NIGERIA—*cont.*

*Note—cont.*

No explosives may be imported into Northern Nigeria without the written permit of the Governor or any person deputed by him for the purpose. (Explosives Proclamation No. 5 of 1912.)

Certain Rules were issued on 19th November, 1912, under the above-mentioned Explosives Proclamation of 1912, which provide that, unless the Collector of Customs or Chief Officer of Customs otherwise directs, all explosives when first imported must, immediately after being put on shore, be conveyed to an explosives magazine appointed by the Governor.

Explosives must not be shipped, or waterborne to be shipped, for conveyance by inland navigation, or brought for these purposes to any wharf, quay, jetty or other place, without the previous written permission of the Collector of Customs or Chief Officer of Customs, who may, in granting permission, impose such special conditions for the general safety as he may think fit.

Explosives must not be put on shore at places appointed or used for landing ordinary cargo, except by written permission of the Collector of Customs or Chief Officer of Customs, nor may explosives be landed at, brought into, or deposited on, any quay, wharf, jetty, landing stage, shed, warehouse or other place without the special permission of such Customs' Officers for each consignment, and in the presence of an Officer of Customs.

As regards *Southern Nigeria*, all firearms and ammunition imported by sea must be deposited in a public warehouse, except flint-lock guns with unrifled barrels and common gunpowder, known as trade powder, for which the Governor may grant a licence for the deposit of the same in a private warehouse. No firearms or ammunition may be withdrawn from a public warehouse except under an order granted by the Governor. Only flint-lock guns with unrifled barrels and common gunpowder may be withdrawn from a public warehouse for sale and under order granted by the Governor. Firearms and ammunition may only be introduced by land under licence granted (1) to persons affording sufficient guarantees that such firearms or ammunition will not be given, assigned, or sold to third parties, or (2) travellers provided with a declaration of their Government being a power signatory to the General Act of the Brussels Conference, 1890, stating that the firearms or ammunition are destined exclusively for personal defence. Cap. 72 of Consolidated Statutes of Southern Nigeria.

The importation of explosives is only allowed by permit granted by the Governor and subject to such conditions as may be directed in the permit (Cap. 73 of Consolidated Statutes of Southern Nigeria).]

In order to arrive at the correct basis of value for duty of *motor cars*, it is laid down under Customs Order No. 1546 of 1912, as amended by Order No. 1685 of 1913, that duty is payable on the “home consumption” value in the country of export on *each part* when sold separately, notwithstanding that such parts are imported into Australia in their assembled condition, *i.e.*, as complete motor cars.

In order that the correct basis of value for duty may be arrived at, it has been decided that :

(b) The <i>gross</i> selling price for the complete car for home consumption in the country of export -	£

The assessment to duty of goods liable to *ad valorem* duties is based on the valuations declared by importers. The value declared on the "bill of entry" is to be:—

- (i) The wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation, without any abatement or deduction whatever, except of the amount of duties payable on the importation thereof, or,
- (ii) Where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place, without any abatement or deduction, except as aforesaid.

(Sec. 30 of the Sea Customs Act No. 8 of 1878.)

(a) For method of assessment, see above.

## CEYLON.

Goods liable to *ad valorem* duties are assessed to duty on their true wholesale market value, that is to say:

- (i) The wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation, without any abatement or deduction whatever, except of the amount of the duties payable on the importation thereof; or
- (ii) Where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction, except of the duties as aforesaid.

Should the goods be undervalued, they will be detained and taken for the use of the Crown, the proprietor of the goods receiving their valuation as entered by him in full satisfaction for the same.

## MAURITIUS.

The value of goods liable to *ad valorem* duties will be taken to be the current value of the articles at the port whence the same are imported.

## SEYHELLES.

The value of goods liable to *ad valorem* duties will be taken to be the value as shown on the original invoices. The Customs Officers have power to examine the goods to see that they agree with these invoices in value and to call in expert evidence.

## COMMONWEALTH OF AUSTRALIA.

When any duty is imposed according to value—

- (i) The value shall be taken to be the fair "market value" of the goods in the principal markets of the country whence the same were exported, in the usual and ordinary commercial acceptance of the term, free on board at the port of *export* in such country, with a further addition of 10 per cent. on such market value.
- (ii) The value shall be verified at the time of entry by the production of the genuine invoice, and by a declaration signed by the owner in the presence of the Collector.
- (iii) The invoice shall be stamped by the Collector with the Customs stamp, and shall be produced to the officer prior to the delivery of the goods for home consumption or for warehousing.
- (iv) If the non-production of the genuine invoice shall be accounted for to the satisfaction of the Collector, proof of its contents by a copy or otherwise may be received in lieu of its production.

Whenever it is difficult to determine the value of goods for duty either because—

- (i) the goods are not sold for use or consumption in the country of production; or because
- (ii) a lease of the goods or the right of using the same is sold or given, but not the right of property therein; or
- (iii) the goods have a royalty imposed thereon and the royalty is uncertain or is not a reliable means of estimating the value of the goods; or
- (iv) the goods are usually or exclusively sold by or to agents or by subscription; or
- (v) are sold or imported in or under any unusual or peculiar manner or conditions (of all which matters the Minister shall be judge)

the Minister may determine the value for duty of the goods.

A Notice, dated 29th October 1913, was issued from the Office of the Commonwealth High Commissioner in London, showing the requirements of the Australian Customs in connection with the question of the value for duty of goods liable to *ad valorem* rates.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS, AND PROTECTORATES—*continued.*COMMONWEALTH OF AUSTRALIA—*cont.*

The Notice states that in assessing the "free on board" value of goods subject to *ad valorem* duty in terms of the above-quoted section of the Customs Act of 1901, the following charges are :—

*Included in value for duty.*

## Inland carriage—

- (i) When the goods are shipped from the country where purchased—the whole inland carriage;
  - (ii) When the goods are bought in one country and shipped from a contiguous country (*e.g.*, bought in Austria, shipped from Germany)—inland freight to the frontier of the country in which the goods are purchased.
- Coastal freight (*i.e.*, when goods are shipped from one port to another in the same country but are not actually consigned to Australia from the first port), and other charges (including lighterage) incurred in conveying the goods to, and placing them on board, the exporting vessel;
- Canal dues (*i.e.* when canal, dues form portion of inland freight charge to the port of shipment);
- Cost of labour and materials (except outside packages) used in packing, including flock, kapok, straw, and other inside packing (*a*);
- Insurance to port of shipment;
- Inland Revenue duty, only when the goods bear Inland Revenue Duty Stamps affixed to them in the country of export; and
- Royalties.

And the following charges are *excluded*, *viz.*—

*Excluded from value for duty.*

- Outside packages (including zinc linings and tarred paper) in which goods are ordinarily imported;
- Agents' charges;
- Bank exchange;
- Buying or indent commission (*b*) being a charge made to the importer by the buying or indent agent for services rendered and not an allowance made by the manufacturer to the buying agent;
- Brokerage;
- Dock dues;
- Export duty;
- Inspection fees;
- Insurance—oversea;
- Interest;
- Postage and petties;
- Sea freight—oversea; and
- Stamp duty on bills of lading.

In all cases import duty is chargeable in Australia on the net price at which similar quantities of the goods could be bought by any *cash purchaser for home consumption* in

(*a*) When flock, kapok, straw, or horse-hair packing is separately invoiced, and has a commercial value of its own after unpacking in Australia, such value is not included in the value for duty, and the materials mentioned are dealt with under the appropriate tariff headings.

(*b*) The Commonwealth Government issued an Order (No. 1,169 of 1909) on 3rd December 1909 stating that in all cases in which invoices tendered by importers are those made out by oversea buying agents, such agents should be regarded as the vendors of the goods, and the amount of any so-called buying-commission included in the value for duty unless the Collector is satisfied that the values appearing in the body of the agents' invoice represent the cash prices for home consumption in the country of export. In cases where it is impracticable for buying agents to forward the original maker's invoices, it has been decided that the charge for buying shall not be included in the value for duty if a declaration is made to the effect that the prices given represent the "fair market value" of the goods for home consumption in the country of export, *f.o.b.*

A further Order was issued in 1911 (No. 1421 of 1911), stating that no allowance for buying-commission will be permitted as a deduction from invoice values, unless the necessary declaration is made by the buying agents in the *country of export*.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS, AND PROTECTORATES—*continued.*COMMONWEALTH OF AUSTRALIA.—*cont.*

the country of export, plus the charges enumerated above as *included* in the value for duty and plus the statutory 10 % referred to above. Any special discounts allowed, or reduced prices charged, to branch houses or to agents purely by reason of agency existing, and any discounts or reductions in price allowed for export and *not for home consumption* are, therefore, not recognised by the Department in determining the value for duty.

## TERRITORY OF PAPUA.

The value of goods subject to *ad valorem* duty shall be the fair market value of such goods in the principal markets of the country whence the same were exported in the usual and ordinary acceptation of the term, and free on board at the port of export in such country, and a further addition of 10 % on such market value. (Sec. 1 of Ord. No. 12 of 1909.)

## DOMINION OF NEW ZEALAND.

The value of goods subject to *ad valorem* duty shall be the fair market value thereof, when sold for cash in the ordinary course of business for home consumption in the principal markets of the country from which the goods were *exported*, at the time when they were so exported, with 10 % added to such fair market value.

No deduction of any kind shall be allowed from the fair market value of any goods because of any special or sample discount, or because of any special arrangement concerning the export of the goods, or the exclusive right to the sale thereof within certain territorial limits, or because of any royalty payable upon patent rights, but not payable when goods are so exported, or on account of any other consideration by which a special reduction in price has been, or might be, obtained.

If it is proved to the satisfaction of the Collector that any import duty or excise duty has been actually paid upon the goods in the country from which they were exported, or would have been payable upon the goods in that country if they had been there entered for home consumption instead of being exported therefrom, the amount of that duty shall be deducted from the fair market value of the goods as determined in accordance with the foregoing provisions.

When the fair market value of any goods when sold for cash for home consumption, as aforesaid, depends in the ordinary course of business upon the quantity sold, such value shall be determined by reference to the quantity actually imported at one and the same time by the same importer from the same seller or supplier, save and except that if the goods are imported under a *bonâ fide* contract of purchase made in the ordinary course of business and including a greater quantity of such goods than that which is actually imported at one and the same time, the fair market value of such goods shall be estimated by reference to the aggregate quantity so included in that contract and imported or to be imported in pursuance thereof within a period not exceeding 12 months.

For the purpose of determining the value of any goods so subject to *ad valorem* duty, the importer or his agent shall, on the first entry thereof (other than an entry for removal), produce to the Collector or other proper officer the invoice (as hereinafter defined) for those goods, and make, and deliver to the Collector or other proper officer, a declaration in the prescribed form verifying that invoice, and setting out the true value of the goods for the purposes of duty, and such other particulars as may be prescribed.

If a failure to produce the invoice is accounted for to the satisfaction of the Collector or other proper officer, proof of its contents by a copy or otherwise may be received in lieu of its production.

The invoice herein referred to means:—

- (i) In the case of goods imported on the sale thereof the original invoice prepared and issued by or on behalf of the seller showing the true description of the goods and the actual money price paid or to be paid for the goods by the purchaser; or
- (ii) In the case of goods consigned for sale in New Zealand, or otherwise than on the sale thereof, the original invoice prepared and issued by the consignor showing the true description of the goods and the fair market value thereof as hereinbefore defined in the principal markets of the country whence they were exported at the date of exportation thereof.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*DOMINION OF NEW ZEALAND—*cont.*

Subject to the provisions of this section, the amount of the invoice, after deducting therefrom all reasonable and lawful deductions in respect of discount, freight, insurance and other charges, may be accepted by the Collector as sufficient proof of the fair market value of the goods for purposes of duty, and he may value the goods and assess the duty accordingly.

If the importer satisfies the Collector that the fair market value of the goods for purposes of duty is *less* than the value as shown by the said invoice after making such deductions as aforesaid, the Collector shall value the goods at such lesser sum accordingly, and shall assess the duty on that value.

If the Collector has reason to believe or suspect that the fair market value of the goods for purposes of duty is *greater* than the amount of the said invoice, after making such deductions as aforesaid, he may value the goods at such higher sum as he thinks proper, and assess the duty on that value accordingly.

In the case of any medicinal or toilet preparation imported for the purpose of sale under any proprietary or trade name the fair market value thereof for the purpose of *ad valorem* duty shall be deemed to be the fair market value as hereinbefore defined of such preparation when completely manufactured, put up, labelled and sold under such proprietary or trade name in the country of export, notwithstanding the fact that at the time of exportation or importation the preparation may not have been completely manufactured, put up, and labelled as aforesaid, but deducting the estimated cost of labour and material used or expended in New Zealand in completing the manufacture thereof or putting up or labelling the same. (Act No. 63 of 1913.)

The form of declaration in respect of the invoice for, and the value of, goods subject to *ad valorem* duty is prescribed under the Customs Regulations, dated 29th June 1914.

## FIJI.

The amount of Customs dues payable on any goods which are liable to *ad valorem* duties shall, when the genuine invoice and other necessary documents for the said goods are produced to the Collector or other proper officer of Customs and accepted by such Collector or other proper officer as setting forth the true and real value of such goods, be calculated on the price paid for the said goods by the owner thereof, as represented by the invoice.

And all goods subject to an *ad valorem* duty shall be treated as exported from the country whence the importing ship brought them, unless satisfactory proof be produced that the goods were shipped for this Colony from some other country where the goods were purchased and paid for by the importer (Ordinance No. 2 of 1908 amending the Customs Regulation Ordinance, 1881).

[It is provided under Ordinance No. 17 of 1912 that in all cases where any duty is imposed on the value of goods, such value shall be understood to be the value as ascertained in accordance with the provisions of the "Customs Regulation Ordinance, 1881," with 5% added.]

No discount or deduction shall be allowed unless it is clearly shown on the original invoice, in the same handwriting as that in which such invoice is made out. (Sec. 53 of "Customs Regulation Ordinance, 1881" (Revised Statutes), as amended by Ordinance No. 22 of 1913.)

The words "genuine invoice" shall mean the original or duplicate invoice prepared and issued in the country whence the goods mentioned therein were purchased for export to Fiji and shall show the actual prices paid or to be paid by the importers in the place or country where the same were purchased. In the case of goods consigned to any person in Fiji for sale therein the words "genuine invoice" shall mean the original or duplicate invoice prepared or caused to be prepared by the consignor and shall show the actual price at which such goods were saleable in the principal markets of the country whence such goods were exported at the date of shipment of such goods. Provided that the Collector of Customs or other proper officer may accept a press copy of any genuine invoice upon such conditions as he shall see fit. (Sec. 16 of Ord. No. 6 of 1908.)

## UNION OF SOUTH AFRICA.

The value of goods subject to *ad valorem* duty shall be taken to be the "true current value" for home consumption in the open market of similar goods in the principal markets of the country from which, and at the time at which, the goods were imported, including carriage to the port of shipment and the cost of packing and packages, but not including agent's commission when such commission does not exceed 5%; provided that in no case shall the value for purposes of duty, as above defined, be less than the cost of the goods to the importer at the port of shipment. (Sec. 7 of Act No. 26 of 1914.)

Under certain regulations (Government Notice No. 1094 of 1913), issued under the Customs Management Act No. 9 of 1913, it is provided that, with regard to the declaration of value, the value of goods for Customs duty purposes is to be ascertained by the declaration of the importer at the foot of the appropriate bill of entry of the goods, made in the manner and form as follows:

"I, the undersigned, . . . , for importer, do hereby declare that the above  
" is a true description and complete return of all goods contained in the above-  
" mentioned packages, and of the value of such goods, and that values are true  
" correct values of same as defined by law, including the cost of packing and  
" packages." (Sec. 102.)

The person entering goods at importation shall produce, if required by the proper officer of Customs, any document relating to the goods, and the invoice shall contain a statement in a prominent place made by the suppliers showing clearly the current value for home consumption in the open market for similar goods at the place of purchase bought in the ordinary manner from the manufacturer or supplier in normal quantities. The invoice and any covering statement shall also clearly show cost of packing and packages. (Sec. 103.)

## RHODESIA.

The value of goods subject to *ad valorem* duty shall be taken to be the "true current value" on the open market for similar goods at the place of purchase bought in the ordinary manner from the manufacturers or suppliers in normal quantities, including the cost of packing and packages, but not including agent's commission if it does not exceed 5%; provided that in no case shall the true current value as above defined be less than the cost of the goods to the importer at the place of purchase. (S. Rhodesia, sec. 14 of Ord. No. 6 of 1906; N. Rhodesia, sec. 11 of Proc. No. 11 of 1912.)

In all cases where duties are imposed upon the importation of goods according to the value thereof, such value shall be ascertained by the declaration of the importer of such goods in the manner and form as follows:

"I, the undersigned, . . . do hereby declare that the above is a true  
" description and complete return of all goods contained in the above-mentioned  
" packages, and that the values given of the same are the true current value of same  
" as defined by law, including the cost of packing and packages at the place where  
" the goods were purchased for importation into Southern or Northern Rhodesia (as  
" the case may be.)"

(S. Rhodesia, sec. 13 of Ord. No. 6 of 1906 as amended by Ord. No. 12 of 1910; N. Rhodesia, sec. 10 of Proc. No. 11 of 1912.)

## NYASALAND PROTECTORATE.

The value of all goods upon which import duty is levied *ad valorem* is the value of the goods as they lie at the port of shipment, exclusive of trade discounts, and of freight, insurance and other charges. (Government Notice No. 191 of 1910.)

The term "port of shipment" is defined to mean the place at which the goods are finally shipped for direct conveyance to the Nyasaland Protectorate, irrespective of the country of origin of such goods. (Customs Notice No. 267 of 1913.)

## UGANDA PROTECTORATE.

The value of all goods upon which import duty is levied *ad valorem* shall be deemed to be the cash price for which the goods are capable of being sold in the Customs House without profit or loss to the importer at the time and place of importation without any abatement or deduction whatever, except the amount of duties payable on the importation thereof.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*UGANDA PROTECTORATE—*cont.*

The Chief of Customs may, with the approval of the Governor, fix a scale of percentages to be added to the first cost of the goods to be valued to cover any charges which should be taken into consideration in estimating the cost at which such goods can be delivered at the place of importation and which are difficult to ascertain.

## EAST AFRICA PROTECTORATE.

The value of all goods upon which import duty is levied *ad valorem* shall be deemed to be the cash price for which the goods are capable of being sold in the Customs House without profit or loss to the importer at the time and place of importation without any abatement or deduction whatever, except the amount of duties payable on the importation thereof.

The Chief of Customs may, with the approval of the Governor, fix a scale of percentages to be added to the first cost of the goods to be valued to cover any charges which should be taken into consideration in estimating the cost at which such goods can be delivered at the place of importation and which are difficult to ascertain.

## SOMALILAND PROTECTORATE.

The value of goods upon which *ad valorem* duty is leviable shall be either—

- (i) In accordance with the tariff approved for each year by the Consul-General, and open for inspection at each Customs House; or
- (ii) Where no provision is made in the tariff, the wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation.

## NIGERIA.

The value of goods liable to *ad valorem* duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Nigeria, and for the purpose of arriving at the fair market value the Governor in Council is empowered to appoint appraisers.

Such fair market value shall be the fair market value of such goods in the usual and ordinary commercial acceptance of the term, at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is, by universal usage, considered and known to be a cash article and so *bond fide* paid for in all transactions in relation to such article; and all invoices representing cash values, except in the special cases herein referred to, shall be subject to such additions as to the Chief Customs Officer or Appraisers appear just and reasonable, to bring up the amount to the true and fair market value.

If any difficulty arises in determining the fair market value of goods such as musical instruments, sewing machines, hardware, medical preparations commonly called patent medicines, and other similar goods, the prices of which are published by the manufacturers or producers, or persons acting on their behalf, the Governor in Council may by Order from time to time fix and determine a certain rate of discount which may be deducted from such published prices, and the remainder, after deduction of such discount, shall be deemed to be the fair market value for duty of such goods.

The fair market value shall be taken to include the amount of consideration or money value of any special arrangement between the exporter and the importer, or between any persons interested therein because of the exportation or intended exportation of goods or the right to territorial limits for the sale or use thereof, and also the amount or money value of any so-called royalty, rent, or charge for use of any machine or goods of any description which the seller or proprietor does or would usually charge thereon when the same are sold or leased or rented for use in the country whence they have been exported to Nigeria.

No deduction shall be allowed because of any special arrangement between the seller and purchaser having reference to the exportation of such goods, or the exclusive right to territorial limit for the sale thereof, or because of any royalty payable upon patent

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*NIGERIA—*cont.*

rights, but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained. Provided that nothing herein shall be understood to apply to general fluctuations of market values.

Whenever goods are imported under such circumstances or conditions as to render it difficult to determine the value thereof, either because such goods are not sold for use or consumption in the country of production—or because such goods are sold or imported under some unusual or peculiar manner or conditions—the Chief Customs Officer may determine the value for duty of such goods.

No deduction from the value of goods contained in any invoice shall be allowed on account of the assumed value of any package or packages, where no charge for such package or packages has been made in such invoice; and where such charge is made the Customs Officer shall see that the charge is fair and reasonable and represents no more than the original cost thereof.

No deduction shall be made on account of charges for packing, or for straw, twine cord, paper, cording, wiring, or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall in all cases be included as part of the value for duty.

## GOLD COAST.

The value of goods subject to *ad valorem* duty is to be the value as they lie at the port of shipment, *i.e.*, invoice value, exclusive of trade discounts and of freight, insurance, and other charges.

## SIERRA LEONE.

The value of goods liable to *ad valorem* duty is to be the invoice value at the port of shipment, exclusive of trade discount, insurance, freight, and packing expenses.

## GAMBIA.

The value of goods liable to *ad valorem* duty is to be the invoice value at the port of shipment, exclusive of trade discount, freight, insurance, and value of packages.

## DOMINION OF CANADA.

By the Canadian Consolidated Customs Acts,<sup>(a)</sup> whenever any duty *ad valorem* is imposed on any goods imported into Canada, the value for duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence, and at the time when, the same were *exported* directly to Canada.

Such market value shall be the fair market value of such goods in the usual and ordinary commercial acceptance of the term, and as sold in the ordinary course of trade: provided that a discount for cash, for duty purposes, shall not exceed 2½ per cent., and shall not be allowed unless it has been actually allowed and deducted by the exporter on the invoice to the importer.

The Dominion Customs Appraisers and every person acting as such, or the Collector of Customs, as the case may be, shall by all reasonable ways and means in his or their power ascertain, estimate, and appraise the true and fair market value (any invoice or affidavit thereto notwithstanding) of the goods at the time of exportation and in the principal markets of the country whence the same have been imported into Canada, and the proper weights, measures, or other quantities, and the fair market value thereof, as the case requires.

In the case of goods shipped to Canada on consignment but sold by the exporter to persons in Canada prior to their importation into Canada, the amount of the valuation for duty shall not be less than the invoice value to the Canadian purchaser, exclusive of all charges upon the goods, after shipment from the place whence exported directly into Canada.

(a) Cap. 48 of the Revised Statutes of Canada of 1906 and amending Act of 1907.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*DOMINION OF CANADA—*cont.*

When articles of the same material, or of a similar kind but of a different quality, are found in the same package, charged or invoiced at an average price, the appraisers shall adopt the value of the best article contained in such package as the average value of the whole, and duty shall be levied thereon accordingly.

The Board of Customs may review the decision of any Appraiser or Collector of Customs as to the principal markets of the country, or as to the fair market value of goods for duty purposes; and the decision of the Board of Customs in regard to such principal markets, and value of goods for duty purposes, in any case or class of cases, shall, when approved by the Minister of Customs, be final and conclusive, except where otherwise provided for in the Act.

Duty shall not be assessed on less than the invoice value in any case, except on account of reduction in the fair market value of such goods between the time of their purchase by the Canadian importer and their exportation to Canada. Trifling fluctuations in market values occurring after the purchase of the goods may be disregarded, and the appraiser may allow a *bonâ fide* discount for cash, not exceeding  $2\frac{1}{2}$  per cent., when allowed and deducted by the exporter on his invoice.

If any difficulty arises in determining the fair market value for duty of goods imported into Canada, which are the manufacture or production of foreign countries, or of Great Britain, such as musical instruments, sewing machines, agricultural machines or implements, medical preparations, commonly called patent medicines, and other similar goods, the prices of which are published by the manufacturers or producers, or persons acting on their behalf, the Governor in Council may, from time to time, fix and determine a certain rate of discount which may be deducted from such published prices of any such manufactures or productions, and the remainder of such published prices, after deducting such rate of discount, shall be deemed and taken to be the fair market values for duty of any such manufactures or productions as are specified in such Order in Council.

The fair market value of goods shall be taken to include the amount of any drawback which has been allowed by the Government of any other country, also the amount of consideration or money value of any special arrangement between the exporter and the importer, or between any persons interested therein because of the exportation or intended exportation of such goods, or the right to territorial limits for the sale or use thereof, and also the amount or money value of any so-called royalty, rent, or charge for use of any machine or goods of any description which the seller or proprietor does or would usually charge thereon when the same are sold, or leased, or rented for use in the country whence they have been exported to Canada. When the amount of such drawback; consideration, money value, royalty, rent, or charge for use, has been deducted from the value of such goods, on the face of the invoice under which entry is to be made, or is not shown thereon, the Collector of Customs, or proper officer, shall add the amount of such deduction, drawback, consideration, money value, royalty, rent, or charge for use, and cause to be paid the lawful duty thereon.

No deduction of any kind shall be allowed from the value of any goods imported into Canada because of any drawback paid or to be paid thereon, or because of any special arrangement between the seller and purchaser having reference to the exportation of such goods, or the exclusive right to territorial limits for the sale thereof, or because of any royalty payable upon patent rights, but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained: provided that nothing herein shall be understood to apply to general fluctuations of market values.

Whenever goods are imported into Canada under such circumstances or conditions as to render it difficult to determine the value thereof for duty, either because such goods are not sold for use or consumption in the country of production,—or because a lease of such goods or the right of using the same is sold or given, but not the right of property therein,—or because such goods having a royalty imposed thereon, the royalty is uncertain or is not, from other causes, a reliable means of estimating the value of the goods,—or because such goods are usually or exclusively sold by or to agents, or by subscription, or are sold or imported in or under any other unusual or peculiar manner or conditions,—of all which matters the Minister of Customs shall be sole judge,—the Minister of Customs may determine the value for duty of such goods; and the value so determined shall, until otherwise provided, be the value upon which the duty on such goods shall be computed and levied.

No deduction from the value of goods contained in any invoice shall be allowed on account of the assumed value of any package or packages, where no charge for such package or packages has been made in such invoice; and where such charge is made the Customs Officer shall see that the charge is fair and reasonable, and represents no more than the original cost thereof.

No deduction from the value of goods in any invoice shall be made on account of charges for packing, or for straw, twine, cord, paper, cording, wiring or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall, in all cases, be included as part of the value for duty.

When parts of any manufactured article are imported into Canada, each such part shall be charged with the same rate of duty as the finished article, on a proportionate valuation, and, when the duty chargeable thereon is specific, or specific and *ad valorem*, an average rate of *ad valorem* duty, equal to the specific or specific and *ad valorem* duty so chargeable, shall be ascertained and charged upon such parts of the manufactured article.

Whenever duties are imposed according to any specific quantity or to any specific value, the same shall be deemed to apply in the same proportion to any greater or less quantity or value, and to any fractional part of such specific quantity.

The following provisions respecting coverings, inside and outside, used in covering or holding goods imported therewith are made in the Customs Tariff Act of 1907 :—

- (i) Usual coverings containing free goods only, and usual coverings (except receptacles capable of holding liquids), containing goods subject to a specific duty only, *n.o.p.*, may be imported free of duty.
- (ii) Usual coverings containing goods subject to any *ad valorem* duty, when not included in the invoice value of the goods they contain, are subject to a duty of 15% *ad valorem* when entitled to the benefits of the British Preferential Tariff, and 20% *ad valorem* in all other cases.
- (iii) Provided, that usual coverings containing goods subject to any *ad valorem* duty, if included in the invoice value of the goods they contain, and not charged separately on the invoice, shall be subject to the same rate of duty *ad valorem* as the goods they contain, and may be combined with the goods for valuation and duty on the Customs entry.
- (iv) Provided further, that receptacles capable of holding liquids, when containing goods subject to a specific duty, shall be charged with the rate of duty to which the same would be subject if imported separately, except when the coverings and the goods contained therein are rated together in the Tariff item.
- (v) Provided further, that usual coverings designed for use other than in the *bond fide* transportation of the goods they contain, shall be charged with the rate or duty to which the same would be subject if imported separately.
- (vi) Provided also, that the term "coverings" in this paragraph shall include packing boxes, crates, casks, cases, cartons, wrapping, sacks, bagging, rope, twine, straw, or other articles used in covering or holding goods imported therewith, and the labour and charges for packing such goods, subject to regulations prescribed by the Minister of Customs.

## NEWFOUNDLAND.

By the Newfoundland Customs Act of 1898 it is provided that, whenever any duty *ad valorem* is imposed on any goods imported into the Colony, the value for duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were *exported* directly to the Colony.

The market value is to be the fair market value of the goods in the usual and ordinary commercial acceptance of the term at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is by universal usage considered and known to be a cash article, and so *bond fide* paid for in all transactions in relation to such article; all invoices representing cash values, except in the special cases herein referred to shall be subject to such additions, as to the collector or appraiser at the port at which they are presented appear just and reasonable, to bring up the amount to the true and fair market value.

Provided that in case of any dispute respecting the proper amount of such inland transportation charges, the Minister of Finance and Customs may determine the same, and his decision shall be final (Acts Nos. 28 of 1907, 14 of 1912, and 33 of 1913).

- (iv) Provided further that receptacles capable of holding liquids, when containing goods subject to a specific duty, shall be charged with a duty of 30% *ad valorem*.

## APPENDIX II.

### SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES.

#### BRITISH INDIA.

The duties are levied in all Provinces upon the *net* weight of the goods imported.

In *Madras* actual weighing is made of the whole or of a percentage of each consignment. When the packing is not uniform the whole of the consignment is weighed. In other cases, a percentage is weighed, varying according to the nature of the article and the circumstances of importation. The only goods not weighed are cigarettes which importers may, if they choose, have assessed at 6 ounces per 100.

In *Bombay*, the usual practice is to weigh a portion of the merchandise, usually ten per cent., and to deduce an average weight for the whole. But importers are allowed the option of having the whole consignment weighed if they are not satisfied with the result of the percentage weighing. The goods are weighed gross, and the accepted average tare, if any, for the class of goods is allowed after usual weighment, gross and net, of a few items only, to test the correctness of the allowance for tare.

In *other Provinces* when duties are levied on the net weight without actual weighment, the invoiced weight is accepted subject to an occasional test weighment of a portion of the consignment.

At *Calcutta*, however, when invoices are not produced or are not accepted, weighments are made in accordance with the following Scale:—

<i>No. of Packages.</i>	<i>No. to be weighed.</i>
When not exceeding 50 - - -	10
When exceeding 50 but not exceeding 150 -	15
" " 150 " " 500 -	10 per cent.
" " 500 " " 1000 -	8 per cent. with a minimum of 50 packages.
" " 1000 - - -	5 per cent. with a minimum of 80 packages.

At *Calcutta*, ordinarily a certain proportion of each consignment of tobacco, cigarettes, and cigars is weighed, British Customs certificates being accepted in those cases in which the weights entered therein agree with the weights registered in the Customs House.

Tare allowances are ordinarily ascertained either by actual weighment, or the weights given in the invoice are accepted. A list of tares is maintained, and periodically checked and revised at *Madras*, *Bombay*, and *Karachi* for goods regularly imported in packages of uniform or usual description. These tares are allowed, unless there is reason to suspect that a new form of packing has been accepted, in which case a fresh weighment is made. At *Calcutta*, allowance for tare is made by actual weighment of one of the receptacles similar to those in which the goods are imported. At *Chittagong*, no tare allowance is granted where the invoice or other documents do not show a tare.

The weight of spools, reels, and cards which are used for certain articles is not taken into consideration in assessment for duty, as goods put up on these articles are either free or subject to *ad valorem* duty under the present Tariff, but if any such articles should be assessed on a basis of weight, the weight of the interior packing would not be included for duty purposes.

There are no special Regulations in force bearing on the above subject in any Province of British India but certain Rules and Standing Orders are in operation in the *Rangoon* Custom House regarding the weighment of articles subject to duty on a basis of weight, as follows:—

*Salt* when imported in bulk is weighed and duty is assessed on actual weighment; when imported in tins or bottles the net invoice weight is accepted.

*Salted fish, coffee, sugo, garlic, dates, betelnuts, pepper, &c.*, which are usually imported without being covered by reliable invoices are dealt with as follows:—  
An average of 15 per cent. of each consignment is selected by the Examining

BRITISH INDIA—*continued.*

Officer and weighed gross. The average tare of the exterior and interior packing materials is then ascertained and the tare is then deducted from the gross weight and the whole consignment is then assessed to duty on the net weight worked out on this basis.

*Sugar in bags, in bulk*, when accompanied by reliable invoices showing weight, is assessed on such weight subject to check weighments of from 3 to 5 per cent. of each parcel. When not accompanied by invoices, and the bags appear to be of uniform size, duty is levied on the net weight based on the weighment of 6 per cent. of each parcel.

*Cigars, cigarettes, and tobacco in tins or packets* are assessed to duty on the net weight shown on the invoice, subject to check weighments of the contents of one or more tins or packets, except where small quantities for personal consumption are brought by passengers, or are imported by post, when they are charged with duty on an estimated average weight, or on a previously recorded weight of similar brands.

*Tobacco imported in bulk* is assessed to duty on a basis of actual weighing.

*Butter and dyes in tins, and paints in kegs or tins* are assessed on the basis of invoice weights.

*Metals imported loose or in packages* are treated similarly to the above. In very rare cases, however, when not covered by invoices or weight notes, the whole parcel is weighed gross and tare.

*Raw Silk from China*, covered by reliable invoices, is assessed on invoice weights, and check weighments of small percentage are made. When invoices are not accepted, the levy of duty is based on the weighment gross and tare of from 20 per cent. to 30 per cent. of every parcel.

The following particulars are taken from instructions to appraisers of goods for duty on importation at Rangoon.

In the case of *sugar*, where satisfactory invoices are produced, no deduction is to be made on account of wastage. The invoice quantity will be accepted as correct, but 5 per cent. will be detained and part weighed as a check. Where there are no invoices, 6 per cent. will be weighed in full and duty levied on the whole quantity on the basis of that weighment.

Bills of Entry for the following goods will be taken in to the Customs Officer at the wharf after being noted and before assessment of duty. The Officer at the wharf will weigh a percentage of the goods and note the result on the reverse of the Bill of Entry. He will at the same time outpass 80 per cent. and detain 20 per cent. of the consignment. The importer will then make the necessary entries and present the Bill of Entry to the appraiser for assessment of duty. After the duty has been paid and the Assistant-Collector's orders obtained, the duplicate Bill of Entry will be presented to the Customs Officer at the wharf in order that delivery may be obtained of the balance:—

Almond, Arsenic, Betelnuts, Betel tree bark, Cassia, Camphor, Coffee, Cubebs, Dammer, Edible herbs, Fish (dry and wet), Gambier, Garlic, Ginger (dry), Groundnuts, Gum Benjamin, Lard, Mace, Nutmegs, Pepper (long, black, and white), Rattan, Sago, Sandalwood, Sugar, Sugar Candy, Tapioca, Tea, Teel Seed, Yeast, Vermicelli, and Macaroni.

Of the above goods, those that are assessed to duty *ad valorem* must not be outpassed by the wharf officer until the wharf appraiser has seen and initialled the Bill of Entry. All goods, whether assessed at a tariff rate or *ad valorem* must be examined before delivery. If importers have invoices and declare weights from them, there is no objection to the Bill of Entry being put through in the ordinary way, but if this course is adopted, importers risk being penalised for misdeclaration if the weight is misdeclared.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*BRITISH INDIA—*continued.*

All consignments of tobacco from foreign ports shall be carefully weighed and examined by the Customs Officers on the wharf. Tare weights for each separate consignment shall be ascertained by actual weighments. If the cases containing the tobacco are apparently uniform in size, then the tare weight and the actual contents of 10 per cent. shall be found by first weighing the case intact, and then emptying out the tobacco and weighing it. All results shall be entered on the tally sheet and endorsed on duplicate Bill of Entry. If the tare weights are constant, then the average tare of 10 per cent. shall be the tare allowed for the cases. The remaining 90 per cent. shall be weighed intact and the tare of the cases as ascertained above be allowed for. Allowances shall be made for the paper wrappings on the packets of tobacco on the basis of the actual tare of such wrappings. For this purpose, the Head Appraiser shall direct the Examining Officer or Wharf Appraiser to forward a given number of packets, under seal to the Custom House. The number of packets in a case shall be noted on the tally sheet and endorsed on the duplicate Bill of Entry. The Officer in charge of the shed and the Wharf Appraiser shall make occasional test weights to check their accuracy.

The duplicate Bill of Entry with particulars duly endorsed shall be sent to the Head Appraiser together with sample packets of the tobacco.

Tobacco imported in tins with the actual weight of the contents shown in the invoice (such as 1 lb. tins, &c.) may be passed under the Head Appraiser's orders only. A sample tin of each of the various sizes shall be forwarded to him for orders. He shall occasionally check the contents by actual weighing which shall be noted on the reverse of the duplicate Bill of Entry.

Bills of Entry for cigars and cigarettes from foreign ports shall be dealt with by the Head Appraiser who will decide whether the whole consignment or a part only shall be brought into the Custom House for examination. Five per cent. of the tins of cigarettes and boxes of cigars of each variety imported shall be examined separately and if found to be of uniform size the contents of one or more tins or boxes shall be counted out and the weight of 100 cigarettes or 100 cigars carefully ascertained by actual weighment. This rule does not apply to cigarettes subject to duty at the rate of Rs. 5 per thousand, except to ascertain if they fall under the higher or lower rate of duty.

All tobacco, cigars, and cigarettes (except cigarettes known to weigh less than 3 lbs. per thousand, and tobaccos, cigars, or cigarettes imported in small quantities for personal consumption) shall, in the first instance, be assessed to duty on the basis of actual weighments made at the Custom House and the weights recorded in the Register maintained in the Appraising Branch. Subsequent importations of these articles will be assessed to duty on the basis of previous weighments recorded in the Register. Checkweights will, however, be made periodically (say every three months) to see that the size of the cigarettes or cigars or the capacity of the tins of cigarettes or tobacco have not been altered.

Tobacco, cigars, and cigarettes imported in small quantities for personal consumption need not ordinarily be opened for weighing, but may be assessed to duty on previously recorded weights or provisionally on an estimated average weight subject to amendment if necessary.

## CEYLON.

The duties are levied on the *net* weight of the goods imported. Such goods are always examined—an average examination being made in the case of large consignments, unless satisfactory invoices showing the net weight are produced. The weight of packages, &c., is included.

MAURITIUS.

The duty is levied upon the net weight of goods imported.

When actual weighing is not resorted to, the net weight is taken from the invoices, and, in cases where these are not produced, the goods under examination are unpacked and weighed.

When the merchandise comprises the value of spools, reels, or other packing which are not separated when the goods are offered for sale, the duty is charged thereon.

SEYCHELLES.

The duty is levied upon the net weight of goods imported.

In cases where the goods are not actually weighed, the invoice weights are accepted, but these weights are periodically tested.

No duty is claimed on the weight of reels, cards, or packages.

COMMONWEALTH OF AUSTRALIA.

Duties are levied upon the net weight of goods imported at specific rates, except in certain specified cases provided for in the Tariff Act (viz., tobacco, solid spirit heaters, confectionery, liquorice, preserved fish, preserved peel in liquid, preserved meat in tins, and framed paper manufactures).

Net weights are determined by stripping the tare and weighing a portion of a consignment, and if the results thus obtained agree with the invoices, the invoices are accepted for the whole consignment; if, however, the results differ from the invoices, further weighings are made.

When goods are invoiced, marked, listed, catalogued, or sold, as of a size or quantity greater than their actual size or quantity, duty is to be charged on such greater size or quantity.

In cases where there is no evidence, apart from the invoice, of reputed quantity or contents, and such invoice shows also the actual quantity or contents, duty may be accepted on such actual quantity or contents.

TERRITORY OF PAPUA.

Duties are levied upon net weight of goods imported at specific rates. If any dutiable article is imported in the form or shape of a bag, package, box, tin, jar, bottle, or similar thing marked or labelled or commonly sold as containing or reputed to contain a specific quantity of such article, such bag, &c. shall, as against the importer, be deemed to contain such specific quantity.

Spools, reels, cards, &c. are valued together with the merchandise in assessing value or duty, but outside packages, &c. are admitted free.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## DOMINION OF NEW ZEALAND.

Duties are levied on the net weight of goods imported, with the exception of fancy confectionery, tobacco, preserved fish, and jams.

Goods having standard weights, such as preserved herrings, jam, mustard, &c., are usually accepted at invoice weights, subject to an occasional check by weighing gross and deducting the average tare on stripping a few tins.

The only cases in which cards and packages are weighed for duty are those of fancy confectionery, where the internal package as sold to the consumer is weighed in with the confectionery, and cigars and tobacco which include for duty the weight of bands, wrappers, tabs, labels, or similar attachments.

## FIJI.

Specific duties are levied on the net weight of goods imported.

Where, however, any article subject to specific duty is imported in any bag, box, tin, jar, bottle, or any other package intended for retail sale, and marked or labelled or commonly sold as containing a specific quantity of such article, such bag, &c. shall be deemed, as against the importer, to contain such specific quantity.

## UNION OF SOUTH AFRICA.

Duties are levied on the net weight of goods imported, subject to the provisions of the General Note made in the Customs Tariff to the effect that—

- (1) 24 reputed half-pints, 12 reputed pints, 6 reputed quarts, and 4 reputed imperial quarts shall be deemed to be not less than 1 gallon;
- (2) Tins, jars, or other receptacles of reputed weight shall be deemed to be not less than such weight.

It is also provided in a further Regulation that "all tins and other receptacles containing ingredients liable to a rated duty, and to which the General Note in the Customs Tariff as above stated is applicable, must bear, indelibly stamped on the vessel as well as printed across the label, the actual weight of the contents, otherwise duty will be levied on the reputed weights or measures."

Importers are advised to have the gross and net weights and tare shown clearly on all invoices, and the information thus given is acted upon when assessing duties, subject to repeated checks by the Examining Officers.

## RHODESIA.

Duties are levied on the net weight of goods imported, subject to the provisions of the General Note made in the Customs Tariffs of both Southern and Northern Rhodesia to the effect that—

- (1) 24 reputed half-pints, 12 reputed pints, 6 reputed quarts, and 4 reputed Imperial quarts shall be deemed to be not less than 1 gallon;
- (2) Tins, jars, or other receptacles of reputed weight shall be deemed to be not less than such weight.

It is also provided in a further Regulation issued by the Government of Southern Rhodesia that: "all tins and other receptacles containing ingredients liable to a rated duty, and to which the General Note of the Tariff is applicable, must bear, indelibly stamped on the vessel, as well as printed across the label, the actual weight of the contents, otherwise duty will be levied on the reputed weights or measures."

## NYASALAND PROTECTORATE.

There are no goods on which the duty is computed by weight on importation into the Protectorate.

## UGANDA PROTECTORATE.

Same as Nyasaland Protectorate.

## EAST AFRICA PROTECTORATE.

Same as Nyasaland Protectorate.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## SOMALILAND PROTECTORATE.

Same as Nyasaland Protectorate.

## ST. HELENA.

Duties are levied on tobacco and alcoholic and distilled liquors, and are computed "by measurement only."

## PROTECTORATE OF NORTHERN NIGERIA.

Duties are, for the most part, levied at the coast ports of S. Nigeria on the net weight of goods imported.

[Under a Customs Notice published in the Northern Nigeria Gazette of 15th April 1913, it is stated that the *gross* weights of all cotton and other textile goods should be shown on the Invoices and Bills of Entry.]

## SOUTHERN NIGERIA.

Duties are, for the most part, levied on the net weight of the goods imported. Coral, beads, yarn and grey baft are dutiable on the gross weight. The invoice weight is accepted, but verification is made by weighing a percentage of the total quantity imported. Comparison is also made with previous importations.

[Under a Notice issued by the Southern Nigerian Government in September 1911 it was stated that in case goods dutiable by gross weight are packed together with other goods, or with goods of different kinds dutiable by weight, the net weight of such goods shall be increased by 20% for the purpose of assessing the amount of duty leviable on the gross weight at the discretion of the Customs Officer.]

Where the duty is levied on the gross weight of any article no deduction is to be made on account of any packing or package, and the duty is to be assessed on the article including any packing or package.

[It is stated in the Code of Regulations that "packages in which goods are ordinarily imported" are exempt from duty, but such packages do not include the packages in which the goods are sold on the market, forming practically a portion of the merchandise, nor the paper coverings in which pieces of cotton, silk, satin, velvet, &c. are made up.

It is further stated in the Code of Regulations that the *gross* weights of all cotton and other textile goods should be shown on the Invoices and Bills of Entry.]

## GOLD COAST.

Duties are levied on the net weight of the goods imported. Where actual weighing is not resorted to, the invoice weight and tare is accepted.

In the case of goods liable to specific rates of duty, spools, reels, cards, packages, &c., are admitted free of duty.

## SIERRA LEONE.

Duties are levied on the net weight of the goods imported.

The amount is ascertained by weighing, no tare being allowed.

No deduction is made for spools, reels, or cards. Outside packages of every description are admitted free of duty.

## GAMBIA.

Duties are levied on the net weight of goods imported.

Where any question arises the actual content of the package is weighed, and the duty assessed thereon. If no question, however, arises, the net weight as shown on the invoice is accepted.

Such articles as spools, reels, and cards, &c., are subject to *ad valorem* rates of duty, and, consequently, their weight need not be taken into consideration.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## DOMINION OF CANADA.

The Canadian Government states that duty is levied in accordance with the provisions of the tariff, there being no general rule as to whether duties are levied on the gross or net weight of goods on importation.

For tare and draft allowances in regard to sugar, see "sugar" in body of this Return.

The tariff provides that the usual coverings (except receptacles capable of holding liquids) containing goods subject to a specific duty only shall be free of duty.

The term "coverings" is held to include packing boxes, crates, casks, cartons, wrapping, sacks, bagging, rope, twine, straw, or other articles used in covering or holding goods imported therewith, and the labour and charges for packing such goods, subject to regulations prescribed by the Minister of Customs.

## NEWFOUNDLAND.

Customs duties on goods subject to specific rates of duty are levied on the net weight of the goods imported, as shown by the invoice, but test weight is made of a portion or whole of the goods as the Customs Department may find necessary.

The usual coverings (except receptacles capable of holding liquids) containing goods subject to specific duty only are admitted free of duty.

The term "coverings" includes the same articles as specified for the Dominion of Canada above.

In making entry for goods enclosed by dutiable coverings, *e.g.*, carboys, casks, flasks, bottles, and cases, such coverings are subject to fixed valuations.

Straw wrappings, when used as outside coverings on dutiable goods, and when not included in the cost of the goods, are valued at half their cost at the port of export.

Crates in which earthenware is packed (including straw) are valued at one-fourth their cost at the port of export.

## BAHAMAS.

Duties are levied on the invoiced weight of the goods imported, *i.e.*, the net weight, excluding packages containing them.

Goods are not weighed, and there is no tare allowed.

## TURKS AND CAICOS ISLANDS.

Duties are levied on the net weight of the goods imported. Duty is calculated on the weight given in the invoice after inspection by the Customs officer. If any dispute or question arises the articles are weighed.

The packages containing the goods are not charged to duty according to weight, but are subject to a duty of 10% *ad valorem*.

## JAMAICA.

Duties are levied on the net weight of the goods imported.

When there is no reason to doubt the accuracy of the invoice weights, the invoice tare is allowed. By frequent test the tares of certain goods have been found to vary very little. Tares are fixed by the Landing Surveyor on various articles, such as bacon and hams, butter, cheese, lard, corn, bread and biscuits, salt, and tobacco, for particulars of which see the body of this Return.

As regards the coverings of the articles, the ordinary outside casing of any goods liable to a rated duty is exempt from duty. In the case of goods, however, liable to duty on the value thereof, the value of all outside and inside coverings or receptacles containing such goods, together with the value of all labels, wrappers, or other attachments are deemed to be a portion of the value of such goods for duty and included in such value; provided, that all packages or coverings containing either free or rated goods, apparently designed for use other than in the importation of the goods they contain, shall be subject to the same rate of duty as would thereon be levied if imported empty or separate from their contents.

All outside packages containing mixed goods (*i.e.*, goods liable to rated and *ad valorem* duties) are liable to *ad valorem* duty, and when the packages contain *ad valorem* and free goods, the outer package is liable to the same rate of duty as such *ad valorem* goods.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## ST. LUCIA.

Duties are levied on the net weight of goods imported.

The duties are levied either on the actual net weight after weighing or on the net weight as stated in the invoice. There are no tare allowances accorded in any case. No duty is charged on spools, reels, cards, &c. used for goods paying specific duty, as their weight is not included in that of such goods.

[Under Act No. 1 of 1912 (sec. 8) it is, however, provided that if any article liable to a specific duty is imported in any bag, box, tin, jar, bottle or any other package intended for retail sale and marked or labelled or commonly sold as containing or commonly reputed to contain, a specific quantity of the article, the bag, &c., shall be deemed as against the importer, to contain such specific quantity. In all cases where the package is not so marked, the duty, if payable on weight may, in the discretion of the Treasurer, be calculated on the gross weight of such package and its contents.]

## ST. VINCENT.

Duties are always levied on the net weight of goods imported.

In most instances, duties are calculated on invoices, which invariably show the net weight. Many invoices also show the tare.

In the case of articles imported regularly, there is a recognised tare (the average weight of the package).

In the case of barrels, the tare is 20 lbs.; sugar bags, 4 lbs.; rice bags, 3 lbs.

Test examinations are also resorted to at intervals, when both contents and packages are weighed. The tare in every instance is one adopted after frequent test of the weight.

The weight of spools, reels, cards, &c. is disregarded when duty is being calculated.

The articles of merchandise, of which they form a part, are subject to *ad valorem* duty, and these articles are regarded as being included in the cost of goods imported.

Packing cases are admitted free of duty.

## BARBADOS.

Duties are levied on the net weight of the goods imported.

When the goods are not actually weighed, duty is levied and tare allowance made on knowledge gained by practical experience.

Spools, reels, cards, &c., are subject to *ad valorem* duty, and the duty is collected thereon if they are the inner packages.

## GRENADA.

Duties are levied on the net weight of the goods imported.

Invoice weights are accepted, but in case of doubt, weighing is resorted to.

Spools, reels, cards, &c., are subject to *ad valorem* duty.

## LEeward ISLANDS.

Duties are levied on the net weight of goods imported.

The shippers' invoice weights are accepted.

In the case of goods subject to specific duties, spools, reels, cards, &c., used in connection therewith, are admitted free of duty, but when used as part of merchandise liable to *ad valorem* rates, such articles are subject to duty.

## TRINIDAD AND TOBAGO.

Duties are levied on the net weight of goods imported.

Actual weighing of goods paying specific duty is always resorted to, and tare allowance arrived at in each case.

Spools, cards, reels, &c., forming part of merchandise imported are subject to *ad valorem* duty. The packages or coverings in which any articles are contained, being the usual or proper packages or coverings, but not including the cans, tins, bottles, cases, boxes, or other receptacles or coverings enclosing or containing any articles or substances liable to duty on importation according to the value thereof, are exempted from duty.

[It is provided under sec. 7 of Ordinance No. 10 of 1913 that if any article subject to the payment of specific duty is imported in any bag, box, tin, jar, bottle, or any other package intended for sale and marked or labelled, or commonly sold as containing or commonly reputed to contain a specific quantity of such article, such bag, box, tin, jar, bottle or any other package as aforesaid, shall be deemed, as against the importer, to contain such specific quantity. In all cases where such package is not so marked or labelled or commonly sold or reputed, the duty, if payable by weight, shall be calculated on the gross weight of such package and its contents.]

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## BERMUDA.

Duties are levied on the net weight of goods imported. For the few goods liable to duty by weight in Bermuda, the net weight as shown on the invoice is accepted. In cases of doubt actual weighing of the goods is resorted to. No regulations have been issued on the subject.

As regards the inclusion of the weight of spools, reels, cards, packages, &c. for duty purposes, tobacco, cigars and cigarettes are the only goods liable to specific duty by weight which are affected, and the weight of packages is not included for purposes of duty.

## BRITISH HONDURAS.

Duties are levied on the net weight of goods imported, and the invoices of such goods are relied upon to obtain the net weights.

As regards spools, reels, and cards it is stated that all goods imported on such articles pay *ad valorem* duty, so there is no occasion to consider their weights.

## BRITISH GUIANA.

Duties are levied on the net weight of the goods imported, except that if any article subject to the payment of a specific duty is imported in any bag, box, tin, jar, bottle, or other package intended for retail sale and marked or labelled or commonly sold as containing, or commonly reputed to contain, a specific quantity of such article, such bag, &c. shall be deemed, as against the importer, to contain such specific quantity. In all cases where such package is not so marked or labelled, or commonly sold or reputed, the duty (if payable on weight) shall be calculated on the gross weight of such package and its contents.

In cases where the weight for duty is not arrived at by actually weighing the goods *net*, a test check of the quantity entered by the importer is made by weighing a percentage *gross* and making an estimated allowance for the tare. If the results closely approximate the quantity entered by the importer, such account is accepted for revenue purposes, but where an appreciable difference is found, a percentage of the goods is weighed *net* and the account for duty raised upon the whole consignment accordingly.

Articles such as spools, reels, cards, packages, &c. which form part of the merchandise in the condition in which it is offered for sale are not charged with duty, except in the following cases:—

Goods packed in trunks and canisters, hogsheds and punchcons not containing tobacco, coals, lime, wines or spirits, and inner packages of a fancy description. Such articles are charged at the *ad valorem* rate of duty.

It is stated in the "Customs Regulations, 1912" (par. 122) that the undermentioned articles, which are weighed gross, are usually accorded the following tare allowances:—

Articles.	Usual average tare.
Arrowroot in barrels . . . . .	20 lbs. per barrel.
Bacon and hams . . . . .	As marked.
Bran and pollard in bags . . . . .	2 or 3 lbs. per bag.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## GIBRALTAR.

Tobacco is the only article on which duty is leviable according to weight.

The duty thereon is levied on the net weight imported. Actual weighing is, as a rule, resorted to, but on large consignments invoice weights are accepted after verification by testing the actual weight of a given number of bales, boxes, &c. varying from 10 % to 20 % of the total. Tare allowances are accepted as shown on the invoice, but, in case of doubt, the actual tare is verified.

## MALTA.

Duties are levied on the net weight of the goods imported. Actual weighing of the goods is always resorted to. In the case of goods imported in sacks of uniform size, only a percentage of the sacks are weighed, the remainder being calculated on the weight thus obtained. The tare of each consignment is generally tested. When goods, however, are shipped by English or American firms, the tare shown on the invoice is accepted if the Customs Officer is satisfied.

In the case of packages, &c. which form part of the merchandise in the condition in which it is offered for sale, the net weight of one or two packages is ascertained, and on the result thus obtained the duty on the whole parcel is calculated.

Goods subject to duty in Malta are not such as need be imported on spools, reels, or cards.

## CYPRUS.

Duties are levied on the net weight of goods imported, which is arrived at by estimation.

There are no specific duties leviable on spools, reels, cards, packages, &c. when forming part of merchandise in condition in which it is offered for sale.

## BRITISH NORTH BORNEO.

Duties are levied on the net weight of the goods imported. Weighing is always resorted to, except in such cases where the tare allowance is well known from previous weighing operations.

There is no rule regarding the inclusion or exclusion for duty purposes of the weight of spools, reels, cards, and packages, &c., as these articles are subject to *ad valorem* duties.

## SARAWAK.

Tobacco and salt are the only articles imported direct from a foreign port on which duties are leviable according to weight.

The duty thereon is levied upon the net weight imported. Fifty cigarettes in tins are estimated as equal to  $\frac{1}{2}$  lb., 100 as  $\frac{1}{2}$  lb., &c. The weights of coverings and cases of other tobacco, as well as of salt, have been ascertained, and deductions are made accordingly as the variations are very slight.

Provision is made for the imposition of *additional* (Acts Nos. 14 of 1899 and 12 of 1903) and *special* (Acts Nos. 8 of 1902 and 11 of 1904) duties on sugar imported into British India from such countries as grant bounties on the production or exportation of sugar.

At the present time there are no additional or special duties levied on bounty-fed sugar imported into British India.

In the case of *Russia*, however, it is provided that the following *special* duties leviable on sugar of *Russian* origin are only remitted when such sugar is imported into British India direct from the country of production, or through another country which is also a party to the Brussels Sugar Convention of 1902 without having been transhipped at, or unloaded in, or carried through, any country which is not a party to the Convention. Such sugar must be accompanied by the prescribed certificate of origin. (Customs Circular No. 6 of 1908.)

(a) When produced by white labour from cane sugar grown in the Commonwealth. The additional duty is not levied on Australian sugar imported into Rhodesia.

(b) Including all of a polarization of 96° or over.

(c) In the case of the Union of South Africa, this surtax only applies to Mozambique sugar when imported into the Provinces of the Cape of Good Hope, Orange Free State and Natal.

(d) *i.e.*, Southern Rhodesia and that portion of the Territory of Northern Rhodesia lying outside the Congo Basin.

*Note.*—It is stated in a Notice issued by the Union Government in the Customs Handbook, 1911 that importers of any sugar into the Union for consumption, refining or manufacture must produce to the proper Custom Officers at the election of the latter:—

(i) A signed statement by the suppliers on the invoice or otherwise;

(ii) A certificate of origin in prescribed form duly signed by the producers or manufacturers; or

(iii) Such other or further evidence as may be required, proving the country of origin or manufacture of the sugar.

In the case of refined sugar coming from a factory in a State not contracting to the withholding of bounties under the Brussels Sugar Convention evidence must be adduced that such factory is not utilizing sugar originating in a State liable to the surtax.

As bounty-fed sugar is freely admitted into the United Kingdom, all sugar emanating therefrom must be accompanied by the evidence prescribed.

The Commissioners of Customs of the United Kingdom will, upon application, be prepared to issue certificates of origin for sugar exported therefrom whether manufactured in the United Kingdom or elsewhere (other than sugar in transit), and such certificates if not showing the sugar as originating from a bounty-granting State will be accepted as entitling it to be imported free of surtax.

If the evidence required by the preceding regulations be not forthcoming at the time of importation, then either—

(i) The goods must be re-exported under Customs supervision; or

(ii) Deposited under detention in an approved warehouse; or

(iii) A deposit lodged with the Custom House, Cape Town, to cover the then highest existent rate of surtax.

The following is a list of States signatory to the Brussels Sugar Convention that have engaged to withhold bounties from the production or export of sugar, which product whether grown or only manufactured therein is admitted free of surtax—

Great Britain and Ireland.

Austria-Hungary.

Belgium.

France.

Germany.

Holland.

Luxemburg.

Peru.

Sweden.

Switzerland.

[It is notified under Government Notice No. 201, of the 9th February 1914, that *Italy*, having ceased to be a party to the Brussels Sugar Convention, any sugar imported therefrom must be accompanied by a certificate in prescribed form, signed before the proper fiscal authority in Italy.]

APPENDIX V.—*continued.*PARCEL POST REGULATIONS—*continued.*

In such cases the sender must pay a fee of 6*d.*, sign an undertaking to pay on demand the amount due, and make a deposit on account of the charges at the rate of 1*s.* for each 10*s.* or fraction of 10*s.* of the value of the parcel, except in the case of parcels for Canada and New Zealand, in respect of which the deposit payable is 1*s.* for every 4*s.* or fraction of 4*s.* of the value of the parcel, subject to a minimum of 5*s.* A final settlement will take place as soon as the amount of the charges due has been ascertained from the country of destination. Parcels intended to be sent under these arrangements must, as a rule, be handed in at a head or branch Post Office.

In addition to the Customs duty a charge of 6*d.* per parcel for stamp duty, clearance, &c., is levied on all dutiable parcels entering the Union of South Africa and the Nyasaland Protectorate. A similar charge varying in amount, as follows, is made in Rhodesia, viz.:—6*d.* or 1*s.* (according to value) on every dutiable parcel entering Southern Rhodesia; and 1*s.* on all parcels entering Northern Rhodesia, whether dutiable or not.

On importation into Australia, Barbados, British Guiana, Canada, Leeward Islands (except Virgin Islands), New Zealand, Rhodesia, Trinidad and Tobago, the Union of South Africa, the Bechuanaland Protectorate, and the Windward Islands, certain articles produced or manufactured in the United Kingdom are entitled, when accompanied by a suitable certificate or statement of origin, to preferential rates of Customs duty, according to the Tariff of the particular Colony.

Postal Parcels not containing merchandise for sale and not exceeding £10 in value intended for importation into Australia, Rhodesia, or Canada under the Preferential Tariffs, must be accompanied by a Certificate of Origin, worded as follows:—

“The contents of this package are not merchandise for sale, and every article herein to the extent of at least one-fourth of its present value is *bonâ fide* the produce or manufacture of the United Kingdom.

Dated at \_\_\_\_\_ 19 \_\_\_\_\_ Sender.

In the presence of \_\_\_\_\_

(Officer of the Post Office.)”

(N.B.—The certificates must be signed in the presence of an Officer of the Post Office, who will countersign them.)

For similar parcels sent to the Union of South Africa (Provinces of the Cape of Good Hope, Natal, the Orange Free State, and the Transvaal), or the Bechuanaland Protectorate, it will suffice if the words “British Manufacture” are written or stamped on the cover or Customs Declaration.

In the case of parcels sent to any of the above-mentioned Colonies (except New Zealand and the West Indian Colonies) containing merchandise for sale or exceeding the limits of value specified, a special certificate of origin is required when it is desired that the articles shall be accorded preferential treatment. Information as to the form of this Certificate can be obtained from the Representative in London of the Colonial Government concerned, or from the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

For parcels sent to New Zealand containing any of the articles which are entitled to preference, whether for sale or not, and whatever their value, the certificate of origin must be given on the invoice in the following form:—

“I \_\_\_\_\_ (full name), of the firm of \_\_\_\_\_ do hereby certify that this invoice amounting to \_\_\_\_\_ £. for goods exported to New Zealand on account of \_\_\_\_\_ (name of person to whom invoiced) is true and correct, and that the goods specified therein are *bonâ fide* the produce or manufacture of (name of the part of the British Dominions in which the goods have been manufactured).

"(b) Proof gallon" means a gallon of proof spirit, and a duty payable on any liquor "per proof gallon" means a duty payable upon the maximum number of proof gallons which the alcohol contained in such liquor, when mixed with water, is capable of forming.

"(c) Petroleum includes the liquors commonly known by the names of rock oil, Raugoon oil, Burma oil, kerosene, parafin oil, petrol, gasoline, benzol, benzoline, benzine, naphtha, or any like inflammable liquid, whether a natural product or one that is made from petroleum, coal, schist, shale or any other bituminous substance or from any products thereof.

*Notes.*—The "Opium and Chandu Enactment, 1910" (No. 14 of 1910), as amended by Enactment No. 12 of 1912, provides for the prohibition of the importation of *opium* and also of *chandu*, other than by a "Superintendent of chandu." The Enactment is not, however, applicable to the importation of *opium* or *chandu* for medical purposes only by or on behalf of the Government, or by any person licensed to sell poisons under any Enactment to regulate the possession and sale of poisons or deleterious drugs.

"Opium" is held to mean any kind of opium not prepared for smoking, chewing or swallowing, and includes the coverings in which opium has been wrapped. "Chandu"

Notes—*continued.*

means any preparation of opium or any preparation in which opium forms an ingredient, which preparation is used, or intended to be used for smoking, chewing, or swallowing, and includes chandu dross, but does not include any of the alkaloids or salts of alkaloids of opium.

Under the "Deleterious Drugs Enactment, 1911" (No. 10 of 1911), as amended by Enactment No. 15 of 1912, provision is made for the prohibition of the importation of any deleterious drug or syringe, except with the permission in writing of the Principal Medical Officer or a Senior Medical Officer of the Government.

"Deleterious drugs" means and includes:

- (i) Morphine, including morphia and all salts of morphine, and any alkaloid or salt of an alkaloid of opium, and any solution thereof;
- (ii) Cocaine, including all salts of cocaine and any solution thereof;
- (iii) Eucaine, including all salts of eucaine and any solution thereof;
- (iv) Any analogue of cocaine or eucaine, and
- (v) Any drug, or salts or solution of such drug, which the Chief Secretary to the Government may declare to be a deleterious drug,

but does not include:

- (vi) Any patent or proprietary article containing one or more of the above in quantity not exceeding in the aggregate 1% of the total ingredients of such article, or
- (vii) Any patent or proprietary article which may from time to time be exempted from the operation of this Enactment by the Chief Secretary to the Government by notification in the "Gazette."

"Syringe" means an instrument or part of an instrument suitable for hypodermic injection, and includes a hypodermic needle.

Under certain Rules, (No. 1704 of 1912) made under the "Deleterious Drugs Enactment, 1911," it is provided that application for permission to import or export any deleterious drugs or syringe may be made to the Principal Medical Officer or Senior Medical Officer of the Government, who may in his discretion issue a permit in prescribed form.

The importation of petroleum is regulated by the "Petroleum Rules, 1914." Upon the arrival at any port of the State of a vessel bringing petroleum, notice must at once be given to the Harbour Master, who will inform the Inspector, who will proceed on board and either pass the petroleum or take samples for purposes of testing on shore. Until the petroleum has been passed by the Inspector it shall not be landed, except with the written authority of the District Officer, who will make arrangements for its safe custody until it is passed. No "dangerous" petroleum (*i.e.*, petroleum having a flashing point below 73° F.) shall be landed, except by licence of the Resident.

Under the Firearms Enactments of 1902 regulating the importation of firearms, no person is allowed to import firearms into the Federated Malay States without a licence, which may be obtained free of charge from the Chief Police Officer of the State.

The importation of explosives is regulated by the several State Explosives Enactments of 1904, as amended by Federated Malay States Enactment No. 5 of 1912, and Rules made thereunder.

The Rules provide that explosives may only be imported under licence, except the following, which may be imported without licence when not exceeding 20 lbs. avoirdupois:—Safety cartridges; safety fuses for blasting; fuses for shells and friction tubes for guns or percussion primers, provided there be no more than five fuses or percussion primers or 25 tubes in one package, and that the package be a hermetically-sealed metal cylinder; railway fog-signals; percussion caps, also fireworks; or any other explosive not exceeding 5 lbs. avoirdupois.

Provision is further made for the prohibition of the importation of "sanderackers" into each of the Federated Malay States.

Under the Merchandise Marks Enactment No. 1 of 1910, as amended by No. 6 of 1913, the importation is prohibited of goods to which any forged trade mark or false trade description is applied, or to which any trade mark or mark so nearly resembling a trade mark as to be calculated to deceive is falsely applied.

Under Enactment No. 7 of 1913 provision is made for the regulation of wireless telegraphy.

No person may establish any wireless telegraph station, or instal or work any apparatus for wireless telegraphy in any place in the Federated Malay States or on board any locally owned ship, except under and in accordance with a licence granted in that behalf by the Chief Secretary to the Government.

(a) No person may, in the New Hebrides (including the Banks and Torres Islands), sell or supply intoxicating liquors to the natives in any form and on any pretext whatsoever. Alcoholic drugs or cordials employed in the case of sickness or disease, are not included in such prohibition which covers spirits, beer, wine, and generally all fermented and intoxicating liquors. (b) No person may sell or supply arms or ammunition to the natives, directly or indirectly, in the New Hebrides (including the Banks and Torres Islands) and within the territorial waters of the group. ## G.—NEW HEBRIDES—continued.

*Notes.*

In a Joint Regulation of the 28th December 1912 to provide for the collection and management of the revenue of Customs within the New Hebrides Condominium it is provided, *inter alia*, that every vessel arriving in the New Hebrides must proceed direct to the Port of Vila, in the Island of Efate, as being the Port of Entry. A vessel, however, may call at places other than a Port of Entry by special permission of the Resident Commissioners.

No merchandise of any kind may be imported into the New Hebrides without the production of a manifest on which shall clearly appear the nature of the goods, the number of the packages of every description, together with their marks and numbers and tonnage, and also their provenance and destination and the method of their transport.

All wrecks shall be subject to the provisions of the Tariff and Regulations in force.

No goods imported into the Group may be unshipped before a detailed declaration has been deposited at the Customs House. Vessels may, however, be authorised to discharge goods upon showing the ordinary ship's manifest—provided that the master or his agent enters into a bond undertaking that the goods so landed shall be subject to all necessary supervision until such time as the import declaration shall have been made.

Goods which have been exported from the Group and which are re-imported from places beyond the Group shall be treated as goods coming from abroad, except in the case where there is no doubt as to their origin and after authorisation by the Resident Commissioners.

Every person making an Import declaration shall be bound under a penalty of a fine of from 4*l.* to 20*l.* to show, upon being required so to do by an Officer of Custom, in support of his import declaration, all Bills of Lading, invoices, letters de voitures, and all documents likely to be of use to the Customs officers in determining the origin, provenance, nature, quality, and value of the goods noted in the said Import declaration.

In case a Customs officer shall dispute the correctness of a declaration in respect of nature, kind, quality, origin or value of the goods, he shall give notice to the party concerned or to his representative who shall, within 24 hours, state whether the estimate of such Customs officer is accepted or contested. If the Customs officer's valuation is not accepted, the declarant or his representative shall be summoned before the Joint Court, which shall decide summarily upon expert evidence as to the amount of duty to be paid.

Duties of all kinds may be paid either in English or French legal currency.

The importation of opium, and its alkaloids and compounds, is prohibited, except by special permission of one of the Resident Commissioners. (Joint Regulation of the 20th March 1913.)

The following notes, which contain such regulations as are of general application to the Customs Tariffs of the respective British Self-Governing Dominions, Colonies, Possessions, and Protectorates, are given here in order to avoid repetition in the various pages in the body of this Return.

[For notes relating to Regulations affecting dutiable articles sent by *Parcel Post* from the United Kingdom to the British Self-Governing Dominions, Colonies, Possessions, and Protectorates, see Appendix V.]

## British India.

The following articles may be imported *free of duty* :—

- (i) Goods belonging to the Government (see, 20 of Act No. 8 of 1878).
- (ii) Military band instruments (other than stringed instruments) imported by a regiment of His Majesty's regular forces serving in India, and certified to be for the exclusive use of the regimental band, also certain accessories therefor.  
[Such instruments, &c., are also exempt from duty when imported for the use of native regiments, military police battalions and Imperial service troops (Customs' Notices of April 23rd and Oct. 20th, 1908).]
- (iii) Arms and parts and appurtenances thereof, ammunition, accoutrements, bicycles, typewriters, instruments for telegraphic or visual signalling, telephones, uniforms, medals and decorations, saddlery of a military pattern, binoculars and telescopes, veterinary instruments and appliances, range-finders, drawing, surveying, educational and gymnastic instruments and parts thereof, and appliances for games, tools and machinery for regimental workshops, and imported direct by any unit of H.M. regular forces serving in India, or by units of the Imperial Service Troops (Notifications No. 582 S.R., dated 26th January 1901, and No. 6311-85, dated 25th August 1909).
- (iv) Arms, ammunition, uniforms, saddlery of a military pattern, binoculars and telescopes, medicines and drugs, medical, &c. instruments, range-finders, drawing and surveying instruments, and medals and decorations imported for his own use direct, under certain prescribed regulations, by an officer of H.M. - (v) Instruments, apparatus, and appliances imported by a passenger as part of his personal luggage, and in actual use by him in the exercise of his profession or calling.
- (vi) Samples of goods *not intended for sale*, and which are re-imported by commercial travellers after duty has once been paid on them, subject to certain prescribed conditions (Customs Circular No. 8 of 1907).  
[Articles of merchandise of foreign production taken out of the country by *bona fide* commercial travellers on behalf of *bona fide* firms having their headquarters in British India, or sent by post or otherwise by firms in British India "on approval," shall be exempt from the payment of Customs duties on re-importation; or, in the alternative, such goods may, at the option of the exporter, be exported subject to a drawback of ½ths of the duty paid on them at the time of original importation, ½ths only of the duty payable being charged on subsequent re-importation; provided, in either case, that the articles not sold are re-imported within one year from the date of exportation, and that the Collector of Customs is satisfied of the identity of the articles re-imported.]

Goods transmitted under Customs seal may, under certain conditions, be imported free of duty *via* the Hoshiarpur, Leh, and Srinagar routes through British India and the territories of H.H. the Maharajah of Kashmir and Jammu to Russian and Chinese Turkestan. The concession applies to all goods which satisfy the conditions laid down for the payment of drawbacks.

INTRODUCTORY NOTES—*continued.*Commonwealth of Australia—*cont.*

It is provided under the Customs Regulations (Statutory Rules No. 346 of 1913), that a drawback of the full amount of duty paid, shall be allowed on all goods (other than spirits, including perfumery, wine, beer, tobacco, cigars, cigarettes, and opium) on the due exportation thereof, either in the original packages or in packages packed in the presence of an officer—provided that goods shipped for drawback in other than original packages are exported within three years from the date of payment of duty.

[It is laid down in Customs Order No. 1699 of 1914 that drawback may be allowed on travellers' samples, provided there is no doubt that the goods have not since importation been "used" (in the ordinary meaning of that term) and that they are worth the duty.]

As to articles manufactured in Australia, a drawback may be allowed on the actual quantity of imported material used in such manufacture to the extent of the duty paid on original importation. The drawbacks allowed under this Regulation are specified under the various articles affected in the body of this Return.

No drawback of duty is allowed on second-hand goods, *i.e.*, goods which, after first importation, have been used—provided that no article shall be deemed "second-hand" because of the temporary use of the article for the purpose of inspection or exhibition only.

Goods exported to Australia from any country, but passing through another country, shall be valued for duty as if they were imported directly from such first-mentioned country (sec. 143 of the Customs Act of 1901-10).

The Customs Tariff also provides that:—

(i) Any article, not otherwise dutiable, composed of a combination of other articles, some of which are dutiable when imported separately and of others free of duty when imported separately, shall be dealt with as follows:—

(a) When the value of the dutiable portion exceeds the value of the free portion, duty shall be charged upon the whole article at the same rate as would be chargeable on that portion of the dutiable portion which, if imported separately, would be liable to the highest rate of duty.

(b) When the value of the free portion exceeds the value of the dutiable portion of such article, the whole article shall be admitted free of duty.

(ii) Whenever any goods are composed of two or more separate parts, any part though imported by itself shall, if so directed by the Minister, be dealt with under the item applicable to the complete goods.

[Under a Customs Notice, dated 17th January 1912 (Customs Order No. 1512 of 1912) is directed that, except where otherwise expressly provided by the Customs Tariff, any part of any goods which are dutiable *ad valorem* or exempt from duty shall, though imported by itself, be dealt with under the tariff item applicable to the complete goods, provided that, in terms of sec. 138 of the Customs Act, 1901-10, if any such part is commercially usable on more than one article, the part shall be classified under the tariff item applicable to the higher or highest rated article with which it is commercially usable. These provisions are not applicable to any part or parts, which may, by notice published in the "Commonwealth Gazette" from time to time, be individually or collectively exempted from their operation.]

Under a further Notice of 22nd February 1912, it is directed that parts of any article, machine, or appliance shall, though specifically or generically provided for in the tariff as parts, if imported with any such article, machine or appliance, in a complete or substantially complete state, be classifiable under the item applicable to such article, machine, or appliance.

Articles, machines, and appliances shipped in an unassembled condition ready or practically ready for assembling shall be treated as though actually assembled.]

The Tariff Act, No. 7 of 1908 (which came into force on 8th August 1907), as amended by Acts Nos. 39 of 1910 and 19 of 1911 and by Resolution of the Commonwealth Parliament on 3rd December 1914\*, provides for preferential rates of duty on certain goods imported into the Commonwealth, when the produce or manufacture of the

and which are shipped in the United Kingdom to Australia and not transhipped, or if transhipped, then the preferential duties are only allowed if it is proved to the satisfaction of the Collector of Customs that the goods have not, since they were shipped in the United Kingdom, been subjected to any process of manufacture.

\* The discussion in the Federal Parliament of the Customs Tariff Resolution, which came into force on the 3rd December 1914, has been indefinitely postponed. The new Schedule of duties leviable under this Resolution remains operative in the Commonwealth.

INTRODUCTORY NOTES—*continued.*Commonwealth of Australia—*cont.*

Numerous articles are accorded preferential treatment, and the preference allowed varies with the article as shown in the body of this Return.

The Customs Regulations provide that the Preferential Tariff on goods the produce or manufacture of the United Kingdom will not be recognised as applying to any goods unless, on importation into the Commonwealth and entry of the goods, the importer shall produce to the proper Officer of Customs, at the option of the latter:—

**Regulations for entry of goods under the British Preferential Tariff.**

- (i) A certificate (*a*) by the suppliers or manufacturers, as the case may be, in prescribed form; and/or
- (ii) Such other or further evidence as the Officer of Customs may require, proving that the goods are *bonâ fide* the produce or manufacture of the United Kingdom; or
- (iii) A duly attested statutory declaration that the goods described in the invoice of the goods shown in entry presented are the produce or manufacture of the United Kingdom; or  
[The declaration of an importer or his agent will not be accepted except in cases where there is undoubted corroborative evidence of origin.]
- (iv) A certificate to the same effect under the seal of a British Chamber of Commerce or of any British Manufacturers' Association registered with the Board of Trade.

The certificate is either to be written, printed, or stamped on the invoice, or, if not written, printed or stamped on the invoice to be attached thereto, and shall, in such latter case, show such particulars of the goods as will satisfy the Officer of Customs that the certificate and invoice refer to the same goods. The statutory declaration, if furnished, is also to be attached to the invoice and satisfactorily identified with it.

With regard to the necessity of having the signature to the certificates witnessed, it is stated that the witness need not necessarily be a magistrate, notary or other public official, but may be any person competent to sign as a witness to signatures on ordinary business documents.

[It is stated in a Notice issued by the Commonwealth Department of Trade and Customs on the 19th January 1912 that the ordinary signatures of declarants and witnesses are sufficient at the foot of the certificate, the full name of the declarant being shown at the head of the form as prescribed.]

In an Order No. 1592, dated 16th September 1912, importers are informed that the requirements of the Department in regard to the signatures of declarants must be strictly complied with, otherwise the declarations will be refused.]

**Forms of Certificate of Origin.** The following is the full text of the Forms of Certificate of Origin required:—

Commonwealth of Australia—*cont.*

With regard to the manufacture of goods in the United Kingdom, provided the conditions prescribed have been complied with, preferential treatment will be accorded to goods the manufacture of which has been partly effected outside the United Kingdom, on condition that the goods have been subjected to their finishing processes in the United Kingdom, and that the total British labour, calculated in accordance with the provisions set out in these explanatory notes, represents not less than one-fourth of the works cost of the goods.

Goods will be admitted under the preferential tariff rate if the whole of the manufacturing processes have been performed in the United Kingdom, notwithstanding that the proportion of value of British labour is less than that prescribed for goods partially manufactured in the United Kingdom.

The goods must be shipped from the United Kingdom direct to Australia.

The following are the principal items which may be regarded as properly inclusive under the heading of labour :—

- (1) Raw materials of purely British origin.
- (2) Manufacturing wages.
- (3) Factory expenses, including proportion of fuel, supervision, &c.
- (4) Inside containers.

The following may *not* be included as labour :—

- (1) Foreign material entering into the composition of the goods.
- (2) Outside packages including zinc linings and tarred paper, in which goods are ordinarily exported.
- (3) Expenses incurred in placing goods in the outside packages.
- (4) Manufacturer's or exporter's profit, or the profit or remuneration of any trader, broker, agent or other person dealing in the article in its finished manufactured condition.
- (5) Carriage, insurance, &c., from place of production or manufacture to port of shipment.
- (6) Oversea freight.
- (7) Oversea insurance.
- (8) Dock dues.
- (9) Agents' or other charges for or after exportation.

Goods which, after shipment in the United Kingdom, have entered into the commerce of, or been subjected to any process of manufacture in any other country are *not* entitled to entry at preferential rates.

When goods, after shipment in the United Kingdom have been transhipped at any port outside the United Kingdom, satisfactory proof must be produced that the conditions in these respects have not been infringed. "Transhipped" in this connection is to be interpreted in its definite sense, *i.e.*, transfer from one vessel to another for the purpose of the carriage of goods to their destination. Such transfer need not necessarily be direct—the goods may be landed if the landing is solely for transhipment, but it is essential that the goods must, during the whole time, be in the course of carriage to Australia. Goods landed for any other purpose than for transfer to another vessel (even if held in bond) cannot be regarded as having been transhipped.

By the "Australian Industries Preservation Act, 1906" (No. 9 of 1906), as amended by Acts Nos. 5 of 1908, 26 of 1909, and 26 of 1910, it is provided that the importation of goods may be prohibited or restricted if they enter into unfair competition with Australian industries, the preservation of which, in the opinion of the Comptroller-General of Customs or a Justice of the High Court, as the case may be, is advantageous to the Commonwealth, having due regard to the interests of producers, workers, and consumers.

## BRITISH DOMINIONS.

Various articles—the produce of the British Dominions—are accorded preferential treatment by the imposition of *additional* duties on similar articles of foreign production, as shown in the body of this Return.

\* Preferential treatment was previously accorded to certain goods, the produce or manufacture of some part of the British Dominions, under "The Preferential and Reciprocal Trade Act," No. 78 of 1903, with effect from 16th November 1903.

The preferential treatment of British goods was extended by Act No. 15 of 1907, with effect from 17th July 1907 (and, in certain cases, from 1st April 1908).

This Act No. 15 of 1907 was consolidated, with the Act No. 78 of 1903 and the South African Reciprocity Acts Nos. 63 of 1906 and 2 of 1907, under Act No. 35 of 1908.

INTRODUCTORY NOTES—*continued.*Dominion of New Zealand—*cont.*

The Act provides that preferential treatment will not be accorded to *British* goods unless there is produced to the Collector of Customs an invoice of the goods, having written or printed thereon a certificate signed by the sender or consignor in prescribed form stating that the articles are *bonâ fide* the produce or manufacture of some part of the British Dominions. No such invoice must relate to any goods other than those to which the certificate refers. In addition to the particulars required to be given on the entry of dutiable goods, the importer or his agent shall state, to the best of his knowledge, information, and belief, the country of which such articles are the produce or manufacture, and shall satisfy the Collector, by declaration or otherwise, of the truth of such statement. In the case of parcels sent by post or through a forwarding agency, the Collector may dispense with the certificate required, if satisfactory evidence is produced that the goods are the produce, &c., of the British Dominions.

The Customs Regulations for carrying into effect the provisions of section 6 of the Regulations for entry of Goods under the British Preferential Tariff. Customs Duties Act, No. 35 of 1903, respecting the Preferential Tariff are laid down in an Order in Council dated 5th June 1912, as amended by an Order in Council dated 1st July 1913, and are as follows:—

1. The classes of goods which shall be deemed to be the produce or manufacture of the British Dominions for the purposes of the said Act shall be the following:—

- (a) Goods wholly the produce of the British Dominions.
- (b) Goods wholly manufactured within the British Dominions from materials produced in such Dominions.
- (c) Goods wholly manufactured within the British Dominions in which all manufacturing processes are performed in the British Dominions from unmanufactured raw material of foreign origin.
- (d) Goods partially produced or partially manufactured in the British Dominions, provided that the final process or processes of manufacture have been performed in such Dominions, and also that the expenditure in material produced in such Dominions and [or] labour performed within such Dominions (calculated subject to the qualification hereunder) in each and every article is not less than one-fourth of the factory or works cost of such article in its finished state.

2. In the calculation of such proportion of produce or labour of the British Dominions none of the following items shall be included or considered: manufacturer's profit, or the profit or remuneration of any trader, agent, broker, or other person dealing in the article in its manufactured finished condition; cost of outside packages or any cost of packing the goods therein; any cost of conveying, insuring, or shipping the goods subsequent to their manufacture.

3. Goods landed in transit:—goods which after shipment from any part of the British Dominions have entered into the commerce of, or been subjected to any process of manufacture in, any foreign country shall not be deemed to be the produce or manufacture of the British Dominions.

4. In every case where, pursuant to section 6 of the said Act, the full duty under the said Act is payable on any goods owing to the non-production to the Collector of an invoice with the prescribed certificate written or printed thereon, and at the time of importation the importer alleges, and the Collector has reason to believe, that such goods are *bonâ fide* the produce or manufacture of some part of the British Dominions, and that such non-production is due to accident, the following provisions shall apply:—

- (a) Any amount of duty so payable in excess of the duty payable upon the like goods being the produce or manufacture of some part of the British Dominions may be held by the Collector at the port of importation on deposit, pending the production of an invoice with the prescribed certificate written or printed thereon.
- (b) Such deposit shall be returned to the importer if the invoice, with certificate as aforesaid, is produced within six months from the date of payment of the deposit, but otherwise the same shall be applied as duty payable under the said Act, unless other action is specially directed by the Minister of Customs.

The Customs Act No. 63 of 1913 provides that the New Zealand "Customs Duties Act, 1908," and the "Customs Act, 1913," shall be in force in the Cook Islands (except as regards the charges effected on spirits, mineral oils, cycles, gas, oil and motor engines, and carriages, motor vehicles and parts, by the Tariff Resolutions of 1915).

It is also provided that all goods imported into the Cook Islands from New Zealand, whether the produce or manufacture of New Zealand or not, shall be admitted into the Cook Islands free of duty, unless otherwise provided for.

Similarly goods imported from the Cook Islands may be admitted free of duty into New Zealand.

Under the "New Zealand and South African Customs Duties Reciprocity Act, 1906" (No. 63 of 1906) as continued by Act No. 2 of 1907, provision is made

**Reciprocal Agreement with South Africa.** for Customs Reciprocity between New Zealand and South Africa. These Acts were consolidated under the Customs Duties Act of 1908 (No. 35 of 1908), but it was therein provided that no duty shall be levied on South African products higher than that leviable under this Act of 1908 on the same goods if they were the produce or manufacture of some other part of the British Dominions.

\* The Customs Act No. 63 of 1913 provides for the imposition of an *additional* duty of  $\frac{1}{2}$ d. per lb. on sugar and of a duty of 10% *ad valorem* on cotton (except calico), and linen piece goods, and piece goods of mixed cotton and linen, imported into the Cook Islands from New Zealand or elsewhere.

The Governor-in-Council is empowered to further amend or modify the New Zealand Tariff in its application to the Cook Islands.

INTRODUCTORY NOTES—*continued.*Dominion of New Zealand—*cont.*

It is also provided in the Customs Duties Act No. 35 of 1908 and the Tariff Resolutions of 1915 that nothing contained therein shall be so construed or shall so operate as to conflict with the schedule of Customs duties and exemptions (as shown below) contained in the Order-in-Council of 7th January 1907, for the purpose of carrying into effect the reciprocal agreement with the South African Colonies—provided that no higher duty shall be levied on South African products than that which would be levied under the present Act of 1908 on similar goods, the produce of any other part of the British Dominions.

Under an Order-in-Council of January 7th, 1907, as amended by an Order-in-Council of March 31st, 1909, all goods (except spirits) the produce or manufacture of the Colonies and Territories which formed part of the South African Customs Union are accorded preferential rates of duty, with effect from January 1st, 1907, on importation therefrom into the Dominion of New Zealand.

The preferential treatment of South African products is continued by Act No. 2 of 1907 for an indefinite period (*i.e.* until terminated by the Governor by Order-in-Council gazetted).

The following is a complete statement of the preferential rates of duty imposed on South African products imported into New Zealand:—

[NOTE.—Provision was also made, with effect from January 1st, 1907, by the South African Governments which belonged to the South African Customs Union whereby the products of New Zealand are accorded a preference similar to that granted to goods—the produce or manufacture of the United Kingdom—on importation into British South Africa.]

\* A duty of 1s. 8 *d.* per 100 lbs. is provided for under the Reciprocal Agreement with South Africa, but under section 8 of the New Zealand Customs Duties Act of 1908 it is provided that no higher duty shall be levied on South African products than that leviable on similar goods—the produce of any other part of the British Dominions. At the present time sugar is free of duty on importation into New Zealand.

INTRODUCTORY NOTES—*continued.*Union of South Africa—*cont.*

Provision is made in the Union Customs Tariff Act No. 26 of 1914\* (which came into force on the 1st May 1914), as amended by Act No. 22 of 1915,† for the preferential treatment of certain British goods by providing that a *rebate* of duty shall be granted upon various articles, the growth, produce, or manufacture of the

UNITED KINGDOM

imported therefrom into the Union of South Africa for consumption therein.

The Act also provided that a similar rebate to that granted to goods grown, produced, or manufactured in the United Kingdom on importation into the Union, shall be granted to goods which are grown, produced, or manufactured in any British Possession in which an equivalent rebate is allowed reciprocally in respect of goods imported into that Possession from the Union.

The particular British Possession in respect of which a rebate will be allowed shall be notified by the Governor-General by Proclamation in the "Gazette."

No information has, as yet, been received that any such Proclamation has been issued under the Tariff Act of 1914, but under the previous Customs Tariff Acts the reciprocating British Possessions were as follows:—

DOMINION OF CANADA.  
COMMONWEALTH OF AUSTRALIA.  
DOMINION OF NEW ZEALAND.

[According, however, to Customs decisions issued by the Union Government the products of such Possessions are still accorded preferential treatment similar to that granted to United Kingdom goods.]

The *rebates* that shall be granted are as follows:—

- (a) On certain goods charged with *specific* rates of duty, a rebate of varying amount, for which, *see under* the various articles in the body of this Return.
- (b) On certain goods liable to *mixed* rates of duty (*i.e.*, both *specific* and *ad valorem* rates), and also on all goods liable to *ad valorem* rates of duty only, a rebate of 3% *ad valorem*.‡

Provided that—

- (i) the manufactured goods in respect of which the rebate shall be allowed shall be *bonâ fide* manufactured in the United Kingdom or a reciprocating British Possession (as the case may be); and
- (ii) in the event of any question arising as to whether any goods are entitled to any such rebate the decision of the Minister in whom the control of the Customs Department is vested, shall be final.

\* Preferential treatment was previously accorded to certain British products imported into the Union of South Africa under the South African Customs Union Convention of 1906 (as amended by Protocol in 1908).

The Convention of 1906, which came into force on the 25th May 1906, superseded the Convention of 1903, which accorded, for the first time, preferential treatment to certain products of the United Kingdom on importation into the several Provinces now forming the Union of South Africa, Basutoland, Bechuanaland Protectorate and Southern Rhodesia from the 15th August 1903. The preference was accorded to similar products on importation into Swaziland from 11th October 1901, and into North-Western Rhodesia (Barotziland) from 1st December 1905.

Similar preferential treatment to that accorded to United Kingdom goods was extended to the products of the Dominion of Canada imported into the Customs Union from 1st July 1904, of the Commonwealth of Australia from 1st October 1906, and of the Dominion of New Zealand from 1st January 1907.

† The increased rates of duty leviable on the various articles under the Union Act No. 22 of 1915 (*viz.*, ale, beer, and cider, playing cards, coffee, illuminating and burning mineral oils, sugar, tea, boots and shoes and all goods subject to the "unenumerated" *ad valorem* duty) shall lapse at the end of four months after the commencement of the 1916 Session of Parliament unless other proposals have been made by the new Parliament according to law.

‡ Consequently, goods subject to a duty of 20% *ad valorem* would, if entitled to rebate, be liable to a duty of 17% *ad valorem* only.

INTRODUCTORY NOTES—*continued.*Union of South Africa—*cont.*

The Customs Regulations provide that no rebate will be allowed unless there is produced on importation, for the purpose of proving the country of origin of the goods, to the proper Customs officers,—

**Regulations for entry of Goods under the British Preferential Tariff.**

(a) A certificate by the suppliers or manufacturers, as the case may be, in prescribed form.

(b) Such other or further evidence as such Officer of Customs may require, proving that the goods are *bonâ fide* grown, produced, or manufactured in the United Kingdom or a reciprocating British Possession.

[The mere packing and bottling of foreign goods in the United Kingdom, even if the work entailed therein amounts to more than 25% of the total value of such goods, shall not qualify them for preferential treatment; such goods must at least have been subjected to some process of manufacture in the United Kingdom or reciprocating British Possession (Customs Handbook, 1914).]

The certificate shall be written, printed, or stamped on the invoice, or attached thereto.

If the certificate is not written, printed, or stamped on the invoice, such particulars of the goods must be shown on such certificate as will satisfy the Customs Officers of the identity of the documents.

The Certificate will be waived in the case of *postal packages* not exceeding 10*l.* in value if the contents of such packages are not merchandise for sale; provided that such packages shall have endorsed on them a certificate in the form attached hereto, and such certificate shall be signed in the presence of a postal officer of the country whence the package was shipped direct to the Union.

**Forms of Certificate of Origin.** The following is the full text of the Forms of Certificate prescribed:—

INTRODUCTORY NOTES—*continued.*Union of South Africa—*cont.*

In the case of goods imported into the Union of a class or kind made or produced in the Union, if the export or actual selling price to an importer in the Union be less than the "true current value" (for definition, *see* Appendix I.) of the same goods when sold for home consumption in the usual and ordinary course in the country from which they were exported to the Union at the time of their exportation thereto, there may, in addition to the duties otherwise prescribed, be charged, levied, collected and paid on those goods on importation into the Union, a special Customs duty (or dumping duty) equal to the difference between the said selling price of the goods for export and the true current value thereof for home consumption, provided that the special Customs duty (or dumping duty) shall not in any case exceed 15% *ad valorem*.

When a bounty is granted in the country of origin on any goods, of a class or kind made or produced in the Union, an additional Customs duty equal to the amount of such bounty may be charged, levied, and collected upon the importation of these goods into the Union.

The goods in respect of which there may be charged, levied and collected any special (or dumping) Customs duty or any additional duty on bounty-fed goods shall be, from time to time, determined by the Governor-General and notified by him by Proclamation in the "Gazette."

The Customs duties payable in respect of the importation of goods into the Union of Walvis Bay a Free Port shall not be payable in respect of goods imported into or through the Port or Settlement of Walvis Bay.

Under a Proclamation, dated 16th July 1915 (Union Government Notice No. 774 of 1915), provision is made for the imposition of duties on goods imported into the territory hitherto known as "German South-West Africa" similar to those fixed in respect of the Union of South Africa by the Union Act No. 26 of 1914 as amended by Act No. 22 of 1915, whilst the Customs Laws and regulations in force in the Union of South Africa shall, until further provision is made, *mutatis mutandis*, have force and effect throughout and in respect of the said Territory.

Goods, however, which are grown, produced or manufactured in the Union of South Africa shall, when imported into the said Territory, be free of Customs duty.

In the case of goods imported through the Union of South Africa into the said Territory, the customs duties as aforesaid shall be paid to the Collectors of Customs in the Union.

Goods shall be imported by sea into the said Territory only through the ports of Walvis Bay and Luderitzbucht and by land into the said Territory only by rail.

Goods imported from or through the Union of South Africa shall be accompanied by a copy of Export Form No. 41, as set out in the Schedule to the Union regulations under Government Notice No. 1094 of 1913, and such copy shall be handed by the importer, in the case of goods brought by sea to the officer of Customs at the port of entry, and, in the case of goods brought by rail, to the stationmaster at the place of destination.

[*Note.*—The form No. 41 referred to in the above paragraph relates to the Bill of Entry for goods exported from the Union.]

The Customs Tariff Act No. 26 of 1914 provides that the Governor-General may enter in an Agreement with the Government of any Territory in South Africa, being a portion of the British Dominions or under the protection of the Crown, providing—

- Customs Agreements with South African Territories.
- (a) That goods grown, produced, or manufactured in the Union shall be admitted into that Territory free of Customs duty, and that goods grown, produced, or manufactured in that Territory shall be admitted into the Union free of Customs duty;
  - (b) That one party to the Agreement shall collect on behalf of the other party the Customs duties imposed in respect of goods which, having been imported into its Territory, are removed into the Territory of the other party.

Every such Agreement shall provide that in the event of an Excise duty or surtax being imposed on any goods grown, produced, or manufactured in the Union or imported thereinto, a corresponding duty or surtax shall be levied on like goods, which, having been grown, produced, or manufactured in or imported into the Territory of the other party to the Agreement, are imported into the Union.

INTRODUCTORY NOTES—*continued.*Union of South Africa—*cont.*

No information has been received that a Customs Agreement has been entered into between the Union of South Africa and the Territories of Basutoland, Swaziland and the Bechuanaland Protectorate under the provisions of the Union Customs Tariff Act No. 26 of 1914.

It was provided, however, under a Customs Agreement of 1910, as subsequently amended by Protocols, entered into between the Government of the Union of South Africa and the Territories of

<p><b>Customs Agreement with Basutoland, Swaziland, and Bechuanaland Protectorate.</b></p>	<p><b>BASUTOLAND, SWAZILAND, and the BECHUANALAND PROTECTORATE,</b></p>
--	---

that the Customs Union Tariff, as it then existed, should, subject to certain provisos, be maintained between the contracting parties until altered by legislation enacted by the Union or the Territories.\*

It was also provided under the above-mentioned Customs Agreement that there should be a free interchange of the products and manufactures of the Union and the Territories, with the exception of spirits and beer, the duties of Customs and Excise on which should be the same as those for the time being in force in the Union.

With regard to the adjustment of duties, which shall include any Customs or Excise duty (except on Union manufactures, spirits, or beer) and any surtax, between the parties to the Agreement, it was therein decided, that this should be determined on the basis laid down in Sec. 12 of the Schedule to the South Africa Act, 1909, provided that the adjustment should be made quarterly instead of annually, which reads as follows:—

“There shall be paid into the Treasury of the Union all duties of Customs levied on dutiable articles imported into and consumed in the Territories, and there shall be paid out of the Treasury annually, towards the cost of administration of each Territory a sum in respect of such duties which shall bear to the total Customs revenue of the Union in respect of each financial year the same proportion as the average amount of the Customs revenue of such Territory for the three completed financial years last preceding the taking effect of the Act bore to the average amount of the whole Customs revenue for all the Colonies and Territories included in the Union received during the same period.”

It was further provided that the Territories should, as far as possible, conform to the laws and regulations for the time being in force within the Union in respect to refunds, rebates, abatements, suspensions, methylation, prohibitions, removals in bond or otherwise and interpretations of the Tariff.

A further Customs Agreement, which was signed by the Governor-General of South Africa on the 11th December 1914, was entered into between the Government of the Union of South Africa and the Administrations of

**SOUTHERN RHODESIA and  
NORTHERN RHODESIA,**

under which it is provided that the Customs Tariff of the Union of South Africa, as it at present exists (*i.e.*, under the Union Tariff Act No. 26 of 1914), shall be adopted by Southern and Northern Rhodesia, and shall, subject to certain provisos, be maintained between the contracting parties until altered by legislation enacted by the Union or Rhodesia; it being permitted, however, to Rhodesia to grant certain additional rebates of duty under the “Rhodes’ Clause,”† of the Southern Rhodesian Customs (Amendment) Order-in-Council of 1914 and the Northern Rhodesian Customs (Amendment) Order-in-Council of 1914, to suspend the duties on various specified articles and to prohibit the importation of certain other articles.

The Agreement provides that there shall be a free interchange of the products and manufactures of the Union and Rhodesia, subject to certain conditions as to the

\* The Governments of the Union of South Africa or of the Territories or Administrations are at liberty to retire on giving not less than three months’ notice to expire on the 30th June following, but should any of the Governments concerned amend their Customs Tariffs, or take any steps in conflict with the spirit and intent of the Agreements, each party thereto is at liberty to retire forthwith.

The Union Government have enacted a new Customs Tariff under Act No. 26 of 1914, as amended by Act No. 22 of 1915, and, in order to maintain a Customs Tariff in the Territories of Basutoland, Bechuanaland Protectorate and Swaziland similar to that which exists in the Union, provision has been made, by various Proclamations, for the adoption of the Union Tariff in those Territories.

† For particulars respecting the provisions of the “Rhodes’ Clause” of the Rhodesian Orders-in-Council, *see under* “Rhodesia,” p. xxxvi.

imposition of countervailing Customs duties on excisable articles, viz., spirits, ale and beer, matches and cigarettes.

Rhodesia shall, as far as possible, conform to the laws and regulations for the time being in force within the Union in respect to refunds, rebates, abatements suspensions, methylation, prohibitions, removals in bond or otherwise, and interpretations of the Tariff: provided that Rhodesia shall not be bound to accept any interpretation of any item of the Customs Tariff which may be in conflict with any judicial decision binding upon Rhodesia.

Rhodesia shall levy and recover and be responsible for levying and recovering the amount of duty suspended on certain scheduled articles upon the removal of such articles for consumption in the Union.

Either of the parties to this Agreement shall, notwithstanding anything herein, be entitled to levy on any articles produced or manufactured in its Territory (whether made from ingredients grown or produced in or imported into such Territory or from a mixture of any such ingredients) a duty of excise, and either of the parties to this Agreement so imposing an Excise duty shall be entitled to levy upon the like articles produced or manufactured in the Territory of the other party a Customs duty or surtax not exceeding such Excise duty, on importation and entry for consumption of such like articles within its Territory.

The Union shall continue, as heretofore, to compile and publish the necessary Customs statistics for Rhodesia free of charge.

Nothing in the Agreement shall in any way prevent the importation free of duty into that portion of the Union known as the Transvaal Province for consumption therein of the products and manufactures of the Province of Mozambique, as provided for in the Convention between the Government of the Transvaal and the Government of the Province of Mozambique.

The provisions of this Agreement which operate from the 1st January 1915 shall continue in force until the 31st December 1916, and thereafter for periods of 12 months: provided that any party to this Agreement may give notice before the 31st December in any year subsequent to the year 1915 of its intention to retire therefrom as from the 30th June following such notice, and provided further that should the Union at any time amend the Customs Tariff, or take any steps in conflict with the spirit and intent of this Agreement, Rhodesia shall be at liberty to retire therefrom forthwith, and similarly should Rhodesia amend the Customs Tariff, or take any steps in conflict with the spirit and intent of this Agreement, the Union shall be at liberty to retire therefrom forthwith.

Under a Convention made between the Governments of the Transvaal and the Province of Mozambique, and signed at Pretoria on 1st April 1909, relating to reciprocal arrangements regarding Customs and other matters, provision is made for the free importation into the Transvaal of all articles (except distilled and fermented liquors)—the produce of the Province of Mozambique—provided that the products of the industry of that Province will only be admitted free of duty if the elements or chief constituent parts thereof are the products of the soil of that Province.

[It is however provided, under Act No. 22 of 1915, that a duty of 1s. per 100 lbs. is leviable on sugar manufactured or refined in the Province of Mozambique from cane or juice grown in that Province on importation into the Transvaal for consumption therein. This duty is imposed to countervail the Excise duty.]

[*Note.*—Distilled and fermented liquors are held to mean liquors containing more than 3% of proof spirit, equivalent to 1·716° C.]

It is also provided in the Convention that goods ex-bond and ex-open stocks within the Lourenço Marques District shall be admitted into the Transvaal upon payment of the duties in force in that Province at the time of entry thereto, such duties being estimated on the *owarsea* value of the goods in the case of goods subject to *ad valorem* rates of duty. Importers will be required, on the arrival of the goods at Lourenço Marques, to pay the Transvaal duties to the Transvaal Customs, or to satisfy such Customs as to the due payment of those duties. Importers will also be required to produce, when necessary, proof to the satisfaction of the Transvaal Customs as to the values of the goods, and to furnish any further information which may be required for the protection of the Transvaal revenue. In the case of goods on which Transvaal Customs have been paid not entering the Transvaal, the amount so paid shall be refunded by the Transvaal Customs to the importers.

INTRODUCTORY NOTES—*continued.*Union of South Africa—*cont.*

Merchandise of any origin or nationality imported through Lourenço Marques, and bound for the Transvaal, shall be entirely exempt from any charges whatever, excepting port and warehousing charges, and the charges now known as Industrial Contribution.

With respect to goods imported into the Transvaal and exported therefrom through the Port of Lourenço Marques, no higher export duties shall be imposed, either in the Transvaal or Lourenço Marques, than are levied on similar goods exported through the Ports of the Cape of Good Hope and Natal, whilst it is further provided that no higher duties or other taxes shall be levied on goods imported into the Transvaal through the Port of Lourenço Marques than are levied on similar goods imported into the Transvaal through the Ports of the Cape of Good Hope and Natal.

The Convention is to continue for 10 years from 1st April 1909 and shall thereupon cease if either Government has given one year's notice to the other of its intention to terminate it. If no such notice has been given the Convention is to continue from year to year until either Government shall have given a year's notice to the other for its termination.

## Basutoland, Bechuanaland Protectorate, and Swaziland.

The Customs rates of duty in operation in the above-mentioned Territories under Proclamations 83, 85, and 87 of 1914, as amended by Proclamations Nos. 29-31 of 1915, respectively, are the same as those operative in the Union of South Africa under Acts Nos. 26 of 1914 and 22 of 1916.

UNION OF SOUTH AFRICA and  
RHODESIA,

## Rhodesia.

The following articles may be imported *free of duty* :—

- (i) Public stores imported or taken out of bond by, and *bonâ fide* for the sole and exclusive use of, the Government of His Britannic Majesty, or the Government of this Territory; provided that a certificate be delivered to the Customs Authorities, given under the hand of an officer approved by the Principal Officer of Customs, setting forth that any duty levied on such public stores would be borne directly by the Government; and provided further that no portion of such stores used, or unused, shall be sold or otherwise disposed of so as to come into the possession of or into consumption by any person not legally entitled to import the same free of duty, without the consent of the Principal Officer of Customs, and the payment of the duties to him by the officer selling or disposing of such public stores at the rate leviable at the date of sale.
- (ii) Appointments and uniforms for the military, naval, or other forces of His Majesty, whether Imperial, Union, or Colonial.
- (iii) Consular uniforms and appointments.

The importation of the following articles is *prohibited* :—

- (1) Goods which, being of foreign manufacture, bear the name, mark, or brands of manufacturers resident in the United Kingdom or any British Possession, or which, whether of foreign manufacture or not, bear marks contravening the provisions of any law in force in the Union relating to merchandise marks.
- (ii) Prison-made and penitentiary-made goods.

The Administrator may (and, in the case of Northern Rhodesia, with the approval of the High Commissioner), under certain prescribed regulations :—

Grant a *rebate* of the whole or part of the duty on various articles.

[Regulations have been issued under Southern Rhodesia Government Notices Nos. 477 and 502 of 1914 and Northern Rhodesia Government Notice No. 37 of 1915 which provide as follows :—

- (1) So far as regards the whole Territory of Southern and Northern Rhodesia :—
  - (a) To suspend the duties upon certain specified articles.
  - (b) To grant a rebate of the whole of the duty upon :—
    - (i) Methylated spirits.
    - (ii) Articles intended for consumption in the Nyanaland Protectorate, Congo Free State, and Portuguese Province of Mozambique and places overseas.

INTRODUCTORY NOTES—*continued.*Rhodesia—*cont.*

(2) So far as regards Southern Rhodesia and that portion of the Territory of Northern Rhodesia in the Zambesi Basin :—

A rebate of the whole of the Customs duties, subject to the provisions of the Customs Regulations in force relating thereto, on :—

- (a) Alcohol of South African manufacture imported solely for manufacturing or scientific purposes or for fuel.
- (b) Wines and spirits for the use of the Administrator and Resident Commissioner.
- (c) Articles (not being private wearing apparel or effects, food or drink, or tobacco in any form) for the official or private use of Consuls who are subjects of the Governments represented by them and are not engaged in any other business, profession or occupation in the Territory.]

The Customs Tariff in operation in Southern Rhodesia under Ordinance No. 30 of 1914, as amended by Ordinance No. 7 of 1915,\* is classified in a manner practically identical with that in force in the Union of South Africa, but, whilst the rates leviable under the General Tariff are the same, those leviable under the British Preferential Tariff are, in some instances, lower than those operative in the Union in consequence of the operation what is known as the " Rhodes' Clause " of the Rhodesian Order-in-Council of 1914.

The Customs Tariff in force in Northern Rhodesia under Proclamation No. 38 of 1914, as amended by Proclamation No. 13 of 1915,† is classified in a manner similar to that in force in Southern Rhodesia, but the Territory, for tariff purposes, is divided into two Zones, viz., the Zambesi Basin and the Congo Basin.

The tariff operative in the Zambesi Basin of Northern Rhodesia is the same as that in force in Southern Rhodesia.

In the case of imports into the Congo Basin of Northern Rhodesia, the duties leviable on the various articles are, for the most part, similar to those accorded to goods—the produce or manufacture of the United Kingdom, and reciprocating British Possessions—on importation into the Zambesi Basin of Northern Rhodesia, but, in the case of all articles (except alcoholic liquors, gunpowder, guns and pistols) subject to similar specific rates of duty in both parts of the Territory, provision is made that no higher duty than 10% *ad valorem* shall be imposed when such articles are imported into the Congo Basin, whilst, as regards certain other articles, a lower rate of duty is definitely fixed at 10% *ad valorem*. No preference is granted on British goods imported into this part of the Territory.

With regard to certain alternative rates provided for in the case of various articles, imported into the Congo Basin of Northern Rhodesia (e.g., cattle for slaughter at 30% each or, if less, 10% *ad valorem*), a decision has been given by the Northern Rhodesian Government to the effect that under the provisions of the Conference of Berlin, 1885, no higher rate of duty than 10% *ad valorem* can be charged on such articles.

Provision is made in the Customs Tariffs of Southern and Northern Rhodesia for the preferential treatment of British goods by according a rebate of duty upon certain articles, the growth, produce or manufacture of

British  
Preferential Tariff.

## UNITED KINGDOM

imported therefrom and cleared for consumption in Southern Rhodesia and in the Zambesi Basin of Northern Rhodesia, provided that the manufactured goods in respect of which the rebate shall be allowed shall have been *bona fide* manufactured in the United Kingdom, and in the event of any question arising as to whether any goods are entitled to any such rebate the decision of the member of the Executive Council or other Executive Officer in whom the control of the Customs Department is vested (in the case of Southern Rhodesia) or of the Administrator (in the case of Northern Rhodesia) shall be final.

\* The increased rates of duty leviable on the various articles under the Southern Rhodesian Ordinance No. 7 of 1915 and the Northern Rhodesian Proclamation No. 13 of 1915, viz. :—ale, beer, and cider, playing cards, coffee, illuminating and burning mineral oils, sugar, tea, boots and shoes, and vehicles (including cycles), and all goods subject to the " unenumerated " *ad valorem* duty) came into operation on the 1st May 1915, and are to continue in force until the 31st July 1916, unless previously altered by law.

† Preferential treatment was previously accorded to certain products of the United Kingdom imported into Southern Rhodesia under the Customs Union Convention of 1903 from the 15th August 1903 and to similar products when imported into North-Western Rhodesia (i.e., Barotsiland or the Zambesi Basin of Northern Rhodesia) from 1st December 1905.

Similar preferential treatment was extended to Canadian products from 1st July 1904, to Australian products from 1st October 1906, and to products of the Dominion of New Zealand from 1st January 1907.

INTRODUCTORY NOTES—*continued.*Rhodesia—*cont.*

It is also provided that in respect of goods which are grown, produced or manufactured in any British Possession in which an equivalent rebate is allowed reciprocally upon goods imported into that Possession from Rhodesia, there shall be allowed, *mutatis mutandis*, a rebate of duty in Southern Rhodesia and the Zambesi Basin of Northern Rhodesia as is provided for in respect of goods, the produce or manufacture of the United Kingdom.

Such *reciprocating* British Possessions are as follows :—

DOMINION OF CANADA,  
COMMONWEALTH OF AUSTRALIA,  
DOMINION OF NEW ZEALAND.

Further, a rebate of customs duties, as prescribed, is allowed in the case of certain goods, grown, produced, or manufactured in any *non-reciprocating* British Colony, Possession or Protectorate.

As previously stated, the rates of duty imposed on certain articles imported for consumption into Southern Rhodesia and the Zambesi Basin of Northern Rhodesia are lower than those operative in the Union of South Africa in consequence of the operation of Article 47 of the Southern Rhodesian Order-in-Council of 1898, as amended by Order-in-Council of 10th August 1914, and clause 19 of the Northern Rhodesian Order-in-Council of 1911, as amended by Order-in-Council of 10th August 1914 (known in each case as the "Rhodes' Clause") which reads :—

"No Customs duties levied on any articles, other than tobacco in any form and intoxicating liquors of any kind, produced or manufactured in any part of His Majesty's Dominions, or in any British Protectorate, and imported into Southern or Northern Rhodesia (as the case may be), shall exceed in amount the duties levied on similar articles from oversea according to the Tariff in force in the South African Customs Union at the date of coming into operation of the 'Southern Rhodesian Order-in-Council, 1898,' or the Tariff contained in the Customs Union Convention concluded between the Colony of the Cape of Good Hope, the Orange Free State, and Natal, in May 1898, whichever are the higher."

(The Customs Union Tariffs referred to above came into operation on 1st July 1897 and 2nd January 1899 respectively.)

In the event of any of the duties specified under the British Preferential Tariff being found to exceed the highest duties which it is permissible to impose under the above-mentioned Article, there shall be granted a further rebate to an extent sufficient to reduce the amount payable to the maximum which it is permissible under such Article to be so imposed.

The Act No. 11 of 1907 further provides that every manufactured article to be admitted under such British Preferential Tariff shall be *bonâ fide* the manufacture of a British country entitled to the benefits of such tariff, and that a substantial portion of the value of the manufactured article has been produced by labour in one or more of such countries.

Proof of origin, as prescribed by the Minister of Customs, must be furnished with the bill of entry at the Customs House, and the decision of the Minister of Customs shall be final as to the tariff applicable in any case to imported goods by reason of their origin.

The Customs Regulations laid down under an Order-in-Council, dated 17th December 1909 (Customs Memo. A Certificate of Origin is required to be written, printed, or stamped on the face or back of all invoices of articles for entry as aforesaid (except raw and refined sugars). Such certificate must be made and signed by the exporter personally, or on his behalf by his manager, chief clerk, or other principal official having knowledge of the facts to be certified to, and must contain the following statement of facts:—

"That each article on the invoice is *bonâ fide* the produce or manufacture of a country entitled in Canada to the benefits of the British Preferential Tariff, and specified on the invoice as its country of origin, and that each manufactured article on the invoice in its present form ready for export to Canada has been finished by a substantial amount of labour in such country, and not less than *one-fourth* the cost of production of each such article has been produced through the industry of one or more British countries."

The Certificate of Value and of Origin prescribed to be written, printed, or stamped on invoices for entry under the British Preferential Tariff, may be combined in prescribed form, and, in the case of goods which have been shipped to Canada on consignment prior to sale by the exporter, the Declaration Form is required to be attested to in British Countries before a Collector of Customs, Notary Public or other official authorised to administer oaths; and in other Countries before a British or other Consul, Notary Public or other official authorised to administer oaths.

INTRODUCTORY NOTES—*continued.*Dominion of Canada—*cont.*

The benefits of the Intermediate Tariff may, in consideration of benefits satisfactory to the Governor in Council, be extended, *in whole or in part*, to goods, the produce or manufacture of any British or Foreign country, when imported direct from such British or Foreign country—provided that goods for which entry is claimed under the Intermediate Tariff shall be *bonâ fide* the produce or manufacture of a country which has been admitted to the benefits of such Tariff.

## (2) Intermediate Tariff.

The Intermediate Tariff provides, for the most part, for the imposition of duties lower than the General, but higher than the British Preferential, Tariff rates of duty. There are, however, a number of articles which are *not* entitled to any reduction of duty from the General Tariff rates of duty, when entitled to entry under the Intermediate Tariff.

[Up to the present time the Intermediate Tariff has been *partly* brought into operation under the Franco-Canadian Treaty of 1907, as amended in 1909, and also under certain Commercial Agreements made with Belgium, the Netherlands, and Italy, for particulars of which, *see* below.]

The provisions of the Franco-Canadian Convention, which was signed at Paris on 19th September 1907, were approved by the Canadian Government by the Intermediate and Special Tariff: “French Convention Act of 1908” (No. 28 of 1908) on 3rd April 1908. A Supplementary Convention, providing for the exclusion of Canadian “animals in fat condition for butchering” from the benefits of the French minimum tariff, was signed at Paris on 23rd January 1909, and approved by the Canadian Government by the “Supplementary French Convention Act of 1909” (No. 21 of 1909) on 3rd December 1909.

These Conventions were ratified at Paris on 1st February 1910, and, in accordance with the terms of the Convention of 1907, came into operation on that date.

Under the Convention Act of 1908, *certain* articles, the products of France, Algeria, the French Colonies and Possessions, and the Territories of the Protectorate of Indo-China, on importation into Canada, are entitled to enjoy the benefit of the Intermediate Tariff,\* as set forth in the Canadian Customs Tariff of 1907 or *in any amendment thereof*, or to the benefit of a Special Tariff† provided for in that Convention.

It is also provided by the Act of 1908 above referred to that the advantages granted by the Convention to France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate, where (as in the case of certain articles §) these are in excess of those accorded to the United Kingdom and certain British Colonies and Possessions under the British Preferential Tariff,‡ shall be extended to the whole British Empire and

\* The following are the principal articles which are accorded the benefits of the *Intermediate* Tariff rates of duty, viz. :—Preparations of cocoa or chocolate, macaroni and vermicelli, seeds, nursery stock, pickles and sauces, dried fruits, nuts, fish preserved in oil, confectionery, spirits, certain wines, perfumery, pomades, medicinal preparations, vinegar, soap, ink, essential oils, chinaware, cement, glass, clocks and watches and parts, cutlery, locomotives and motor cars, railways and tramways, jewellery, gold and silver wares, electrical materials, furniture and other manufactures of wood, metal manufactures, cotton or linen thread, cotton or linen lace and embroideries, woollen wearing apparel, grey or unfinished woollen dress goods, &c. (not exceeding in weight 6 oz. to the sq. yd.), carpets and fancy goods (such as braids, tassels, cords, handkerchiefs, curtains, corsets, and linen and cotton clothing), musical instruments, leather and dresses for skins, boots and shoes, rubber manufactures, gloves, feathers, precious stones, tobacco pipes, magic lanterns, and photographic, &c. instruments.

† The following articles are accorded the benefits of the *Special* Tariff rates of duty, which are somewhat lower than those leviable under the *Intermediate* Tariff, viz., certain vegetables and fish, certain wines of the fresh grape, books and pamphlets in the *French* language, non-alcoholic liquid, medicinal, &c., preparations (not dry), olive oil, embroideries and lace (other than of cotton or linen), netting and lace manufactures, silk velvets and fabrics, and all manufactures of silk, and ribbons of all kinds.

‡ For list of British Colonies, &c., enjoying the benefits of the British Preferential Tariff, *see* p. li.

§ Such articles are non-alcoholic liquid, medicinal, chemical, and pharmaceutical preparations, and grape wine containing not more than 23 per cent. of proof spirit.

INTRODUCTORY NOTES—*continued.*Dominion of Canada—*cont.*

that all other advantages granted by the Convention shall be extended to those British Colonies and Possessions which have not as yet been accorded the benefits of the British Preferential Tariff.

The Act further provides that the advantages granted to France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate "shall extend to any and every other foreign power which by reason of the operation of the said Convention is, under the provisions of a Treaty or Convention with His Majesty, entitled, in whole or in part, to the same or to the like advantages with respect to its commerce with Canada."

In order that products originating in France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate may enjoy the benefits of the Convention, it is requisite for them to be "conveyed without transhipment from a port of those Territories, or from a port of a territory enjoying the Preferential Tariff or Intermediate Tariff into a sea or river port of Canada."

It is stated in Customs Memo. No. 1566B of 1st January 1910, as amended by Customs Memo. No. 1758B of 17th November 1913, that, in accordance with the above provisions, the products of the following Countries are entitled to entry for duty in Canada upon the terms and conditions granted in respect of similar French products :—

## Regulations for entry of Goods at Treaty or Convention Rates.

The United Kingdom ;  
All British Colonies and Possessions ;

and also, in addition to France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate, the following Foreign Countries which are accorded *most-favoured-nation treatment* in Tariff matters by Canada :—

Argentine Republic.	Japan.	Sweden.
Austria-Hungary.	Norway.	Switzerland.
Colombia.	Russia.	Venezuela.
Denmark.	Spain.	

It is also laid down in the above-mentioned Customs Memo. No. 1566B of 1910 that products originating in France, Algeria, the French Colonies and Possessions, and the Territories of the Indo-China Protectorate may also be accorded the advantages of the Convention when such products have been conveyed without transhipment to a sea or river port of Canada from any British country or from any country accorded *most-favoured-nation treatment* in Tariff matters by Canada.

It is further provided in the Customs Memorandum referred to that, under an Order-in-Council of 17th December 1909, in order to obtain entry at the Customs House in Canada under Treaty or Convention rates, the country of origin in respect of each article imported must be specified on the margin opposite such article, or elsewhere on the invoice thereof.

A Certificate of Origin must be written, printed, or stamped on the face or back of all invoices for entry as aforesaid. Such certificate must be made and signed by the exporter personally, or on his behalf by his manager, chief clerk, or other principal official having knowledge of the facts to be certified to, and must contain the following statement of facts :—

- " That each article on the invoice is *bonâ fide* the produce or manufacture of the country specified on the invoice as its country of origin.
- " That each manufactured article on the invoice in its form ready for export to Canada has been finished by a substantial amount of labour in such specified country of origin, and not less than *one-fourth* the cost of production of each such article has been produced through the industry of the said country."

The Certificate of Value and of Origin prescribed to be written, printed, or stamped, on invoices for entry under Treaty or Convention Rates may be combined in prescribed form, and in the case of goods which have been shipped to Canada on consignment prior to sale by the exporter, the Declaration Form is required to be attested to in British countries before a Collector of Customs, Notary Public, or other official authorised to administer oaths ; and, in other countries, before a British or other Consul, Notary Public or other official authorised to administer oaths.

[The combined forms of the Certificate of Value and of Origin are similar to those prescribed for entry under the "British Preferential Tariff."]

Under Orders in Council of 7th June 1910, the Intermediate Tariff rates of duty were extended, with effect from 10th June 1910, to various articles\*—

**Intermediate Tariff:** the produce or manufacture of *Belgium or the Netherlands*—on importation *direct* from those countries, respectively, or from a British country into Canada—provided that in order that such articles may receive the above advantages they shall only be deemed to be imported *direct* when conveyed without transhipment from a port of Belgium or of the Netherlands (as the case may be) or from a port of a British country into a sea or river port of Canada.

Under a further Order in Council of 7th June 1910, provision was made for the admission of certain goods, the produce or manufacture of *Italy*,† into Canada at Intermediate Tariff rates, with effect from 10th June 1910, when imported *direct* from *Italy* or from a British country into the Dominion—provided that in order that such articles may receive the above advantages they shall only be deemed to be imported *direct* when conveyed without transhipment from a port of the Kingdom of Italy or from a port of a British country into a sea or river port of Canada.

**Intermediate Tariff:** Extension to certain Italian products.

Under the "Japan Treaty Act, 1913," which came into force, by Proclamation, on the 1st May 1913, the Treaty between the United Kingdom and Japan, which was signed at London on the 3rd April 1911, was sanctioned and declared to have the force of law in Canada, with certain specified exceptions.

**Japan Treaty Act, 1913.**

It is stated in Customs Memo. No. 1729B of the 1st May 1913 that, under Article vii. of the Treaty it is, in effect, provided that articles, the produce or manufacture of Japan, upon importation into Canada, from whatever place arriving, shall enjoy the lowest rates of Customs duty applicable to similar articles of any other foreign origin.

Under these provisions, articles, the produce or manufacture of Japan, are entitled to the benefits of the French Treaty of 1907, when conveyed without transhipment to a sea or river port of Canada from Japan, or from any British Country or from any country accorded most-favoured-nation treatment in tariff matters by Canada.

Articles imported as samples for soliciting orders, by merchants, manufacturers, and their commercial travellers, may be admitted subject to the prescribed Regulations (for which, *see* p. xlix).

The General Tariff is applicable in the case of those articles imported from all countries which are not entitled to the benefits either of the British Preferential Tariff, the Intermediate Tariff, or, in the case of certain products, to the Special Tariff provided for in the Franco-Canadian Treaty.

**(3) General Tariff.**

The rates of duty given in this Return for the various articles on importation into Canada distinguish those leviable under the British Preferential, Intermediate, or General Tariffs, as well as under the Special Tariff of the Franco-Canadian Treaty, so far as they are at present in operation in the Dominion.

\* The articles are the same as those entitled to entry into Canada at either the Intermediate or Special rates of duty as enumerated in the Schedules of the Franco-Canadian Convention of 1907.

Those articles, however, which are accorded "Special Tariff" rates of duty under the Franco-Canadian Convention of 1907 (*see* † note on p. liv.), are only accorded the rates of duty prescribed by the "Intermediate Tariff" when the produce of either Belgium or the Netherlands on importation into Canada.

† *Viz.*, macaroni and vermicelli, certain vegetables, lime-juice and other fruit-juice and syrups, n.o.p., wines, Castille soap, pomades, &c., when imported in tins of not less than 10 lbs. each. essential oils, n.o.p., cotton or linen white and cream lace and embroideries, grey or unfinished woollen women's and children's dress goods, &c., not exceeding in weight 6 ozs. to the sq. yd., church vestments, velvets and velveteens, silk velvets, plush, and fabrics and all silk manufactures, ribbons, musical instruments (except pianos and organs), phonographs, graphophones, and gramophones and finished parts, brass band instruments, parts of pianos and organs and bagpipes, bead ornaments and ornaments of alabaster, spar, amber, terra cotta or composition, fans, dolls and toys, statues and statuettes, and fine kid gloves.

[NOTE.—The articles of Italian produce accorded Intermediate Tariff rates are not so numerous as in the case of Belgian and Dutch products.]

INTRODUCTORY NOTES—*continued.*Dominion of Canada—*cont.*

With regard to the Surtax Tariff, it is provided under section 7 of the Canadian Tariff Act of 1907, as subsequently amended by Act No. 26 of 1914, that :

(a) Goods, the product or manufacture of any foreign country, which treats imports from Canada less favourably than those from other countries may be made subject by order of the Governor in Council in the case of goods already dutiable to a surtax over and above the duties specified in the Act ; and in the case of goods not dutiable to a rate of duty, not exceeding, in either case, 20 per cent. *ad valorem.*

(b) Goods, the product or manufacture of any foreign country imported into Canada in vessels registered in such foreign country, admitted to registration under the laws of such foreign country, may, if such foreign country imposes higher duties of customs upon goods imported into such country in vessels registered in Canada than upon the like goods when imported in vessels of such country, be made subject by order of the Governor in Council in the case of goods already dutiable to a surtax over and above the duties specified in the Act, and in the case of goods not dutiable to a rate of duty not exceeding, in either case, 20 per cent. *ad valorem.*

(c) Within the limits prescribed any such goods may by such Order-in-Council be made subject to a surtax or rate, as the case may be, differing from the surtax or rate to which another class of goods may be thereby, or by any other such order, made subject.

(d) The Governor in Council may make regulations for carrying out the purposes of this section, and may by Order-in-Council suspend the surtax or rate in whole or in part from application to the goods of such foreign country or any class of such goods.

(e) The decision of the Governor in Council shall be final on any question which may arise regarding the application of the surtax or rate pursuant to this section.

At the present time the Surtax Tariff is *not* applied to the products of any country.

[NOTE.—The surtax previously leviable on *German* goods imported into Canada from the 17th April 1903, under Act No. 15 of 1903, and which was re-imposed by Act No. 11 of 1907, was suspended, with effect from 1st March 1910 (Customs Memo. No. 1572B of 1910).]

INTRODUCTORY NOTES—*continued.*Dominion of Canada—*cont.*

It is further provided by the Canadian Customs Tariff Act of 1907: "That in the case  
 " of articles exported to Canada *of a class or kind made in Canada,*  
 " if the export or actual selling price to an importer in Canada be less  
 " than the fair market value of the same article when sold for home  
 " consumption in the usual and ordinary course in the country whence  
 " exported to Canada at the time of its exportation to Canada there  
 " shall, in addition to the duties otherwise established, be levied, col-  
 " lected and paid on such article, on its importation into Canada, a  
 " special duty (or dumping duty) equal to the difference between the said selling price of  
 " the article for export and the said fair market value thereof for home consumption:

" Provided that the said special duty shall not exceed 15 per cent. *ad valorem* in any  
 " case:

" Provided also that the following goods shall be exempted from such special duty  
 " viz. :—

" (a) Goods whereon the duties otherwise established are equal to 50 per cent.  
 " *ad valorem.*

" (b) Goods of a class subject to excise duty in Canada

" (c) Sugar refined in the United Kingdom.

" (d) Binder twine or twine for harvest binders manufactured from New Zealand

 " the pound.

" Provided further that excise duties shall be disregarded in estimating the market  
 " value of goods for the purposes of special duty when the goods are entitled to entry  
 " under the British Preferential Tariff."

The expression "export price" or "selling price" above mentioned shall be held to  
 mean and include the exporter's price for the goods, exclusive of all charges thereon after  
 their shipment from the place whence exported directly to Canada.

If at any time it shall appear to the satisfaction of the Governor in Council, on  
 a report from the Minister of Customs, that the payment of the special duty herein  
 provided for is being evaded by the shipment of goods on consignment without sale prior  
 to such shipment, the Governor in Council may in any case, or class of cases, authorise  
 such action as is deemed necessary to collect on such goods, or any of them, the same  
 special duty as if the goods had been sold to an importer in Canada prior to their  
 shipment to Canada.

If the full amount of any special duty of Customs be not paid on goods imported, the  
 Customs entry thereof shall be amended and the deficiency paid upon the demand of the  
 Collector of Customs.

The Minister of Customs may make such regulations as are deemed necessary for  
 carrying out the provisions of the foregoing sections, and for the enforcement thereof.

Such regulations may provide :—

(i) for the temporary exemption from special duty of any article or class of articles  
 when it is established to the satisfaction of the Minister of Customs that such  
 articles are not made in Canada in substantial quantities and offered for sale  
 to all purchasers on equal terms, under like conditions, having regard to the  
 customs and usage of trade, or

(ii) for the exemption from special duty of any article when the difference  
 between the fair market value of the goods and the selling price thereof  
 to the importer amounts only to a small percentage of their fair market  
 value.

The following Regulations respecting the special (or dumping) duties have been made  
 under Customs Memoranda, Nos. 1407B of May 1st, 1907, 1506B of December 1st, 1908,  
 1652B of 26th October 1911, and No. 1812B of the 24th August 1914 :—

(1) Invoices in duplicate, properly certified, shall be delivered at the  
 Customs House, with the bills of entry for all imported goods.

Regulations  
 respecting  
 Special  
 (or Dumping)  
 Duties.

(2) Every such invoice shall contain a sufficient and correct description  
 of the goods, and in respect of goods sold by the exporter, shall  
 show in one column the actual price at which the articles have  
 been sold to the importer, and in a separate column the fair  
 market value of each article as sold for home consumption in  
 the country of export.

INTRODUCTORY NOTES--*continued.*Dominion of Canada--*cont.*

- (3) The "price" and "value" of goods in every case aforesaid are to be stated as in condition packed ready for shipment at the time when, and at the place whence, the goods have been exported directly to Canada.
- (4) When the value of goods for duty purposes is determined by the Minister of Customs under the provisions of the Customs Act, by reason of the goods being exported or imported under unusual conditions, the value so determined shall be held to be the fair market value thereof.
- (5) In making Customs entry, the "special duty" may be shown by itself in the "net duty" column, of the entry below the number of articles subject to special duty.
- (6) Goods of a class or kind, made in Canada, are subject to special duty when sold for exportation to Canada at a less price than for home consumption in the country of export, whether such goods be otherwise free of duty or subject to specific or *ad valorem* duties, with the exception of the articles above quoted.
- (7) Under the "special duty" provisions of the Customs Tariff, the special duty (or dumping duty) is *not* to apply in the following cases: viz. :—

(a) When the difference between the fair market value and the selling price of the goods to the importer in Canada does not exceed 5 per cent. of their fair market value.

Provided that the whole difference shall be taken into account for special duty purposes when exceeding 5 per cent.

Provided, further, that special duty (or dumping duty) under the Customs Tariff shall, without exemption allowance, apply to articles of a class or kind made in Canada when admitted free of ordinary duty, and shall also without exemption allowance apply to round rolled wire rods of iron or steel. (Memo. No. 1812B, dated 24th August 1914.)

[In addition to the general regulations, decisions have also been given that, unless otherwise determined, special (or dumping) duty will be operative on :

Galvanised plate and black plate and sheet when not over 36 in. wide and 144 in. long. (Customs Memo, dated 11th December 1909.)

Chocolate and preparations of chocolate shipped to Canada on consignment without sale prior to shipment similar to the special duty payable on chocolate sold to an importer in Canada, prior to its shipment thereto. A deposit of 15 per cent. *ad valorem* is required to secure the payment of the special duty, any excess of duty paid being subsequently refunded on application through the Collector in the usual form upon proof to the satisfaction of the Minister of Customs as to the actual price realised from the sale of the goods, exclusive of all charges thereon after shipment from the place whence exported directly into Canada. (Customs Memo. No. 1594B, dated 13th June 1910.)]

(8) Articles of merchandise for use *bonâ fide* as samples for sale of similar goods are admitted without *special* duty, but are subject to the *ordinary* duties in force.

(9) The amount of any advance in the market value of goods between the time of their purchase by the importer and the date of their exportation to Canada shall not be subject to special duty, provided the goods have been exported in the usual course and the actual date of purchase established to the satisfaction of the Collector by contracts, or other sufficient documents produced for his inspection and attested to, and also further provided that in respect of goods subject to *ad valorem* duty, that the *ordinary* duty shall be collected (as heretofore) on the fair market value of the goods as at the time of their direct exportation to Canada, under the provisions of sections 40 and 41 of the Customs Act (c. 48 of the Revised Statutes of Canada, 1906).

(10) In computing the difference for special duty purposes between the "fair market value" in the country of export and the "selling price to the importer in Canada," the fair market value of the goods is to be estimated on the usual credit basis, except when the article is universally sold in the country of export for cash only, in which case the fair market value is to be estimated on a cash basis; provided that a *bonâ fide* discount for cash not exceeding 2½ per cent. when allowed and deducted by the exporter on his invoice may be allowed in estimating the fair market value of goods for duty purposes.

INTRODUCTORY NOTES—*continued.*Dominion of Canada—*cont.*

It is provided under the "Combines Investigation Act, 1910" (No. 9 of 1910) that whenever it appears to the satisfaction of the Governor-in-Council that with regard to any article there exists any combine to promote unduly the advantage of the manufacturers or dealers at the expense of the consumers, and that such disadvantage is facilitated by the customs duties imposed on the article, the Governor-in-Council may direct either that such article be admitted free of duty, or that the duty thereon be reduced to such rate as, in the opinion of the Governor-in-Council, will give the public the benefit of reasonable competition.

The Canadian-West Indian Reciprocity Agreement of 1912\* was adopted, and effect given thereto, by Ordinance No. 2 of 1913, which came into force on 2nd June 1913.

British  
Preferential Tariff.

The Ordinance provides for the preferential treatment of certain goods, the produce or manufacture of the

UNITED KINGDOM,  
DOMINION OF CANADA, and  
NEWFOUNDLAND.

The Governor-in-Council may extend, by Order, the benefits of the British Preferential Tariff to the produce or manufacture of any British Possession or Protectorate in the same manner as to similar preferential goods.

It is provided that the preferential rates of duty on certain goods specified in the Agreement, shall be *four-fifths* (i.e., a preference of 20%) of the duties imposed on foreign goods, except that in the case of wheat flour the preference shall amount to at least 6d. per 100 lbs.

The Governor-in-Council is empowered to make regulations for the better carrying out of the provisions of the above-mentioned Ordinance.

The Customs Regulations which have been prescribed for the purpose of governing the entry of goods under the British Preferential Tariff provide that all articles entitled to preference—being the produce or manufacture of the United Kingdom, Canada or Newfoundland—shall not be entitled to preference unless there be submitted by the importer of such goods at the time of importation a Certificate of Origin in one or other of the prescribed forms, according to whether the articles are consigned direct or otherwise from the country of origin or manufacture.

Certificates of Origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

Certificates of Origin for goods *not* consigned direct, in order to be valid, must be attested to in British Countries before a Collector or other principal officer of Customs, Notary Public, or other official authorised to administer oaths; and in other countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate shall be valid after the expiry of six months from the date of issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach the Colony before the arrival of the certificates of origin relating to the same, it shall be competent for the Customs Authority to authorise the delivery of such article at the preferential rates of duty on the security of a deposit equal in amount to the difference in duty between the preferential and general rates.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity or value of the goods, they shall not be entitled to preference unless the Customs Authority at the port of destination is satisfied as to the origin of the goods, and that the differences are solely due to error.

Certificates of Origin produced shall be retained by the Customs Authorities at the port of landing.

The full text of the Forms of Certificate of Origin for goods consigned direct, and not direct, from the country of origin or manufacture, is as follows:—

It is further provided that, on and after any date to be named by the Governor in Council by Proclamation, the British Preferential Tariff rates of duty shall be only applicable to goods brought without transshipment into the Colony by ship direct from any of the countries entitled to the advantages of the Agreement or by way of any British country.

All articles entitled to preference shall be accompanied by a Certificate of Origin in one or other of the prescribed forms, according to whether the articles are consigned direct or otherwise from the country of origin or manufacture.

Certificates of Origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter or his duly authorised representative.

Certificates of origin for goods *not* consigned direct, in order to be valid, must be attested to in British Countries before a Collector or other principal officer of Customs, Notary Public, or other official authorised to administer oaths; and in other countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate shall be valid after the expiry of six months from the date of issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach St. Vincent before the arrival of the certificates of origin relating to the same, it shall be competent for the Customs Authorities to authorise the delivery of such articles at the preferential rates of duty on the security of the deposit equal in amount to the difference in duty between the preferential and general rates, or on bond being given for such amount for the due production of the necessary certificates within a prescribed period, provided that a general bond may be entered into to cover a series of transactions, and in a penalty suitable to the extent of such transactions.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity, or value of the goods, they shall not be entitled to preferential treatment unless the Customs Authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

It is prescribed in the Forms of Certificate of Origin which are required to be produced to the Customs Authorities at the port of landing for goods consigned direct or otherwise, that there shall be a certified statement or a declaration signed, as the case may be, either by the exporter or by the declarant and by the issuing authority, as above stated, to the effect that the merchandise is the growth, produce, or manufacture of a British Country entitled to preference,\* and that in the case of manufactured goods—

"A substantial portion of the labour of . . . . . (*country of manufacture*) has entered into the production of every manufactured article included in this certificate of origin, to the extent in each article of not less than *one-fourth* of the value of every such article in the present condition."

A declaration is also required for goods not consigned direct to the effect that the—

"goods are in the original packages in which they were exported from . . . . . and that such goods have been under continuous Customs supervision whilst in . . . . . and have not been altered in nature, quality, or value, since their exportation from . . . . ."

[NOTE.—For the full text of the prescribed Forms of Certificate of Origin, *see* under "St. Lucia."]

Goods certified for entry under the preferential tariff shall be packed separately from other goods. The packages, however, may be enclosed with other goods, provided the certificate of origin is endorsed accordingly.

In order to obtain admission at the preferential rates of duty, goods shall be imported into St. Vincent direct from the United Kingdom, Canada, Newfoundland, or the Colonies entitled to the advantages of the Agreement, provided that the source of any such goods is not to be deemed to be affected by passing through the United States or Canada, or through any of the other British Colonies—party to the Agreement—under Customs supervision for purposes of consignment or re-consignment to St. Vincent, but goods so consigned or re-consigned shall be imported into the Colony in the original packages in which they were exported, and they must not have been altered in nature, quality, or value during the time they remain in the United States, or in any other Country or Colony as aforesaid.

\* In the case of goods not consigned direct, it is required to be declared that such goods are the growth, produce, or manufacture of a British Country entitled to preference as shown by reliable invoices presented by the exporter.

INTRODUCTORY NOTES—*continued.***St. Vincent—*cont.***

Goods entitled to preferential treatment shall not be entered on entries along with non-preferred goods.

In the event of goods having passed out of bond in any West Indian Colony entitled to the advantages of the Canada-West Indian Agreement, and such goods having been duty-paid under the Preferential Tariff of that Colony, upon a certificate, in prescribed form, being granted by an authorised Customs Officer at the said Colony where such goods are being re-shipped on drawback under Customs supervision, that such goods were admitted under the Preferential Tariff, then such goods shall likewise be duty paid under the Preferential Tariff of St. Vincent as if such goods had been entered into St. Vincent under the above Regulations.

If such goods are taken out of the Colony within three months of the date of permission the deposit will be refunded, otherwise it will be forfeited.

The Canadian-West Indian Reciprocity Agreement of 1912\* was ratified by British Ordinance No. 1 of 1913, and effect was given thereto by Ordinance No. 10 of 1913, which came into force on the 2nd June 1913.

**Preferential Tariff.** The Ordinance provides for the preferential treatment of certain goods of the growth, produce or manufacture of the  
 UNITED KINGDOM,  
 DOMINION OF CANADA, and  
 NEWFOUNDLAND,

provided that such goods shall be accompanied by such evidence of origin as may be prescribed by the Governor-in-Executive Council from time to time, and, in the case of manufactured goods, upon proof being submitted that a substantial portion of the value of the manufactured articles has been produced by labour in the United Kingdom, Canada or Newfoundland.

It is further provided that, on and after any date to be named by the Governor in Executive Council by Proclamation, the preferential rates of duty shall only be applicable to goods brought without transshipment into the Colony by ship direct from the United Kingdom, Canada or Newfoundland, or from one of the other Colonies entitled to the advantages of the Agreement.

The Ordinance No. 10 of 1913 specifies the rates of duty leviable under the British Preferential and General Tariffs—the British Preferential Tariff Rates being, in practically all cases, exactly *four-fifths* (i.e., a preference of 20 per cent.) of the duties leviable under the General Tariff.

INTRODUCTORY NOTES—*continued.*Trinidad and Tobago—*cont.*

The Customs Regulations which have been prescribed for the purpose of governing the entry of goods under the British Preferential Tariff provide that all articles entitled to preference shall be accompanied by a certificate of origin, in one or other of the prescribed forms, according to whether the articles are consigned direct or otherwise from the country of origin or manufacture.

Certificates of Origin for goods consigned direct from the country of origin or manufacture need only be verified by the signature of the exporter, or his duly authorised representative.

Certificates of origin for goods *not* consigned direct, in order to be valid, must be attested in British Countries before a Collector or other principal officer of Customs, Notary Public, or other official authorised to administer oaths; and in other Countries before a British Consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No certificate shall be valid after the expiry of six months from the date of issue.

Where articles entitled to preference reach the Colony before the arrival of the certificates of origin relating to the same, the Collector of Customs may authorise the delivery of such articles at the preferential rates of duty on security of a deposit equal in amount to the difference in duty between the preferential and general rates.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reasons of discrepancies as regards the marks or numbers of the packages, or the kind, quantity, or value of the goods, they shall not be entitled to preferential treatment unless the Customs Authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

It is prescribed in the Forms of the Certificate of Origin which are required to be produced to the Customs Authorities at the port of landing for goods consigned direct or otherwise, that there shall be a certified statement or a declaration, signed, as the case may be, either by the exporter or by the declarant and by the issuing authority, as above stated, to the effect that the merchandise is the growth, produce or manufacture of a British Country entitled to preference,\* and that in the case of manufactured goods—

"a substantial portion of the labour of . . . . (Country of manufacture) has entered into the production of every manufactured article included in this certificate of origin, to the extent in each article of not less than *one-fourth* of the value of such article in its present condition."

A declaration is also required in the case of goods not consigned direct to the effect that the—

"goods are in the original packages in which they were exported from . . . . and that such goods have been under continuous Customs supervision whilst in . . . ., and have not been altered in nature, quality or value since their exportation from . . . ."

[NOTE.—For the full text of the prescribed Forms of Certificate of Origin, see under "St. Lucia."]

Goods certified for entry under the Preferential Tariff shall be packed separately from other goods. The packages, however, may be enclosed with other goods, provided the certificate of origin is endorsed accordingly.

Goods entitled to preferential treatment shall not be entered on entries along with non-preferred goods.

Under the provisions of the "Importation of Food Ordinance, 1906" (No. 18 of 1906), the Collector of Customs may, on the importation of food into the Colony,—

- of Food.
- (a) detain the same for purposes of examination;
  - (b) cause a sufficient number of samples to be examined by chemical analysis or otherwise;
  - (c) destroy, or cause to be destroyed, or on application from the importer or consignee to allow to be re-exported to the place of shipment any food which upon analytical or other examination is found to be unsound, deleterious, or injurious to health—provided that the power of destruction shall not be exercised except on the authority of the Governor-in-Council after due notice to the importer or his agent.

No compensation is payable to any person in respect of any food destroyed under the provisions of the Ordinance.

\* In the case of goods not consigned direct, it is required to be declared that such goods are the growth, produce, or manufacture of a British Country entitled to preference as shown by reliable invoices presented by the exporter.

- (i) All goods which, if sold, would be liable to forfeiture under the Merchandise Marks Ordinance, No. 2 of 1888, and also all goods of foreign manufacture, bearing any name or trade mark, being, or purporting to be, the name or trade mark of any manufacturer, dealer, or trader in the United Kingdom, unless such name or trade mark is accompanied by a definite indication of the country in which the goods were made or produced.

[It is provided under the Merchandise Marks Ordinance No. 5 of 1910 that the Customs entry relating to imported goods shall for the purposes of the Merchandise Marks Ordinance No. 2 of 1888 be deemed to be a "trade description" applied to the goods.]

- (ii) Clocks and watches not manufactured in the United Kingdom or any other article of metal impressed with any mark or stamp, representing, or in imitation of, any legal British assay mark or stamp, or purporting, by any mark or appearance, to be of the manufacture of the United Kingdom.

(Ordinance No. 14 of 1911.)

In cases where any article can be classed under two or more headings in the tariff and there is a difference of duty, the highest duty is charged, except when the Comptroller of Customs is satisfied that the article only contains a very small proportion of the article bearing the higher duty.

In any case where reference is made in the tariff for articles to be packed or imported in a particular way, the same duty is imposed on such article if packed in any other way, or in any other form imported; and the amount of duty payable in any such case shall be computed by the Comptroller so as to equal as nearly as may be, but not less than, the amount of duty payable in the like case if the article had been packed or imported in the usual way. Bottles not measured on importation shall be taken to contain as follows :—

Imperial quarts	-	-	-	-	$\frac{1}{4}$ gall.
" pints	-	-	-	-	$\frac{1}{2}$ "
Reputed quarts	-	-	-	-	$\frac{1}{4}$ "
" pints	-	-	-	-	$\frac{1}{2}$ "

Bottles measured singly on importation to be measured up to  $\cdot 001$  of a gallon.

A *drawback* of the duties paid is allowed on all imported articles (except opium (as defined by the Opium Ordinance, 1913), Indian hemp (as defined by the Indian Hemp Ordinance, 1913), spirits of any kind, wine, tobacco (manufactured or not), cigars, cigarillos, cigarettes, gunpowder, Venezuelan gold bullion, and Venezuelan balata, rubber or other substances of a like nature, on exportation from the Colony—provided that drawbacks shall only be allowed as regards animals, in such cases as may be provided for by regulations, and also as regards goods that they are exported within 12 months from the date of importation, and that they have been exported with the view that they will not be re-imported. If re-imported, the importer shall pay the highest rate of duty leviable between the date of export and of re-importation.

The Comptroller may give permission to bring into the Colony any goods without payment of duty thereon upon being satisfied that such goods are brought in for *temporary* use only. Such permission shall be subject to the following conditions :—

- (i) That the goods are taken out of the Colony within three months of the date of such permission;
- (ii) That a deposit of the amount of the duty on such goods shall be given to the Comptroller, such deposit being refunded when the goods are taken out of the Colony within the specified time.

If such goods are not taken out of the Colony within three months of the date of permission the deposit will be forfeited—provided that the Comptroller of Customs may, in his discretion, allow any additional period in the case of paraphernalia imported by scientific expeditions and that cameras, telescopes, and binoculars, which the Comptroller of Customs is satisfied are the *bona fide* property of any person on a temporary visit to the Colony, shall be admitted free of duty.

The Comptroller of Customs was empowered, under Ordinance No. 6 of 1913, to give effect to the Canadian-West Indian Reciprocity Agreement of 1912\* by amending the Customs Ordinance, 1884, with respect to the making of regulations for the better carrying into effect the provisions of that Agreement.

Effect was originally given to the Agreement by Ordinance No. 8 of 1913 (which came into force on the 2nd June 1913).

\* For provisions of the Canadian-West Indian Reciprocity Agreement of 1912, see under the "Dominion of Canada," pp. lvii-lviii.

INTRODUCTORY NOTES—*continued.***British Guiana—*cont.***

This Ordinance was subsequently repealed, and provision is now made under Ordinance No. 14 of 1915 for according preferential treatment to various articles, the growth, produce or manufacture of the following countries when imported *direct* from those countries, respectively, into British Guiana:—

UNITED KINGDOM,  
DOMINION OF CANADA, and  
NEWFOUNDLAND,

and all British Possessions which are parties to the Canada-West Indies Convention, or which may become parties thereto. The British Possessions accorded preferential treatment in addition to those specified above, are:—

TRINIDAD,  
BARBADOS,  
St. LUCIA,  
St. VINCENT,  
ANTIGUA,  
St. KITTS,  
DOMINICA,  
MONTSERRAT, and  
GRENADA.

The Customs Tariff Ordinance specifies the rates of duty leviable under the British Preferential and General Tariffs—the British Preferential Tariff rates on certain articles being, in practically all cases, exactly *four-fifths* (*i.e.*, a preference of 20 per cent.) of the duties leviable under the General Tariff.

The Customs Regulations which have been prescribed for the purpose of governing the entry of goods under the British Preferential Tariff, provide that all articles entitled to preference shall be, *bonâ fide*, the growth, produce or manufacture of the United Kingdom, Canada, Newfoundland, and the British Possessions which are parties to the Canada-West Indies Convention or which may become parties thereto.

Manufactured articles shall only be admitted at the preferential rates of duty upon proof being submitted that a substantial portion of the labour of the United Kingdom, Canada, Newfoundland, and the British Possessions which are parties to the Canada-West Indies Convention or which may become parties thereto, has entered into the production of such articles to the extent in each article of not less than *one-fourth* of the value thereof at the time the goods are entered for exportation with the Customs Authorities in the country of produce or manufacture.

All articles entitled to preference under these regulations shall be accompanied by such evidence of origin as is required, and all such articles not accompanied by such evidence shall be deemed to be articles not entitled to admission at preferential rates of duty.

All articles entitled to preference shall be accompanied by a Certificate of Origin in prescribed form.

In order to substantiate the correctness of the particulars contained in such certificate of origin the importer shall produce, at the request in writing of the Customs Authorities, the Railway bill of lading, or a copy thereof, duly certified by the Canadian Customs Authorities, furnisher's account, business correspondence or such other documentary evidence relating to the goods as the Comptroller of Customs may, from time to time, require to be presented.

Upon failure of the importer to present any document required in writing under the preceding regulation the Comptroller may direct that the articles shall not be admitted under the British Preferential Tariff. Any dispute as to the duty payable may be decided by action in the manner provided by Section 23 of the Customs Ordinance, 1884, and the procedure therein laid down shall be followed.

No certificate shall be valid after the expiry of six months from the date of issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach British Guiana before the arrival of the certificates of origin relating to the same, it shall be competent for the Customs Authorities to authorise the delivery of such articles at the preferential rates of duty on the security of a deposit equal in the amount to the difference in duty between the preferential and general rates, or on bond being given, in prescribed form, for such amount for the due production of the necessary certificates within a prescribed period, provided that a general bond may be entered into to cover a series of transactions, and in a penalty suitable to such transactions.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies, as regards the marks or numbers of the packages, the number and description of the packages, and the description of the goods, or the quantity or value of the goods, they shall not be entitled to preferential treatment unless the Customs Authorities at the port of destination are satisfied that the differences are solely due to error.

INTRODUCTORY NOTES—*continued.*

**Requirement of Certificates of Non-Enemy Origin for various Imports from certain European Countries, either direct or via the United Kingdom, in various parts of the British Empire.**

**GENERAL NOTE.**—In order to prevent breaches of the law relating to Trading with the Enemy, British Consular Certificates of Non-enemy Origin, in prescribed form, are required to be furnished to the Customs Authorities for various goods shipped from the European Countries of Norway, Sweden, Denmark, Holland, Switzerland, and Italy on importation into various parts of the British Empire (other than Canada, Newfoundland, and Egypt).

Such Certificates are required in respect of goods arriving at British over-sea ports either directly or after transshipment under the Customs Regulations at any port in the United Kingdom.

When goods from the countries named are imported into the United Kingdom, and subsequently re-exported therefrom, a Certificate of Origin will not be required in the over-sea port, but in lieu thereof the importer at that port should produce a duplicate of the "Specification for Foreign and Colonial Merchandise" (Form 30) or the "Shipping Bill" (Form 64), as the case requires, which exporters are called upon to lodge with the Customs authorities in this country in connection with the re-exportation of such goods from the United Kingdom.

The proper officers of Customs in the United Kingdom are authorised by the Board of Customs and Excise to sign and stamp complete duplicates of the "Specification" or "Shipping Bill," or extracts therefrom, free of charge, provided the duplicate or extract is presented at the same time as the original. When the goods described on a "Specification" or "Shipping Bill" are intended for two or more consignees, exporters may have extracts signed and stamped for transmission to each consignee.

Similar arrangements are also applicable to goods of *Belgian* origin, but if they are to be imported into Australia, New Zealand, or the Union of South Africa, authority for their importation must be sought from the respective High Commissioners of those Dominions in London. As regards Canada and Newfoundland, Consular Certificates are only required in the case of Belgian goods, but their importation into those Dominions must be authorised by the High Commissioner for Canada in London or by the Government of Newfoundland, respectively. In the case of the British Colonies and Protectorates, the importation of Belgian goods will only be allowed if they are obtained through a person in the United Kingdom who has been authorised by the Board of Trade to obtain them from Belgium with a view to their shipment to such Colony or Protectorate. It is to be understood, however, that in those cases in which Certificates of Origin are not required for goods imported from Holland they will not be required for goods of Belgian origin.

The above-mentioned requirements in respect of the various articles imported are not uniform in all cases. For instance, in *India*, alabaster, bulbs, carbide of calcium, cod-liver oil, coral (raw), curbstone, cyanide of calcium, flax, flax-seed, foodstuffs (other than sugar), granite, granite sets for paving, ice, iron ore, marble, pavement slates, paving slates, paving stones, quicksilver, sienna earth, slatestone, strawboard, sulphur, tar, timber of any kind (including pit props and wood hoops for making casks), mechanical wood pulp (excluding cellulose), are exempted from the requirement of a Certificate of Origin. In *Australia* and *New Zealand* there are no exemptions, whilst in the *Union of South Africa*, as well as in the *British Colonies and Protectorates*, foodstuffs (except sugar), timber of any kind (including pit props), strawboard, wood pulp (excepting cellulose), iron ore, granite, ice, tar, and carbide of calcium are exempted from the requirements stated.

The prescribed form of the Certificate of Origin is similar to that required for imports from the above-mentioned countries into the United Kingdom.

Full particulars of the requirements, which have been published from time to time in the Board of Trade Journal, may be obtained on application at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.

[The following regulations are laid down in Customs By-law, No. 66 of 1909, dated 16th September 1909, respecting the importation of high-speed reciprocating steam engines:

- (a) The engine must be of the vertical reciprocating type, and must be provided with forced or splash lubrication.
- (b) The working parts of the engine must be enclosed in an oil-tight case or chamber.
- (c) The engine must be mounted, or for mounting, on the same shaft, or be coupled, or for coupling in one line by means of couplings, with an electric generator or a pump, so that the engine and the generator or pump will run at the same number of revolutions per minute.
- (d) The number of revolutions per minute at which the engine is constructed to run continuously when developing its maximum brake horse-power, must not be less than the number of revolutions per minute represented in the speed curves of high-speed engines shown in the schedule attached to the By-Law, for the given brake horse-power, according as the engine is of the single, two or three crank type.

It is, however, provided that when an engine complies with conditions (a), (b) and (c), and is normally constructed to run at a standard speed not less than that defined or represented in the said speed curves, but owing to the special requirements of the electric generator or pump with which it is, or is to be, directly coupled, must be run at a lower speed, such engine will be admitted at the rate of 25 % *ad val.* under the British Preferential Tariff and 30 % *ad val.* under the General Tariff, upon the production to the Comptroller-General or a State Collector of Customs of

[Foreign skins shipped from the United Kingdom to the Commonwealth must be accompanied by a declaration from their country of origin, as prescribed by the Quarantine Regulations, stating that the skins have not been derived from any animals which have suffered from or died from anthrax or similar		

(a) A "rough-tanned" skin is one that has only been tanned, or tanned and tabled. The "tabling" really only stretches the skin and improves its appearance by removing the crinkles and creases. The following are the main features of a "rough-tanned" skin after the tabling process:—

- (i) A rough surface on the flesh side, showing presence of flesh still adhering to the pelt;
- (ii) An unevenness of substance in the skin, i.e., the skin is thinner towards the offal (bellies) and thicker towards the spine. There is, in fact, a perceptible ridge down the spine line.

In the finished skin this unevenness has been shaved off and the skin runs an even thickness (or substance) throughout. Skins which have been shaved cannot be regarded as "rough tanned," but are dutiable as "rough" skins. (Customs Tariff Guide.)

## TARIFF CLASSIFICATION AND TARIFF RATES OF DUTY.

COMMONWEALTH OF AUSTRALIA—*cont.*

[The following Regulations are laid down regarding "advertising matter" imported into the Commonwealth:—

*Inner Containers, imported containing Goods.*

- (1) Inner containers imported containing goods are dutiable as above (as to containers made of paper), or at 25% *ad valorem* under the United Kingdom Preferential Tariff and 30% *ad valorem* under the General Tariff (as to containers other than those made of paper), when the containers are of an advertising character.
- (2) Containers shall not, however, be regarded as advertising in character if bearing only wording as follows:—
- (a) Any wording or brand relating to any or all of the goods made by the manufacturer of the goods enclosed in the containers. (The term "manufacturer," here used, applies only to an actual maker of goods abroad, or to a factor abroad who has goods made to his exclusive order.)
- (b) The name, address, and style of business of the importer, or Australian vendor (the term "style of business" may include only such generic designations as "draper" or "drapery" "ironmonger" or "hardware," "universal provider," &c.

(Customs Tariff Guide.)

*Advertising Matter by Post.*

- (1) In the case of advertising matter sent through the post to individuals, the duty may be paid by any of the methods specified hereunder:
- (a) The total weight of any one mail may be ascertained by a consignor, and the duty payable may be remitted in one sum to the Deputy Postmaster-General of the State to which the advertising matter is addressed. In such cases a notification that such remittance has been made should appear on each packet.
- (b) The duty may be paid on the same basis as in (a) by the consignor's agents in the Commonwealth.
- (c) Duty stamps may be affixed to each package covering the amount of duty payable on the same. These stamps may be purchased in denominations of  $\frac{1}{2}d.$ , 1d., 2d., 3d., 4d., 5d., 6d., 7d., 8d., 9d., 10d., 11d., and 1s. from the Offices of the Commonwealth of Australia in London, 72, Victoria Street, London, S.W. The duty stamps must be cancelled by the sender before despatch by writing or stamping the date across the face.
- (d) If none of the above methods be followed, postal surcharges will be made in the Commonwealth to cover the duty due on each packet.

- (2) For the purpose of paragraph (1) (c) and (d) the following scale of charges on fractions of a pound weight has been approved:—

Amount.	If of U.K. production.	Otherwise.
$\frac{1}{2}d.$	Up to 1 oz.	Up to $\frac{3}{4}$ oz.

(3) In cases where the total duty on any one mail addressed by any one consignor to any one State of the Commonwealth does not exceed 1s., the payment of duty is waived. If there is reasonable ground for belief that this concession is being abused by the distribution of a consignment over more than one mail, the whole of the matter affected is to be charged duty. When this exemption is claimed for any consignment, each package should bear an intimation that the total duty does not exceed 1s.

(4) As the Imperial postage regulations do not allow any postal packet to contain any enclosure addressed to a different person at a different address, the use of Commonwealth Duty Stamps issued from the High Commissioner's Office is limited to packets sent to single addresses, and such Duty Stamps must not be used in connection with the despatch of circulars, &c., packed together but intended for different addresses.

[Notice issued from the Office of the High Commissioner for the Commonwealth of Australia in London, dated 23rd March 1915.]

Advertising Matter used as Wrappings, &c.

Duty is not charged on advertising leaflets or pamphlets wrapped around goods within cartons (e.g. bottled or tinned goods such as medicines and foods), if it is clear that the packing of the goods is regular and ordinary. This exemption does not extend to wrappers around samples, nor to printed matter enclosed in cartons containing, e.g., hats. (Customs Tariff Guide.)

Advertising Matter enclosed in outer Packages.

When goods are imported having a single loose advertising card or sheet of paper or metal enclosed in each outer package, and advertising the goods contained therein or goods by the same manufacturer, such card or sheet may be delivered free of duty unless the duty exceed £1 on the total shipment, in which case full duty is to be charged.

When such sheets or cards are imported in a separate package, or when there is more than one in each package, duty is to be charged thereon. (Customs Tariff Guide.)

Advertising Insets in Magazines, &c.

Duty is charged on advertising insets contained in magazines or similar publications, whether imported by post or otherwise, when loose, gummed, in postcard form, or sewn or otherwise fastened in but perforated for the purpose of being detached.

This does not, however, apply to the ordinary advertising pages which clearly form part of the magazines, and which usually (though not always) bear consecutive Roman numerals or are paged consecutively with the literary contents. (Customs Tariff Guide.)
