Notes.—The British Protectorates, other than the above, are included in the main body of this Volume, and not in the Appendix.

A statement is given on pp. xii-xviii, showing the bases of the Statistical Values adopted for Imports and Exports in the Trade Returns of the various British Self-Governing Dominions, Crown Colonies, Possessions, and Protectorates.

STATEMENT showing the BASES of the STATISTICAL VALUES adopted for IMPORTS and EXPORTS in the TRADE RETURNS of the various BRITISH SELF-GOVERNING DOMINIONS, CROWN COLONIES, POSSESSIONS, and PROTECTORATES.

[Compiled from information received from the various Colonial Governments.]

**STRAITS SETTLEMENTS :—**

**IMPORTS :**

The values given by European importers represent the invoice value of the goods, inclusive of insurance, freight and value of packages (C.I.F.) at the port of despatch, but not of any charges in the Straits Settlements. Native importers declare the price ruling in the Straits Settlements markets.

[The cost of freight, insurance and packing is shown on the invoices, which are not inspected, except in case of obvious error.]

**EXPORTS :**

The value of the goods is the "market price" in the Straits Settlements, exclusive of shipping charges, as declared by exporters.

**LABUAN :—**

**IMPORTS :**

The values of the goods are those at the place of purchase, *exclusive* of insurance, freight, and value of packages.

**EXPORTS :**

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

**CEYLON :—**

**IMPORTS :**

The values given include the invoice value of the goods, freight, insurance, and value of packages (C.I.F.).

When the charges for freight, &c., are not known, an addition of 10 per cent. to the invoice values is made on ordinary cargo in lieu of composite charges; the addition is higher in the case of glassware, beads, &c. (Sec. 42 of Ord. No. 17 of 1869.)

Where no reliable values can be ascertained, as in the case of certain rated articles imported by Native traders, an average price is officially fixed for calculating the value of the goods.

[The Ceylon Government states that the cost of freight, &c., entered on approved invoices is accepted.]

**EXPORTS :**

The values declared by the exporters are accepted by the Customs Authorities (except in the case of cocoa, coffee, cinchona bark, coir, coconut oil, cinnamon, plumbago, tea, and horns of deer and sambur, the values of which are ascertained annually from the Ceylon Chamber of Commerce). (Sec. 51 of Ord. 17 of 1869.)

**MAURITIUS :—**

**IMPORTS :**

The values of the goods are those at the place of purchase, inclusive of insurance, freight, and value of packages (C.I.F.).

When the cost of freight, &c., is not shown on the invoices, a percentage is added to each description of goods for freight, &c., which is calculated on information obtained from the mercantile community.

[The Mauritian Government states that there is no law in force dealing with valuations.]

**EXPORTS :**

The value of the goods on the market is given, exclusive of shipping charges.

**SEYCHELLES :—**

**IMPORTS :**

The values of the goods are those at the place of purchase, *exclusive* of insurance, freight, and value of packages

[The Seychelles Government adds that the cost of freight, &c., is not entered on the Customs Bills.]

**EXPORTS :**

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

**PAPUA, TERRITORY OF :—**

**IMPORTS :**

The values of the goods are those at the place of purchase, *exclusive* of insurance, freight, and value of packages.

**EXPORTS :**

The values are as declared by exporters, "free on board" (F.O.B.) at port of shipment.

**HONG KONG :—**

No complete trade returns are published for this Colony.

**COMMONWEALTH OF AUSTRALIA :—**

**IMPORTS :**

The value of the goods imported represents the amount on which duty is payable, or would be payable, if the duty were *ad valorem*. The value of goods subject to duty is taken to be the "fair market value" in the usual ordinary commercial acceptance of the term, in the principal markets of the country whence the same were exported, free on board (F.O.B.) at the port of *export* in such country, with an addition of 10 per cent. on such market value. (Act No. 6 of 1901.)

The Commonwealth Government states that for the purposes of valuation for duty, the fair market value is based on the price of the goods for home consumption and not on export prices. (Section 154 of Act No. 6 of 1901) and that the "value for duty" is the value taken for statistical purposes, including, according to a Memorandum issued by the Commonwealth Customs Department, on November 16th, 1908, :—

Inland carriage, coastal freight and other charges (including lighterage), incurred in conveying the goods to and placing them on board the exporting vessel.

Cost of labour and materials (except outside packages) used in packing, including flock, kapok, straw, and other inside packing.

Discount for cash shall not in any case be allowed in deduction of the fair market value. (Secs. 55, 56 and 58 of Act No. 36 of 1908.)

The value of all *other* goods includes freight and charges (C.I.F.) to time of arrival at port of discharge.

(a) i.e., between Singapore, Penang (including Dindings) and Malacca, and, in 1908, also Labuan and the Christmas and Cocos Islands, which were treated in the Customs Returns, for the first time, as forming part of the Colony of the Straits Settlements. For the Inter-Settlement Trade, see the next Table.

(b) It is stated in the original Returns that "Imports represent goods sent to the different Settlements for consumption and distribution, but do not include those articles sent to other countries via Singapore and Penang, either when transhipped direct or temporarily stored."

"The first port of shipment is generally accepted as denoting the country of production, and Switzerland, for instance, which has no seaboard, does not appear in the returns."

"Produce is frequently shipped to Europe on optional bills of lading, and the first port stated in such cases taken as denoting the country of consumption but in any comparison of such goods it is more accurate to treat the Continent of Europe as a whole."

(c) Excluding copper coin.

(d) Including the Christmas and Cocos Islands in 1908.

(e) Labuan was treated in the Customs Returns, for the first time, as forming part of the Colony of the Straits Settlements in 1908.

In 1906 and 1907, the value of the trade of Labuan (including trade with other parts of the Colony of the Straits Settlements) was as follows:—

*Note.*—By Act No. 17 of 1906, preferential treatment was granted (from 1st October, 1906) to certain goods, the produce or manufacture of the British Colonies and Protectorates forming the South African Customs Union (*viz.*, Cape Colony, Natal, Orange River Colony, Transvaal, Swaziland, Basutoland, Bechuanaland Protectorate, and Southern and North-Western Rhodesia). The duties on such goods were, for the most part, 25% lower than the rates leviable under the general tariff.

(a) The 'Customs Tariff Act, 1908,' which was finally assented to on June 3rd, 1908, was introduced into the Commonwealth House of Representatives on August 8th, 1907, and came into operation immediately.

The original tariff proposals were subjected to various amendments during the passing of the Bill through the Commonwealth Parliament.

Provision is made in the Act for the preferential treatment of certain goods imported into the Commonwealth when the produce or manufacture of the United Kingdom—provided that the goods are shipped in the United Kingdom for Australia and not transhipped, or, if transhipped, then only if it is proved that the goods have not, since they were shipped in the United Kingdom, been subjected to any process of manufacture.

(b) The term "*super face*" means the superficial measurement of those surfaces (except edges) of the timber actually dressed or partly dressed.

(c) Including drawbacks and refunds of duty—allowance having been made for Inter-State transfers under Section 93 of the Constitution Act of 1900.

(d) Excluding drawbacks and refunds of duty.

**EXPORT DUTIES.**—In Queensland a Royalty of 5s. per ton was payable on Guano exported. There were no Export Duties levied in any other State of the Commonwealth.

AGRICULTURE.—There are no agricultural statistics available. Mealies (but of a poor quality unfit for oversea export) and Kafir corn were reaped in abundance.

*Note*—For amount of duty collected on various articles imported, see Table No. 17 on the next page.

(a) The countries constituting the South African Customs Union were the Cape of Good Hope, Natal, Orange River Colony, Transvaal, Basutoland, Bechuanaland Protectorate, Swaziland, Southern Rhodesia, and North-Western Rhodesia. For the Import Tariff of North-Eastern Rhodesia, see the next Table.

Preferential treatment was accorded goods imported into British South Africa, the produce or manufacture of the United Kingdom, Dominion of Canada, Commonwealth of Australia, and the Dominion of New Zealand during the year 1908.

Provision was made in the tariffs for Southern and North-Western Rhodesia to grant, upon all goods and articles, the growth, produce, and manufacture of any part of His Majesty's Dominions or of any British Protectorate, a rebate of the Customs Duties payable under the above tariffs equal in amount to the difference between the said duties payable, as aforesaid, and the highest duties which it was permissible to impose under Clause 47 of the Southern Rhodesia Order in Council, 1898, or Clause 15 of the North-Western Rhodesia Order in Council, 1898, respectively. The effect of these clauses was to reduce the duties on some articles of British production imported into S. and N. W. Rhodesia to rates somewhat lower than those leviable under the South African Customs Union tariff.

All raw produce of South Africa imported overland, and all articles grown, produced, or manufactured *within* the Customs Union, were free of duty, with the exception of blasting compounds, spirits and beer, and also, from 15th August, 1908, patent medicines and sulphuric acid should a duty be imposed under Article XVI. of the Convention of 1906, as amended in 1908, under which a provision is made that an import duty may be imposed on these articles when the produce or manufacture of any other Colony or Territory within the Union, provided that such duty is not in excess of any excise duty leviable on them. Where an excise duty is levied, these articles may be removed in bond from one part of the Union to another.

(b) Tobacco, the produce of South Africa, imported overland, free; Sheep dip, 3% *ad val.* if imported under the general tariff, otherwise free.

(c) Wine exceeding 50% of proof spirit to be classed as spirit.

Note.—No Census has, as yet, been taken in the Protectorate, and it is stated in the Uganda Blue Book for 1908-9, that it is at present impossible to arrive at any accurate figures with regard to population, the South and South-West portions of Ankole being not yet under proper administrative control and the Western boundary being in dispute.

(a) It is stated in the Colonial Office List for 1909 that the area of the Uganda Protectorate up to the parallel 5° N. Lat. (but exclusive of the portion of Lake Victoria which lies within the Protectorate) is estimated at 110,000 square miles, but pending the complete survey of the country it is not possible to give the correct area for the whole of the Protectorate. It is, however, estimated to be about 223,500 square miles.

(b) Exclusive of the population lying to the west of the Ruwenzori and the Semliki river (i.e., Buamba and the trans-Semliki Countries, Mboga, &c.).

(c) Exclusive of the population of the Eastern District of the Nile Province (Dodinga).

(a) By an agreement between the British East Africa and Uganda Protectorates, all Import Duties collected at Mombasa on Uganda Imports were credited to East Africa in 1908-9, Uganda retaining her Export Duties on goods entering the British East Africa Protectorate.

It is stated in the Uganda Report for 1907-8 that more than three-quarters of the Customs Duties levied on imports in Uganda were paid to the East Africa Protectorate at Mombasa during that year. Uganda only benefited by the duties levied on goods which entered the Protectorate by way of the Nile and the Congo border.

(b) Contribution made by the Government of the East Africa Protectorate as the share of the postal revenue enjoyed by the combined services of the two Protectorates.

No. 11.—TELEGRAPHS.—There were 2,200, 2,007, and 2,321 miles of telegraph lines open in the Protectorate at the end of 1906, 1907, and 1908, respectively.

A railway, of 3 ft. 6 in. gauge, is under construction from Baro, on the Niger River, via Zaria, to Kano—a distance of 400 miles. The Lagos Northern Extension Railway, via Ilorin, Jebba and Zungeru, will join this line at Minna, on the Baro-Kano Railway.

The extension of the Lagos Railway into Ilorin (Northern Nigeria) was officially opened on 27th August, 1908.

AGRICULTURE.—It is stated in the Report for 1908-9 that the British Cotton Growing Association have about 50 acres at Lokoja under cultivation for experimental purposes.

During the years 1906 to 1908 about 1,000 tons of cotton seed were handled by that Association, who freely distributed selected lots to native growers, with a view to the improvement of native cotton.

Rubber is also grown in the Protectorate, but particulars of production are not available.

## SOUTHERN NIGERIA.

[The designation of the Colony of Lagos was changed to "Southern Nigeria" by Letters Patent, dated February 28th, 1906—the provisions of which came into force on May 1st, 1906. From the latter date the Colony and Protectorate of Southern Nigeria were placed under the same administration and divided into three Provinces (*viz.*, the Western Province which was formerly the old Colony of Lagos, and the Central and Eastern Provinces which embrace the boundaries of the Protectorate of Southern Nigeria).

(a) Population of Lagos Island and Harbour and Ebute Metta only. A census of the several districts of the Colony was not taken in 1901 as this, it is stated in the Lagos Report on the Blue Book for 1902, "would have entailed a large expenditure of money." The population of the Western Province at the Census of 1901 was estimated at 1,888,847 persons.

(b) The *white* population only.

(c) It is stated in the S. Nigeria report for 1908 that of this area of 77,260 square miles, 10,906 square miles remained unexplored.

Notes.—The importation of goods manufactured or produced wholly or in part by prison labour, or which have been made within or in connection with any prison, jail, or penitentiary is prohibited.

As regards *under-valued* goods it is provided, under Act No. 11 of 1907, which came into force on November 30th, 1906, that if the export or actual selling price to an importer in Canada is less than the fair market value of such article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada, there shall, in addition to the duties otherwise established be levied, collected, and paid on such article on its importation into Canada a *special* [or dumping] duty equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption, but such special duty shall be levied on such article, although it is not otherwise dutiable. The special duty is not to exceed 15% ad val. in any case, and the following goods are exempt therefrom—goods whereon the duties otherwise established are equal to 50% ad val.; goods of a class subject to Excise duty in Canada; sugar refined in the United Kingdom; also binder twine, or twine for harvest binders, manufactured from New Zealand hemp,istle, or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply, and measuring not exceeding 600 feet to the pound.

Conversions into £ sterling have been made at the rate of 4s. 1½d. per dollar.

(a) Certain articles the produce, or manufacture of the United Kingdom and certain British Possessions, when imported direct from any British country were entitled, under the British Preferential Tariff, to preferential treatment at various fixed preferential rates of duty.

Every manufactured article to be admitted under the British Preferential Tariff must be *bonâ fide* the manufacture of a British country entitled to the benefits of the British Preferential Tariff, and a substantial portion of the value of the manufactured article must have been produced by labour in one or more of such countries.

The countries, the products of which were entitled to preferential treatment, were—

The United Kingdom.	British Guiana.
British India.	British West India Islands.
Straits Settlements.	Dominion of New Zealand.
Ceylon.	South African Customs Union.
Bermuda.	

Goods, the produce of *Germany*, were subject to a *surtax* of ¼rd. of the duties leviable under the General Tariff during the above-mentioned year.

In addition to British Preferential and General Tariffs provided for in the Tariff Act of 1906, provision is also made for an *intermediate* Tariff (i.e., a Tariff imposing, for the most part, duties lower than under the General Tariff, but higher than under the British Preferential Tariff) on goods the produce or manufacture of any country in consideration of reciprocal benefits satisfactory to the Governor in Council. This intermediate Tariff was not, however, applied to the products of any country during the year ending the 31st March, 1909.

(b) By the French Treaty Act of 1894, and the Japanese Treaty Act of 1906, non-sparkling wines when of French or Japanese origin and containing not more than 26% of spirit, and all sparkling wines of French or Japanese origin were exempted, in 1908-9, from the additional duty of 30% ad val. By the same Treaties, the duties charged on common soaps and Castile soaps of French or Japanese origin were reduced by one-half, and the duties on nuts of French or Japanese origin were reduced by one-third. The advantages granted to France and Japan, with respect to its commerce with Canada, extended to Great Britain, the British Possessions, and certain other foreign countries which were entitled by Treaty with Great Britain to like advantages.

A duty of 25 cents. per gall. only was levied on wines of all kinds (except sparkling wines), containing not more than 40% of spirit of the strength of proof, when the produce or manufacture of any British Colony or Territory in the South African Customs Union.

No. 32.—EXPORT DUTIES.—The British Columbia Acts Nos. 37 of 1900 and 49 of 1908 provide for the imposition of a tax, payable by owners of coal mines or coke ovens in British Columbia, on coal and coke shipped, exported, or in any way delivered from the coal mines or coke ovens. The following are the taxes levied :—

Coal (except on shipments to coke ovens in the Province)—5 *cts. per ton* (2,240 lbs.) to 30th June, 1908, then 10 *cts.*  
 Coke—9 *cts. per ton* (2,240 lbs.) to 30th June, 1908, then 15 *cts.*

*Note.*—The Act further provides that the above taxes are to be in addition to any royalty imposed, but in substitution of taxes upon the land from which the coal is mined and of taxes upon the personal property used in working coal mines or coke ovens.

An Ordinance passed on 21st May, 1902, provides that a *royalty* of 2½% *ad val.* shall be levied on all "GOLD sought to be shipped from the Yukon Territory." For the purpose of estimating such *royalty* the gold shall be valued at \$15 *per ounce.*

No. 21.—TELEGRAPHS AND TELEPHONES.—A Government line, 97 miles in length, fitted with both Telegraph and Telephone instruments, was open in each of the Years 1906, 1907, and 1908.

A Telephone Line, 164 miles in length, was also open in each of those years. In addition, there are also telephone services in connection with the tramways at Stann Creek and Sennis Rivers in the Toledo District.

No. 22.—RAILWAYS.—The construction by the Government of the "Stann Creek Railway" was commenced in the early part of 1907.

This railway, which has a gauge of 3 feet, starts from a deep-water pier at Commerce Bight, Stann Creek, and will extend into the interior for about 25 miles. It is being constructed for the primary purpose of conveying bananas and other produce to the coast for shipment.

The first section (15 miles) of the line was opened for traffic on the 17th October 1908, but it is stated in the British Honduras Report for the year ended 31st March 1909 that "very little use of the railway was made by the public before the end of the year." The cost of the construction is estimated at \$500,000.

No. 23.—TRAMWAYS.—There are two tramways in the Colony (one in the Stann Creek and the other in the Toledo District) open for public traffic, having a total length of about 12 miles in 1906, 1907, and 1908. These tramways are principally used for the carriage of bananas from the interior to the coast for shipment.

(a) It is stated in the original returns that prices in the Cayo District are generally much higher than those in the other Districts, owing to its remoteness, to the lack of proper facilities of transport, and, in the dry season, to the inability of the motor launches to reach the Cayo. The prices in other Districts are stated to differ very little from those quoted for Belize.

(a) Under an Annex to the Convention of the 4th June 1878 between Great Britain and Turkey, the former Power has undertaken to pay to the Porte annually a sum representing the excess of revenue over expenditure calculated on the average of the five years preceding the date of the Convention, excluding the produce of the State and Crown Lands let or sold during that period.

The amount to be paid has been determined to be £87,686 per annum. Under the same Annex, a sum of £114 per annum has also become payable since 4th September 1884 when the Cyprus Government took over the administration of the Lighthouse Service in the island. This sum represents 22% of the receipts of the Ottoman Lighthouse Administration, which the Sublime Porte enjoyed under the concession granted the Company for lighting the coast of Cyprus.

By a further Agreement of 3rd February 1879, a sum of £5,000 is to be paid annually to the Porte in respect of the produce of State Lands.

In addition to the above sums, amounting to £92,800, there is an obligation under the Convention of 1878 to deliver annually at the Salt Lakes 4,166,220 oke of salt, if demanded by the Porte. (An oke = 2·8 lbs.)

Note.—It is stated in the Customs Report for 1907 that, for the first time, the trade between the several States of the Federation has not been recorded. It is impossible to state to what extent the statistics have been affected, but some of the returns are sensibly less than they would have been if inter-state movements of Merchandise and Bullion and Specie had been registered as in years prior to 1907.

Those foreign dutiable imports landed, in the first instance, at an "Out-station" pay the ordinary foreign imports tariff. The above specified duties are levied when any of the articles named are imported into an out-station from Kuching, from another out-station, or from another port, but such duties are not leviable in Kuching.

(b) Included with the amounts collected on "guns, &c.," "jars" and "salt" shown on the previous page.

AGRICULTURE.—The area under *coco nuts* planted by white planters amounted, in July 1908, to nearly 10,000 acres, and the area under *rubber* (*hevea braziliensis*) to about 300 acres.

There were also 60 acres under *cotton* at the end of March 1908—the quantity of cotton exported during the year ended 31st March 1908 being 50 bales and 66 bags.

In consequence of the large number of labourers required for growing and harvesting cotton, it is not expected by the Protectorate Authorities that the above acreage under cultivation will be much extended.

Sisal hemp is undergoing experimentation.
