# FIRST REPORT OF THE PUBLIC ACCOUNTS JOINT COMMITTEE OF THE NORTHERN NIGERIA LEGISLATURE—SESSIONS 1964-65

MR SPEAKER/PRESIDENT

The Committee has the honour to report that they met and examined:—

- (a) The Report of the Director of Audit on the Accounts of the Government of Northern Nigeria for the year ended 31st March 1963.
- (b) Capital Development Fund Accounts, 1960-61.
- (c) Native Authorities' Motor Vehicle Insurance Fund Accounts 1958-59, 1959-60 and 1961-62.
- (d) Northern Nigeria Staff Housing Scheme Loans Fund Accounts, 1961-62.
- (e) Marine Renewals Fund Accounts, 1961-62.
- (f) Printing and Stationery Division Machinery Renewals Fund Accounts, 1961-62.
- (g) Ministry of Works Mechanical and Woodworking Machinery Renewals Fund Accounts, 1961-62.
- (h) Ministry of Works Water Supplies Renewals Fund Accounts, 1961-62.
- (i) Jos Hill Station Accounts, 1962-63.
- (j) 7th Annual Report, Northern Nigeria Development Corporation, 1961-62 and 8th Annual Report, 1962-63.
- (k) Native Authorities' Housing Corporation Accounts, 1962-63.
- (l) Northern Nigeria Radio Corporation Accounts, 1961-62.
- (m) Northern Nigeria Marketing Board, 8th Annual Report, 1961-62.

2. The Committee sat from the 18th to the 26th May, 1964.

## **Report of the Director of Audit on the Accounts of the Government of Northern Nigeria for the Year ended 31st March, 1963**

3. *Paragraph 3: Accountant-General's Financial Report.*—The Financial Report for 1962-63 has now been distributed.

4. *Paragraph 4: Losses of Public Funds and Stores.*—The Accountant-General advised the Committee that he had set up an Internal Audit Branch which, amongst other matters, is charged with the processing of loss cases. It is hoped that this will expedite the construction of loss cases and in particular, the resolving of systematic weaknesses.

5. *Paragraphs 5 and 6: Errors of Classification.*—The vast majority of errors occur in the Machine Accounts Section of the Treasury. The Accountant-General outlined the steps he has taken, or will take, to keep such errors to a minimum.

2

6. *Paragraph 7: Outstanding Vouchers.*—The position is improved on that of previous years but it is considered that more can still be done, in particular as regards original payment vouchers mislaid in Treasury Headquarters. The Accountant-General has received authority for unvouched expenditure up to March, 1959 to stand charged in the accounts.

7. *Paragraphs 8 and 9: Audit Queries.*—The large increase in Audit Queries during the year 1962-63 compared with previous years is mainly due to a deterioration in the standard of voucher preparation and checking which can only be improved in step with the training and experience of accounting staff. The Accountant-General undertook to draw Sub-Accountants' attention to the fact that they must not accept unreceipted original payment vouchers. He also stated that a proposed new system of salary payments should eliminate queries on incomplete personal emolument records.

8. *Paragraph 10: Leave Transport Grants.*—The Permanent Secretary, Ministry of Establishments and Training, informed the Committee that it was appreciated that the existing General Order was insufficiently precise and that he hoped to effect revision at an early date.

#### Revenue

9. *Paragraph 11: Statutory Revenue.*—The difference of £98,997-16s-3d for the year 1960-61 has now been cleared.

10. *Paragraph 12: Reimbursements.*—Of the amount of £18,676-17s-0d outstanding for 1961-62, all except £1,093 has been settled. In regard to the £23,364-12s-6d for 1962-63, £13,462 remains to be settled. The Accountant-General advised the Committee that claims had been submitted and were being followed up.

11. *Paragraph 13: Arrears of Revenue.*—The Committee discussed the question of late submission of returns with each Accounting Officer referred to. Where appropriate, enquiry was made as to the actual amount outstanding, what steps were being taken to clear this, and whether additional measures could usefully be taken.

12. *Paragraph 14: Revenue Estimating.*—The Permanent Secretary, Ministry of Finance, informed the Committee that data was now being collected with a view to improving the present standard of revenue estimating. Shortfalls and excesses caused by misallocations in the accounts can be minimised through Accounting Officers reconciling their revenue records with the Accountant-General's accounts. The Committee was informed that existing instructions requiring this will be followed up.

13. *Paragraph 15: Water Rates, Jimeta Town.*—The Committee was advised that arrears had been written off: current collection is stated to be satisfactory.

### Expenditure

14. *Paragraph 16: Authorities for Expenditure.*—These are now complete.

15. *Paragraphs 17 and 18: Control of Expenditure.*—The Permanent Secretary, Ministry of Finance, regretted that the improvement in expenditure control mentioned in the previous Audit Report had not been maintained. Of the 104 subheads involving excess expenditure referred to in the 1962-63 Audit Report, the vast majority were cleared by virement warrant after the date the Accountant-General closed his accounts. In these circumstances, the Committee sees no good reason why virement could not have been applied for before the accounts were closed, thus avoiding an excess. It therefore recommends that this aspect receives more attention in future.

16. *Paragraphs 19 and 20: Cost of Revenue Collection.*—To eliminate this kind of difficulty in the future, Costs of Revenue Collection will only be paid when the Declaration is received from the Federal Government.

17. *Paragraph 21: Rail Warrants obtained by Fraud.* The overall amount involved in this fraud has not been ascertained. The Accountant-General advised the Committee of the steps taken to inform Ministries of the methods used.

18. *Paragraph 22: Deposit Accounts with Native Authorities.*—The Committee was informed by the Permanent Secretary, Ministry of Finance, that urgent consideration is being given to improving the routine.

19. *Paragraph 23: Personal Emoluments Records.*—The Accountant-General has set up a special sub-section to deal with these incomplete records, the majority of which have now been brought up to date.

20. *Paragraph 24: Pensions Registers.*—An Authority has been obtained for 14 of the 18 cases referred to, and the Accountant-General informed the committee that the remainder were being actively pursued.

21. *Paragraph 25: Duplication of Retiring Award Computations.*—The Accountant-General stated that a revised system will be shortly introduced.

22. *Paragraph 26: Leave Transport Grants.*—The introduction of the new procedure awaits the proposed revision of the General Order referred to at paragraph 8 above. New forms have been devised.

### Statement of Assets and Liabilities

#### Assets

23. *Paragraph 27: Cash.*—The outstanding Board of Survey Reports have been submitted also the certificate in respect of the cash held in the Revenue Equalisation Fund.

24. *Paragraph 28: Remittances.*—Treasury records are now up to date. The Accountant-General assured the Committee that they are regularly scrutinised.

25. *Paragraphs 29 and 30: Kaduna Central Account.*—A subsequent Board of Survey has been held to prove this account and the missing bank certificate supplied. The Accountant-General informed the Committee that the Kaduna Central Account cash book has been placed on a proper basis.

26. *Paragraph 31: Surprise Boards of Survey.*—The Treasury Internal Audit Branch has been charged with supervising the frequency of Surprise Boards of Survey and, additionally, the Accountant-General has recently issued a detailed circular on the subject to Provincial Secretaries.

#### *Liabilities*

27. *Paragraph 32: Revenue Equalisation Fund.*—The Accounts are under examination by the Director of Audit.

28. *Paragraph 33: Capital Development Fund.*—The 1961-62 Loans Statement is still incomplete and the Accountant-General informed the Committee that he expected to submit it in the very near future. In consequence, the 1962-63 Accounts are not yet finalised.

29. *Paragraph 34: Renewals Funds.*—Except for Water Supplies, those referred to in the Audit Report have been examined and gazetted. The intention is to table them at the first opportunity.

30. *Paragraph 35: Native Authorities Motor Vehicle Insurance Fund.*—The Accounts are under examination by the Director of Audit.

31. *Paragraph 36: Voluntary Agencies Fund.*—These have been examined and gazetted, and will be laid at the first opportunity.

32. *Paragraph 37: Staff Housing Fund.*—The Accounts are under examination by the Director of Audit.

33. *Paragraph 38: Personal Advances.*—The Accountant-General informed the Committee that dormant balances were under continuous review. Clearance is now because of the considerable investigation work involved. The intention is to delegate the control of personal advances for the purchase of bicycles and similar accounts to Ministries, which will minimise this problem in future. The Independence Celebration advance account has been closed with the write-off of balances totalling £1,418-6s-9d.

34. *Paragraph 39: Treasury Clearance Fund.*—Clearance of the Ahmadu Bello University advance awaits the receipt of grants from the National Universities' Commission and that to the Gaskiya Corporation a decision by Government on the future of the Corporation. The Benue Riot Damage Fund has now been finalised and audited and the Committee was advised of the steps taken to reconcile the other deposit accounts mentioned in the Audit Report. The Native Authorities deposits of surplus funds will be brought into the Treasury Clearance Fund.

35. *Paragraph 40: Other Governments' Clearance Fund.*—Reconciliation statements have been forwarded to the Federation up to 31st March, 1962, Eastern Nigeria up to 31st December, 1963, and Western Nigeria up to 31st March, 1963. The Cameroun Republic account has been closed.

36. *Paragraph 41: National Provident Fund.*—It has been found necessary to close the old account at 30th November, 1963, and clearance has been completed on this account up to 31st October, 1963. The new account, opened 1st December, 1963, is on revised accounting basis in regard to which the Accountant-General informed the Committee there should be no similar difficulties.

### Premier's Office

37. *Paragraph 43: Excess Expenditure.*—The representative of the Premier's Office informed the Committee that in future every effort would be made to reconcile his vote control records with a view to detecting and clearing misclassifications before the accounts for the year are closed. In addition, additional provision would be sought before a vote became overspent.

38. *Paragraphs 44 and 45: Overpayments and Audit Queries.*—The overpayments concerned have either been recovered, written-off or are under action.

39. *Paragraph 46: Arrears of Revenue.*—Once again the delay in submitting these returns was regretted, the majority of which are still outstanding. The Committee was assured that everything would be done to avoid a similar cause for complaint.

40. *Paragraph 47: Local Treasury, Hadejia.*—The amount involved has not yet been recovered and the Court case has not been heard. The Cash Board of Survey Report Form is to be revised.

41. *Paragraphs 48 and 49: Motor Licensing Authority, Zaria.*—It was admitted that the basic cause of this loss was lack of effective supervision by successive Local Authorities. The Court case is pending and no recovery has been made.

42. *Paragraph 50: Motor Licensing Authority, Ilorin.*—The Court case was unsuccessful. The recommendations of the Board of Enquiry have not been finalised; the Committee was informed that action to this end would be expedited. With the take-over of Motor Licensing Authorities by the Ministry of Finance from 1st April, 1964, it is to be hoped that the shortcomings as instanced by this, and the preceding case will no longer obtain.

43. *Paragraph 51: Boards of Survey.*—The deficiencies at Makurdi have been found. In regard to the parts missing from the Land Rover, it was decided that a Board of Enquiry would serve no useful purpose at this late stage and the vehicle has been written-off.

### Legislature

44. *Paragraph 52: Excess Expenditure.*—It was admitted that the excess expenditure was due to lack of reconciliation with the Treasury records, together with inadequate noting of liabilities. The Clerk informed the Committee that every effort would be made to prevent recurrence.

### Judicial

45. *Paragraph 53: Excess Expenditure.*—The Committee emphasised to the Chief Registrar the need to obtain additional provision before the vote was exceeded.

### Public Service Commission

46. *Paragraph 54: Excess Expenditure.*—The Committee was informed that proper reconciliations with Treasury records now being effected, hence excess expenditure to unadjusted misallocations should not recur.

### Sharia Court of Appeal

47. *Paragraph 55: Excess Expenditure.*—In the main, the excess expenditure was caused by unadjusted misallocations and the Registrar assured the Committee that in future more care would be taken in reconciling with the Treasury records.

### Agriculture

48. *Paragraph 56: Excess Expenditure.*—The excess expenditure on the three sub-heads referred to in the Audit Report occurred because Savings quoted to enable the transfer of funds to the Ahmadu Bello University were not in fact realised. The Ministry representative admitted that this should have been detected and cleared before the accounts for the year were closed.

49. *Paragraph 57: Returns of Revenue in Arrears.*—Arrears of revenue at 30th September, 1963, other than fertiliser, totalled £524-6s-0d and those of fertiliser £243-8s-0d. In regard to the outstanding debts on sales of fertiliser made by the Northern Nigeria Development Corporation, and which the Ministry has taken over, these amounted to £12,182-15s-0d. Although legal action is now contemplated much of this sum is so long outstanding that adequate proof for Court proceedings is likely to prove difficult.

50. *Paragraphs 58 and 59: Overpayments and Audit Queries.*—The Ministry representative outlined steps taken to prevent repetition. The overpayments have either been recovered, written-off or are under action.

51. *Paragraph 60: Produce Inspection, Kano.*—The clerk involved has been convicted and the bulk of the loss written-off. The imprest concerned has been closed, but the Ministry has issued instructions that all imprests over £50 are to be kept in a bank account.

52. *Paragraph 61: Kano Farm Centre.*—Police action has still not been finalised whilst collection of outstanding revenue is making slow progress, mainly because of the difficulty of finding debtors. The Committee was assured that accounting routines at the Centre had been put on a proper basis.

53. *Paragraph 62: Mines Land Reclamation.*—It was confirmed to the Committee that no more plant of this nature is on hand in the Ministry and it has now been found possible to use the Scraper with a new type of tractor recently received. In future, more care will be exercised to ensure that expensive equipment is entirely suitable before actual purchase.

54. *Paragraph 63: Accidents to Vehicles.*—The Ministry representative informed the Committee that all outstation officers had been advised of the correct procedure to be followed in reporting accident cases. The owner of the lorry has accepted liability for the tractor damaged in June, 1963.

### **Animal and Forest Resources**

55. *Paragraph 64: Excess Expenditure.*—It was admitted that the excess expenditure arose through faulty reconciliation with the Treasury records. On the 1st April, 1963 a new procedure was instituted in the Ministry which, it is hoped, will prevent a recurrence.

56. *Paragraphs 65 and 66: Overpayments and Audit Queries.*—The Committee was advised of steps taken to prevent repetition. The majority of the items listed have been recovered.

57. *Paragraph 67: Accidents to Vehicles.*—These delays were the fault of one particular officer who has been replaced. His successor has been made aware of the need for prompt processing.

### **Economic Planning**

58. *Paragraph 68: Excess Expenditure.*—The excess under item 5 was due to failure to apply for a Release Warrant and that on item 6 to failure to apply for additional provision, and the remainder to unadjusted misallocations. The Ministry representative outlined steps that had been taken to place matters on a proper basis.

### **Education**

59. *Paragraph 69: Excess Expenditure.*—The excess on item 1 was caused by savings being quoted against the subhead which were not realised, whilst that on item 2 was due to failure to take note of liabilities. The Permanent Secretary agreed that both could have been cleared by virement before the accounts for the year were closed and apologised for not having done so.

60. *Paragraph 70: Overpayments and Audit Queries.*—The causes of these overpayments were discussed with the Permanent Secretary together with suggested steps to minimise recurrence. In regard to the two contract officers

appointed by the Recruitment Secretary, London on salaries in excess of those for which they were eligible under the approved rules, the Permanent Secretary, Ministry of Establishments and Training, admitted that an error in the interpretation of the rules had occurred. Both officers have now been placed on their correct salaries.

61. *Paragraph 72: Students' Deposits.*—Revised rules have been published, the majority of the accounts closed, and supervision over the remainder was claimed to be adequate.

62. *Paragraphs 73 and 74: Boards of Survey.*—The Permanent Secretary informed the Committee that it was anticipated that a training course for storekeepers would shortly start at the Staff Training Centre, Kaduna and it was hoped to make use of this to train Ministry personnel. He also stated that stores accounting at the School of Arabic Studies had been placed on a more adequate basis. The deficiencies at the Craft School, Wudil, were subsequently found to be book-keeping errors.

63. *Paragraph 75: Craft School, Idah.*—Urgent steps have been taken to implement the recommendations of the Board of Survey. The discrepancies in fuel and petrol were once again found to be book-keeping errors.

64. *Paragraph 76: Craft School, Maiduguri.*—The Committee was informed that complete re-organisation was started in August, 1963 and an experienced storekeeper posted to the School.

### Establishments and Training

65. *Paragraph 77: Excess Expenditure.*—The Permanent Secretary stated that almost all this excess expenditure related to the Scholarship Section and recommendations for the overhaul of this Section have been submitted to Executive Council since it has been clear for some time that there is room for considerable improvement in financial controls.

66. *Paragraph 78: Termination Penalties.*—The issue of a circular is imminent.

### Finance

67. *Paragraphs 79 and 80: Excess Expenditure.*—Extreme regret was expressed by the Permanent Secretary that these excesses had occurred, more particularly in view of the special position in which his Ministry stood in matters of control. A new routine had been instituted in the financial year 1963-64 and the Permanent Secretary stated that he was reasonably certain that there would be no further cause for complaint in this regard. He explained that the excess on the Personal Emoluments' subhead was due to savings quoted against the subhead but not in fact realised.

68. *Paragraphs 81 and 82: Overpayments and Audit Queries.*—The overpayments concerned have either been recovered, written-off or are under action.

69. *Paragraph 83: Sub-Treasury, Kano.*—Seventeen persons have been charged in respect of this offence, one of whom was employed in the Sub-Treasury as an Ungraded Clerk. The Committee was informed that strict instructions regarding blank cheque security have been issued to all Sub-Accountants.

70. *Paragraph 84: Fraudulent Vouchers.*—This is a loss of Federal Funds and the extent to which the six Northern Nigeria Sub-Accountants were negligent is under discussion. In regard to the general question of to what extent this Government is liable for the negligence of its own officers in losses of Federal funds, the Committee was informed by the Accountant-General that discussions over several years at official level had failed to reach agreement and it was now intended to take up the matter at Ministerial level.

71. *Paragraph 85: Control of Receipt Books.*—These stores have now been re-organised.

72. *Paragraph 86: Nigerian Railway Corporation: Short Delivery of Stores.*—The Permanent Secretary stated that it was intended to make an early approach to the Nigerian Railway Corporation.

### Health

73. *Paragraph 87: Excess Expenditure.*—No definite reason was adduced as regards why these adjustments were not put through before the Accounts were closed and the matter was not pursued as it was clear that this was an isolated incident.

74. *Paragraphs 88, 89 and 90: Overpayments and Queries.*—The Committee discussed the causes leading up to these overpayments with the Acting Permanent Secretary and suggested possible remedial measures. All have been recovered or are being actively pursued. In the case of the Junior Service type contracts awarded to three Senior Service officers it was accepted that the Ministry should have seen the error and returned the contracts to the Public Service Commission.

75. *Paragraph 91: Accidents to Vehicles.*—All but two of the cases in the Report have been finalised. The Acting Permanent Secretary outlined the steps already taken to minimise future cause for criticism.

76. *Paragraphs 92 and 93: Boards of Survey.*—The Committee was informed that delays were admitted and that every possible step was being taken to improve matters.

77. *Paragraph 94: Hadejia Hospital.*—The dispensary has been re-organised and the records brought up to date. A recent Board of Survey revealed no deficiencies.

### Information

78. *Paragraph 95: Excess Expenditure.*—It was admitted that there had been shortcomings in vote control. The representative of the Ministry informed the Committee that he was satisfied that no excess expenditure should ensue in the 1965-64 accounts.

79. *Paragraph 96: Arrears of Revenue.*—All but one of the returns have now been submitted. Outstandings in respect of Catering Rest Houses have increased. Provincial Secretaries have been asked to assist in collection, failing which legal action will be considered at Ministry Headquarters.

80. *Paragraphs 97 and 98: Stores Re-organisation.*—The Committee was advised that stock and store records in Kaduna were now in order. In regard to Zaria, the majority of the recommendations of the Board of Enquiry have been implemented and the remainder are under discussion with the Ministry of Finance.

81. *Paragraph 99: Catering Rest House, Yola.*—The Provincial Secretary has informed the Ministry that the present barman is properly bonded and, in addition, the Ministry has circulated instructions on control of cash at Catering Rest Houses.

82. *Paragraph 100: Plateau Catering Rest House.*—A deficiency of £45 was made good by the bar staff. The Committee was informed that the accounting records have been placed on a proper basis.

83. *Paragraph 101: Catering Rest House, Sokoto.*—The Ministry is now taking urgent steps to finalise this long outstanding case.

84. *Paragraph 102: Information Centre, Minna.*—A reply has been sent.

#### Internal Affairs

85. *Paragraph 103: Excess Expenditure.*—The Permanent Secretary outlined the measures instituted to ensure that liabilities were properly taken and vote books regularly reconciled with Treasury records. He hoped that there would be no further cause for complaint.

86. *Paragraph 104: Arrears of Revenue.*—After further investigation, arrears presently outstanding for the Printing Division are £441. Those for hire of Ministry Vehicles amount to approximately £1,500 most of which is owned by other Ministries. If the latter continue to ignore the need for payment the intention is to instruct the Accountant-General to debit the appropriate vote and advise the Ministry concerned.

87. *Paragraph 105: Boards of Survey.*—Difficulty is being experienced in disposing of boarded duplicators and typewriters. Where these cannot be sold by tender they will be auctioned.

#### Justice

88. *Paragraph 106: Excess Expenditure.*—The excess expenditure was caused by an unadjusted misclassification. The Acting Permanent Secretary advised the Committee that proper reconciliation would be effected in future.

### Land and Survey

89. *Paragraph 107: Excess Expenditure.*—The Permanent Secretary admitted that misclassifications could have been detected earlier if reconciliation had been properly carried out whilst additional liabilities has been accepted against item 1 when it was known that the vote was exhausted. The Committee was advised of steps taken to prevent repetition.

### Local Government

90. *Paragraph 108: Excess Expenditure.*—The excess expenditure under Head 250 was, in the main, due to a late decision to limit expenditure on Provincial Council Meetings. The Committee accepted this explanation. In regard to Head 251, estimated savings as at 1st November, 1962 were utilised to provide grants for the Ahmadu Bello University and, in the event, it is understandable that the estimate did not prove to be entirely accurate.

91. *Paragraph 109: Government Advance Accounts with Native Authorities.*—In view of the large amount outstanding the Committee recommends that early attention be given to the clearance of these accounts. It appreciates that the main difficulty lies in obtaining evidence to support claims against Government.

### Social Welfare and Co-operatives

92. *Paragraphs 110 and 111.*—In regard to the two officers seconded to the Sports Commission, this type of loss cannot recur because the Commission's finances have been absorbed into the Ministry's normal vote routine. The overpayment of £1,529-19s-4d referred to in the Audit Report was caused by administrative misunderstandings between several Ministries and is an isolated incident. The Permanent Secretary, Ministry of Social Welfare and Co-operatives, has submitted his recommendations to the Ministry of Finance. In regard to the post of Assistant Registrar (Banking) there was another misunderstanding between the Ministry and the Ministry of Establishments and Training. The latter's Permanent Secretary informed the Committee that in future responsibility for checking indents would be with him.

93. *Paragraph 112: Losses of Co-operative Societies' Funds.*—The Permanent Secretary informed the Committee that in future prompt action would be taken on loss reports. The cases referred to in the Audit Report had either been finalised or were being actively pursued.

### Trade and Industry

94. *Paragraph 113: Arrears of Revenue.*—The Committee was advised by the Ministry representative that a decision would shortly be reached whether these arrears could be recovered or should be recommended for write-off.

### Works

95. *Paragraphs 114, 115 and 116: Overpayments and Audit Queries.*—Apart from two items, all the overpayments of salaries and allowances had been recovered

and the Committee discussed ways and means of minimising recurrence. It is of the opinion that the centralised system of payment of salaries and allowances recently introduced will have an immediate impact. The outstanding overpayment of £630 is being recovered by instalments.

96. *Paragraph 117: Arrears of Revenue.*—The Permanent Secretary informed the Committee that, in his opinion, the returns contained appreciable inaccuracies and also a considerable number of small amounts which should be recommended for write-off. He intended to undertake an early scrutiny of all the arrears in order to rationalise the position. In regard to the general question of Water Rates Returns the Permanent Secretary, Ministry of Finance, informed the Committee that the Ministry of Works was recently advised that the responsibility for supervision of collection and preparation of returns lay with it.

97. *Paragraph 118: Yard Superintendent, Zaria.*—Police action continues and these losses have not yet been recovered. The Permanent Secretary stated that remedial action had been taken to revise the accounting shortcomings at Zaria.

98. *Paragraph 119: Yard Superintendent, Kaduna.*—The intention is that the Ministry will post an additional Accountant to correct the matters complained of in the Audit Report. So far there is no indication of any actual loss of stores.

99. *Paragraph 120: Provincial Engineer, Yola.*—The Committee was informed an Accountant was sent to Yola and he has investigated the matters referred to in the Audit Report. The Permanent Secretary is satisfied that there is now no cause for complaint. Action on the thefts has been finalised.

100. *Paragraph 121: Losses of Fuel, Kano.*—The Permanent Secretary admitted that if more prompt action had been taken in implementing the recommendations arising from a previous loss of a similar nature this particular loss might not have occurred. The Committee expresses concern that, at this late date, it has not proved possible to consider disciplinary action against those supervising officers by whose neglect this loss has been facilitated. The reason given that it is because the Board of Enquiry has not submitted its final report is not adequate.

101. *Paragraph 122: Accidents to Vehicles and Machinery.*—Action has been completed in all cases except that of the Crankshaft Grinder. This particular case has been outstanding for over four years and could have been finalised had it been pressed with more determination in the early stages.

### General

102. *Paragraphs 125/6: Self Accounting.*—The Committee is pleased to note that it is the eventual intention of Government to convert the accounting routines in Ministries and Offices to a self-accounting basis. It understands the practical difficulties involved, particularly as regards staffing in both the accounting and audit cadres, and agrees that it will be necessary to progress by stages.

**Capital Development Fund Accounts, 1960-61**

103. The excess expenditure referred to in paragraph 2 of the Audit Report has been cleared. In the case of the considerable number of items detailed in paragraph 3, where the Latest Estimated Total Costs have been exceeded, the Committee is of the opinion that the procedure for the Revision of this item requires re-consideration by the Ministry of Finance.

**Other Accounts**

104. The Committee has no further comment to make on the Accounts recorded in paragraph 1 above and sees no reason why these should not be accepted by the Legislature.
