- (iii) Coca leaves, alkaloids of coca, every other intoxicating drink or substance prepared from the coca plant, and all drugs, synthetic or other, having a like physiological effect to that of cocaine;
- (iv) All preparations and admixtures of any of the above.

Provided that the Collector of Customs shall have power to admit importation by sea or land in exceptional cases, or when he is satisfied that the proportion of the prohibited drug in any article is so small as to be negligible or that other reasons render it impossible for the article to be used as an intoxicant (Customs Notification No. 720-79, dated 4th February 1911).

A list of the preparations containing opium and morphia which may be admitted under the above proviso is given in Customs Circulars Nos. 3 of 1913 and 3 of 1915.

It is further provided under Customs Circular No. 6 of 1915, as amended by Notification dated 2nd August 1915, that only certain specified medicinal preparations containing *cocaine* and other derivatives of the coca plant shall be exempt from customs and excise restrictions in the various Provinces of India.

The principles governing the selection of preparations that may be proposed to be added to the list are as follows :—

- (1) All preparations to be exempted should contain not more than  $\frac{1}{10}$ th grain of cocaine hydrochloride, or other derivatives of the coca plant, per tabloid, trochiscum, pastil, solube, sterile, emule, lamella or fluid drachm, so intimately blended with other drugs as to render it impossible for such preparations to be used as a source of cocaine.
- (2) Every such preparation should be labelled with the manufacturer's name and the amount of cocaine hydrochloride or other derivatives of the coca plant contained in it.

The exemptions referred to in par. (1) above will not apply to imports by sea through the post, but all the specified articles will be admitted for inland transport by the post.

In addition to the above Government Regulations, the importation, &c., of morphia, coca, cocaine, and cocaine substitutes into the several Provinces is restricted by various Provincial Laws to licensed druggists and other authorised persons.]

“Dangerous petroleum” means petroleum which has a flashing point below 73° F. or such standard as may be fixed from time to time by Order-in-Council.

The importation, transport, and storage of petroleum are regulated by Rules made under the above-mentioned Petroleum Ordinances.

Under these Rules it is provided that with regard to petroleum carried as cargo, the particulars to be notified to the Port Officer shall include particulars as to quantity, destination and nature thereof, and shall be stated in writing. All petroleum may be re-inspected, for which no fee is chargeable. Dangerous petroleum must not be taken out of any vessel in which it has been imported, except under the direct supervision of a responsible and experienced person. Petroleum transported in quantities not exceeding four gallons contained in properly sealed receptacles is exempt from the provisions of the above Rules.

It is provided by Ordinance No. 6 of 1887 that no quantity of “dangerous petroleum” exceeding 40 gallons may be imported, except under license. Owners or masters of ships having petroleum on board are required to give notice of the nature of the cargo to the Customs Officer, and regulations are made for testing the petroleum. The testing of petroleum is regulated by Ordinance No. 28 of 1909.

Under Ordinance No. 4 of 1911 “dangerous petroleum” is held to mean petroleum having a flashing point below 76° F.—provided that when all or any of the petroleum on board a ship, or in possession of a dealer, is declared by the master of the ship, or the consignee of the cargo, or by the dealer, as the case may be,

Council under the provisions of the Liquors Consolidation Ordinance No. 9 of 1911 :—

“Brandy” shall be defined as a spirituous liquid distilled from the wine of grapes, and “cognac” as brandy made in the cognac region from grapes grown therein. Brandy shall contain the proportions of volatile acidity, aldehydes, furfural, ethers, and higher alcohols, as are natural to brandy, and any brandy containing less than 60 grams of ethers calculated as ethyl acetate in 100 litres of the absolute alcohol contained in such brandy shall be deemed to be adulterated, unless satisfactory evidence is forthcoming by certificate from the place of origin of the brandy that such is genuine according to the definition given above. Any liquid sold as “brandy” shall possess the aroma and flavour natural to brandy.

“Whisky” shall be defined as a spirit obtained by distillation from the mash of cereal grains saccharified by the diastase of malt. Whisky shall contain the proportions of volatile acidity, aldehydes, furfural, ethers, and higher alcohols, as are natural to whisky, and any whisky containing less than a total of 150 grams of such products in 100 litres of the absolute alcohol contained in such whisky shall be deemed to be adulterated, unless satisfactory evidence is forthcoming by certificate from the place of origin of the whisky that such is genuine according to the definition given above. Any liquid sold as “whisky” shall possess the aroma and flavour natural to whisky.

“Rum” shall be defined as a spirit distilled direct from sugar-cane products in sugar-cane growing countries. Jamaica rum is the liquor as above defined made in Jamaica from cane growing therein. Rum imported from countries not growing sugar-cane shall be described as “Imitation Rum,” unless evidence is afforded of the production of such rum in a cane-growing country. Rum shall contain the proportions of volatile acidity, aldehydes, furfural, ethers, and higher alcohols, as are natural to rum, and any rum containing less than 100 grams of ethers calculated as ethyl acetate in 100 litres of the absolute alcohol contained in such rum shall be deemed to be adulterated unless satisfactory evidence is forthcoming by certificate from the place of origin of the rum that such is genuine according to the definition given above. Any liquid sold as “rum” shall possess the aroma and flavour natural to rum.

The method employed for the determination of the higher alcohols in spirits shall be that known as the Allen-Marquardt.

Certificates of origin for brandy, whisky and rum must contain analytical particulars so that the liquor so certified may be duly recognised.]

"Spirituous liquors are to be charged at "actual contents" where there is no evidence of repute (Supplement No. 31 to the Customs Tariff Guide.)

[*Note.*—It is provided under sec. 11 of the Spirits Act, 1906-1915 (No. 21 of 1906, as amended by Act No. 14 of 1915) that no imported spirits (other than gin, Geneva, Hollands, schnapps, or liqueurs), shall be delivered from the control of the Customs for human consumption unless the Collector of Customs for the State is satisfied that the spirits have been matured by storage in wood for a period of not less than two years.

No spirit described as "brandy" shall be delivered for human consumption until the Collector of Customs is satisfied by the production of an official certificate given in the country of origin that the spirit is distilled wholly from grape wine.

An Order (No. 1450 of 1911) has been issued by the Commonwealth Government under the above-mentioned Spirit Act of 1906 notifying that a certificate is required from a Government Excise or Customs Officer in the country of export to the effect that such imported spirit (or in the case of a blend, the youngest spirit therein) has matured in wood for a period of not less than two years.

Failing the production of such certificate, storage in wood in Australia for the period necessary to ensure that all the spirit has been two years in wood will be insisted upon before delivery.

Under Order (No. 1476 of 1911) it is stated that in instances where a certificate is not obtainable from the Customs and Excise Authorities in France the mayoral or similar official certificate for consignments of brandy may, until further notice, be accepted as complying with the requirements of the Spirit Act of 1906.

It is stated in an Order (No. 1599 of 1912) that the necessary certificates will in future be issued by the French Customs Authorities in connection with brandy, rum and tafia. The mayoral certificate will be accepted in the case of brandy, but with regard to rum and tafia the above-mentioned Order No. 1450 of 1911 is applicable.

(a) "Spirituous" means containing more than 2 % of proof spirit.

(b) "Proof" or "proof spirit" means spirit of a strength equal to that of pure ethyl alcohol compounded with distilled water, so that the resultant mixture at a temperature of 60° Fahrenheit has a specific gravity of 0.9198 as compared with that of distilled water at the same temperature.

<i>Note—cont.</i>		
An Order (No. 1609 of 1912) has also been issued stating that it has been decided by the <i>British Board of Customs and Excise</i> to issue certificates not only as at present in respect of spirits which have been stored in wood in bond for <i>not less</i> than two years, but also certificates in respect of spirits which have <i>not</i> been so stored for two years, stating the age of such spirits, or in the case of a blend, the age of the youngest spirits in the blend.		
Special care will be observed in regard to the particular distinction in these certificates, so that delivery for home consumption may only be permitted in respect of the spirits specified in sec. 11 of the Spirit Act of 1906, matured in wood for a period of not less than two years.		
A further Order (No. 1734 of 1914) states that in instances where spirits are exported from one country to another and subsequently shipped to Australia the time such spirits were stored in wood in the country whence first exported may be recognised—provided the necessary Government certificate from such country be produced (unless of course the 2 years' period be covered by any one certificate) and can be conclusively identified as applying to the spirit in question.]

[*Note*.—"Proof" shall mean the strength of proof as ascertained by Sykes' Hydrometer, and "Proof Spirits" means spirits which at a temperature of 51° Fahrenheit weigh  $\frac{4}{5}$  of an equal measure of distilled water.

The manufacture and sale of spirits in the Union of South Africa is regulated by the "Wine, Spirits, and Vinegar Act, 1913," (No. 15 of 1913).

The manufacture or sale of *rum* which has been coloured otherwise than by caramel or from the wood of the cask in which the rum is stored, or of any rum which has been flavoured by means of capsicum or essential oils or rum essences, or otherwise than by means of sugar-cane leaves or pure fruit is prohibited—provided the flavouring substances permitted shall be placed in the still along with the mash or megass, and not added to the liquor after distillation.

(Supplement No. 3 to the Customs Tariff Guide).

In order to arrive at the correct basis of value for duty of motor cars, it is laid down under Customs Order No. 1546 of 1912, as amended by Order No. 1685 of 1913, that duty is payable on the "home consumption" value in the country of export on *each part* when sold separately, notwithstanding that such parts are imported into Australia in their assembled condition, i.e., as complete motor cars.

In order that the correct basis of value for duty may be arrived at, it has been decided that :

(1) Each invoice for motor cars shall set out the following particulars :

- |  |             |       |
|--|-------------|-------|
| (a) The price paid or to be paid by the Australian purchaser for the complete car  | - - - - -   | £ net |

| Less discount allowed to home consumption purchasers   | - - - - - % | £     |
| Net selling price for home consumption   | - - - - -   | £ net |
| (c) The net prices ordinarily charged for the separate parts when sold separately for home consumption in the country of export, such separate parts and values to be enumerated as follows :  |             |       |
| Chassis (including painting) and wheels, but not tyres, dash, spare parts, or accessories  | - - - - -   | "     |
| Body, including any extra charge for fore doors or high doors, or scuttle dash (when supplied), and including the following parts, viz.: mudguards and footboards (including splashguards), brackets and well for spare wheel, dashboard, lamp brackets, hood irons, luggage grids or rails, foot or arm rests, tool box | - - - - -   | "     |

The assessment to duty of goods liable to *ad valorem* duties is based on the valuations declared by importers. The value declared on the "bill of entry" is to be:—

- (i) The wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation, without any abatement or deduction whatever, except of the amount of duties payable on the importation thereof, or,
- (ii) Where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place, without any abatement or deduction, except as aforesaid.

(Secs. 29 and 30 of the Sea Customs Act No. 8 of 1878.)

(a) For method of assessment, *see* above.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*

## CEYLON.

Goods liable to *ad valorem* duties are assessed to duty on their true wholesale market value, that is to say :

- (i) The wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time and place of importation, without any abatement or deduction whatever, except of the amount of the duties payable on the importation thereof ; or
- (ii) Where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction, except of the duties as aforesaid.

Should the goods be undervalued, they will be detained and taken for the use of the Crown, the proprietor of the goods receiving their valuation as entered by him in full satisfaction for the same.

## MAURITIUS.

The value of goods liable to *ad valorem* duties will be taken to be the current value of the articles at the port whence the same are imported.

## SEYCHELLES.

The value of goods liable to *ad valorem* duties will be taken to be the value as shown on the original invoices. The Customs Officers have power to examine the goods to see that they agree with these invoices in value and to call in expert evidence.

## COMMONWEALTH OF AUSTRALIA.

When any duty is imposed according to value—

- (i) The value shall be taken to be the fair "market value" of the goods in the principal markets of the country whence the same were exported, in the usual and ordinary commercial acceptance of the term, free on board at the port of *export* in such country, with a further addition of 10 per cent. on such market value.
- (ii) The value shall be verified at the time of entry by the production of the genuine invoice, and by a declaration signed by the owner in the presence of the Collector.
- (iii) The invoice shall be stamped by the Collector with the Customs stamp, and shall be produced to the officer prior to the delivery of the goods for home consumption or for warehousing.
- (iv) If the non-production of the genuine invoice shall be accounted for to the satisfaction of the Collector, proof of its contents by a copy or otherwise may be received in lieu of its production.

Whenever it is difficult to determine the value of goods for duty either because—

- (i) the goods are not sold for use or consumption in the country of production ; or because
- (ii) a lease of the goods or the right of using the same is sold or given, but not the right of property therein ; or
- (iii) the goods have a royalty imposed thereon and the royalty is uncertain or is not a reliable means of estimating the value of the goods ; or
- (iv) the goods are usually or exclusively sold by or to agents or by subscription ; or
- (v) are sold or imported in or under any unusual or peculiar manner or conditions (of all which matters the Minister shall be judge)

the Minister may determine the value for duty of the goods.

In a Notice, dated 29th October 1913, issued from the Office of the Commonwealth High Commissioner in London, showing the requirements of the Australian Customs in connection with the question of the value for duty of goods liable to *ad valorem* rates, it

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS, AND PROTECTORATES—*continued.*COMMONWEALTH OF AUSTRALIA—*cont.*

is stated that, in assessing the "free on board" value of goods subject to *ad valorem* duty in terms of the above-quoted section of the Customs Act of 1901, the following charges are:—

*Included in value for duty.*

## Inland carriage—

- (i) When the goods are shipped from the country where purchased—the whole inland carriage;
- (ii) When the goods are bought in one country and shipped from a contiguous country (*e.g.*, bought in Austria, shipped from Germany)—inland freight to the frontier of the country in which the goods are purchased.

Coastal freight (*i.e.*, when goods are shipped from one port to another in the same country but are not actually consigned to Australia from the first port), and other charges (including lighterage) incurred in conveying the goods to, and placing them on board, the exporting vessel;

Canal dues (*i.e.* when canal dues form portion of inland freight charge to the port of shipment);

Cost of labour and materials (except outside packages) used in packing, including flock, kapok, straw, and other inside packing (*a*);

Insurance to port of shipment;

Inland Revenue duty, only when the goods bear Inland Revenue Duty Stamps affixed to them in the country of export; and

Royalties.

And the following charges are *excluded*, *viz.*—

*Excluded from value for duty.*

Outside packages (including zinc linings and tared paper) in which goods are ordinarily imported;

Agents' charges;

Bank exchange;

Buying or indent commission (*b*) being a charge made to the importer by the buying or indent agent for services rendered and not an allowance made by the manufacturer to the buying agent;

Brokerage;

Dock dues;

Export duty;

Inspection fees;

Insurance—oversea;

Interest;

Postage and petties;

Sea freight—oversea; and

Stamp duty on bills of lading.

(*a*) When flock, kapok, straw, or horse-hair packing is separately invoiced, and has a commercial value of its own after unpacking in Australia, such value is not included in the value for duty, and the materials mentioned are dealt with under the appropriate tariff headings.

(*b*) The Commonwealth Government issued an Order (No. 1,169 of 1909) on 3rd December 1909 stating that in all cases in which invoices tendered by importers are those made out by oversea buying agents, such agents should be regarded as the vendors of the goods, and the amount of any so-called buying-commission included in the value for duty unless the Collector is satisfied that the values appearing in the body of the agents' invoice represent the cash prices for home consumption in the country of export. In cases where it is impracticable for buying agents to forward the original maker's invoices, it has been decided that the charge for buying shall not be included in the value for duty if a declaration is made to the effect that the prices given represent the "fair market value" of the goods for home consumption in the country of export, *f.o.b.*

A further Order was issued in 1911 (No. 1421 of 1911), stating that no allowance for buying commission will be permitted as a deduction from invoice values, unless the necessary declaration is made by the buying agents in the *country of export*.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS, AND PROTECTORATES—*continued.*COMMONWEALTH OF AUSTRALIA.—*cont.*

In all cases import duty is chargeable in Australia on the net price at which similar quantities of the goods could be bought by any cash purchaser for home consumption in the country of export, plus the charges enumerated above as included in the value for duty and plus the statutory 10% referred to above. Any special discounts allowed, or reduced prices charged, to branch houses or to agents purely by reason of agency existing, and any discounts or reductions in price allowed for export and not for home consumption are, therefore, not recognised by the Department in determining the value for duty.

## TERRITORY OF PAPUA.

The value of goods subject to *ad valorem* duty shall be the fair market value of such goods in the principal markets of the country whence the same were exported in the usual and ordinary acceptance of the term, and free on board at the port of export in such country, and a further addition of 10% on such market value. (Sec. 1 of Ord. No. 12 of 1909.)

## DOMINION OF NEW ZEALAND.

The value of goods subject to *ad valorem* duty shall be the fair market value thereof, when sold for cash in the ordinary course of business for home consumption in the principal markets of the country from which the goods were exported, at the time when they were so exported, with 10% added to such fair market value.

No deduction of any kind shall be allowed from the fair market value of any goods because of any special or sample discount, or because of any special arrangement concerning the export of the goods, or the exclusive right to the sale thereof within certain territorial limits, or because of any royalty payable upon patent rights, but not payable when goods are so exported, or on account of any other consideration, by which a special reduction in price has been, or might be, obtained.

If it is proved to the satisfaction of the Collector that any import duty or excise duty has been actually paid upon the goods in the country from which they were exported, or would have been payable upon the goods in that country if they had been there entered for home consumption instead of being exported therefrom, the amount of that duty shall be deducted from the fair market value of the goods as determined in accordance with the foregoing provisions.

When the fair market value of any goods when sold for cash for home consumption, as aforesaid, depends in the ordinary course of business upon the quantity sold, such value shall be determined by reference to the quantity actually imported at one and the same time by the same importer from the same seller or supplier, save and except that if the goods are imported under a *bona fide* contract of purchase made in the ordinary course of business and including a greater quantity of such goods than that which is actually imported at one and the same time, the fair market value of such goods shall be estimated by reference to the aggregate quantity so included in that contract and imported or to be imported in pursuance thereof within a period not exceeding 12 months.

For the purpose of determining the value of any goods so subject to *ad valorem* duty, the importer or his agent shall, on the first entry thereof (other than an entry for removal), produce to the Collector or other proper officer the invoice (as hereinafter defined) for those goods, and make, and deliver to the Collector or other proper officer, a declaration in the prescribed form verifying that invoice, and setting out the true value of the goods for the purposes of duty, and such other particulars as may be prescribed.

If a failure to produce the invoice is accounted for to the satisfaction of the Collector or other proper officer, proof of its contents by a copy or otherwise may be received in lieu of its production.

The invoice herein referred to means:—

- (i) In the case of goods imported on the sale thereof the original invoice prepared and issued by or on behalf of the seller showing the true description of the goods and the actual money price paid or to be paid for the goods by the purchaser; or

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*DOMINION OF NEW ZEALAND—*cont.*

- (ii) in the case of goods consigned for sale in New Zealand, or otherwise than on the sale thereof, the original invoice prepared and issued by the consignor showing the true description of the goods and the fair market value thereof as hereinbefore defined in the principal markets of the country whence they were exported at the date of exportation thereof.

Subject to the provisions of this section, the amount of the invoice, after deducting therefrom all reasonable and lawful deductions in respect of discount, freight, insurance and other charges, may be accepted by the Collector as sufficient proof of the fair market value of the goods for purposes of duty, and he may value the goods and assess the duty accordingly.

If the importer satisfies the Collector that the fair market value of the goods for purposes of duty is *less* than the value as shown by the said invoice after making such deductions as aforesaid, the Collector shall value the goods at such lesser sum accordingly, and shall assess the duty on that value.

If the Collector has reason to believe or suspect that the fair market value of the goods for purposes of duty is *greater* than the amount of the said invoice, after making such deductions as aforesaid, he may value the goods at such higher sum as he thinks proper, and assess the duty on that value accordingly.

In the case of any medicinal or toilet preparation imported for the purpose of sale under any proprietary or trade name the fair market value thereof for the purpose of *ad valorem* duty shall be deemed to be the fair market value as hereinbefore defined of such preparation when completely manufactured, put up, labelled and sold under such proprietary or trade name in the country of export, notwithstanding the fact that at the time of exportation or importation the preparation may not have been completely manufactured, put up, and labelled as aforesaid, but deducting the estimated cost of labour and material used or expended in New Zealand in completing the manufacture thereof or putting up or labelling the same. (Act No. 63 of 1913.)

Where any medicinal or toilet preparation is imported for the purpose of sale under any proprietary or trade name, but such preparation is not sold under such proprietary or trade name in the country of export, the fair market value of such preparation for the purpose of *ad valorem* duty shall be determined by the Collector of Customs in such manner and at such sum as he thinks just. (Act No. 21 of 1914.)

The form of declaration in respect of the invoice for, and the value of, goods subject to *ad valorem* duty is prescribed under the Customs Regulations, dated 29th June 1914.

## Fiji.

The amount of Customs dues payable on any goods which are liable to *ad valorem* duties shall, when the genuine invoice and other necessary documents for the said goods are produced to the Collector or other proper officer of Customs and accepted by such Collector or other proper officer as setting forth the true and real value of such goods, be calculated on the price paid for the said goods by the owner thereof, as represented by the invoice.

And all goods subject to an *ad valorem* duty shall be treated as exported from the country whence the importing ship brought them, unless satisfactory proof be produced that the goods were shipped for this Colony from some other country where the goods were purchased and paid for by the importer (Ordinance No. 2 of 1898 amending the Customs Regulation Ordinance, 1881).

[It is provided under Ordinance No. 17 of 1912 that in all cases where any duty is imposed on the value of goods, such value shall be understood to be the value as ascertained in accordance with the provisions of the "Customs Regulation Ordinance, 1881," with 5% added.]

No discount or deduction shall be allowed unless it is clearly shown on the original invoice, in the same handwriting as that in which such invoice is made out. (Sec. 59 of "Customs Regulation Ordinance, 1881" (Revised Statutes), as amended by Ordinance No. 22 of 1913.)

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*Fiji—*cont.*

The words "genuine invoice" shall mean the original or duplicate invoice prepared and issued in the country whence the goods mentioned therein were purchased for export to Fiji and shall show the actual prices paid or to be paid by the importers in the place or country where the same were purchased. In the case of goods consigned to any person in Fiji for sale therein the words "genuine invoice" shall mean the original or duplicate invoice prepared or caused to be prepared by the consignor and shall show the actual price at which such goods were saleable in the principal markets of the country whence such goods were exported at the date of shipment of such goods. Provided that the Collector of Customs or other proper officer may accept a press copy of any genuine invoice upon such conditions as he shall see fit. (Sec. 16 of Ord. No. 6 of 1908.)

## UNION OF SOUTH AFRICA.

The value of goods subject to *ad valorem* duty shall be taken to be the "true current value" for home consumption in the open market of similar goods in the principal markets of the country from which, and at the time at which, the goods were imported, including carriage to the port of shipment and the cost of packing and packages, but not including agent's commission when such commission does not exceed 5%; provided that in no case shall the value for purposes of duty, as above defined, be less than the cost of the goods to the importer at the port of shipment. (Sec. 7 of Act No. 26 of 1914.)

Under certain regulations (Government Notice No. 1094 of 1913), issued under the Customs Management Act No. 9 of 1913, it is provided that, with regard to the declaration of value, the value of goods for Customs duty purposes is to be ascertained by the declaration of the importer at the foot of the appropriate bill of entry of the goods, made in the manner and form as follows:

"I, the undersigned, . . . , for importer, do hereby declare that the above is a true description and complete return of all goods contained in the above-mentioned packages, and of the value of such goods, and that values are true correct values of same as defined by law, including the cost of packing and packages." (Sec. 102.)

The person entering goods at importation shall produce, if required by the proper officer of Customs, any document relating to the goods, and the invoice shall contain a statement in a prominent place made by the suppliers showing clearly the current value for home consumption in the open market for similar goods at the place of purchase bought in the ordinary manner from the manufacturer or supplier in normal quantities. The invoice and any covering statement shall also clearly show cost of packing and packages. (Sec. 103.)

## RHODESIA.

The value of goods subject to *ad valorem* duty shall be taken to be the "true current value" for home consumption in the open market of similar goods in the principal markets of the country from which, and at the time at which, the goods were imported, including carriage to the port of shipment and the cost of packing and packages, but not including agent's commission when such commission does not exceed 5%; provided that in no case shall the value for purposes of duty, as above defined, be less than the cost of the goods to the importer at the port of shipment. (S. Rhodesia, sec. 17 of Ordinance No. 30 of 1914, and Sec. 2 of the Northern Rhodesia Proclamation No. 39 of 1914.)

In all cases where duties are imposed upon the importation of goods according to the value thereof, such value shall be ascertained by the declaration of the importer of such goods in the manner and form as follows:

"I, the undersigned, . . . do hereby declare that the above is a true description and complete return of all goods contained in the above-mentioned packages, and that the values given of the same are the true current value of same as defined by law, including the cost of packing and packages and the cost of carriage thereon to the port of shipment," which declaration shall be written on the bill of entry of such goods, and the said values shall be the sums whereon duty shall be levied, except as otherwise provided for in the Ordinance or Proclamation, as the case may be.

(S. Rhodesia, sec. 13 of Ord. No. 6 of 1906 as amended by Ord. Nos. 12 of 1910 and 30 of 1914; N. Rhodesia, sec. 10 of Proc. No. 11 of 1912 as amended by sec. 1 of Proc. No. 39 of 1914.)

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*RHODESIA—*cont.*

Whenever goods are imported into the Territory under such circumstances or conditions as render it difficult to determine the value thereof for purposes of duty, because—

- (1) Those goods are not sold for use or consumption in the country of origin or production; or
- (2) A hiring of those goods or the right of using the same, but not the right of property therein, is sold or given; or
- (3) Any royalty imposed on those goods is uncertain or is not from other causes a reliable means of estimating the value of the goods; or
- (4) Those goods are usually or generally sold by or to agents or by subscription; or
- (5) Those goods are sold or imported in or under any other unusual or peculiar manner or conditions;

the Controller of Customs may determine the value of those goods for purposes of duty, and the value so determined shall, unless otherwise provided, and subject in the case of Southern Rhodesia, always to the right of appeal to the member of the Executive Council or other Executive officer in whom the control of the Customs Department is vested, and in the case of Northern Rhodesia to the Administrator, be the value upon which the duty on those goods shall be computed and levied. (S. Rhodesia, sec. 18 of Ord. No. 30 of 1914, and N. Rhodesia, sec. 3 of Proc. 39 of 1914.)

## NYASALAND PROTECTORATE.

The value of all goods upon which import duty is levied *ad valorem* is the value of the goods as they lie at the port of shipment, exclusive of trade discounts, and of freight, insurance and other charges. (Government Notice No. 191 of 1910.)

The term "port of shipment" is defined to mean the place at which the goods are finally shipped for direct conveyance to the Nyasaland Protectorate, irrespective of the country of origin of such goods. (Customs Notice No. 207 of 1913.)

## UGANDA PROTECTORATE.

The value of all goods upon which import duty is levied *ad valorem* shall be deemed to be the cash price for which the goods are capable of being sold in the Customs House without profit or loss to the importer at the time and place of importation without any abatement or deduction whatever, except the amount of duties payable on the importation thereof.

The Chief of Customs may, with the approval of the Governor, fix a scale of percentages to be added to the first cost of the goods to be valued to cover any charges which should be taken into consideration in estimating the cost at which such goods can be delivered at the place of importation and which are difficult to ascertain.

## EAST AFRICA PROTECTORATE.

The value of all goods upon which import duty is levied *ad valorem* shall be deemed to be the cash price for which the goods are capable of being sold in the Customs House without profit or loss to the importer at the time and place of importation without any abatement or deduction whatever, except the amount of duties payable on the importation thereof.

The Chief of Customs may, with the approval of the Governor, fix a scale of percentages to be added to the first cost of the goods to be valued to cover any charges which should be taken into consideration in estimating the cost at which such goods can be delivered at the place of importation and which are difficult to ascertain.

(Regulations under Customs Decree, 1911.)

## SOMALILAND PROTECTORATE.

## SUDAN.

For the purpose of levying duties on *ad valorem* goods, it is provided that the Director of Customs shall cause the value of the principal articles of commerce imported at various Customs Stations to be from time to time determined, and such valuations from time to time revised, and for that purpose the Director shall summon a conference of such of the principal merchants engaged in the trade of the said articles as he may think fit in order that he may consult with them for the purpose of settling or revising a tariff of the value of the said principal articles.

No such valuation tariff shall remain in force for more than 12 months from the date of its official publication.

On the import of any goods, a declaration in official form shall be presented which shall contain, *inter alia*, the price of the goods at the place of purchase, with the addition of the cost of transport to the Customs Station and the charges for insurance and all other charges and expenses.

## EGYPT.

Customs duty, which is, except in the case of tobacco, levied uniformly on an *ad valorem* basis, is assessed on the value of the goods at the place of loading or purchase, augmented by the expenses of transport and insurance incurred up to the port of disembarkation in Egypt. As regards certain articles, however, values for the purpose of assessing duty are established from time to time by agreement between the Egyptian Customs Administration and the principal merchants interested in the particular trade. In framing these Valuation Tariffs, the prices ruling at the time in respect of the various articles to which they relate are taken as a basis; and, as the market is subject to fluctuations, the Tariffs are fixed only for stated periods, and never for a period exceeding 12 months. The Tariffs may be denounced either by the merchants (or any one of them) or by the Customs Administration, not less than 15 days before the lapse of the period for which they were framed, but if not so denounced they are tacitly renewed from month to month.

The Valuation Tariffs are published regularly in the "Board of Trade Journal" as the issues of the Egyptian "Journal Officiel" containing them are received at the Board of Trade.

Particulars of the current valuations in respect of any article for which import tariff valuations have been received will be furnished by the Commercial Intelligence Branch of the Board of Trade, or the latest tariffs may be inspected on personal application at the offices of the Branch, 73, Basinghall Street, London, E.C. Valuations have been issued for the following articles:—

Cotton yarns and tissues; linen, hemp, and jute yarns and certain linen and jute tissues; sacks; raw silks; iron and steel manufactures (plates, bars, angles, tees, pig iron, hoops, galvanised sheets, studs, French nails, girders); copper, brass, lead, and zinc sheets; copper, tin, and zinc ingots; pig lead, lead shot, lead pipe; cinematograph films; indigo; petroleum and liquid fuel; coal and coke; marble and flagstones; sesame; provisions; sugar; coffee; rice; Italian wines; gold and silver wares and precious stones; watches and wood.

## NIGERIA.

The value of goods liable to *ad valorem* duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were exported directly to Nigeria, and for the purpose of arriving at the fair market value the Governor in Council is empowered to appoint appraisers.

Such fair market value shall be the fair market value of such goods in the usual and ordinary commercial acceptation of the term, at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is, by universal usage, considered and known to be a cash article and so *bonâ fide* paid for in all transactions in relation to such article; and all invoices representing cash values, except in the special cases herein referred to, shall be subject to such additions as to the Chief Customs Officer or Appraisers appear just and reasonable, to bring up the amount to the true and fair market value.

If any difficulty arises in determining the fair market value of goods such as musical instruments, sewing machines, hardware, medical preparations commonly called patent medicines, and other similar goods, the prices of which are published by the manufacturers or producers, or persons acting on their behalf, the Governor in Council may by Order from time to time fix and determine a certain rate of discount which may be deducted from such published prices, and the remainder, after deduction of such discount, shall be deemed to be the fair market value for duty of such goods.

The fair market value shall be taken to include the amount of consideration or money value of any special arrangement between the exporter and the importer, or between any persons interested therein because of the exportation or intended exportation of goods or the right to territorial limits for the sale or use thereof, and also the amount or money value of any so-called royalty, rent, or charge for use of any machine or goods of any description which the seller or proprietor does or would usually charge thereon when the same are sold or leased or rented for use in the country whence they have been exported to Nigeria.

No deduction shall be allowed because of any special arrangement between the seller and purchaser having reference to the exportation of such goods, or the exclusive right to territorial limit for the sale thereof, or because of any royalty payable upon patent

rights, but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained. Provided that nothing herein shall be understood to apply to general fluctuations of market values.

Whenever goods are imported under such circumstances or conditions as to render it difficult to determine the value thereof, either because such goods are not sold for use or consumption in the country of production—or because such goods are sold or imported under some unusual or peculiar manner or conditions—the Chief Customs Officer may determine the value for duty of such goods.

No deduction from the value of goods contained in any invoice shall be allowed on account of the assumed value of any package or packages, where no charge for such package or packages has been made in such invoice; and where such charge is made the Customs Officer shall see that the charge is fair and reasonable and represents no more than the original cost thereof.

No deduction shall be made on account of charges for packing, or for straw, twine cord, paper, cording, wiring, or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall in all cases be included as part of the value for duty.

## GOLD COAST.

The value of goods subject to *ad valorem* duty is to be the value as they lie at the port of shipment, *i.e.*, invoice value, exclusive of trade discounts and of freight, insurance, and other charges.

## SIERRA LEONE.

The value of goods liable to *ad valorem* duty is to be the invoice value at the port of shipment, exclusive of trade discount, insurance, freight, and packing expenses.

## GAMBIA.

The value of goods liable to *ad valorem* duty is to be the invoice value at the port of shipment, exclusive of trade discount, freight, insurance, and value of packages.

## DOMINION OF CANADA.

By the Canadian Consolidated Customs Acts,<sup>(a)</sup> whenever any duty *ad valorem* is imposed on any goods imported into Canada, the value for duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence, and at the time when, the same were exported directly to Canada. <sup>(b)</sup>

Such market value shall be the fair market value of such goods in the usual and ordinary commercial acceptance of the term, and as sold in the ordinary course of trade: provided that a discount for cash, for duty purposes, shall not exceed 2½ per cent., and shall not be allowed unless it has been actually allowed and deducted by the exporter on the invoice to the importer.

The Dominion Customs Appraisers and every person acting as such, or the Collector of Customs, as the case may be, shall by all reasonable ways and means in his or their power ascertain, estimate, and appraise the true and fair market value (any invoice or affidavit thereto notwithstanding) of the goods at the time of exportation and in the principal markets of the country whence the same have been imported into Canada, and the proper weights, measures, or other quantities, and the fair market value thereof, as the case requires.

In the case of goods shipped to Canada on consignment but sold by the exporter to persons in Canada prior to their importation into Canada, the amount of the valuation for duty shall not be less than the invoice value to the Canadian purchaser, exclusive of all charges upon the goods, after shipment from the place whence exported directly into Canada.

(a) Cap. 48 of the Revised Statutes of Canada of 1906 and amending Act of 1907.

(b) Excise duties are to be disregarded in estimating the "market value" of goods for the purposes of the Customs Tariff amendments made, for war purposes, under the Customs Tariff War Revenue Act of 1915.

APPENDIX I.—*continued.*TARIFF VALUATION OF ARTICLES ON WHICH PERCENTAGE DUTIES ARE LEVIABLE ON IMPORTATION INTO THE BRITISH SELF-GOVERNING DOMINIONS, COLONIES, POSSESSIONS AND PROTECTORATES—*continued.*DOMINION OF CANADA—*cont.*

When articles of the same material, or of a similar kind but of a different quality, are found in the same package, charged or invoiced at an average price, the appraisers shall adopt the value of the best article contained in such package as the average value of the whole, and duty shall be levied thereon accordingly.

The Board of Customs may review the decision of any Appraiser or Collector of Customs as to the principal markets of the country, or as to the fair market value of goods for duty purposes; and the decision of the Board of Customs in regard to such principal markets, and value of goods for duty purposes, in any case or class of cases, shall, when approved by the Minister of Customs, be final and conclusive, except where otherwise provided for in the Act.

Duty shall not be assessed on less than the invoice value in any case, except on account of reduction in the fair market value of such goods between the time of their purchase by the Canadian importer and their exportation to Canada. Trifling fluctuations in market values occurring after the purchase of the goods may be disregarded, and the appraiser may allow a *bonâ fide* discount for cash, not exceeding 2½ per cent., when allowed and deducted by the exporter on his invoice.

If any difficulty arises in determining the fair market value for duty of goods imported into Canada, which are the manufacture or production of foreign countries, or of Great Britain, such as musical instruments, sewing machines, agricultural machines or implements, medical preparations, commonly called patent medicines, and other similar goods, the prices of which are published by the manufacturers or producers, or persons acting on their behalf, the Governor in Council may, from time to time, fix and determine a certain rate of discount which may be deducted from such published prices of any such manufactures or productions, and the remainder of such published prices, after deducting such rate of discount, shall be deemed and taken to be the fair market values for duty of any such manufactures or productions as are specified in such Order in Council.

The fair market value of goods shall be taken to include the amount of any drawback which has been allowed by the Government of any other country, also the amount of consideration or money value of any special arrangement between the exporter and the importer, or between any persons interested therein because of the exportation or intended exportation of such goods, or the right to territorial limits for the sale or use thereof, and also the amount or money value of any so-called royalty, rent, or charge for use of any machine or goods of any description which the seller or proprietor does or would usually charge thereon when the same are sold, or leased, or rented for use in the country whence they have been exported to Canada. When the amount of such drawback, consideration, money value, royalty, rent, or charge for use, has been deducted from the value of such goods, on the face of the invoice under which entry is to be made, or is not shown thereon, the Collector of Customs, or proper officer, shall add the amount of such deduction, drawback, consideration, money value, royalty, rent, or charge for use, and cause to be paid the lawful duty thereon.

No deduction of any kind shall be allowed from the value of any goods imported into Canada because of any drawback paid or to be paid thereon, or because of any special arrangement between the seller and purchaser having reference to the exportation of such goods, or the exclusive right to territorial limits for the sale thereof, or because of any royalty payable upon patent rights, but not payable when goods are purchased for exportation, or on account of any other consideration by which a special reduction in price might or could be obtained: provided that nothing herein shall be understood to apply to general fluctuations of market values.

Whenever goods are imported into Canada under such circumstances or conditions as to render it difficult to determine the value thereof for duty, either because such goods are not sold for use or consumption in the country of production,—or because a lease of such goods or the right of using the same is sold or given, but not the right of property therein,—or because such goods having a royalty imposed thereon, the royalty is uncertain or is not, from other causes, a reliable means of estimating the value of the goods,—or because such goods are usually or exclusively sold by or to agents, or by subscription, or are sold or imported in or under any other unusual or peculiar manner or conditions,—of all which matters the Minister of Customs shall be sole judge,—the Minister of Customs may determine the value for duty of such goods; and the value so determined shall, until otherwise provided, be the value upon which the duty on such goods shall be computed and levied.

No deduction from the value of goods contained in any invoice shall be allowed on account of the assumed value of any package or packages, where no charge for such package or packages has been made in such invoice; and where such charge is made the Customs Officer shall see that the charge is fair and reasonable, and represents no more than the original cost thereof.

No deduction from the value of goods in any invoice shall be made on account of charges for packing, or for straw, twine, cord, paper, cording, wiring or cutting, or for any expense incurred or said to have been incurred in the preparation and packing of goods for shipment, and all such charges and expenses shall, in all cases, be included as part of the value for duty.

When parts of any manufactured article are imported into Canada, each such part shall be charged with the same rate of duty as the finished article, on a proportionate valuation, and, when the duty chargeable thereon is specific, or specific and *ad valorem*, an average rate of *ad valorem* duty, equal to the specific or specific and *ad valorem* duty so chargeable, shall be ascertained and charged upon such parts of the manufactured article.

Whenever duties are imposed according to any specific quantity or to any specific value, the same shall be deemed to apply in the same proportion to any greater or less quantity or value, and to any fractional part of such specific quantity.

The following provisions respecting coverings, inside and outside, used in covering or holding goods imported therewith are made in the Customs Tariff Act of 1907 as amended by the Customs Tariff War Revenue Act of 1915:—

- (iii) Provided, that usual coverings containing goods subject to any *ad valorem* duty, if included in the invoice value of the goods they contain, and not charged separately on the invoice, shall be subject to the same rate of duty *ad valorem* as the goods they contain, and may be combined with the goods for valuation and duty on the Customs entry.
- (iv) Provided further, that receptacles capable of holding liquids, when containing goods subject to a specific duty, shall be charged with the rate of duty to which the same would be subject if imported separately, except when the coverings and the goods contained therein are rated together in the Tariff item.
- (v) Provided further, that usual coverings designed for use other than in the *bond fide* transportation of the goods they contain, shall be charged with the rate or duty to which the same would be subject if imported separately.
- (vi) Provided also, that the term "coverings" in this paragraph shall include packing boxes, crates, casks, cases, cartons, wrapping, sacks, bagging, rope, twine, straw, or other articles used in covering or holding goods imported therewith, and the labour and charges for packing such goods, subject to regulations prescribed by the Minister of Customs.

## NEWFOUNDLAND.

By the Newfoundland Customs Act of 1898 it is provided that, whenever any duty *ad valorem* is imposed on any goods imported into the Colony, the value for duty shall be the fair market value thereof when sold for home consumption in the principal markets of the country whence and at the time when the same were *exported* directly to the Colony.

The market value is to be the fair market value of the goods in the usual and ordinary commercial acceptance of the term at the usual and ordinary credit, and not the cash value of such goods, except in cases in which the article imported is by universal usage considered and known to be a cash article, and so *bond fide* paid for in all transactions in relation to such article; all invoices representing cash values, except in the special cases herein referred to shall be subject to such additions, as to the collector or appraiser at the port at which they are presented appear just and reasonable, to bring up the amount to the true and fair market value.

APPENDIX II.

SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES.

BRITISH INDIA.

The duties are levied in all Provinces upon the *net* weight of the goods imported.

In *Madras* actual weighing is made of the whole or of a percentage of each consignment. When the packing is not uniform the whole of the consignment is weighed. In other cases, a percentage is weighed, varying according to the nature of the article and the circumstances of importation. The only goods not weighed are cigarettes which importers may, if they choose, have assessed at 6 ounces per 100.

In *Bombay*, the usual practice is to weigh a portion of the merchandise, usually ten per cent., and to deduce an average weight for the whole. But importers are allowed the option of having the whole consignment weighed if they are not satisfied with the result of the percentage weighing. The goods are weighed gross, and the accepted average tare, if any, for the class of goods is allowed after usual weighment, gross and net, of a few items only, to test the correctness of the allowance for tare.

In *other Provinces* when duties are levied on the net weight without actual weighment, the invoiced weight is accepted subject to an occasional test weighment of a portion of the consignment.

At *Calcutta*, however, when invoices are not produced or are not accepted, weighments are made in accordance with the following Scale :—

<i>No. of Packages.</i>	<i>No. to be weighed.</i>
When not exceeding 50 - - - -	10
When exceeding 50 but not exceeding 150 - - - -	15

At *Calcutta*, ordinarily a certain proportion of each consignment of tobacco, cigarettes, and cigars is weighed, British Customs certificates being accepted in those cases in which the weights entered therein agree with the weights registered in the Customs House.

Tare allowances are ordinarily ascertained either by actual weighment, or the weights given in the invoice are accepted. A list of tares is maintained, and periodically checked and revised at *Madras*, *Bombay*, and *Karachi* for goods regularly imported in packages of uniform or usual description. These tares are allowed, unless there is reason to suspect that a new form of packing has been accepted, in which case a fresh weighment is made. At *Calcutta*, allowance for tare is made by actual weighment of one of the receptacles similar to those in which the goods are imported. At *Chittagong*, no tare allowance is granted where the invoice or other documents do not show a tare.

The weight of spools, reels, and cards which are used for certain articles is not taken into consideration in assessment for duty, as goods put up on these articles are either free or subject to *ad valorem* duty under the present Tariff, but if any such articles should be assessed on a basis of weight, the weight of the interior packing would not be included for duty purposes.

There are no special Regulations in force bearing on the above subject in any Province of British India, but certain Rules and Standing Orders are in operation in the *Rangoon* Custom House regarding the weighment of articles subject to duty on a basis of weight, as follows :—

*Salt* when imported in bulk is weighed and duty is assessed on actual weighment; when imported in tins or bottles the net invoice weight is accepted.

*Salted fish, coffee, sago, garlic, dates, betelnuts, pepper, &c.*, which are usually imported without being covered by reliable invoices are dealt with as follows :— An average of 15 per cent. of each consignment is selected by the Examining

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*BRITISH INDIA—*continued.*

Officer and weighed gross. The average tare of the exterior and interior packing materials is then ascertained and the tare is then deducted from the gross weight and the whole consignment is then assessed to duty on the net weight worked out on this basis.

*Sugar in bags, in bulk*, when accompanied by reliable invoices showing weight, is assessed on such weight subject to check weighments of from 3 to 5 per cent. of each parcel. When not accompanied by invoices, and the bags appear to be of uniform size, duty is levied on the net weight based on the weighment of 6 per cent. of each parcel.

*Cigars, cigarettes, and tobacco in tins or packets* are assessed to duty on the net weight shown on the invoice, subject to check weighments of the contents of one or more tins or packets, except where small quantities for personal consumption are brought by passengers or are imported by post, when they are charged with duty on an estimated average weight, or on a previously recorded weight of similar brands.

*Tobacco imported in bulk* is assessed to duty on a basis of actual weighing.

*Butter and dyes in tins, and paints in kegs or tins* are assessed on the basis of invoice weights.

*Metals imported loose or in packages* are treated similarly to the above. In very rare cases, however, when not covered by invoices or weight notes, the whole parcel is weighed gross and tare.

*Raw Silk from China*, covered by reliable invoices, is assessed on invoice weights, and check weighments of small percentage are made. When invoices are not accepted, the levy of duty is based on the weighment gross and tare of from 20 per cent. to 30 per cent. of every parcel.

The following particulars are taken from instructions to appraisers of goods for duty on importation at Rangoon.

In the case of *sugar*, where satisfactory invoices are produced, no deduction is to be made on account of wastage. The invoice quantity will be accepted as correct, but 5 per cent. will be detained and part weighed as a check. Where there are no invoices, 6 per cent. will be weighed in full and duty levied on the whole quantity on the basis of that weighment.

Bills of Entry for the following goods will be taken in to the Customs Officer at the wharf after being noted and before assessment of duty. The Officer at the wharf will weigh a percentage of the goods and note the result on the reverse of the Bill of Entry. He will at the same time outpass 80 per cent. and detain 20 per cent. of the consignment. The importer will then make the necessary entries and present the Bill of Entry to the appraiser for assessment of duty. After the duty has been paid and the Assistant-Collector's orders obtained, the duplicate Bill of Entry will be presented to the Customs Officer at the wharf in order that delivery may be obtained of the balance :—

Almond, Arsenic, Betelnuts, Betel tree bark, Cassia, Camphor, Coffee, Cubebs, Dammer, Edible herbs, Fish (dry and wet), Gambier, Garlic, Ginger (dry), Groundnuts, Gum Benjamin, Lard, Mace, Nutmegs, Pepper (long, black, and white), Rattan, Sago, Sandalwood, Sugar, Sugar Candy, Tapioca, Tea, Teel Seed, Yeast, Vermicelli, and Macaroni.

Of the above goods, those that are assessed to duty *ad valorem* must not be outpassed by the wharf officer until the wharf appraiser has seen and initialled the Bill of Entry. All goods, whether assessed at a tariff rate or *ad valorem* must be examined before delivery. If importers have invoices and declare weights from them, there is no objection to the Bill of Entry being put through in the ordinary way, but if this course is adopted, importers risk being penalised for misdeclaration if the weight is misdeclared.

APPENDIX II—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*BRITISH INDIA—*continued.*

All consignments of tobacco from foreign ports shall be carefully weighed and examined by the Customs Officers on the wharf. Tare weights for each separate consignment shall be ascertained by actual weighments. If the cases containing the tobacco are apparently uniform in size, then the tare weight and the actual contents of 10 per cent. shall be found by first weighing the case intact, and then emptying out the tobacco and weighing it. All results shall be entered on the tally sheet and endorsed on duplicate Bill of Entry. If the tare weights are constant, then the average tare of 10 per cent shall be the tare allowed for the cases. The remaining 90 per cent. shall be weighed intact and the tare of the cases as ascertained above be allowed for. Allowances shall be made for the paper wrappings on the packets of tobacco on the basis of the actual tare of such wrappings. For this purpose, the Head Appraiser shall direct the Examining Officer or Wharf Appraiser to forward a given number of packets, under seal to the Custom House. The number of packets in a case shall be noted on the tally sheet and endorsed on the duplicate Bill of Entry. The Officer in charge of the shed and the Wharf Appraiser shall make occasional test weights to check their accuracy.

The duplicate Bill of Entry with particulars duly endorsed shall be sent to the Head Appraiser together with sample packets of the tobacco.

Tobacco imported in tins with the actual weight of the contents shown in the invoice (such as 1 lb. tins, &c.) may be passed under the Head Appraiser's orders only. A sample tin of each of the various sizes shall be forwarded to him for orders. He shall occasionally check the contents by actual weighing which shall be noted on the reverse of the duplicate Bill of Entry.

Bills of Entry for cigars and cigarettes from foreign ports shall be dealt with by the Head Appraiser who will decide whether the whole consignment or a part only shall be brought into the Custom House for examination. Five per cent. of the tins of cigarettes and boxes of cigars of each variety imported shall be examined separately and if found to be of uniform size the contents of one or more tins or boxes shall be counted out and the weight of 100 cigarettes or 100 cigars carefully ascertained by actual weighment.

All tobacco, cigars, and cigarettes (except cigarettes known to weigh less than 3 lbs. per thousand; and tobaccos, cigars, or cigarettes imported in small quantities for personal consumption) shall, in the first instance, be assessed to duty on the basis of actual weighments made at the Custom House and the weights recorded in the Register maintained in the Appraising Branch. Subsequent importations of these articles will be assessed to duty on the basis of previous weighments recorded in the Register. Checkweights will, however, be made periodically (say every three months) to see that the size of the cigarettes or cigars or the capacity of the tins of cigarettes or tobacco have not been altered.

Tobacco, cigars, and cigarettes imported in small quantities for personal consumption need not ordinarily be opened for weighing, but may be assessed to duty on previously recorded weights or provisionally on an estimated average weight subject to amendment if necessary.

## CEYLON.

The duties are levied on the *net* weight of the goods imported. Such goods are always examined—an average examination being made in the case of large consignments, unless satisfactory invoices showing the net weight are produced. The weight of packages, &c., is included.

## MAURITIUS.

The duty is levied upon the net weight of goods imported.

When actual weighing is not resorted to, the net weight is taken from the invoices, and, in cases where these are not produced, the goods under examination are unpacked and weighed.

When the merchandise comprises the value of spools, reels, or other packing which are not separated when the goods are offered for sale, the duty is charged thereon.

## SEYCHELLES.

The duty is levied upon the net weight of goods imported.

In cases where the goods are not actually weighed, the invoice weights are accepted, but these weights are periodically tested.

No duty is claimed on the weight of reels, cards, or packages.

## COMMONWEALTH OF AUSTRALIA.

Duties are levied upon the net weight of goods imported at specific rates, except in certain specified cases provided for in the Tariff (*viz.*, tobacco, bon-bons and confectionery containing trinkets, liquorice, preserved fish, preserved peel in liquid, preserved meat in tins or other air-tight vessels, and framed paper manufactures).

Net weights are determined by stripping the tare and weighing a portion of a consignment, and if the results thus obtained agree with the invoices, the invoices are accepted for the whole consignment; if, however, the results differ from the invoices, further weighings are made.

When goods are invoiced, marked, listed, catalogued, or sold, as of a size or quantity greater than their actual size or quantity, duty is to be charged on such greater size or quantity.

In cases where there is no evidence, apart from the invoice, of reputed quantity or contents, and such invoice shows also the actual quantity or contents, duty may be accepted on such actual quantity or contents.

## TERRITORY OF PAPUA.

Duties are levied upon net weight of goods imported at specific rates, except in certain specified cases provided for in the Tariff (*viz.*, tobacco, preserved fish, preserved meat in tins or other air-tight vessels, and bon-bons and confectionery containing trinkets).

If any dutiable article is imported in the form or shape of a bag, package, box, tin, jar, bottle, or similar thing marked or labelled or commonly sold as containing or reputed to contain a specific quantity of such article, such bag, &c. shall, as against the importer, be deemed to contain such specific quantity.

Spools, reels, cards, &c. are valued together with the merchandise in assessing value for duty, but outside packages, &c. are admitted free.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## DOMINION OF NEW ZEALAND.

Duties are levied on the net weight of goods imported, with the exception of fancy confectionery, tobacco, preserved fish, and jams.

Goods having standard weights, such as preserved herrings, jam, mustard, &c., are usually accepted at invoice weights, subject to an occasional check by weighing gross and deducting the average tare on stripping a few tins.

The only cases in which cards and packages are weighed for duty are those of fancy confectionery, where the internal package as sold to the consumer is weighed in with the confectionery, and cigars and tobacco which include for duty the weight of bands, wrappers, tabs, labels, or similar attachments.

## FIJI.

Specific duties are levied on the net weight of goods imported.

Where, however, any article subject to specific duty is imported in any bag, box, tin, jar, bottle, or any other package intended for retail sale, and marked or labelled or commonly sold as containing a specific quantity of such article, such bag, &c. shall be deemed, as against the importer, to contain such specific quantity.

## FALKLAND ISLANDS.

There are no goods (except tobacco) on which duty is computed by weight on importation into the Colony.

## UNION OF SOUTH AFRICA.

Duties are levied on the net weight of goods imported, subject to the provisions of the General Note made in the Customs Tariff to the effect that—

- (1) 24 reputed half-pints, 12 reputed pints, 6 reputed quarts, and 4 reputed imperial quarts shall be deemed to be not less than 1 gallon;
- (2) Tins, jars, or other receptacles of reputed weight shall be deemed to be not less than such weight.

Importers are advised to have the gross and net weights and tare shown clearly on all invoices, and the information thus given is acted upon when assessing duties, subject to repeated checks by the Examining Officers.

It is also provided that "all tins and other receptacles containing ingredients liable to a rated duty, and to which the General Note in the Customs Tariff as above stated is applicable, must bear, printed conspicuously across *that portion of the label which is usually presented to the public*, the actual weight of the contents, otherwise duty will be levied on the reputed weights or measures."

The General Note to the Tariff is not to be considered as applying to the following articles, the duty on which is to be charged on the actual contents :

- Ghee ;
- Gin imported in square-faced bottles ;
- Liquor imported in flasks or miniature bottles ;
- Tinned sardines ;
- Tinned sausages.

[Customs Handbook, 1914.]

## RHODESIA.

Duties are levied on the net weight of goods imported, subject to the provisions of the General Note made in the Customs Tariffs of both Southern and Northern Rhodesia to the effect that—

- (1) 24 reputed half-pints, 12 reputed pints, 6 reputed quarts, and 4 reputed Imperial quarts shall be deemed to be not less than 1 gallon ;
- (2) Tins, jars, or other receptacles of reputed weight shall be deemed to be not less than such weight.

It is also provided in a further Regulation issued by the Government of Southern Rhodesia that : "all tins and other receptacles containing ingredients liable to a rated duty, and to which the General Note of the Tariff is applicable, must bear, indelibly stamped " on the vessel, as well as printed across the label, the actual weight of the contents, otherwise duty will be levied on the reputed weights or measures."

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## NYASALAND PROTECTORATE.

There are no goods on which the duty is computed by weight on importation into the Protectorate.

## UGANDA PROTECTORATE.

Same as "Nyasaland Protectorate."

## EAST AFRICA PROTECTORATE.

Same as "Nyasaland Protectorate."

## ZANZIBAR PROTECTORATE.

Same as "Nyasaland Protectorate."

## SOMALILAND PROTECTORATE.

Same as "Nyasaland Protectorate."

## SUDAN.

There are no goods (except tobacco) on which duty is computed by weight on importation into the Sudan.

## EGYPT.

There are no goods (except tobacco) on which duty is computed by weight on importation into the Protectorate.

There are, however, certain tare allowances in the case of various goods, the duties on which are levied in accordance with fixed import tariff valuations periodically revised. For instance, the tare allowance for bales of cotton yarns and tissues is fixed at 3%, whilst on hessian, jute or hemp sacks the actual tare is deducted from the gross weight of the bales. In the case of Burmah, Saigon and Siam rice, an allowance of 2% is made for sacks exceeding 2 cwt., but no allowance is made for sacks below that weight.

## ST. HELENA.

Duties are levied on tobacco and alcoholic and distilled liquors, and are computed "by measurement only."

## NORTHERN NIGERIA.

Duties are, for the most part, levied at the coast ports of S. Nigeria on the net weight of goods imported.

[Under a Customs Notice published in the North Nigeria Gazette of 15th April 1913, it is stated that the gross weights of all cotton and other textile goods should be shown on the Invoices and Bill of Entry.]

## SOUTHERN NIGERIA.

Duties are, for the most part, levied on the net weight of the goods imported. Corn, beads, yarn and grey baft are dutiable on the gross weight. The invoice weight is accepted, but verification is made by weighing a percentage of the total quantity imported. Comparison is also made with previous importations.

[Under a Notice issued by the Southern Nigerian Government in September 1911 it was stated that in case goods dutiable by gross weight are packed together with other goods, or with goods of different kinds dutiable by weight, the net weight of such goods shall be increased by 20% for the purpose of assessing the amount of duty leviable on the gross weight at the discretion of the Customs Officer.]

Where the duty is levied on the gross weight of any article no deduction is to be made on account of any packing or package, and the duty is to be assessed on the article including any packing or package.

[It is stated in the Code of Regulations that "packages in which goods are ordinarily imported" are exempt from duty, but such packages do not include the packages in which

the goods are sold on the market, forming practically a portion of the merchandise, nor the paper coverings in which pieces of cotton, silk, satin, velvet, &c. are made up.

It is further stated in the Code of Regulations that the *gross* weights of all cotton and other textile goods should be shown on the Invoices and Bills of Entry.]

## GOLD COAST.

Duties are levied on the net weight of the goods imported. Where actual weighing is not resorted to, the invoice weight and tare is accepted.

In the case of goods liable to specific rates of duty, spools, reels, cards, packages, &c., are admitted free of duty.

## SIERRA LEONE.

Duties are levied on the net weight of the goods imported.

The amount is ascertained by weighing, no tare being allowed.

No deduction is made for spools, reels, or cards. Outside packages of every description are admitted free of duty.

## GAMBIA.

Duties are levied on the net weight of goods imported.

Where any question arises the actual content of the package is weighed, and the duty assessed thereon. If no question, however, arises, the net weight as shown on the invoice is accepted.

Such articles as spools, reels, and cards, &c., are subject to *ad valorem* rates of duty and, consequently, their weight need not be taken into consideration.

## DOMINION OF CANADA.

The Canadian Government states that duty is levied in accordance with the provisions of the Tariff, there being no general rule as to whether duties are levied on the gross or net weight of goods on importation.

For tare and draft allowances in regard to sugar, see "sugar" in body of this Return.

The Tariff provides for the duties leviable on coverings, inside and outside, used in covering or holding goods imported therewith.

The term "coverings" is held to include packing boxes, crates, casks, cartons, wrapping, sacks, bagging, rope, twine, straw, or other articles used in covering or holding goods imported therewith, and the labour and charges for packing such goods, subject to regulations prescribed by the Minister of Customs.

## NEWFOUNDLAND.

Customs duties on goods subject to specific rates of duty are levied on the net weight of the goods imported, as shown by the invoice, but test weight is made of a portion or whole of the goods as the Customs Department may find necessary.

The usual coverings (except receptacles capable of holding liquids) containing goods subject to specific duty only are admitted free of duty.

The term "coverings" includes the same articles as specified for the "Dominion of Canada" above.

In making entry for goods enclosed by dutiable coverings, *e.g.*, carboys, casks, flasks, bottles, and cases, such coverings are subject to fixed valuations.

Straw wrappings, when used as outside coverings on dutiable goods, and when not included in the cost of the goods, are valued at half their cost at the port of export.

Crates in which earthenware is packed (including straw) are valued at one-fourth their cost at the port of export.

## BAHAMAS.

Duties are levied on the invoiced weight of the goods imported, *i.e.*, the net weight, excluding packages containing them.

Goods are not weighed, and there is no tare allowed.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## TURKS AND CAICOS ISLANDS.

Duties are levied on the net weight of the goods imported. Duty is calculated on the weight given in the invoice after inspection by the Customs officer. If any dispute or question arises the articles are weighed.

The packages containing the goods are not charged to duty according to weight, but are subject to the general *ad valorem* rate of duty.

## JAMAICA.

Duties are levied on the net weight of the goods imported.

When there is no reason to doubt the accuracy of the invoice weights, the invoice tare is allowed. By frequent test the tares of certain goods have been found to vary very little. Tares are fixed by the Landing Surveyor on various articles, such as bacon and hams, butter, cheese, lard, corn, bread and biscuits, salt, and tobacco, for particulars of which see the body of this Return.

As regards the coverings of the articles, the ordinary outside casing of any goods liable to a rated duty is exempt from duty. In the case of goods, however, liable to duty on the value thereof, the value of all outside and inside coverings or receptacles containing such goods, together with the value of all labels, wrappers, or other attachments are deemed to be a portion of the value of such goods for duty and included in such value; provided, that all packages or coverings containing either free or rated goods, apparently designed for use other than in the importation of the goods they contain, shall be subject to the same rate of duty as would thereon be levied if imported empty or separate from their contents.

All outside packages containing mixed goods (*i.e.*, goods liable to rated and *ad valorem* duties) are liable to *ad valorem* duty, and when the packages contain *ad valorem* and free goods, the outer package is liable to the same rate of duty as such *ad valorem* goods.

## CAYMAN ISLANDS.

There are no goods on which the duty is computed by weight on importation into the Dependency.

## ST. LUCIA.

Duties are levied on the net weight of goods imported.

The duties are levied either on the actual net weight after weighing or on the net weight as stated in the invoice. There are no tare allowances accorded in any case. No duty is charged on spools, reels, cards, &c. used for goods paying specific duty, as their weight is not included in that of such goods.

[Under Act No. 1 of 1912 (sec. 8) it is, however, provided that if any article liable to a specific duty is imported in any bag, box, tin, jar, bottle or any other package intended for retail sale and marked or labelled or commonly sold as containing or commonly reputed to contain, a specific quantity of the article, the bag, &c., shall be deemed as against the importer, to contain such specific quantity. In all cases where the package is not so marked, the duty, if payable on weight may, in the discretion of the Treasurer, be calculated on the gross weight of such package and its contents.]

## ST. VINCENT.

Duties are always levied on the net weight of goods imported.

In most instances, duties are calculated on invoices, which invariably show the net weight. Many invoices also show the tare.

In the case of articles imported regularly, there is a recognised tare (the average weight of the package).

In the case of barrels, the tare is 20 lbs.; sugar bags, 4 lbs.; rice bags, 3 lbs.

Test examinations are also resorted to at intervals, when both contents and packages are weighed. The tare in every instance is one adopted after frequent test of the weight.

The weight of spools, reels, cards, &c. is disregarded when duty is being calculated. The articles of merchandise, of which they form a part, are subject to *ad valorem* duty, and these articles are regarded as being included in the cost of goods imported.

Packing cases are admitted free of duty.

APPENDIX II.—*continued.*SUMMARY OF REGULATIONS AS TO LEVYING OF CUSTOMS DUTY ON THE GROSS OR NET WEIGHT OF GOODS IMPORTED AT SPECIFIC RATES, AND AS TO TARE ALLOWANCES—*continued.*

## BARBADOS.

Duties are levied on the net weight of the goods imported.

When the goods are not actually weighed, duty is levied and tare allowance made on knowledge gained by practical experience.

Spools, reels, cards, &c., are subject to *ad valorem* duty, and the duty is collected thereon if they are the inner packages.

Spools, reels, cards, &c., are subject to *ad valorem* duty.

## LEEWARD ISLANDS.

Duties are levied on the net weight of goods imported.

The shippers' invoice weights are accepted.

In the case of goods subject to specific duties, spools, reels, cards, &c., used in connection therewith, are admitted free of duty, but when used as part of merchandise liable to *ad valorem* rates, such articles are subject to duty.

## TRINIDAD AND TOBAGO.

Duties are levied on the net weight of goods imported.

Actual weighing of goods paying specific duty is always resorted to, and tare allowance arrived at in each case.

The packages or coverings in which any articles are contained, being the usual or proper packages or coverings, but not including the cans, tins, bottles, cases, boxes, or other receptacles or coverings enclosing or containing any articles or substances liable to duty on importation according to the value thereof, are exempted from duty.

[It is provided under sec. 7 of Ordinance No. 10 of 1913 that if any article subject to the payment of specific duty is imported in any bag, box, tin, jar, bottle, or any other package intended for sale and marked or labelled, or commonly sold as containing or commonly reputed to contain a specific quantity of such article, such bag, box, tin, jar, bottle or any other package as aforesaid, shall be deemed, as against the importer, to contain such specific quantity. ## BRITISH GUIANA.

In cases where the weight for duty is not arrived at by actually weighing the goods *net*, a test check of the quantity entered by the importer is made by weighing a percentage *gross* and making an estimated allowance for the tare. If the results closely approximate the quantity entered by the importer, such account is accepted for revenue purposes, but where an appreciable difference is found, a percentage of the goods is weighed *net* and the account for duty raised upon the whole consignment accordingly.

Articles such as spools, reels, cards, packages, &c. which form part of the merchandise in the condition in which it is offered for sale are not charged with duty, except in the following cases :—

Goods packed in trunks and canisters, hogsheads and puncheons not containing tobacco, coals, lime, wines or spirits, and inner packages of a fancy description. Such articles are charged at the *ad valorem* rate of duty.

It is stated in the "Customs Regulations, 1912" (par. 122) that the undermentioned articles, which are weighed gross, are usually accorded the following tare allowances :—

## GIBRALTAR.

Tobacco is the only article on which duty is leviable according to weight.

The duty thereon is levied on the net weight imported. Actual weighing is, as a rule, resorted to, but on large consignments invoice weights are accepted after verification by testing the actual weight of a given number of bales, boxes, &c. varying from 10% to 20% of the total. Tare allowances are accepted as shown on the invoice, but, in case of doubt, the actual tare is verified.

## MALTA.

Duties are levied on the net weight of the goods imported. Actual weighing of the goods is always resorted to. In the case of goods imported in sacks of uniform size, only a percentage of the sacks are weighed, the remainder being calculated on the weight thus obtained. The tare of each consignment is generally tested. When goods, however, are shipped by English or American firms, the tare shown on the invoice is accepted if the Customs Officer is satisfied.

In the case of packages, &c. which form part of the merchandise in the condition in which it is offered for sale, the net weight of one or two packages is ascertained, and on the result thus obtained the duty on the whole parcel is calculated.

Goods subject to duty in Malta are not such as need be imported on spools, reels, or cards.

(a) When produced by white labour from cane sugar grown in the Commonwealth. The additional duty is not levied on Australian sugar imported into Rhodesia.

(b) Including all of a polarization of 96° or over.

(c) In the case of the Union of South Africa, this surtax only applies to Mozambique sugar when imported into the Provinces of the Cape of Good Hope, Orange Free State and Natal.

(d) *i.e.*, Southern Rhodesia and that portion of the Territory of Northern Rhodesia lying outside the Congo Basin. The Administrators of Southern and Northern Rhodesia are empowered to suspend the whole surtax on bounty-fed sugar imported into those Territories. Such surtax is suspended in Northern Rhodesia by Government-Notice No. 37 of 1915, and in Southern Rhodesia by Government Notice No. 477 of 1914.

*Note.*—It is stated in a Notice issued by the Government of the Union of South Africa in the Customs Handbook, 1914, that importers of any sugar into the Union for consumption, refining or manufacture must produce to the proper Custom Officers at the election of the latter:—

- (i) A signed statement by the suppliers on the invoice or otherwise;
- (ii) A certificate of origin in prescribed form duly signed by the producers or manufacturers; or
- (iii) Such other or further evidence as may be required, proving the country of origin or manufacture of the said sugar.

In the case of refined sugar coming from a factory established in a State not contracting to the withholding of bounties under the Brussels Sugar Convention, evidence must be adduced that such factory is not utilizing sugar originating in a State liable to the surtax.

As the United Kingdom of Great Britain and Ireland is no longer a signatory to the Brussels Sugar Convention, all sugar emanating therefrom must be accompanied by the evidence prescribed, showing that it has not originated in a bounty-granting State, failing which it will be dealt with as provided below.

The Commissioners of Customs of the United Kingdom will, upon application, be prepared to issue certificates of origin for sugar exported therefrom whether manufactured in the United Kingdom or elsewhere (other than sugar in transit), and such certificates if not showing the sugar as originating from a bounty-granting State will be accepted as entitling it to be imported free of surtax.

If the evidence required by the preceding regulations be not forthcoming at the time of importation, then either—

- (i) The goods must be re-exported under Customs supervision; or
- (ii) Deposited under detention in an approved warehouse; or
- (iii) A deposit lodged with the Customs Department, to cover the then highest existent rate of surtax.

The following is a list of States signatory to the Brussels Sugar Convention that have engaged to withhold bounties from the production or export of sugar, which product whether grown or only manufactured therein is admitted free of surtax—

Austria-Hungary.	Germany.	Peru.
Belgium.	Holland.	Sweden.
France.	Luxemburg.	Switzerland.

Similar regulations are issued for Rhodesia regarding the requirement of—

- (i) A certificate of origin duly signed by the exporters, producers or manufacturers in prescribed form; or
- (ii) Such other or further evidence as the officer of Customs may require, proving the country of origin or manufacture of the sugar imported.

The Straits Settlements silver dollar is the standard coin of the Federated Malay States.

(a) "Proof spirit" means a liquid containing 49.24 % by weight of alcohol and 50.76 % of distilled water and having a specific gravity at 60° F. of .91984.

(b) "Proof gallon" means a gallon of proof spirit, and a duty payable on any liquor "per proof gallon" means a duty payable upon the maximum number of proof gallons which the alcohol contained in such liquor, when mixed with water, is capable of forming.

(c) "Petroleum" includes the liquors commonly known by the names of rock oil, Rangoon oil, Burma oil, kerosene, paraffin oil, petrol, gasoline, benzol, benzoline, benzine, naphtha, or any like inflammable liquid, whether a natural product or one that is made from petroleum. coal, schist, shale or any other bituminous substance or from any products thereof, but does not include any liquid or substance which has a flashing point higher than 156° F. ascertained in manner provided from time to time under "The Petroleum Enactment, 1914."

(d) Under certain Regulations which have been made relating to the importation of tobacco, it is provided that no tobacco shall be imported into the several States by sea, except at the following ports: Telok Anson (Perak), Port Swettenham (Selangor), Port Dickson (Negri Sembilan), Kuantan and Pekan (Pahang).

Notes.—The "Opium and Chandu Enactment, 1910" (No. 14 of 1910), as amended by Enactment No. 12 of 1912, provides for the prohibition of the importation of *opium* and also of *chandu*, other than by a "Superintendent of chandu." The Enactment is not, however, applicable to the importation of opium or chandu for medical purposes only by or on behalf of the Government, or by any person licensed to sell poisons under any Enactment to regulate the possession and sale of poisons or deleterious drugs.

"Opium" is held to mean any kind of opium not prepared for smoking, chewing or swallowing, and includes the coverings in which opium has been wrapped. "Chandu" means any preparation of opium or any preparation in which opium forms an ingredient, which preparation is used, or intended to be used for smoking, chewing, or swallowing, and includes chandu dross, but does not include any of the alkaloids or salts of alkaloids of opium.

Under the "Deleterious Drugs Enactment, 1911" (No. 10 of 1911), as amended by Enactment No. 15 of 1912, provision is made for the prohibition of the importation of any *deleterious drug* or *syringe*, except with the permission in writing of the Principal Medical Officer or a Senior Medical Officer of the Government.

APPENDIX VI.—*continued.*A.—MALAY STATES—*continued.*(1)—FEDERATED MALAY STATES—*continued.**Notes—continued.*

“Deleterious drugs” means and includes :

- (i) Morphine, including morphia and all salts of morphine, and any alkaloid or salt of an alkaloid of opium, and any solution thereof;
- (ii) Cocaine, including all salts of cocaine and any solution thereof;
- (iii) Eucaïne, including all salts of eucaïne and any solution thereof;
- (iv) Any analogue of cocaine or eucaïne, and
- (v) Any drug, or salts or solution of such drug, which the Chief Secretary to the Government may declare to be a deleterious drug,

but does not include :

- (vi) Any patent or proprietary article containing one or more of the above in quantity not exceeding in the aggregate 1% of the total ingredients of such article, or
- (vii) Any patent or proprietary article which may from time to time be exempted from the operation of this Enactment by the Chief Secretary to the Government by notification in the “Gazette.”

“Syringe” means an instrument or part of an instrument suitable for hypodermic injection, and includes a hypodermic needle.

Under certain Rules, (No. 1704 of 1912) made under the “Deleterious Drugs Enactment, 1911,” it is provided that application for permission to import or export any deleterious drugs or syringe may be made to the Principal Medical Officer or Senior Medical Officer of the Government, who may in his discretion issue a permit in prescribed form.

The importation of *petroleum* is regulated by the “Petroleum Rules, 1914.” Upon the arrival at any port of the State of a vessel bringing petroleum, notice must at once be given to the Harbour Master, who will inform the Inspector, who will proceed on board and either pass the petroleum or take samples for purposes of testing on shore. Until the petroleum has been passed by the Inspector it shall not be landed, except with the written authority of the District Officer, who will make arrangements for its safe custody until it is passed. No “dangerous” petroleum (*i.e.*, petroleum having a flashing point below 73° F.) shall be landed, except by licence of the Resident.

Under the Firearms Enactments of 1902 regulating the importation of *firearms*, no person is allowed to import firearms into the Federated Malay States without a licence, which may be obtained free of charge from the Chief Police Officer of the State.

The importation of *explosives* is regulated by the several State Explosives Enactments of 1904, as amended by Federated Malay States Enactment No. 5 of 1912, and Rules made thereunder.

The Rules provide that *explosives* may only be imported under licence, except the following, which may be imported without licence when not exceeding 20 lbs. avoirdupois:—Safety cartridges; safety fuses for blasting; fuses for shells and friction tubes for guns or percussion primers, provided there be no more than five fuses or percussion primers or 25 tubes in one package, and that the package be a hermetically-sealed metal cylinder; railway fog-signals; percussion caps, also fireworks; or any other explosive not exceeding 5 lbs. avoirdupois.

Provision is further made for the prohibition of the importation of “sanderackers” into each of the Federated Malay States.

Under the Merchandise Marks Enactment No. 1 of 1910, as amended by No. 6 of 1913, the importation is prohibited of goods to which any forged trade mark or false trade description is applied, or to which any trade mark or mark so nearly resembling a trade mark as to be calculated to deceive is falsely applied.

Under Enactment No. 7 of 1913 provision is made for the regulation of *wireless telegraphy*.

No person may establish any wireless telegraph station, or instal or work any apparatus for wireless telegraphy in any place in the Federated Malay States or on board any locally owned ship, except under and in accordance with a licence granted in that behalf by the Chief Secretary to the Government.

(a) No person may, in the New Hebrides (including the Banks and Torres Islands), sell or supply intoxicating liquors to the natives in any form and on any pretext whatsoever. Alcoholic drugs or cordials employed in the case of sickness or disease, are not included in such prohibition which covers spirits, beer, wine, and generally all fermented and intoxicating liquors. (Article 59 of the Anglo-French Convention of 1906.)

(b) No person may sell or supply arms or ammunition to the natives, directly or indirectly, in the New Hebrides (including the Banks and Torres Islands) and within the territorial waters of the group. Shot guns and cartridges for sporting purposes are exempted, but the prohibition shall extend to rifles, revolvers, and other repeating weapons and the ammunition used for such arms; separate parts for the conversion of sporting guns into military weapons, ball cartridges and all kinds of explosives, other than cartridges specially made for shot guns. The British and French Governments, however, reserve to themselves the right to arm the natives who form part of the regular police forces. Non-natives may temporarily entrust to a native employed by him, and solely for the purposes of that employment, prohibited arms or ammunition. (Articles 57-8 of the Anglo-French Convention of 1906.)

APPENDIX VI—*continued.*H.—NEW HEBRIDES—*continued.**Notes.*

Under a Joint Regulation of the 4th December 1914 (No. 12 of 1914) providing for the collection and management of the revenue of Customs within the New Hebrides Condominium it is provided, *inter alia*, that every vessel arriving in the New Hebrides must proceed direct to the Port of Vila, in the Island of Efate, as being the Port of Entry. A vessel, however, may call at places other than a Port of Entry by special permission of the Resident Commissioners.

No merchandise of any kind may be imported into the New Hebrides without the production of a manifest on which shall clearly appear the nature of the goods, the number of the packages of every description, together with their marks and numbers and tonnage, also their provenance and destination and the method of their transport.

All wrecks shall be subject to the provisions of the Tariff and Regulations in force.

No goods imported into the Group may be landed before a detailed declaration has been deposited at the Customs Office by the owner or importer of such goods or his agent. Vessels may, however, be authorised to discharge goods upon showing the ordinary ship's manifest—provided that the master or his agents shall enter into a bond undertaking that the goods so landed shall be subject to all necessary supervision until such time as the import declaration shall have been made.

Goods which have been exported from the Group and which are imported again from places beyond the Group shall be treated as goods coming from abroad, except in the case where there is no doubt as to their origin and after authorisation by the Resident Commissioners.

Every person making an Import declaration shall be bound under a penalty of a fine of from 4*l.* to 20*l.* to show, upon being required so to do by an Officer of Customs, in support of his Import Declaration, all Bills of Lading, Invoices, Waybills, and documents likely to be of use to the Customs Officers in determining the origin, provenance, nature, quality, and value of the goods noted in the said Import Declaration.

When a Customs officer shall dispute the correctness of a declaration in respect of nature, kind, quality, origin or value of the goods, he shall give notice to the party concerned or to his representative who shall, within 24 hours, state whether he accepts or contests the estimate of such Customs Officer. If the Customs officer's valuation is not accepted, the declarant or his representative shall be summoned before the Joint Court, which shall decide summarily upon expert evidence as to the amount of duty to be paid.

Duties of all kinds may be paid either in English or French legal currency.

Except in cases of errors of account committed by an Officer of Customs to the prejudice of persons paying duty which may be adjusted by such officer, no refund of import duties shall be made without the order of the Resident Commissioners. In the case of a person failing to pay the duty incurred by him, the Customs Officer may detain all goods belonging to him or consigned to his address.

The importation of opium, and its alkaloids and compounds, is prohibited, except by special permission of one of the Resident Commissioners. (Joint Regulation of the 20th March 1913.)

GENERAL NOTE.—Various Proclamations, Orders in Council and Government Notices have been issued, in consequence of the war, by the several British Self-Governing Dominions, Colonies, Possessions, and Protectorates, prohibiting the exportation of various articles (including warlike, military, and naval stores) to certain countries.

Detailed particulars regarding the articles affected, and the extent to which their exportation is prohibited, have been published from time to time in the "Board of Trade Journal."

In order to prevent breaches of the law relating to Trading with the Enemy, Declarations of Ultimate Destination, in prescribed form, are required to be lodged with the proper Customs Authority in the case of all goods sought to be exported from the various parts of the British Empire to any foreign places in Europe or on the Mediterranean or Black Seas, with the exception of those situated in Russia, Belgium, France, Spain, and Portugal.

Such particulars as are available regarding the prohibited exports and the prescribed form of the declarations of ultimate destination required for goods exported may be obtained on application at the Commercial Intelligence Branch of the Board of Trade, 73, Basinghall Street, London, E.C.
