Note.—For purposes of abbreviation the term *Rx.* has, in some cases, been used in the Tables in this Abstract to denote 10 rupees. In India 1 pice = 3 pies (¼d.); 12 pices = 1 anna (1d.); 16 annas = 1 rupee (1s. 4d.). A lakh (lac) is 100,000 rupees, and a crore is 100 lakhs.

(a) In the **Straits Settlements** the standard coin of the Colony was, by an Order in Council of 2nd February 1895, the silver Mexican dollar, the British dollar and old Hong Kong dollar being also legal tender. By a Proclamation dated 5th October 1903, issued under the Straits Settlements (Coinage) Order in Council of 25th June 1903 the *Straits Settlements silver dollar* was made the standard coin of the Colony, and the Mexican dollar was treated, by the same Order in Council, as its equivalent.

Under a Notice issued on 24th August 1904, Mexican, British, and Hong Kong dollars ceased to be legal tender after 31st August 1904.

Under an Order in Council of October 22nd, 1906 the *sovereign* was made legal tender within the Colony for the payment of any amount at the rate of 7 sovereigns for 60 Straits Settlements dollars (2s. 4d. per dollar), and it is provided by the same Order in Council that the Straits Settlements silver *dollar* shall remain the standard coin of the Colony. By an Order in Council of 11th February 1907 the weights of the Straits Settlements silver dollar and 50 cent piece were reduced in order to preserve the fixed ratio to gold.

Conversions of the silver *dollar* into £ sterling have been made, as follows:—

In 1901, at 1s. 11d.; in 1902, at 1s. 8½d.; in 1903 at 1s. 9d.; in 1904, at 1s. 10½d.; in 1905, at 2s.; and in 1906 and later years, at 2s. 4d.

In **Labuan**, the Straits Settlements silver *dollar* was made the standard coin under Notification No. 22 of September 9th, 1905. Prior to this date, Mexican, British, and Hong Kong dollars were current. Conversions into £ sterling have been made at the same rates as those shown for the Straits Settlements.

In the **Federated Malay States**, the Straits Settlements silver *dollar* was made the standard coin in 1903, the British and Mexican dollars being treated as its equivalent to 31st August 1904, when they ceased to be legal tender. Provision was made for the continuance of the Straits Settlements silver *dollar* as the standard coin of the Federated Malay States by the Federal Enactment No. 21 of 1913, which repealed various State Enactments of 1907.

In the **Malay States, not in the Federation**, the Straits Settlements silver *dollar* is the standard coin. In Kelantan, it was made the standard coin of the State by Enactment No. 15 of 1910, and in Trengganu by a Proclamation dated 27th April 1915. In Johore, Kedah and Perlis it is recognised as the standard coin by established custom, but is not declared to be such by any Statute.

In **British North Borneo, Sarawak, and Brunei** the Straits Settlements silver *dollar* has also been made the standard coin—British, Mexican and other dollars ceasing to be legal tender.

In British North Borneo, all silver coinage of any denomination whatsoever, being subsidiary to the silver dollar of the Straits Settlements, is legal tender, provided that the limit of such tender of such subsidiary coinage shall not exceed the value of 10 dollars (Proclamation No. 9 of 1912).

In **Hong Kong**, the Mexican, British, and Hong Kong dollars are current.

Conversions into £ sterling have been made at the same rates as those shown for the Straits Settlements for 1905 and prior years. In 1906 conversions into £ sterling have been made at the rate of 2s. 2½d. per dollar; in 1907, at 2s. 1¾d.; in 1908, at 1s. 8¾d.; in 1909, at 1s. 8¾d.; in 1910, at 1s. 9d.; in 1911, at 1s. 8¾d.; in 1912 at 1s. 11¼d.; in 1913, at 1s. 11¼d.; in 1914, at 1s. 9¼d.; and in 1915 at 1s. 8¼d.

(a) For 9 months ended 31st December 1905. (p) Only the profit on the Uganda Railway (68,836l.) was brought to account in 1905-6. In later years, both receipts and payments are included in the finance returns. From that date, the net receipts of the railways are shown under Revenue, the working expenses being deducted from the total earnings instead of being entered on the expenditure side as previously. (s) Inclusive of 492,106l. collected in previous years, but not brought to account till 1906-7. (t) For the 12 months ended 30th September of the years stated. (l) Excluding inter-provincial shipping (i.e., between Cape of Good Hope and Natal) included in years prior to 1910.
 (m) The figures given for 1904 and later years represent the shipping of Australia direct with places outside the Commonwealth—the shipping returns having been compiled for the first time by the Federal Government in 1904, and not by each State as in former years. Comparative figures (i.e., excluding Inter-State shipping) for years prior to 1904 cannot be given for the Commonwealth as a whole, as vessels trading with more than one State from or to places outside the Commonwealth were, as a rule, included in the returns of each of those States.
 (n) For the 15 months ended 31st March 1904.
 (o) One line of steamers ceased to make fortnightly calls at Kingstown in 1906.
 (p) The Colony and Protectorate of Southern Nigeria were placed under the same administration from May 1st, 1906, and the trade and shipping returns for the Colony and the Protectorate have been amalgamated from 1906 inclusive—the trade between the Colony and Protectorate being treated as Coasting Trade.
 (q) The figures given represent gross tons.
 (r) Including the tonnage of steam vessels calling for coals and stores, excluded in years prior to 1910.
 (s) Excluding the tonnage of vessels calling to coal, amounting to 1,337,672 tons in 1915.
 (t) For the 12 months ended 30th September of the years stated.
 (u) For the six months ended 30th June 1914.
 (v) Excluding the tonnage of vessels transiting the Suez Canal amounting to 9,980,586 tons in 1915. Warships are also excluded.

(a) The Commonwealth Government states that the only official intimation of ship building is the registration of the ship. Such registration may not be effected for some years after the ship is built, and consequently the figures for past years are subject to amendment from year to year.

In addition to the above sailing and steam vessels, a few oil motor boats, pontoons, dredgers, &c. are built, from time to time, in the various States of the Commonwealth.

(b) The figures given for New Zealand represent the number and tonnage of vessels built "at ports in British Possessions" but registered (for the first time) in the Dominion in each of the years stated. Particulars of vessels built in the Dominion cannot be stated.

(c) Motor boats.

(d) The Natal Provincial Government states that only a few small pleasure boats and lighters have as yet been built in the Province. The Cape Provincial Government states that no sailing or steam vessels were built in the Province during each of the above-mentioned years, except a few lighters and barges by the East London Harbour Board, which were used in the discharge of cargo from vessels in the roadstead and other harbour purposes.

(e) Including motor boats.

(f) The Egyptian Government states that "boat building of sailing vessels is active, but no statistics exist. They are exclusively Nile boats either for cargo or passengers. Steam vessels built are limited to river boats for tourist agencies or Government, and are usually constructed in the United Kingdom and put together again in Egypt."

NOTE.—There are no complete Returns of the trade of Hong Kong and Gibraltar. For the trade

(a) For rates of conversion into £ sterling, see Table No. 2, p. 5. (b) Excluding Bullion and Specie. (c) For the 12 months ended 31st March of the year following that stated above. (d) The figures given represent the Imports (excluding Inter-Settlement trade) into Singapore, Penang, Dindings, and Malacca, and also, from 1908 inclusive, into Labuan and Christmas and Coeco Islands, which now form part of the Colony of the Straits Settlements. (e) Including the value of Coal for supply to steamships. (f) Including transshipments. (g) For the 12 months ended 30th June of the years stated. (h) Imports for consumption. (i) Dutiable goods only. (j) For value of Imports into each State, see Table No. 27, pp. 228-9. (k) Deduction partly due to the imports into the Australian Commonwealth being classified according to "Countries of Origin" from 1908 inclusive, and not according to "Countries of Shipment" as in prior years. (l) In consequence of the formation of the Union of South Africa on 31st May 1910 the figures from 1910 inclusive are not available for the several Provinces, but only for the Union of South Africa as a whole. The figures for all years are inclusive of the value of goods in transit for the interior, but in years prior to 1910 the Imports *via* Natal or the Cape of Good Hope in transit to other places in South Africa were included in the figures shown for those Provinces, as well as in those of final destination. For 1905 and prior years, *overland* trade is excluded from the figures for Natal, but partly included in those for the Cape of Good Hope, whilst those for 1906-9 represent Imports by Sea, *exclusive* of Inter-State trade. From 1910, the Union figures include imports *overland* (other than gold in transit) from other places in South Africa. (m) Approximate estimate of the total Imports after deducting, so far as has been found practicable, the value of articles which pass in transit from the maritime Provinces to the inland Territories, &c., and are therefore included in the accounts of more than one Province or Territory. (n) Excluding Government Stores. (o) The total for 1906 to 1910 represents the value of imports into British South Africa as a whole, *exclusive* of inter-State trade, according to the South African Trade Returns. As a consequence of the

and SPECIE, for which see pages 56-7).

Notes.—The above figures represent the imports into Singapore, Penang, Dindings, and Malacca, and also, from 1903 inclusive, into Labuan and the Christmas and Coes Islands, exclusive of Inter-Settlement Trade. In 1908, Labuan and the Christmas and Coes Islands were, for the first time, treated in the trade returns as part of the Colony of the Straits Settlements. The trade of Labuan, as well as the rail traffic between Penang and Perak, was, in 1905, included in the total only—details of the separate articles not being available. From 1909 inclusive, however, the Labuan trade and the rail traffic between Penang and Perak are also included in the details.

(b) It is stated by the Straits Settlements Government that, previous to 1912, Para Rubber transhipped at Singapore and Penang from all parts of the Malay Peninsula was inserted in the Trade Returns as Imports and Exports. From 1912, only Rubber marketed is included in the import figures, and Rubber marketed, as well as that locally produced, in the export figures. Therefore, to afford a true comparison, this article in 1911 would be less by, approximately, 57,800 cwt., and 21,483,353—the imports from the Federated and non-Federated Malay States and exports to the United Kingdom being affected to this extent.

Note.—It is stated in the original returns that the figures are to be taken as accurate only so far as the years 1903 and later years are concerned. In the preceding years the articles have been classified as nearly as possible on the same basis as in later years, but it has been found a matter of great difficulty, owing not only to the want of uniformity in the classification of articles in the various States, but also to the differences between the classification followed in the earlier years and that adopted in 1903 and later years.

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was not the practice in the various State Customs Offices to record transshipments. It follows that goods arriving from beyond the Commonwealth at any Australian port and thence transhipped to another State were recorded in the State in which they ultimately arrived as an import from the transshipping State, and not, as they are now, as an overseas import. The figures shown above represent the estimated value of such transshipments, and must be added to the recorded imports to obtain the true gross import from Countries beyond the Commonwealth.

(b) Ribbons, galloons, &c., included in 1910 and prior years with velvets, &c., are included with "Trimmings" from 1911 inclusive.

(c) Excluding feathers made up into trimmings and natural birds and wings, included with "Other kinds of apparel" from 1912 inclusive.

(d) Including locomotive wheels from 1913 inclusive—previously excluded.

Note.—It is stated in the original returns that the figures are to be taken as accurate only so far as the years 1903 and later years are concerned. In the preceding years the articles have been classified as nearly as possible on the same basis as in later years but this has been found a matter of great difficulty, owing not only to the want of uniformity in the classification of articles in the various States but also to the differences between the classification followed in the earlier years and that adopted in 1903 and later years.

(a) It is stated in the original Commonwealth Trade Returns for 1904 that prior to September 1st, 1903, it was the practice in most of the States for goods of local produce despatched from one Australian State to another for transshipment beyond the Commonwealth to be recorded only as inter-State transfers from the original State, no notice being taken of the overseas export. The present uniform practice is to count such goods as being exported from the place where they are actually placed on board overseas vessels so as to avoid the possibility of transshipment being treated as exports at the place of production and at the place of final export. No reliable estimate of the values of these transshipments prior to September 1st, 1903, can be given, but in 1904 they amounted to 3,655,128.

(b) Exclusive of the value of goods shipped as ship's stores in Australian ports on board vessels bound for overseas countries in 1906 and later years, previously included. For amounts, see note (f), p. 227.

(c) Silver-lead Bullion is included with "Silver contained in matte" and with "Lead contained in matte" in 1907 and later years.

(d) Including Concentrates from 1909 inclusive.

(e) Including Wool "tops" from 1909 inclusive, not distinguished in prior years.

NOTE.—From 1903 the Trade Returns were compiled by the Commonwealth Government for Australia as a whole with places outside the Commonwealth, and not by each State, as in former years.

The Totals compiled by the Commonwealth Government for comparative purposes for years prior to 1903, differ slightly, in some cases, from those obtainable from the State Returns. For total value of Imports and Exports in those years according to Commonwealth Returns. see pp. 222 and 226, respectively.

(a) From 1st September 1903 to 1909 inclusive, the value of goods removed from one State of the Commonwealth to another for transshipment abroad is uniformly included in the figures shown for the State from which the goods were originally despatched. From 1910 inclusive, exports are credited to the State from which they were finally despatched from the Commonwealth. Owing to the discontinuance of the Inter-State Trade Records, it is not possible to refer transhipped goods to the State from which they were originally consigned. See note (a), p. 105.

(b) Exclusive of ships' stores in 1906 and later years—previously included. For amounts, see note (f), p. 227.

(c) Exclusive of Inter-State transshipments of overseas goods in 1903 and prior years. See note (a), p. 101.

(d) Inclusive of Australian warships to the value of 2,495,000*l.* in 1913 and 233,500*l.* for the six months ended 30th June 1914, not allocated to the various States.

NOTES.—Preferential treatment has been accorded to certain goods the produce or manufacture of some part of the British Dominions, on importation into New Zealand, from November 16th, 1903. The preference was extended to certain other British goods from July 17th, 1907, and from April 1st, 1908, respectively.

All South African goods (except spirits) have also been accorded preferential treatment from January 1st, 1907.

(a) Certain British Possessions and Protectorates (viz., Cyprus, Federated Malay States, Zanzibar, Gilbert and Ellice Islands, and the Tonga or Friendly Islands) are classed with "Foreign Countries," in the original trade returns. From 1911, however, they have been included with "British Possessions," and not with "Foreign Countries," in the above Table.

(b) The Imports are classified according to "Countries of Origin" from 1914 inclusive, and not according to "Countries whence Imported" as in previous years.

(c) Imports from Asia Minor in years prior to 1913.

(a) The designation of the Colony of Lagos was changed to the Colony of Southern Nigeria by Letters Patent dated February 28th, 1906, the provisions of which came into force on May 1st, 1906. The Colony and Protectorate of Southern Nigeria were placed under the same administration from that date. Under the provisions of certain Orders-in-Council, dated November 22nd, 1913, the designation of the Colony of Southern Nigeria has been changed to the "Colony of Nigeria," whilst the Protectorates of Southern and Northern Nigeria have been amalgamated under the name of "Protectorate of Nigeria," with effect from January 1st, 1914. The Trade Returns for the Colony and Protectorate of Southern Nigeria were combined from 1908 to 1913 inclusive, and for Nigeria as a whole from January 1st, 1914.

(b) Including Grand Canary, Madeira, and Tonorife.

(c) Mostly transit trade, which was largely increased in consequence of the abolition of transit fees on March 29th, 1905.

(d) The Imports are classified according to "Countries whence Consigned" from 1910 inclusive, and not according to "Countries whence Imported," as in previous years.

(a) Excluding British Possessions on the "Windward" and "Leeward" coasts of Africa. It is stated in the original returns that "vessels which had called (in the case of those arriving in the Colony), or which intended to call (in the case of those leaving the Colony), at more ports than one on the West Coast of Africa, were said to have come from, or to have left for the 'Windward Coast' when the ports are to the north, or the 'Leeward Coast' when the ports are to the south, of Sierra Leone." From 1909 inclusive, the trade at ports on the "Windward" and "Leeward" coasts was separately distinguished.

NOTES.—For rate of conversion of dollars into £ sterling, see Table No. 2, p. 5.
 The Reciprocal Tariff Act No. 16 of 1897 came into force on 22nd April 1897, and goods (except alcoholic liquors, tobacco and sugar), the produce or manufacture of the United Kingdom and certain British Possessions and Foreign Countries, when imported direct, were entitled to a reduction of 4th of the duty to 30th June 1898, and 4th of the duty to 31st July 1898.
 In August 1898, this Tariff Act was superseded by the British Preferential Tariff Act No. 37 of 1898 which confined the benefits to goods (except alcoholic liquors, tobacco, and in certain cases, sugar), the produce or manufacture of the United Kingdom and certain British Possessions when imported direct, and a reduction of 4th of the general duty was allowed to the 30th June 1900, and 4th of the duty, under Act No. 15 of 1900, after that date. Preferential Treatment was extended to South African products from 1st July 1904. Slight amendments of the preference allowed on woollens, cordage, china, tableware and common window glass were made from June 7th, 1904, under Act No. 11 of 1904.

Under Act No. 11 of 1907, which came into force on November 30th, 1906, the Customs Tariff was revised, and varying rates of preferential duties were accorded to various products of the United Kingdom and certain British Colonies and Possessions. This Act also provided for an "Intermediate Tariff" (i.e. a tariff which provides, for the most part, for the imposition of duties lower than the General, but higher than the British Preferential, Tariff rates of duty), which could be applied from time to time to the products of any country in consideration of benefits satisfactory to the Governor in Council. The Intermediate Tariff has been partly applied to various articles—the produce of certain British Possessions and Foreign countries—in consequence of the Franco-Canadian Convention of 1907, under Act No. 28 of 1908, with effect from 1st February, 1910, and also under certain Commercial Agreements, to similar articles, when the produce of Belgium and the Netherlands, with effect from 10th June 1910, and to some of those articles—when the produce of Italy, with effect from the same date. A Special Tariff—limited to a few articles—which was provided for in the Franco-Canadian Convention of 1907 has also been applied to the products of certain countries, with effect from 1st February 1910.

The Customs Tariff was further revised by Act No. 15 of 1913, which came into force on the 15th May 1913, and which gave effect to the Canada and West Indian Reciprocity Agreement of 1912. The benefits of the British Preferential Tariff were extended by an Order-in-Council of the 25th January 1913, with effect from 1st February 1913, to the products of certain other British Colonies, Possessions, and Protectorates.

A war tax was imposed on practically all articles by Act No. 3 of 1915, which came into force on the 12th February 1915, with the effect that such articles were accorded preferential treatment on importation into the Dominion.

Under Act No. 15 of 1908, articles which were the growth, produce, or manufacture of Germany, were, from April 17th 1908, subjected to a surtax of 1rd of the duties charged under the General Tariff. This surtax was continued by the Customs Tariff Act No. 11 of 1907 to 1st March 1910, when it was suspended by an Order-in-Council, dated 15th February 1910.

(a) For total imports into the Dominion of Canada, see Table No. 20, pp. 64-5.

(b) The particulars relate to the Singapore Government Railway. This railway was, however, sold in 1912, to the Federated Malay States, and is now included with the railways of those States. The *Province Wellesley* Line is also included with the railways of the Federated Malay States, as well as the *Malacca* Railway, which was sold to the Government of the Federated Malay States, and opened for traffic on December 1st, 1905. See Table No. 13, p. 437.

(c) Length of line open for traffic on 30th June of the years stated.

(d) Excluding an electric *street* railway, 4 miles in length in 1906 and 5 miles in length in later years.

(e) Length of line open for traffic on 31st March of the years following those stated.

(f) Length of line open for traffic in February of the years following those stated. One of the private lines was purchased by the Government in 1908.

(h) Including mileage of private railways for *special* purposes, so far as can be stated—for which receipts and working expenses are not available.

(i) The *Busoga* railway (Jinja to Namasagali) was opened for goods traffic on 1st January 1912, and for passenger traffic on 1st April of that year. The *Kampala—Port Bell* railway was opened for goods traffic on 27th May 1914. It was taken over and opened for public traffic by the Uganda Railway on the 1st June 1915.

(j) The Newfoundland Government Railways were leased to the Reid Newfoundland Company in 1901.

(f) The Imports are practically all from the United States. The bulk of the wheat imported into Canada from the United States passes in transit duty-free through the Dominion for export to the United Kingdom and other Countries. Such wheat is included in both the Canadian Import and Export Returns.

The Canadian authorities state that wheat shipped from Canada *via* United States Ports is credited to the country of destination, the wheat being in bonded cars and not opened, except for the purpose of transfer to ocean vessels.

(d) Owing to the reduced price of sugar and molasses about 1,500 tons of sugar, and 10,000 bunchons of molasses were in the hands of the shippers at the close of 1913.

(e) A large quantity of "Fancy Molasses" has been made from 1911 inclusive, direct from the juice of the sugar-cane, and, consequently, the yield of "sugar" made from the acreage given is lower than it otherwise would be. It is estimated that the quantity of "Fancy Molasses" produced in 1915 was 3,782,851 old wine gallons, while that of "Choice Molasses" was 1,780,147 old wine gallons. This includes about 60,000 cwts. used for local consumption.

(a) The figures are for 12 months ended 31st March of the year following that stated. The exports are by sea only. For total exports by land, see Table No. 20 pp. 76-7.

(b) The figures in above statement relating to the area and production in British India are as revised in the Returns giving estimates of the yield of the cotton crop, and which are compiled in the Statistical Department of the Government of India. They include the Native States. The figures for production represent "cleaned" cotton (i.e., with the seeds extracted), and conversions have been made from bales to lbs. at the rate of 400 lbs. to the bale.

(c) For rates of conversion of rupees into £ sterling see Table No. 2, p. 5.

(d) The figures given represent "unginned" cotton produced in the State of Queensland. Cotton is not grown to any extent in any other State of the Commonwealth, but small areas have been planted in the Northern Territory for experimental purposes.

(e) Inclusive of crops owned by natives. In some cases the figures are only approximate.

(f) Ginned cotton.

(g) Certain production figures for "ginned" and "unginned" cotton are available, but the Nyasaland Protectorate Government states that the export figures for "ginned" cotton are more reliable.

(h) The figures are for the 12 months ended 30th June of the years stated.

(z) Ginned cotton—the exports of "unginned" cotton having been converted on the assumption that 1 lb. of "ginned" cotton is obtained from 3 lbs. of "unginned" cotton in years prior to 1914-15. From that year "unginned" cotton may be taken to represent 50 per cent. lint and 70 per cent. seed. (j) The figures given, represent the exports to the United Kingdom, classified according to the "Country of ultimate destination," so far as known, from the year stated, and not according to the "Country to which exported" as in previous years. (k) Figures for Natal only in years prior to 1910. In 1910 the figures relate to the production in the Transvaal only—the particulars for other parts of the Union of South Africa not being available. (l) The figures are for the 12 months ended 31st March of the years following those stated. (m) Ginned and unginned cotton—the quantity of each kind not being separately stated. (n) For the 18 months ended 30th June 1911. (o) Very little cotton, of domestic produce, is exported from Southern Rhodesia. (p) Seed or "unginned" cotton.

(7) RAILWAYS.

In *Johore* the State Railway of 121 miles, which was formerly a continuation of the Federated Malay States Railway System, has now, owing to the purchase of the Singapore Railway by the Federated Malay States Government, become a connecting link between the two sections of the one Administration.

By provisional arrangement the *Johore* line was leased to the Federated Malay States Government from 1st January 1912.

For further particulars of the Federated Malay States Railway System, see under Federated Malay States, Table No. 13, p. 437.

There is also, in *Johore*, a State *light railway* running from Bandar Maharani to Parit Pechah in the Muar Division, with a total length of 17 miles opened for traffic in 1915.

The receipts of this line were \$52,646 in 1912, \$63,440 in 1913, \$78,473 in 1914, and \$87,513 in 1915. The working expenses amounted to \$63,217 in 1915.

In *Kedah* a line was under construction from Muda River to Alor Star. This line was linked up with the Federated Malay States Railways in 1914, and the total section of 56 miles was opened for traffic in 1915. Work has been continued north of Alor Star and through Perlis Territory to Padang Besar on the Siamese Frontier, and it is anticipated that this section will be open for traffic in 1917.

In *Kelantan* the East Coast Railway, which will eventually connect Kelantan with Singapore and Bangkok, has been completed as regards the section between Tumpat and Tanah Merah.
