(b) Subsequent to the taking of the England and Wales Census of 1891, it was found that in filling up the new type of enumeration book introduced at that Census, certain enumerators had shown a tendency to insert a proportion of entries relating to the ages of males in the column of the book appropriate to the ages of females. In Tables Nos. 4, 16 and 17 the figures in respect of sex and age distribution for 1891 have been adjusted with a view to counteracting the effect of this error.

NOTE.—For definition of the term "house," which has varied slightly from time to time, reference should be made to the Census Reports. Prior to 1921, the figures for England and Wales relate to all habitations, whereas for 1921 and 1931 the figures relate in respect of private family habitations only.

(a) Comparable figures are not available.

(b) A Census of Ireland was not taken in 1921 or 1931.

(c) Excluding Irish Free State.

(d) Preliminary figures. Subject to amendment.

NOTE.—For the purpose of this return each self-contained flat or tenement in a multiple building is counted as a separate house.

(a) Houses built with State Assistance. Information is not available in regard to the number of houses built by Local Authorities without State Assistance in these years.

(b) The figures in this column exclude houses having a rateable value exceeding £78 (or £105 in the Metropolitan Police District).

(c) This figure is for the half-year September, 1922, to March, 1923.

(d) Records up to and including 1934 were only compiled yearly to 31st December, and these figures are for the years ending on that date.

(e) Inclusive of houses built by the Second Scottish National Housing Company (Housing Trust) Limited, on behalf of Government: 1,652 in 1927, 910 in 1928, and 10 in 1929.

(f) This figure includes 200 houses built under Guarantee under Section 3 of the Housing (Financial Provisions) (Scotland) Act, 1933, and is for the year to 31st March, 1935. Quarterly figures have been obtained only since the beginning of 1934, and 1935 is the first year for which the figure to 31st March is available. This figure, therefore, overlaps the figure shown for 1934 by 5,098 for the nine months March–December, 1934.

(a) Exclusive of students at extra-mural classes. For numbers of students attending such classes recognised for grant by the Board of Education and supervised by Universities and University Colleges, see Table No. 46, p. 60.

(b) A new classification for "advanced" students was introduced in 1922-3, which led to the omission from this classification of a considerable body of students formerly included under it, and their transfer mainly to the "Diploma" columns.

NOTES.—Capital sums received for lands, buildings, and endowment, etc., are not included under income; the expenditure of capital funds on lands, buildings and equipment is not included under expenditure.

The accounts of the Colleges at Oxford and Cambridge are not included above.

See also general note to Table No. 34, p. 50.

(a) In 1935-6, the figures for the Manchester College of Technology included under income above were confined to sums applicable to university work only. Had these figures covered both university and non-university work as in former years, the total of grants from local authorities in 1935-6 shown above would have been greater by about £85,000.

NOTE.—The particulars in this table for the year 1923 and subsequent years relate to the 31st March, or, in the case of sub-heads 3, 4, 9, and 10, to the year ended 31st March. For 1913 the figures relate to the school year (or the last day of it) which ended within the year ended 31st July, 1913.

(a) A department is a group of children under a separate head teacher, a school often consisting of more than one department.

(b) These figures should be used with caution as there is reason to believe that, owing to a misunderstanding of the directions for making the returns, a considerable number of pupils transferred to public elementary schools providing special courses of advanced instruction were incorrectly returned as leavers.

Source (Tables 40 to 54).—Furnished by the Board of Education. The information relating to University education has been supplied by the University Grants Committee. Particulars of Agricultural and Veterinary education have been supplied by the Ministry of Agriculture and Fisheries.

(b) In 1935-6 the figures for Manchester College of Technology included under income above were confined to sums applicable to university work only. Had these figures covered both university and non-university work as in former years, the total of Grants from Local Authorities in 1935-6 shown above would have been greater by about £85,000.

(c) Exclusive of 311 students in 1922-3 and 80 in 1923-4 for whom particulars under sub-heads (7) to (11) were not available.

(d) For the Universities of Oxford and Cambridge only Professors and Readers are included in these figures.

(e) Capital sums received for lands, buildings, endowments, etc., are not included under income, and the expenditure of capital funds on lands, buildings, and equipment is not included under expenditure. The accounts of the Colleges at Oxford and Cambridge are not included above.

No. 60—TRAINING

	1913	1923	1924	1925	1926	1927
1. Number of students taking an approved full-time course of training (a)	(b) 2,570	3,316	3,187	3,061	3,201	3,096
2. Percentage of men	19·7	18·1	16·0	13·3	15·5	18·1
3. Number of students who completed an approved full-time course of training during the year	(b) 1,304	1,050	1,773	1,619	1,790	1,891
4. Percentage of men	17·3	24·1	21·5	19·1	18·3	23·0

NOTES.—The particulars relate to the years ended 31st July, and to courses of training for the Teacher's General Certificate, the Teacher's Special Certificate and the Teacher's Technical Certificate.

The decrease in the number of students in training during recent years is due to an increased proportion of the students taking the post-graduate one-year course and to the restriction of the numbers latterly admitted to training.

(a) The various enactments relating to national health insurance were consolidated in the National Health Insurance Act, 1936. Similar legislation applies to Northern Ireland.

(b) The membership of Approved Societies from 1922 onwards represents the number of members on the books of Societies at the end of the year (including those temporarily remaining insured persons under Section 3 or Section 56 of the National Health Insurance Act, 1924, after ceasing to be employed). The figures for the number of Women for the years 1923 onwards for England and Wales and 1922 onwards for Scotland have been revised and are not strictly comparable with those given for previous years. For earlier years, the number of members is based on the number of contribution cards surrendered, increased by the estimated number of members serving in H.M. Forces.

(e) Exempt persons were, after payment of the qualifying number of contributions, eligible for medical and sanatorium benefits from 1914 to 30th April, 1921 (31st December, 1920, in Scotland), and for medical benefit only thereafter. As from 1st October, 1930, exempt persons in Northern Ireland ceased to be entitled to benefits.

(d) The figures for 1927 and prior years are for persons over age 70.

(e) In this and the following Table the 1914 figures cover 12th January to 31st December, 1914. The later figures relate to calendar years.

(f) Incomplete figures. Number of persons over age 70 not known.

(g) The figures for these years are provisional and subject to adjustment.

(a) The various enactments relating to widows', orphans' and old age contributory pensions and old age (non-contributory) pensions were consolidated in the Widows', Orphans' and Old Age Contributory Pensions Act, 1936, and the Old Age Pensions Act, 1936, respectively. Similar legislation applies to Northern Ireland.

(b) In 1914 the full rate was 5s. and the reduced rates 4s. to 1s. In subsequent years the full rate has been 10s. and the reduced rates 8s. to 1s.

(c) Inclusive, in 1914, of particulars for territory which is now the Irish Free State.

(d) The alteration in the means qualification in the Old Age Pensions Act, 1924, resulted in an increase, both in the number of pensions and in the proportion of pensioners paid at the maximum rate. This Act applies to Great Britain only.

(e) Old Age Pensions paid from age 70 by virtue of the Contributory Pensions Act, 1936. See note (a).

(a) The various enactments relating to widows', orphans' and old age contributory pensions, and old age (non-contributory) pensions were consolidated in the Widows', Orphans' and Old Age Contributory Pensions Act, 1936, and the Old Age Pensions Act, 1936, respectively. Similar legislation applies to Northern Ireland.

(b) Inclusive of persons temporarily remaining insured after payment of contributions ceased.

(c) Insured widows under age 65, and all insured persons aged 65 and over are also included in the estimated numbers insured.

(d) Contributory pensions are payable to the widows and children of men who, being under the age of 70 on 4th January, 1926, when the Contributory Pensions Scheme came into force, died on or after that date. They are granted subject to the satisfaction of certain conditions as to insurance and the number of contributions paid.

(e) Non-contributory pensions are payable to the widows and children of men in the insurable class who, having died or attained the age of 70 before 4th January, 1926, when the Contributory Pensions Scheme came into force, never contributed under the scheme. They are payable—

(1) Under the Act of 1925 to widows with children who were under the age of 14 at 4th January, 1926, and continue in payment until the youngest child attains the age of 16 (or until the death or re-marriage of the widow if that occurs earlier).

(2) Under the Act of 1929 to widows aged 55 or over (*see note (g)*) and continue until the widow attains the age of 70 (or until her death or re-marriage if that occurs earlier).

(f) Old age pensions payable between the ages of 65 and 70 came into force on 2nd January, 1928.

(g) Pensions for widows over 55 years of age of men who died or attained the age of 70 before 4th January, 1926, became payable—

(1) As from 1st July, 1930, to widows then over 60.

(2) As from 1st January, 1931, to those then between 55 and 60.

(3) As from the 55th birthday to the remainder.

(h) Figures for these years are provisional and subject to adjustment.

(i) Estimate.

NOTE.—For amounts received and expended for relief of the Poor, see Table No. 85, p. 93.

(a) Under section 18 of the Mental Treatment Act, 1930, persons are, from 10th July, 1930, not deemed to be in receipt of relief by reason only that they are being maintained as rate-aided patients in mental hospitals. The numbers on 1st January, and 1st July for the year 1931, and subsequent years are included in this table for purposes of comparison with earlier years.

(b) This is the net total after deducting persons counted twice in the preceding columns, as having received institutional as well as domiciliary relief on the days mentioned. For the later years such persons are not included twice in the preceding columns.

(c) Approximate for 1923 and subsequent years [see note (a), page 94].

(d) Not yet available.

(a) The mean numbers shown in this table for any year are the mean of the numbers relieved on or about the 1st January of that year, and on or about the 1st July preceding, except that the number of rate-aided patients in Mental Hospitals on the 1st July, not having been ascertained for any year later than 1916, has for the purposes of the table been taken to have been, in each of those years, a number mid-way between the ascertained numbers for the preceding and succeeding 1st January.

(b) The figures for 1924 and the following years show the "average" number of persons in receipt of relief in the financial year. The averages have been calculated, as regards more than 90 per cent. of those persons, by adding together the numbers in receipt of relief on the same day in each week in the year and dividing the aggregate so obtained by 52 or 53 as the case may be.

NOTE.—For Amount received and expended for relief of the Poor, see Table No. 85, p. 98.

(a) 15th September prior to 1930.

(b) The number of dependants for this group is relatively small. For the years shown in the table, the maximum number was 79, in July, 1935. In July, 1937, the number was 41.

(c) Includes Poor other than Sane. The number of such cases relieved on 1st January, 1937, was 21,224.

(d) Prior to 1921, poor law authorities in Scotland were not empowered to grant relief to able-bodied unemployed persons.

(e) The figures relate to miners whose families were relieved during the coal stoppage.

(f) The decrease in the number of able-bodied unemployed is due to the transfer of certain classes to the Unemployment Assistance Board.

(a) Up to the 31st March, 1930, the Poor Law Authorities were Boards of Guardians, Managers of the Metropolitan Asylum District and Poor Law School and Sick Asylum Districts, and certain Poor Law Joint Committees. After that date they were the Councils of Counties and County Boroughs and certain Joint Committees. Sums expended out of overdrafts and temporary loans on revenue account are included.

(b) Including, up to 31st March, 1930, the grant made under s. 43 (1) (b) of the Local Government Act, 1888, to Boards of Guardians. The grant was met out of rates.

(c) Commencing with 1st April, 1930, expenditure fell on rates and on the Block Grant under the Local Government Acts, 1929, for England and Wales and Scotland.

(d) The monies out of which the precepts of Poor Law Authorities in 1929-30 were met, included grants in compensation for loss of rates under the Agricultural Rates Act, 1929, and under Section 112 of the Local Government Act, 1929.

(e) Including, up to 31st March, 1930, grants charged on the Exchequer contribution accounts of counties and county boroughs.

(f) Includes balances of grants specifically in aid of poor relief which were discontinued in respect of periods after 31st March, 1930. See also note (c).

(g) Including £263,998 in 1934-5 (month of March), and £4,059,822 in 1935-6, grants under the Unemployment Assistance (Temporary Provisions) (No. 2) Act, 1935.

(h) The figures for 1930 and previous years show the transactions of Parish Councils and those for 1931 and subsequent years the transactions of Public Assistance Authorities to whom the Poor Law functions of Parish Councils and District Boards of Control were transferred under the Local Government (Scotland) Act, 1929. The figures prior to 1931 include only the proportion of expenditure in respect of lunatics and mentally defective poor applicable to Parish Councils whereas the 1931 figures include the total expenditure in respect of these classes of poor persons. In 1930 the total expenditure on such persons exceeded the proportion applicable to Parish Councils by £741,000. See also note (c).

(i) Includes expenditure of £722,019 on relief to dependants of coal miners.

(j) The amount paid as compensation for loss of rates under Section 75 of the Local Government (Scotland) Act, 1929, is included under the heading of "Local Rates."

(k) Excludes portion of Pauper Lunacy Grants applicable to District Boards of Control and includes Parish Councils' share of Mental Deficiency Grant.

(l) Includes £390,100 of grant under the Unemployment Assistance (Temporary Provisions) (No. 2) Act, 1935, in respect of the period from 1st March 1935, to the end of the financial year.

(m) Includes £1,632,507 of grant for the whole year under the Unemployment Assistance (Temporary Provisions) (No. 2) Act, 1935.

(n) Excludes portion of contributions from relatives applicable to District Boards of Control

(o) Inclusive, of particulars for territory which is now the Irish Free State.

(p) Includes expenses under the Medical Charities Act, Vaccination Act, Registration of Births, Deaths and Marriages Acts, Superannuation Acts, and National School Teachers Act, etc.

NOTE.—The insane in England and Wales were dealt with under the Lunacy and Mental Treatment Acts, 1890–1930 and in Scotland under the Lunacy (Scotland) Acts, 1857–1913. Mental Defectives in England and Wales were dealt with under the Mental Deficiency Acts, 1913–1927, and in Scotland under the Mental Deficiency and Lunacy (Scotland) Act, 1913. Mental Defectives are classified in the Mental Deficiency Act, 1927, “mental defectiveness” being defined as a condition of arrested or incomplete development of mind existing before the age of 18 years, whether arising from inherent causes or induced by disease or injury. The insane are persons of unsound mind suffering from mental disorder acquired generally later in life.

(a) Most of the insane persons included in this Table (e.g., 89·2 per cent. of them in England and Wales and 85·8 per cent. of them in Scotland, on 1st January, 1937) are included also in Tables No. 80, 81 (two final columns), 82, 83 and 84, pages 93 to 97. The cost of their maintenance in Mental Hospitals was defrayed by Poor Law Authorities.

Sources (Tables 86 to 91).—England and Wales—Furnished by the Ministry of Health. Further particulars are obtainable from the Annual Reports of the Board of Control and, as to expenditure by Local Authorities, from the Annual Returns issued by the Ministry of Health under the title of “Annual Local Taxation Returns” for years prior to 1934–5 and of “Local Government Financial Statistics for 1934–5. (b) The Local Government (Scotland) Act, 1929, abolished District Boards of Control and transferred their functions to County Councils and Town Councils of large burghs. The numbers refer to patients in District Asylums.

(c) These inmates are not "registered" but are included in this table for purposes of comparison.

(d) In Lunatic Wards of Poorhouses.

(e) In Royal and Private Asylums.

(f) The numbers are the Criminal Lunatics maintained since 1st December, 1921, in the Central Criminal Lunatic Asylum, Dundrum, Co. Dublin, as an Agency Service under Section 63 of The Government of Ireland Act, 1920, except in the case of the 1930 figure, the number there given being made up of 16 criminal lunatics confined in the Criminal Lunatic Asylum at Dundrum, and 5 in the new Criminal Lunatic Asylum for Northern Ireland at Londonderry. In January, 1930, these 16 criminal lunatics were transferred from Dundrum and sent to the respective N.I. Asylums of the districts from which the patients originally came and are included in Column 1.

(g) Approximate figures up to and including the year 1934.

(h) Exclusive of Northern Ireland.

NOTES.—The expenditure by Poor Law Authorities on the maintenance of insane persons in County and Borough Mental Hospitals, included in column 1, is also included in Table 85.

Expenditure on the insane in Poor Law Institutions is not distinguished in accounts from expenditure on other persons in those Institutions and is not included in this Table, except in the case of Scotland, for which see note (d).

(a) Up to 1929-30 these grants were mainly grants made through the Exchequer Contribution Accounts of County and County Borough Councils. Those grants ceased to be payable as from the 1st April, 1930, and were merged in the Block Grants under the Local Government Act, 1929.

(b) Up to 1929-30 some unascertained portion of the expenditure in column 4 was met from Exchequer grants under the Agricultural Rates Acts, 1896 and 1923, from the "free balances" of the Exchequer Contribution Accounts of County and County Borough Councils and (in 1929-30) from the transitory grants in compensation for loss of rates. Those grants and "free balances" were applicable in aid of local rates, but were not allocated to specific local services. After 1929-30, the expenditure was defrayed mainly out of rates and the Block Grants under the Local Government Act, 1929.

(c) The figures represent gross expenditure borne on the Vote and do not include expenditure of sums borne on the Votes of other Departments. For 1920-1, expenditure on Rampton Asylum (now closed) is included.

(d) The figures for Scotland are inclusive of expenditure on insane in Poor Law Institutions. In the summary figures for the United Kingdom, shown on the next page, allowance has been made for this expenditure.

(e) District Boards of Control, Parish Councils and Education Authorities prior to 16th May, 1930. County and Burgh Councils from that date.

(f) I.e., Contributions from the Local Taxation Account (Scotland).

(g) Figures relate to years ended 31st December, 1922 to 1936.

(h) From 1930-1 these grants are merged in the general Exchequer contributions payable under the Local Government (Scotland) Act, 1929.

(i) Prior to the setting up of the Government of Northern Ireland these consisted of (i) a capitation grant payable annually out of the Local Taxation (I) Account; (ii) recoupment by the State of actual expenditure on criminal lunatics committed to Mental Hospitals (for 1920-21); and (iii) payment by the Ministry of Pensions in respect of the maintenance of persons (classified as "Service" patients) whose insanity developed after War Service.

After the setting up of the Northern Government (i) the capitation grant referred to above was replaced by a fixed annual payment from the Exchequer of £37,079 representing the average annual amount paid to Mental Hospital authorities out of the Local Taxation (I) Account in respect of the three financial years ended 31st March, 1920; (ii) the amounts received in respect of criminal lunatics were as follows: For 1921-2, £3,118; 1922-3, £2,531; 1923-4, £2,340; 1924-5, £2,444; 1925-6, £2,980; 1926-7, £2,917; 1927-8, £2,739; 1928-9, £2,770; 1929-30, £2,586; 1930-1, £2,653; 1931-2, £3,221; 1932-3, £2,926; 1933-4, £2,846; 1934-5, £2,757 and for 1935-6, £2,853 and (iii) the amounts received in respect of "Service" patients were as follows: For 1921-2, £7,986; 1922-3, £8,570; 1923-4, £6,905; 1924-5, £7,210; 1925-6, £7,580; 1926-7, £7,359; 1927-8, £6,299; 1928-9, £6,935; 1929-30, £6,525; 1930-1, £6,690; 1931-2, £6,827; 1932-3, £6,596; 1933-4, £6,478; 1934-5, £6,261, and for 1935-6, £5,939.

(j) Expenditure in respect of Northern Ireland Criminal Lunatics committed prior to 1922 and since (i.e., up to January, 1930) maintained in the Central Criminal Lunatic Asylum at Dundrum, Co. Dublin, as an Agency Service under Section 63 of the Government of Ireland Act, 1920. Expenditure for 1929-30 includes cost of maintenance of N.I. Criminal Lunatics in Dundrum C.L. Asylum, Co. Dublin, and of those in the N.I. Criminal Lunatic Asylum at Londonderry, established under the Act 20, George V. cap. 29. Thereafter the expenditure is that on the Northern Ireland Criminal Lunatic Asylum at Londonderry.

NOTE.—The entries in this Table must not be read as showing the total numbers of mentally defective persons on the several dates mentioned. Those numbers have not been ascertained and the increase in the aggregate figures indicates increased activity in the administration of the Acts but does not necessarily indicate any increase in the incidence of mental defect. Mentally defective children of school age are not included in the Table unless they have been notified as mental defectives under the Mental Deficiency Acts; on these points and other points the entries in the Table should be read subject to qualifications set out in the Annual Reports of the Board of Control. See also general note to Table No. 86, p. 100.

(a) Prior to the 1st April, 1930, County and County Borough Councils had no duties with respect to mental defectives in receipt of Poor Relief.

NOTE.—The entries in this Table must not be read as showing the total numbers of mentally defective persons on the several dates mentioned. Those numbers have not been ascertained and the increase in the aggregate figures indicates increased activity in the administration of the Act but does not necessarily indicate any increase in the incidence of mental defect. Uncertified mental defectives in receipt of poor law relief are not included in the Table nor are mentally defective children of school age unless they have been certified as mental defectives under the Act of 1913; on these points and other points the entries in the Table should be read subject to qualifications set out in the Annual Reports of the General Board of Control for Scotland. See also general note to Table No. 86, p. 100.

(a) District Boards of Control, Parish Councils and Education Authorities were the responsible local authorities prior to 16th May, 1930.

(b) Figures are not available prior to 1926 and those for succeeding years are approximations.

(a) Up to 1929-30 some unascertained portion of the expenditure in column 4 was met from Exchequer Grants under the Agricultural Rates Acts, 1896 and 1923, from the "free balances" of the Exchequer Contribution Accounts of County and County Borough Councils and (in 1929-30) from transitory grants in compensation for loss of rates. Those grants and "free balances" were applicable in aid of local rates, but were not allocated to specific local services. After 1929-30 the expenditure was defrayed mainly out of rates and the Block Grants under the Local Government Act, 1929.

NOTE.—The prison statistics for Scotland are not altogether comparable with those for England and Wales (Table 104). The main difference is in respect of the inclusion of criminal lunatics and mental defectives, which classes are generally outside the purview of the Prison Commissioners for England and Wales except in so far as they may be committed on remand or for trial or certified after imprisonment. Differences in statistical practice affect the Scottish figures to a relatively unimportant extent as regards death sentences and preventive detention and to a greater extent as regards the heads of expenditure covered in the total shown above.

NOTE.—This table has been constructed to indicate in a very general manner the fluctuations of the numbers engaged in each industry shown. In using the table the figures for the years 1881–1901 must be compared with those in the *first* column for the year 1911, and those in the *second* column of the year 1911 must be used for comparison with 1921 and 1931. Owing to radical changes which have been made in the method of classification only very rough comparisons can be made. The figures for 1881–1911 (*first* column) exclude maintenance staff, clerks, carmen, and certain other occupations common to all industries. The figures for 1911 (*second* column), 1921 and 1931 include all persons engaged in the industry. The numbers are given to the nearest thousand. The proportions engaged have been calculated on the actual numbers.

(a) As from 4th May, 1936, the Unemployment Insurance scheme was extended to include persons in agricultural occupations. It is estimated that the numbers of persons, aged 14-64, insured under the Agricultural Scheme at July, 1936, who are excluded from these tables were 600,000 in Great Britain and 23,900 in Northern Ireland. As from 1st February, 1937, the Scheme was extended to include private gardeners, and at July, 1937, the estimated total numbers aged 14-64 insured under the Scheme were 695,000 in Great Britain and 28,000 in Northern Ireland.

(b) Persons aged 65 and upwards ceased to be insurable under the Unemployment Insurance Acts, as from 2nd January, 1928. The figures for 1928 and subsequent years accordingly relate to persons aged 18 to 64 years inclusive.

(a) At or near end of month.

(b) Persons aged 65 years and upwards ceased to be insurable under the Unemployment Insurance Acts as from 2nd January, 1923. Figures of the numbers of insured persons recorded as unemployed subsequent to that date are therefore not comparable with those for earlier dates. For all practical purposes, however, the percentages unemployed can be regarded as comparable throughout.

(a) Including a number of Unions not specified in the five following columns.

(b) Affected by the general Coal Mining stoppage.

(c) The figures from 1921 onwards exclude pottery trade operatives. From July, 1924, onwards building trade operatives are also excluded from the general average.

(d) The figures from 1922 onwards are averages of the percentages unemployed at the end of each quarter.

(e) This series of figures was discontinued from the end of 1926.

1936 (b)	1,041	4,506,000	802,000	5,308,000

NOTE.—The statistics relate to all organisations of employees which have their head offices in Great Britain or Northern Ireland—including those of salaried and professional workers, as well as those of manual wage earners—and which are known to include among their functions that of negotiating with employers with the object of regulating the conditions of employment of their members. The figures of membership include the membership of Irish Free State and overseas branches (numbering about 70,000 in 1936), but wholly exclude the membership of Unions whose headquarters are situated outside Great Britain and Northern Ireland. Some persons belong to more than one union and are consequently duplicated in the total membership figures, but the amount of duplication is relatively small (estimated at not more than 25,000 in 1936).

(a) The subdivision of the total membership into male and female is partly estimated, as some Trade Unions are unable to state precisely the numbers of males and females comprised within their total membership.

(b) The figures given for 1936 are provisional. Those previously published in respect of earlier years have been revised in accordance with the latest information.

NOTE.—See Note to Table No. 134, p. 150.

(a) The figures in this table relate exclusively to strikes and lock-outs beginning in the years shown, and the figures as to aggregate duration relate to the total loss in working days of such disputes, including the days lost in subsequent years in cases where the strike or lock-out extended over more than one calendar year. The figures of aggregate duration shown differ, therefore, from those in Table No. 134, pp. 150-51, which gives the aggregate duration, within each year, of all strikes and lock-outs in progress in that year, whether beginning in that or an earlier year.

NOTE.— The particulars given relate in most cases to general or district rates of wages recognised by employers' and workers' organisations; in some cases special advances in wage rates have been granted in addition to particular groups of workpeople the effects of which are not included. An explanation of the data used, and of the qualifications attaching to the figures, will be found in an article in the Ministry of Labour Gazette for March, 1935, pages 86 to 88.

(a) The averages are as computed by the Ministry of Agriculture; they include the value of certain allowances in kind.
(b) In addition to the percentages quoted, piece rates of wages were subject to enhancements to compensate for a reduction in hours.

(c) The percentages from 1923 onwards include an enhancement given in compensation for a reduction of hours from 55½ to 48 per week in the cotton industry, and from varying hours to 48 in the hosiery industry. These percentages, therefore, exceed the actual percentage increases over pre-war weekly wage rates.

(d) New list adopted in 1935 resulting in increases for some workers and decreases for others; no further change occurred in 1936.

(e) The percentages given do not include the enhancement of piece rates granted in 1919 when the weekly working hours were reduced. For the higher paid time workers the percentage increases have been less than those quoted. For the years 1928 to 1935 the general advances varied with different firms, and the figures quoted are those applicable in the majority of cases.

(f) In addition to the general advances, basic time and piece rates of wages have been increased, and piece rates were also increased in 1919 in compensation for reduced hours of labour.

(g) These rates were adopted in 1914 to operate in 1915.

(h) The weekly rates are computed by multiplying the hourly rates by the average number of hours in a full ordinary week, the summer and winter hours being taken into account for this purpose.

(i) For 1914 the rates shown are the estimated approximate averages of the rates actually paid; for later dates they are the agreed standard rates, modified for 1928, 1929, 1931 to 1936 by agreed general deductions. The figures for porters and permanent way men relate to the rates in "industrial areas" excluding London.

(a) Inclusive, of particulars for territory which is now the Irish Free State.

(b) Owing to a revision of the industrial groups, the figures given for 1913 are not on exactly the same basis as those for later years for any groups except Metal Extracting, Shipbuilding, Textiles, Food, Drink, Gas and Electricity. For 1924 and previous years, the figures in the Clay, Stone, etc., group include accidents in quarries and pitbanks under 20 ft. deep. For later years statistics of such accidents have been collected by the Mines Department. The number of deaths have been: 1925—8, 1926—7, 1927—6, 1928—12, 1929—8, 1930—6, 1931—9, 1932—7, 1933—9, 1934—6, 1935—8 and 1936—5.

(c) Figures included for Northern Ireland are provisional.

Sources.—Annual Reports of the Chief Inspector of Factories and Workshops issued by the Home Office and information furnished by Mines Department, Ministry of Transport, Board of Trade, Air Ministry and the Government of Northern Ireland.

(a) Subject to minor fluctuations, the number of cases under the Employers' Liability Act, 1880, has steadily diminished since the passing of the Workmen's Compensation Act, 1906. The total number of cases under the former Act taken into court in Great Britain in 1936 was 48, and the total amount of damages awarded £2,670.

(b) Since 1st April, 1928, the net receipts from Fee Stamps have been appropriated in aid of the relative Votes for Civil Services instead of being paid to Exchequer as Miscellaneous Revenue.

(c) Relief for earned income was given for the years 1923-4 and 1924-5 inclusive by deducting one-tenth with maximum deduction of £200 from the total income to be taxed. From 1925-6 to 1930-1, this deduction was increased to one-sixth, with a maximum deduction of £250, and from 1931-2 to one-fifth with a maximum of £300.

(a) Rearranged from 1923-4 in consequence of the institution of a Statutory Sinking Fund under the Finance Act, 1923.

(b) This represents the portion of the total amount paid to the United States Government on the 15th December, 1932 (£23 956,349 7s 4d.) which under normal conditions would be treated as interest. On this occasion, however, His Majesty's Government have reserved the right to treat the whole sum as a capital payment of which account should be taken in any final settlement (Cmd. Paper 4215, and 4217, 1932).

NOTE.—The figures in this Table represent the net receipts approximately. The expression "Net Receipt" means the amount actually collected within the year ended 31st March (no matter for what year tax may have been assessed or charged) less the amount refunded, etc., within the year. It necessarily differs somewhat from the payment into the Exchequer (Exchequer Receipt) in the same year, as shown in Table No. 148, by reason of the time occupied by the remittance of revenue from provincial centres to London.

Source.—See footnote on page 169.

(c) * These debts have been funded (year of funding, if after 1923, marked with an asterisk) and the amounts shown represent the aggregate payments due and outstanding under the respective funding agreements.

(d) As the figures in these columns represent two distinct methods of evaluating the respective debts, a total would have no significance.

NOTE.—As a reduction or repeal of duty as a rule leads to an increased consumption or use of the articles affected, the gain to the taxpayer is usually greater than the loss to the Revenue resulting from such reductions or repeal.
(a) There was no loss of Excise revenue because none was expected if the duties had remained in force, but there is a loss of Customs Revenue so far as duty free home-grown sugar and molasses displace dutiable imported sugar and molasses. The loss was estimated at about 175,000l in 1922-3.

(a) Inclusive of particulars for territory which is now the Irish Free State.

(b) Gross income means the income brought under the review of the Inland Revenue Department before adjustments are made in respect of repairs, empty property, wear and tear of machinery, overcharges in original assessments, certain exempt incomes, etc. In the case of direct assessments under Schedules D and E (including assessments on weekly wage-earners) the incomes coming under review are generally only those in excess of the exemption limit, and it should be borne in mind that the exemption limit has varied during the period covered by the table. For earned incomes the exemption limit was £160 in 1913-4, £150 from 1922-3 to 1924-5, £162 from 1925-6 to 1930-1, and £125 from 1931-2 to 1935-6.

(a) Super-tax was replaced by Sur-tax under the provisions of Part III of the Finance Act, 1927. The assessments to super-tax were based on the statutory income of the preceding year and the tax was payable on the 1st January in the year of assessment. The assessments to Sur-tax are based on the statutory income of the year of assessment and the tax is payable on the 1st January of the following year. (For an explanation of the change see paragraphs 35-37 on pages 57 and 58 of the 71st Report of the Commissioners of Inland Revenue).

NOTE.—The administration and collection of Death Duties in Northern Ireland was transferred to the Government of Northern Ireland from 22nd November, 1921, under the provisions of the Government of Ireland Act, 1920. Movable property situate in one country (Great Britain or Northern Ireland) but passing on the death of a person domiciled in the other country is liable to Estate Duty in both countries. The capital value of such property is therefore included in both sets of statistics above, but double taxation is avoided under the statutory arrangement which authorises the duty paid on such property in the country of situation to be allowed as a deduction from the duty chargeable in the country in which the deceased was domiciled.

NOTE.—No adjustments have been made in respect of alterations of area or authority.

(a) The figures in ordinary type (shown against the rating authorities) in respect of each year after 1928-9 represent the total income from rates, and make up the total shown at the foot of the column. The amounts for rating authorities for the years before 1929-30 were net amounts after making allowance for the precepts paid to the precepting authorities. The figures in italics (shown against the precepting authorities) represent (as in earlier years) the amount of the precepts received from rating authorities: see also note (c). The precepts in 1929-30 were met partly from rates collected by the rating authorities and partly from the transitory grants under the Agricultural Rates Act, 1929, and Section 112 of the Local Government Act, 1929, in compensation for loss of rates, and after 1929-30 partly from rates and partly from the Block Grants under the Local Government Act, 1929. The amount of rates utilised in meeting precepts after 1928-9 cannot be stated.

(b) Including, for each year before 1930-1, about £327,000 received by the Council and paid by them by way of grant to Boards of Guardians under section 43 (1) (b) of the Local Government Act, 1888.

(c) Under the Local Government Act, 1929, Boards of Guardians were abolished as from 1st April, 1930, and their poor law functions were transferred to the Councils of Counties and County Boroughs. In addition, the responsibility for all district roads in rural districts and for certain roads in urban districts was transferred from District Councils to County Councils.

(d) Including sums raised for the managers of the Metropolitan Asylum District and for other Joint Poor Law Authorities but excluding the grant mentioned in note (b).

(e) Under the Rating and Valuation Act, 1925, Overseers were abolished as from 1st April, 1927. Rates raised to meet expenses formerly borne by Overseers are for the year 1927-8 and later years included against Town and District Councils.

(f) Including £244,356 rates raised to meet expenses of Assessment Committees constituted under the Rating and Valuation Act, 1925. Rates to meet the corresponding expenses were, prior to 1927-8, mainly included against Boards of Guardians.

(g) Including sums in respect of non-rateable Government property.

(h) The amounts shown for years prior to 1923-4 represent the assessable value under the Agricultural Rates Act, 1896, i.e., the rateable value under the Union Assessment Acts of all property minus one-half of the rateable value of agricultural land. The amounts for the years 1923-4 to 1927-8 represent the assessable value under the Agricultural Rates Act, 1923, i.e., the rateable value under the Union Assessment Acts of all property minus three-quarters of the rateable value of agricultural land.

(i) Partly rateable value under the Rating and Valuation Act, 1925, and partly assessable value under earlier Acts. The figures correspond with those given as assessable values for previous years and as rateable value for subsequent years. The figure of £292,373,015 in April, 1929, which included £7,435,770 in respect of agricultural hereditaments on which no rates were receivable, was reduced on the 1st October, 1929, by the derating provisions of Part V of the Local Government Act, 1929, to about £255,274,000.

(j) As from 1st October, 1929, agricultural hereditaments have no rateable value, and the net annual value of these hereditaments, which on 1st April, 1930, amounted to £29,841,221, has not been included. Subject to the omission of these hereditaments, the figures for net annual value correspond generally with those for rateable value prior to 1928-9.

(a) The figures from 1913-4 to 1928-9 (first column) represent the difference between expenditure and receipts (except rates) in respect of rate fund accounts, trading accounts and reserve, pension and other special funds. Any increase in the balances of the trading, reserve, pension and other special funds (about £6,300,000 in 1928-9) accordingly operated to diminish the net figure shown for those years. The figures for 1928-9 (second column) and subsequent years relate to rate fund accounts only, and are not affected by the increased balances in the other accounts and funds.

(b) Highways and bridges.—Including, for the year 1913-4 only, amounts in respect of ferries. Those amounts were not separated in the Local Taxation Returns for that year from amounts in respect of bridges. For the other years to which the Table relates, the amounts in respect of ferries are included against the item "Trading services."

(a) For the years 1913-4 to 1928-9 (first column), the expenditure shown in this table includes expenditure which was met out of capital receipts other than from loans (e.g. receipts from Government grants for capital works, sales of property, &c.). For the year 1928-9 (second column) and subsequent years such expenditure is excluded from this table, but is included with expenditure out of loans for capital works in Table 173.

(b) Maternity and Child Welfare.—Expenditure on this service was not shown separately in the Local Taxation Returns for 1913-4.

(c) Other Public Health Services.—Particulars relating to some of the "Other Public Health Services" are not available for 1913-4 and are, for that year, included against "Other Works and Purposes."

(d) Housing, and Town and Country Planning.—Year 1934-5.—Including £2,365,275 in connection with advances under the Small Dwellings Acquisition Acts—see also note (d) on page 236.

(e) Highways and Bridges.—Including, for the year 1913-4 only, amounts in respect of ferries. Those amounts were not separated in the Local Taxation Returns for that year from amounts in respect of bridges. For the other years to which the Table relates the particulars in respect of ferries are included against "Other Trading Services."

(f) Other Trading Services.—Separate particulars for 1913-4 are not available. The loan charges in respect of "Other Trading Services" are, for that year, included against item (l).

(g) The term "Loan Charges" comprises interest on and provision for repayment of borrowed moneys.

(h) Excluding unexpended balances of loans repaid to lenders or paid to sinking funds.

(e) Highways and Bridges.—The amounts of the expenditure out of loans for capital works and of the outstanding loan debt in respect of ferries were, in the Local Taxation Returns for 1913-4, not shown separately from the amounts in respect of bridges. Amounts for ferries are, therefore, in this Table included for that year against "Highways and Bridges," not against "Other Trading Services."

(f) Other Trading Services.—See Note (e) as to Ferries. The amounts of the expenditure out of loans for capital works and of the outstanding loan debt in respect of "Other Trading Services" were not distinguished in the Local Taxation Returns for 1913-4.

(g) Including sums repaid to lenders or transferred to sinking funds out of unexpended balances of loans and other capital receipts, the amounts for 1934-5 being £689,913 out of unexpended balances and £8,329,185 out of other capital receipts.

(e) In 1913-4 the cost of maintenance of Pauper Lunatics is included under Poor Relief. For 1921-2 to 1929-30 under the provisions of the Mental Deficiency and Lunacy (Scotland) Act, 1913, half cost of such maintenance was borne by the Lunacy Authority (District Boards of Control) and it therefore appears as Lunacy, the other half being shown as Poor Relief. For 1930-1, and subsequent years, under the provisions of the Local Government (Scotland) Act, 1929, the total cost of rate aided lunatic and mentally defective poor is included under Lunacy.

(f) The election expenses paid to County and Burgh Authorities under the Poor Law Acts are excluded in all years.

(g) Including expenditure from "Other Capital Receipts" (e.g., proceeds of sales of property, etc.).

(h) Prior to 1930-1 includes Lunatic Wards of Poorhouses and Parochial Asylums.

NOTE.—It is estimated that (excluding gold coin held in the Issue Department of the Bank of England) gold coin to the value of £123,000,000 was in circulation in the United Kingdom on 30th June, 1914.

(a) Excluding Bank of England Notes in the Currency Notes Redemption Account from 6th August, 1919, to 21st November, 1928, and in the Banking Account of the Bank of England throughout.

(b) Inclusive of issues of Country Banks.

(c) The fiduciary issues of the Banks in Scotland amount to £2,676,350 and that of the Banks in Ireland to £6,354,494. Prior to the outbreak of the European War issues beyond these amounts were covered by gold, but at various times between 1914 and 1920 transfers were made to the Bank of England from the gold holdings of these banks which were replaced by Bank of England Notes or Currency Notes.

(d) Average for the eight weeks ended 21st November, 1928.

(e) Average for the five weeks from 22nd November, 1928. From this date the note issues of the Bank of England and the Currency Note Commissioners were amalgamated and the amount of the fiduciary note issue of the Bank of England was fixed at £200,000,000, subject to variation under Sections 2 and 8 of the Currency and Bank Notes Act, 1928. From 1st August, 1931 to 31st March, 1933, the authorised fiduciary note issue was increased to £275,000,000, and on 15th December, 1936, was reduced to £200,000,000.

NOTE.—The prices shown are inclusive of duty. Where a range of prices is shown in the publications from which quotations are extracted the lower price has been taken in most cases, but in a few cases the average of the range has been used.

(a) Prices of No. 2 Northern Manitoba wheat not available; the annual average prices of No. 1 Northern Manitoba in 1923 and 1924 were 50.86 and 60.22s. per 496 lb., respectively.

(b) Prices not available for 1913 and 1923; the average prices shown are partly estimated for the years 1924 to 1926 from the quotations for descriptions of flour other than ex-mill, prices for ex-mill not being available throughout those years. From 1934 onwards prices are "to bakers" and are about 1s. 6d. more than the ex-mill prices.

(c) The decrease in the years 1930 and 1931 is due to the inclusion in the figures for previous years of certain accounts which are now classed generally as dormant, i.e., accounts with balances of less than £1 which have been dormant 5 years and upwards. The number of these removals from the "Active" accounts in the United Kingdom was nearly 200,000 in 1930, and 500,000 in 1931.

NOTE.—Most British Joint Stock Banks are registered under the Companies Act, 1862, and, consequently, the bulk of the Capital of such concerns is included in the figures given in the above Tables. With the exception of Municipal Tramways, the majority of the Companies working tramways in the United Kingdom are registered under the Companies Acts, and their Capital is accordingly also included. Railway Companies in the United Kingdom are not incorporated under the Companies Acts, but by special Acts of Parliament, as they need powers beyond those conferred by registration under the Companies Acts. Their Capital is, therefore, not comprised in these Tables.

(a) On 30th April.

(b) Inclusive, in 1914, of particulars for territory now the Irish Free State.

(c) Estimated figures.

NOTES.—The Corn Sales Act of 1921, which came into force on 1st January, 1923, provides that all transactions in British corn to be legally binding must be carried out in terms of the cwt. instead of the bushel or quarter. For purposes of comparison average prices for 1913 formerly shown per quarter, have been converted to per cwt. at the following rates:—Wheat—80 lbs. per bushel, Barley—50 lbs. per bushel and Oats—30 lbs. per bushel. Returns were collected from 173 towns.

Source.—Returns from Towns scheduled under the Corn Returns Act, 1882, and published in the Agricultural Statistics issued annually by the Ministry of Agriculture and Fisheries.

NOTES.—Motor boats are included with Steam.

Fishing boats are divided into the following classes:—

The *First Class* includes all steam and motor boats of 15 tons gross tonnage and upwards and all sailing boats of 15 tons net tonnage and upwards.

The *Second Class* includes all steam and motor boats of less than 15 tons gross tonnage and other boats of less than 15 tons net tonnage but of 18 feet keel and upwards.

The *Third Class* includes all boats (other than steam or motor) under 18 feet keel, except those navigated by oars only and marked with the owner's name and the port or place to which they belong.

(a) The figures given for 1924 include the Laundry, Cleaning and Dyeing Trades which were not covered by the 1930 Census, whilst particulars regarding work carried out by Government Departments are excluded from 1924 but included for 1930. Firms engaged in contracting work were not always able to make separate returns of work done in each area, and a large number of combined returns covering the whole business of such firms were accepted and assigned to the areas in which the head offices were situated. See also note (a) to Table 226.

(b) Excludes subsidy of £6,022,000 on home-grown sugar for 1930.

(c) Excludes Excise duties estimated at £79,410,000 for 1930 and £93,424,000 for 1924.

(a) See note (a) to Table 223.

(b) The figures for power applied mechanically are calculated by deducting from the total capacity of prime movers the estimated capacity required for driving electric generators which, in turn, supply current to electric motors. Power applied electrically is represented by the total capacity of all electric motors.

(c) Excluding Electricity Supply Undertakings.

(d) These figures are omitted as the power required for the generation of electricity for industrial uses is partially duplicated in the capacity of electric motors driven by purchased electricity.

(a) Ganister is included throughout. Complete information with respect to other kinds of Silica Stone is available from 1923 only, from which year Silica Sand used as Refractory Material is also included. The latter was previously included with "Gravel and Sand."

(b) Inclusive, in 1913, of particulars for territory which is now the Irish Free State.

(c) Certain quantities of Salt Brine may have been duplicated in 1913.

(d) Fireclay from Quarries in 1913 is included with Clay, Shale, etc.—Other Sorts.

Sources (Tables 230 to 234, 236).—Annual Reports on Mines and Quarries issued by the Mines Department (in 1913, issued by the Home Office) and from information supplied by the Government of Northern Ireland.

(e) Exclusive of Salt from Brine in Northern Ireland in 1923 and subsequent years.

(f) The figures for 1923 and subsequent years are not strictly comparable with those for 1913 as certain minerals previously in these classes, are now classified separately.

(g) Figures of production, employment and accidents at mines and quarries producing coal, iron ore, limestone and other minerals used in the iron and steel industry were affected by the protracted dispute in the coal mining industry in 1926.

(h) Less than 500 tons.

(i) Less than £500.

(j) In addition, 6,688 tons of zinc ore were obtained in 1936. The value of this ore, which is to be subject to further treatment before sale, is not yet known, but the relevant figures will be included in future reports.

(a) Selected so as to eliminate as far as possible the effect of holiday stoppages.

(b) The figures for 1913 are based on returns collected by the Ministry of Labour and covered between one-half and two-thirds of the workpeople in the industry in the United Kingdom. Those for 1923 and later years are based on returns collected by the Mines Department, and relate to all the mines in Great Britain.

(c) General coal mining stoppage.

(d) Average of 5 months.

Average Percentage of metal content 1936 (c) — Great Britain.	53%	28%	27%	33%	30%	—	30%	—

(a) Inclusive of particulars for territory which is now the Irish Free State.

(b) Figures of production, employment and accidents at mines and quarries producing coal, iron ore, limestone and other minerals used in the iron and steel industry were affected by the protracted dispute in the coal mining industry in the year 1926.

(c) The yearly variations in the average metal contents of the above kinds of iron ore, etc., are small and the figures shown for 1936 may be regarded as typical. In the case of the total figures, the variation is mainly dependent on the relative amounts of the various classes produced.

(a) The figures for 1932-3 are not comparable in all details with those for previous years, owing to slight modifications which were made in the Electricity Commissioners' form of statistical return for that year.

(b) Figures for 1930-1 and subsequent years are exclusive of intersales and interpurchases between authorised undertakings.

(c) Figures for 1932-3 and subsequent years are inclusive of adjustments due to operations of Central Electricity Board.

(d) For 1930-1 and prior years, income tax was included with working expenses; for subsequent years it was treated as appropriation of gross surplus.

(e) Board of Trade units of 1,000 watt-hours.

(i) Decrease in mileage due to the transfer of Imperial Cables to the Imperial and International Communications Ltd.

(j) Including telephones used for telegraph purposes, but excluding in 1936-7 telephones used jointly for telephone and telegraph purposes. Estimated comparable figure for 1935-6 is 12,687.

(k) Including telegrams dealt with entirely by Cable Companies, etc., in this country.

(l) Including privately owned and privately maintained stations having access to the public exchange system.

(m) Consequent upon the introduction of a revised method of accounting, Local calls for 1934-5 and later years, represent calls value 4d. and under and Inland Trunk calls value 5d. and over instead of 2d. and under and 3d. and over respectively as in previous years. Estimated comparable figures for 1933-4 are:—(Thousands) Local 1,503,870, Trunk 76,588.

(n) In 1936-7, 12½-15 mile morning calls are included under Local calls instead of under Trunk calls as in previous years, owing to a reduction in charge from 1st May, 1936, from 6d. to 4d. (the whole year has been adjusted to the revised basis). Estimated comparable figures for 1935-6 are:—(Thousands) Local 1,734,100, Trunk 89,706. The 1936-7 figure for Local calls is provisional.

(o) With yearly renewal of Licences the number in force at end of year is very nearly equal to the number issued in the year.

NOTES.—The above Return includes vessels belonging to the Isle of Man and the Channel Islands.
The number of persons shown as employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year. For 1926 and later years see the procedure outlined in note (e).
The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Irish Free State, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.
The Foreign Trade includes vessels trading or going beyond the above limits.
Some vessels known to be trading abroad are omitted from the Return, owing to the fact that no late information of the number of their crews could be obtained.
Fishing vessels employed in Trading are omitted from the Return. In 1925, 11 vessels aggregating 441 tons were so employed.

(a) Under the heading "Lascars" are included Asiatics and East Africans employed under agreement, or natives of Asia or East Africa, which open and terminate in Asia.

(b) Inclusive of particulars of vessels registered in territory which is now the Irish Free State.

(c) Excluding vessels of under 100 tons net.

(d) Excluding vessels of under 100 tons gross.

(e) Prior to 1926, vessels engaged during the year partly in the Home and partly in the Foreign Trade, have been separately distinguished. In 1926 and later years, vessels employed on the census date have been included in the Trade in which they were engaged on that date. Vessels not employed on the census date but employed some time during the year have been included in the Trade in which they were employed when the first crew of the vessel was engaged during the year.

(f) The figures for 1926 and later years include seamen who, in accordance with previous practice, would have been enumerated as British. In 1926 such seamen numbered about 4,000.

(d) Excluding repayment of Treasury Loan amounting to £64,500.

IMPORTS AND EXPORTS

[The value of the imports represents the cost, insurance, and freight: or, when goods are consigned for sale, the value corresponding to the price, at which sold. The value of the exports represents the cost and the charges of delivering the goods on board the ship, and is known as "the free on board" value.]

(b) Prior to the 1st April, 1923, the particulars relate to the trade of the British Isles as a whole.

Source.—The tables relating to trade (Nos. 278—294) are compiled mainly from the Annual Statements of the Trade of the United Kingdom issued by the Customs and Excise Department.

IMPORTS AND EXPORTS

No. 279.—VARIATIONS in VOLUME and AVERAGE VALUE of the IMPORT and EXPORT TRADE of the UNITED KINGDOM as compared with (i) the YEAR 1924 and (ii) the YEAR 1930

[In the table below a comparison is made between the foreign trade of the Year 1924 and that of 1925-30 by estimating, as nearly as available data permit, the value which would be put upon imports and exports in the aggregate, if each item had the same average value per unit of quantity as was declared for goods of the same description in 1924. In this way figures are obtained, the comparison of which with the corresponding figures for 1924 enables the extent of the influence of price changes and the aggregate changes in the volume of goods imported and exported to be estimated. For years subsequent to 1930 a similar calculation is made on the basis of prices of that year, and to facilitate comparison with the earlier series, the particulars in respect of 1924 have also been calculated on that basis.]

NOTE.—Changes in the classification of commodities as made from time to time in the original trade returns have been taken into account in the above table, and the figures for each class of goods are based on the classification in force in the latest year. In the case of 1913, however, exact comparison of classes with those for subsequent years is not possible.

* See the General Notes at the end of the Table on page 410.

(a) Prior to the 1st April, 1923, the particulars relate to imports and home production in the British Isles, as a whole, except in the case of wheat production, fish landed, and potato production which, in 1923, relate to Great Britain and Northern Ireland only.

(b) In addition to re-exports of wheat in grain all exports of wheat meal and flour of domestic produce (in grain equivalent) have also been deducted from the total imports. The amount of the exports consisting of flour milled from imported wheat as distinct from home-grown wheat, is not available.

(c) These quantities represent, in addition to the weight of flour, 28 per cent. of offal, etc., the result of the process of converting grain into flour.

(d) Inclusive of a small number of eggs, other than poultry, in 1933 and prior years.

(e) Exports of cured, salted and canned fish classified as exports of domestic produce have also been deducted from the totals of fish landed. These deductions would, however, include a certain amount of imported fish which is subsequently cured, salted or canned.

(f) The total quantity of Tongues, Hearts, Livers, Kidneys, etc., is shown with "Other Sorts of Fresh and Refrigerated Meats." In subsequent years the quantities are allocated to Beef, Mutton and Pork respectively.

(g) The quantities of meat here given are subject to revision. They are partly calculated from estimates furnished by the Ministry of Agriculture regarding the numbers of fat animals imported, to which are applied their estimates of the average dressed weights per head. These weights have, in some instances, been revised for the years 1935 and 1936 following enquiries made at the ports of entry but no information is available regarding annual variations in average weights which would permit of revised weights being applied to the numbers imported in earlier years.

The estimated average dressed carcass weights of fat animals from the principal supplying countries are as follows:—

	From Irish Free State.	From Canada
Cattle	lbs. 640	lbs. 688 (670 lbs. in 1935 and 1936)
Sheep and Lambs	55 (46 lbs. in 1935 and 1936)	66
Swine	180 (160 lbs. in 1935 and 1936)	—

Allowance has also been made for the weight of edible offal by the addition of 10 per cent. to beef, mutton and lamb and 5 per cent. to pork.

(h) The figures are inclusive of imported fresh and frozen pork subsequently salted and preserved.

(i) Exclusive of potatoes grown on allotments.

NOTES.

With regard to Sugar, the figures in the first three lines represent the quantities entered for home consumption less the quantities over-entered and the quantities exported, on drawback, including the sugar in composite articles exported. The British refineries went out of bond as from 25th April, 1928, and in consequence the figures for 1928 and subsequent years include a much larger proportion of raw sugar and a much smaller proportion of refined sugar than in previous years. The figures in the fourth line for 1913 express, in terms of *refined* Sugar, the quantities of raw and refined sugar duty-paid for home consumption, less British refined Sugar exported on drawback (but not sugar in composite articles exported). From 1923 they express the estimated equivalent in sugar exceeding 98° polarisation of all sugar refined and unrefined (from 25th April, 1928, for Empire sugar only, exceeding 99° polarisation), including sugar in composite articles imported, duty paid and retained for home consumption, after deducting the sugar exported on drawback including the sugar in composite articles. (From 1928 onwards the figures previously published have been revised.)

* For those articles marked with an asterisk, and also for Tea for years 1929 to 1932, the Imports less the Re-exports have been taken as the quantities retained for home consumption (with the exception of Rice and Rice Flour, for which Imports less *Total* Exports have been given), but no accounts of the quantities used as ships' stores are available. In the case of other articles, except Sugar and Tobacco, the quantities over-entered and those exported on drawback or otherwise after payment of duty, have been deducted from the quantities entered for home consumption in the first instance. The quantities exported from bonded warehouses or shipped on drawback as "ship's stores" are not included in the quantities retained for home consumption.

The figures for dutiable Molasses for 1913 represent the quantities entered for home consumption less the quantities over-entered or exported duty-paid and from 1923, the quantity exported on drawback, and include up to the 24th April, 1928, the molasses produced in bonded refineries in the United Kingdom from imported sugar. The refining of sugar in bond ceased as from 25th April, 1928, and the refiners thenceforth paid duty on the raw sugar instead of on the finished products (refined sugar and molasses). From that date therefore no information is available as to the quantity of molasses for dutiable use produced from imported sugar.

NOTES—*contd.*

As regards Tobacco, the quantity of *unmanufactured* Tobacco retained for home consumption includes Home-grown Tobacco and has been arrived at by deducting the quantity of Tobacco manufactured in the United Kingdom and exported on drawback, over-entries, and exports after payment of duty, from unmanufactured Tobacco entered for home consumption. The figures for *manufactured* Tobacco represent the quantities entered for home consumption less the quantities over-entered, and those exported after payment of duties.

(a) See note (a), p. 408.

(b) The duty on Tea was repealed as from 22nd April, 1929 and reimposed on 20th April, 1932. The figures for 1929 to 1932 represent retained imports, i.e., imports less re-exports.

(c) A standard barrel represents a barrel of 36 gallons at a gravity of 1,055° and a bulk barrel, 36 gallons, irrespective of gravity. The figures given for consumption represent the actual quantity charged with duty during the year, less the quantity on which drawbacks, etc., have been paid.

(d) The figures for 1913 include spirits used for the manufacture of recognised medical preparations, or for scientific purposes, the quantities of which are not available. The figures for each of the years from 1923 have been revised so as to exclude spirits used for these purposes; the quantity so excluded ranged from about 500,000 to about 600,000 proof gallons yearly, very largely home-made spirits.

NOTE.—Figures shown in this table, in respect of certain groups of commodities which are affected by changes in classification made from year to year in the original trade returns, have been, as far as possible, made comparable for the series of years shown, on the basis of the classification in use in the latest year. Where such changes do not permit of the compilation of exactly comparable figures, important differences are noted.
