the wax from which it was prepared was heated to a temperature of 212° F. for 2½ hours, be surrendered with respect to every consignment of Foundation Comb; and that if a similar declaration is not surrendered with respect to ordinary wax, the consignment be treated on arrival in the manner indicated. "Spirituous liquors are to be charged at "actual contents" where there is no evidence of repute (Supplement No. 31 to the Customs Tariff Guide.)

[*Note.*—It is provided under sec. 11 of the Spirit Act, No. 21 of 1906, that no imported spirits (other than gin, Geneva, Hollands, schnapps, or liqueurs), shall be delivered from the control of the Customs for human consumption unless the Collector of Customs for the State is satisfied that the spirits have been matured by storage in wood for a period of not less than two years.

No spirit described as "brandy" shall be delivered for human consumption until the Collector of Customs is satisfied by the production of an official certificate given in the country of origin that the spirit is distilled wholly from grape wine.

An Order (No. 1450 of 1911) has been issued by the Commonwealth Government under the above-mentioned Spirit Act of 1906 notifying that a certificate is required from a Government Excise or Customs Officer in the country of export to the effect that such imported spirit (or in the case of a blend, the youngest spirit therein) has matured in wood for a period of not less than two years.

Failing the production of such certificate, storage in wood in Australia for the period necessary to ensure that all the spirit has been two years in wood will be insisted upon before delivery.

Under Order (No. 1476 of 1911) it is stated that in instances where a certificate is not obtainable from the Customs and Excise Authorities in France, the mayoral or similar official certificate for consignments of brandy may, until further notice, be accepted as complying with the requirements of the Spirit Act of 1906.

It is stated in an Order (No. 1599 of 1912) that the necessary certificates will in future be issued by the French Customs Authorities in connection with brandy, rum and tafia. The mayoral certificate will be accepted in the case of brandy, but with regard to rum and tafia the above-mentioned Order No. 1450 of 1911 is applicable.]

An Order (No. 1609 of 1912) has also been issued stating that it has been decided by the British Board of Customs and Excise to issue certificates not only as at present in respect of spirits which have been stored in wood in bond for *not less* than two years, but also certificates in respect of spirits which have *not* been so stored for two years, stating the age of such spirits, or in the case of a blend, the age of the youngest spirits in the blend.

Special care will be observed in regard to the particular distinction in these certificates, so that delivery for home consumption may only be permitted in respect of the spirits specified in sec. 11 of the Spirit Act of 1906, matured in wood for a period of not less than two years.

(c) Under certain Rules (Government Notice No. 109 of 1910), dated 27th July 1910, it is provided that the duty on whisky, brandy, rum, and gin, shall be calculated on the proof strength as shown by Sykes' hydrometer at as low a temperature as possible. When such spirits are mixed with colouring, sweetening, or other matter in solution, tending to conceal the actual strength, an addition of 5 % will be made to the apparent strength, as shown by the hydrometer, in lieu of the test for obscuration.

The strength of all liqueurs, perfumed and other spirits, so mixed or sweetened that they cannot be tested by Sykes' hydrometer shall be assumed to be proof strength, and duty will be charged on the proof gallon accordingly, provided that Imperial Customs certificates as to strength may be accepted.
