INTRODUCTORY NOTE

The particulars shown in the Abstract relate for the most part to the fifteen years 1913 and 1924 to 1937 and notes are appended to those tables in which the comparative value of the figures for early years is affected by the inclusion of data in respect of the territory now known as Eire.

The principal alterations in the tables are as follows :—

Number of Table	Page	SUBJECT MATTER
130*	146*	<i>Table Omitted.</i> Unemployment among members of certain Trade Unions.
124, 126-7	130-1, 134-143	<i>Tables Revised.</i> Unemployment and Unemployment Insurance: Particulars of workpeople insured under the Agricultural Scheme are now shown.
226	307	Industrial Production: Particulars replace those previously shown in Table 227.*
278	372	Variations in Volume and Average Value of Imports and Exports: Particulars based on average values in 1935 have been added.

* Table and Page numbers refer to the previous (81st) issue of this Abstract.

(b) Subsequent to the taking of the England and Wales Census of 1891, it was found that in filling up the new type of enumeration book introduced at that Census, certain enumerators had shown a tendency to insert a proportion of entries relating to the ages of males in the column of the book appropriate to the ages of females. In Tables Nos. 4, 16 and 17 the figures in respect of sex and age distribution for 1891 have been adjusted with a view to counteracting the effect of this error.

(a) Not compulsorily notifiable in all districts.

(b) Notifiable as from 1st January, 1930.

(c) Notifiable as from 1st October, 1926, in England and Wales; 1st October, 1929, in Scotland; and 1st January, 1930, in Northern Ireland.

(d) By virtue of the Public Health Act, 1936, in all areas outside London Administrative County, conditions notifiable as puerperal fever prior to 1st October, 1937, are, from that date, notifiable as, and included with, notifications of puerperal pyrexia. In consequence, the figures for 1937 include notifications in the London Administrative County for the whole year (237 cases), while, for other areas, particulars relate only to cases notified in the period 1st January to 30th September.

(e) Inclusive, as from 1st October, of cases formerly notifiable as puerperal fever in all areas outside London Administrative County. See note (d).

(f) Acute infectious tuberculosis notifiable as from 14th November, 1934.

NOTE.—For definition of the term "house," which has varied slightly from time to time, reference should be made to the Census Reports. Prior to 1921, the figures for England and Wales relate to all habitations, whereas for 1921 and 1931 the figures are in respect of private family habitations only.

(a) Comparable figures are not available.

(b) A Census of Ireland was not taken in 1921 or 1931.

(c) Excluding Éire.

(d) Preliminary figures. Subject to amendment.

NOTES.—Capital sums received for lands, buildings, and endowment, etc., are not included under income; the expenditure of capital funds on lands, buildings and equipment is not included under expenditure.

The accounts of the Colleges at Oxford and Cambridge are not included above.

See also general note to Table No. 34, p. 50.

(a) From 1935-6, the figures for the Manchester College of Technology included under income above were confined to sums applicable to university work only. Had these figures covered both university and non-university work as in former years, the total of grants from local authorities from that year would have shown an increase on the figures for 1934-5.

NOTE.—The particulars in this table for the year 1924 and subsequent years relate to the 31st March, or, in the case of sub-heads 3, 4, 9, and 10, to the year ended 31st March. For 1913 the figures relate to the school year (or the last day of it) which ended within the year ended 31st July, 1913.
(a) A department is a group of children under a separate head teacher, a school often consisting of more than one department.

(b) These figures should be used with caution as there is reason to believe that, owing to a misunderstanding of the directions for making the returns, a considerable number of pupils transferred to public elementary schools providing special courses of advanced instruction were incorrectly returned as leavers.

(b) From 1935-6 the figures for Manchester College of Technology included under Income above were confined to sums applicable to university work only. Had these figures covered both university and non-university work as in former years, the total of Grants from Local Authorities from 1935-6 onwards would have been greater than the amount for 1934-5.

(c) Exclusive of 80 students for whom particulars under sub-heads (7) to (11) were not available.

(d) For the Universities of Oxford and Cambridge only Professors and Readers are included in these figures.

(e) Capital sums received for lands, buildings, endowments, etc., are not included under Income, and the expenditure of capital funds on lands, buildings, and equipment is not included under expenditure. The accounts of the Colleges at Oxford and Cambridge are not included above.

9. Number of students following evening, Saturday afternoon and / or correspondence courses	12,267	12,173	13,027	12,366	12,054	11,586

NOTES.—The particulars relate to the year ended 31st July.

Continuation classes provide part-time education, mainly of a specialised type for industry and commerce but also in general subjects, to pupils who have left school.

Central Institutions provide in the main higher specialised education in science, technology, commerce, art, domestic science, etc.

No. 60—TRAINING

	1913	1924	1925	1926	1927	1928
1. Number of students taking an approved full-time course of training (a)	(b) 2,570	3,187	3,061	3,201	3,090	2,928
2. Percentage of men	19.7	16.0	13.3	15.5	18.1	17.7
3. Number of students who completed an approved full-time course of training during the year	(b) 1,304	1,773	1,619	1,799	1,891	1,961
4. Percentage of men	17.3	21.5	19.1	18.3	23.0	22.2

NOTES.—The particulars relate to the years ended 31st July, and to courses of training for the Teacher's General Certificate, the Teacher's Special Certificate and the Teacher's Technical Certificate. The decrease in the number of students in training during recent years is due to an increased proportion of the students taking the post-graduate one-year course and to the restriction of the numbers latterly admitted to training.

(a) The various enactments relating to national health insurance were consolidated in the National Health Insurance Act, 1936. Similar legislation applies to Northern Ireland.

(b) The membership of Approved Societies represents the number of members on the books of Societies at the end of the year (including those temporarily remaining insured under Sections 6, 7 and 126 of the National Health Insurance Act, 1936).

(c) Exempt persons are eligible for medical benefit in England and Wales and Scotland but not in Northern Ireland.

(e) Disablement benefit began in July, 1914.

(f) A sum of £1,100,000 was transferred to the Exchequer from Navy, Army and Air Force Insurance Fund.

(g) These figures include the sums transferred from Contributory Pensions Accounts to the N.H.I. Central Fund under the National Economy (N.H.I.) Order, 1931, (now re-enacted in Section 14(2) of the Widows', Orphans' and Old Age Contributory Pensions Act, 1936), in respect of periods from 2nd January, 1928.

(h) The figures for these years are provisional and subject to adjustment.

(i) Includes amounts transferred from Great Britain under The Approved Societies Regulations.

Note.—Owing to the gradual transference to the provisions of the Contributory Pensions Acts of such pensioners, aged over 70 years, as have qualified under both those Acts and previous Acts, the above figures, as tabulated under the respective Acts, from 1927, inclusive, are not comparable from year to year.

(a) The various enactments relating to widows', orphans' and old age contributory pensions and old age (non-contributory) pensions were consolidated in the Widows', Orphans' and Old Age Contributory Pensions Act, 1936, and the Old Age Pensions Act, 1936, respectively. Similar legislation applies to Northern Ireland.

(b) In 1914 the full rate was 5s. and the reduced rates 4s. to 1s. In subsequent years the full rate has been 10s. and the reduced rates 8s. to 1s.

(c) Inclusive, in 1914, of particulars for territory which is now Eire.

(d) The alteration in the means qualification in the Old Age Pensions Act, 1924, resulted in an increase, both in the number of pensions and in the proportion of pensioners paid at the maximum rate. This Act applies to Great Britain only.

(e) Old Age Pensions paid from age 70 by virtue of the Contributory Pensions Act, 1936. See note (a).

(a) The various enactments relating to widows', orphans' and old age contributory pensions, and old age (non-contributory) pensions were consolidated in the Widows', Orphans' and Old Age Contributory Pensions Act, 1936, and the Old Age Pensions Act, 1936, respectively. Similar legislation applies to Northern Ireland.

(b) Inclusive of persons temporarily remaining insured after payment of contributions ceased.

(c) Insured widows under age 65, and all insured persons aged 65 and over are also included in the estimated numbers insured.

(d) Contributory pensions are payable to the widows and children of men who, being under the age of 70 on 4th January, 1926, when the Contributory Pensions Scheme came into force, died on or after that date. They are granted subject to the satisfaction of certain conditions as to insurance and the number of contributions paid.

CONTRIBUTORY PENSIONS

NUMBER of BENEFICIARIES under the WIDOWS', ORPHANS' PENSIONS ACT, 1936 (a)

are replaced by old age pensions under the Old Age Pensions Act, 1936, imposed by that Act. These old age pensions are included in the Table and 87.

(e) Non-contributory pensions are payable to the widows and children of men in the insurable class who, having died or attained the age of 70 before 4th January, 1926, when the Contributory Pensions Scheme came into force, never contributed under the scheme. They are payable—

(1) Under the Act of 1925 to widows with children who were under the age of 14 at 4th January, 1926, and continue in payment until the youngest child attains the age of 16 (or until the death or re-marriage of the widow if that occurs earlier).

(2) Under the Act of 1929 to widows aged 55 or over (*see note (g)*) and continue until the widow attains the age of 70 (or until her death or re-marriage if that occurs earlier).

(f) Old age pensions payable between the ages of 65 and 70 came into force on 2nd January, 1928.

(g) Pensions for widows over 55 years of age of men who died or attained the age of 70 before 4th January, 1926, became payable—

(1) As from 1st July, 1930, to widows then over 60.

(2) As from 1st January, 1931, to those then between 55 and 60.

(3) As from the 55th birthday to the remainder.

(h) Figures for these years are provisional and subject to adjustment.

NOTE.—For amounts received and expended for relief of the Poor, see Table No. 85, p. 98.

(a) Under section 18 of the Mental Treatment Act, 1930, persons are, from 10th July, 1930, not deemed to be in receipt of relief by reason only that they are being maintained as rate-aided patients in mental hospitals. The numbers on 1st January, and 1st July for the year 1931, and subsequent years are included in this table for purposes of comparison with earlier years.

(b) This is the net total after deducting persons counted twice in the preceding columns, as having received institutional as well as domiciliary relief on the days mentioned. For the later years such persons are not included twice in the preceding columns.

(c) The reduction in the number of persons in receipt of domiciliary relief as compared with the previous year was mainly due to the transfer to the Unemployment Assistance Board from the Councils of Counties and County Boroughs, as from 1st April, 1937, of the responsibility for the assistance of considerable numbers of able-bodied unemployed persons and their dependants.

(d) Approximate for 1924 and subsequent years [see note (a), page 94].

(e) Not yet available.

(a) The mean numbers shown in this table for any year are the mean of the numbers relieved on or about the 1st January of that year, and on or about the 1st July preceding, except that the number of rate-aided patients in Mental Hospitals on the 1st July, not having been ascertained for any year later than 1915, has for the purposes of the table been taken to have been, in each of those years, a number mid-way between the ascertained numbers for the preceding and succeeding 1st January.

(b) The figures for 1925 and the following years show the "average" number of persons in receipt of relief in the financial year. The averages have been calculated, as regards more than 90 per cent. of those persons, by adding together the numbers in receipt of relief on the same day in each week in the year and dividing the aggregate so obtained by 52 or 53 as the case may be.

NOTE.—For Amount received and expended for relief of the Poor, see Table No. 85, p. 98.

(a) 15th September prior to 1930.

(b) The number of dependants for this group is relatively small. For the years shown in the table, the maximum number was 79, in July, 1935. In July, 1938, the number was 48.

(c) Includes Poor other than Sane. The number of such cases relieved on 1st January, 1938, was 21,692.

(d) Prior to 1921, poor law authorities in Scotland were not empowered to grant relief to able-bodied unemployed persons.

(e) The decrease in the number of able-bodied unemployed is due to the fact that certain classes, previously relieved by the Local Authorities, have been taken over by the Unemployment Assistance Board as from 1st April, 1937.

(f) The figures relate to miners whose families were relieved during the coal stoppage.

NOTE.—For Amount received and expended for relief of the Poor, see Table No. 85, p. 98.

(a) Exclusive of those temporarily disabled by sickness.

(b) The reduction in the number of persons in receipt of outdoor relief as compared with the previous year was mainly due to the transfer to the Unemployment Assistance Board from the Poor Law Unions, as from 1st April, 1937, of the responsibility for the assistance of considerable numbers of able-bodied unemployed persons and their dependants.

(a) Up to the 31st March, 1930, the Poor Law Authorities were Boards of Guardians, Managers of the Metropolitan Asylum District and Poor Law School and Sick Asylum Districts, and certain Poor Law Joint Committees. After that date they were the Councils of Counties and County Boroughs and certain Joint Committees. Sums expended out of overdrafts and temporary loans on revenue account are included.

(b) Including, up to 31st March, 1930, the grant made under s. 43 (1) (b) of the Local Government Act, 1888, to Boards of Guardians. The grant was met out of rates.

(c) Commencing with 1st April, 1930, expenditure fell on rates and on the Block Grant under the Local Government Acts, 1929, for England and Wales and Scotland.

(d) The monies out of which the precepts of Poor Law Authorities in 1929-30 were met, included grants in compensation for loss of rates under the Agricultural Rates Act, 1929, and under Section 112 of the Local Government Act, 1929.

(e) Including, up to 31st March, 1930, grants charged on the Exchequer contribution accounts of counties and county boroughs.

(f) Includes balances of grants specifically in aid of poor relief which were discontinued in respect of periods after 31st March, 1930. See also note (c).

(g) Including £263,998 in 1934-5 (month of March), £4,059,822 in 1935-6, and £3,935,307 in 1936-7, grants under the Unemployment Assistance (Temporary Provisions) Acts.

(h) The figures for 1930 and previous years show the transactions of Parish Councils and those for 1931 and subsequent years the transactions of Public Assistance Authorities to whom the Poor Law functions of Parish Councils and District Boards of Control were transferred under the Local Government (Scotland) Act, 1929. The figures prior to 1931 include only the proportion of expenditure in respect of lunatics and mentally defective poor applicable to Parish Councils whereas the 1931 figures include the total expenditure in respect of these classes of poor persons. In 1930 the total expenditure on such persons exceeded the proportion applicable to Parish Councils by £741,000. See also note (c).

NOTE.—The insane in England and Wales were dealt with under the Lunacy and Mental Treatment Acts, 1890-1930 and in Scotland under the Lunacy (Scotland) Acts, 1857-1913. Mental Defectives in England and Wales were dealt with under the Mental Deficiency Acts, 1913-1927, and in Scotland under the Mental Deficiency and Lunacy (Scotland) Act, 1913. Mental Defectives are classified in the Mental Deficiency Act, 1927, "mental defectiveness" being defined as a condition of arrested or incomplete development of mind existing before the age of 18 years, whether arising from inherent causes or induced by disease or injury. The insane are persons of unsound mind suffering from mental disorder acquired generally later in life.

(a) Most of the insane persons included in this Table (e.g., 80.3 per cent. of them in England and Wales and 85.8 per cent. of them in Scotland, on 1st January, 1935) are included also in Tables No. 80, 81 (two final columns), 82, 83 and 84, pages 93 to 97. The cost of their maintenance in Mental Hospitals was defrayed by Poor Law Authorities.

(b) The Local Government (Scotland) Act, 1929, abolished District Boards of Control and transferred their functions to County Councils and Town Councils of large burghs. The numbers refer to patients in District Asylums.

(c) These inmates are not "registered" but are included in this table for purposes of comparison.

(d) In Lunatic Wards of Poorhouses.

(e) In Royal and Private Asylums.

(f) The numbers are the Criminal Lunatics maintained since 1st December, 1921, in the Central Criminal Lunatic Asylum, Dundrum, Co. Dublin, as an Agency Service under Section 63 of the Government of Ireland Act, 1920, except in the case of the 1930 figure, the number there given being made up of 16 criminal lunatics confined in the Criminal Lunatic Asylum at Dundrum, and 5 in the new Criminal Lunatic Asylum for Northern Ireland at Londonderry. In January, 1930, these 16 criminal lunatics were transferred from Dundrum and sent to the respective N.I. Asylums of the districts from which the patients originally came and are included in Column 1.

(g) Approximate figures up to and including the year 1934.

(h) Exclusive of Northern Ireland.

NOTES.—The expenditure by Poor Law Authorities on the maintenance of insane persons in County and Borough Mental Hospitals, included in column 1, is also included in Table 85.

Expenditure on the insane in Poor Law Institutions is not distinguished in accounts from expenditure on other persons in those Institutions and is not included in this Table, except in the case of Scotland, for which *see* note (d).

(a) Up to 1929-30 these grants were mainly grants made through the Exchequer Contribution Accounts of County and County Borough Councils. Those grants ceased to be payable as from the 1st April, 1930, and were merged in the Block Grants under the Local Government Act, 1929.

(b) Up to 1929-30 some unascertained portion of the expenditure in column 4 was met from Exchequer grants under the Agricultural Rates Acts, 1896 and 1923, from the "free balances" of the Exchequer Contribution Accounts of County and County Borough Councils and (in 1929-30) from the transitory grants in compensation for loss of rates. Those grants and "free balances" were applicable in aid of local rates, but were not allocated to specific local services. After 1929-30, the expenditure was defrayed mainly out of rates and the Block Grants under the Local Government Act, 1929.

(c) The figures represent gross expenditure borne on the Vote and do not include expenditure of sums borne on the Votes of other Departments.

(d) The figures for Scotland are inclusive of expenditure on insane in Poor Law Institutions. In the summary figures for the United Kingdom, shown on the next page, allowance has been made for this expenditure.

(e) District Boards of Control, Parish Councils and Education Authorities prior to 16th May, 1930. County and Borough Councils from that date.

(f) I.e., Contributions from the Local Taxation Account (Scotland).

(g) Figures relate to years ended 31st December, 1923 to 1937.

(h) From 1930-1 these grants are merged in the general Exchequer contributions payable under the Local Government (Scotland) Act, 1929.

(i) Prior to the setting up of the Government of Northern Ireland these consisted of (i) a capitation grant payable annually out of the Local Taxation (I) Account; (ii) recoupment by the State of actual expenditure on criminal lunatics committed to Mental Hospitals (for 1920-21); and (iii) payment by the Ministry of Pensions in respect of the maintenance of persons (classified as "Service" patients) whose insanity developed after War Service.

After the setting up of the Northern Government (i) the capitation grant referred to above was replaced by a fixed annual payment from the Exchequer of £37,079 representing the average annual amount paid to Mental Hospital authorities out of the Local Taxation (I) Account in respect of the three financial years ended 31st March, 1920; (ii) the amounts received in respect of criminal lunatics were as follows: For 1922-3, £2,531; 1923-4, £2,349; 1924-5, £2,444; 1925-6, £2,089; 1926-7, £2,017; 1927-8, £2,730; 1928-9, £2,770; 1929-30, £2,586; 1930-1, £2,653; 1931-2, £3,221; 1932-3, £2,926; 1933-4, £2,846; 1934-5, £2,757; 1935-6, £2,853 and for 1936-7, £2,927 and (iii) the amounts received in respect of "Service" patients were as follows: For 1922-3, £8,570; 1923-4, £6,905; 1924-5, £7,210; 1925-6, £7,580; 1926-7, £7,350; 1927-8, £6,209; 1928-9, £6,935; 1929-30, £6,525; 1930-1, £6,690; 1931-2, £6,827; 1932-3, £6,596; 1933-4, £6,478; 1934-5, £6,261; 1935-6, £5,939; and for 1936-7, £5,855.

(j) Expenditure in respect of Northern Ireland Criminal Lunatics committed prior to 1922 and since (i.e., up to January, 1930) maintained in the Central Criminal Lunatic Asylum at Dundrum, Co. Dublin, as an Agency Service under Section 63 of the Government of Ireland Act, 1920. Expenditure for 1929-30 includes cost of maintenance of N.I. Criminal Lunatics in Dundrum C.L. Asylum, Co. Dublin, and of those in the N.I. Criminal Lunatic Asylum at Londonderry, established under the Act 20, George V. cap. 19. Thereafter the expenditure is that on the Northern Ireland Criminal Lunatic Asylum at Londonderry.

NOTE.—The entries in this Table must not be read as showing the total numbers of mentally defective persons on the several dates mentioned. Those numbers have not been ascertained and the increase in the aggregate figures indicates increased activity in the administration of the Acts but does not necessarily indicate any increase in the incidence of mental defect. Mentally defective children of school age are not included in the Table unless they have been notified as mental defectives under the Mental Deficiency Acts; on these points and other points the entries in the Table should be read subject to qualifications set out in the Annual Reports of the Board of Control. See also general note to Table No. 86, p. 100.

(a) Prior to the 1st April, 1930, County and County Borough Councils had no duties with respect to mental defectives in receipt of Poor Relief.

NOTE.—The entries in this Table must not be read as showing the total numbers of mentally defective persons on the several dates mentioned. Those numbers have not been ascertained and the increase in the aggregate figures indicates increased activity in the administration of the Act but does not necessarily indicate any increase in the incidence of mental defect. Uncertified mental defectives in receipt of poor law relief are not included in the Table nor are mentally defective children of school age unless they have been certified as mental defectives under the Act of 1913; on these points and other points the entries in the Table should be read subject to qualifications set out in the Annual Reports of the General Board of Control for Scotland. See also general note to Table No. 86, p. 100.

(a) District Boards of Control, Parish Councils and Education Authorities were the responsible local authorities prior to 16th May, 1930.

(b) Figures are not available prior to 1926 and those for succeeding years are approximations.

(a) Up to 1929-30 some unascertained portion of the expenditure in column 4 was met from Exchequer Grants under the Agricultural Rates Acts, 1896 and 1923, from the "free balances" of the Exchequer Contribution Accounts of County and County Borough Councils and (in 1929-30) from transitory grants in compensation for loss of rates. Those grants and "free balances" were applicable in aid of local rates, but were not allocated to specific local services. After 1929-30 the expenditure was defrayed mainly out of rates and the Block Grants under the Local Government Act, 1929.

NOTES.—(1) The figures relate to children and young persons dealt with in Juvenile Courts in all years, but subsequent to 1933, they include also children and young persons dealt with in ordinary Courts of Summary Jurisdiction.

(2) Under the Children and Young Persons Act, 1933, which came into force on 1st November, 1933, the age limit of young persons was raised from 16 to 17. For other factors bearing on the increase in these numbers between 1933 and 1934 reference should be made to pages xiii and xiv of the Introductory Note to the Criminal Statistics, 1934.

NOTE.—This table has been constructed to indicate in a very general manner the fluctuations of the numbers engaged in each industry shown. In using the table the figures for the years 1881-1901 must be compared with those in the *first* column for the year 1911, and those in the *second* column of the year 1911 must be used for comparison with 1921 and 1931. Owing to radical changes which have been made in the method of classification only very rough comparisons can be made. The figures for 1881-1911 (*first* column) exclude maintenance staff, clerks, carmen, and certain other occupations common to all industries. The figures for 1911 (*second* column), 1921 and 1931 include all persons engaged in the industry. The numbers are given to the nearest thousand. The proportions engaged have been calculated on the actual numbers.

(a) At or near end of month.

(b) Persons aged 65 years and upwards ceased to be insurable under the Unemployment Insurance Acts as from 2nd January, 1928. Figures of the numbers of insured persons recorded as unemployed subsequent to that date are therefore not comparable with those for earlier dates. For all practical purposes, however, the percentages unemployed can be regarded as comparable throughout.

(c) Boys and girls under 16 years of age who first became insurable on 3rd September, 1934, have been excluded.

(d) Persons insured under the Agricultural Scheme have been excluded (see note (d) p. 131). The percentages of workpeople insured under this Scheme who were unemployed in January and July, 1937 and 1938, are given in note (f), p. 143.

(e) These figures are affected by the introduction, in September, 1937, of a revised procedure for counting the unemployed, but the extent to which comparability with earlier figures is impaired is very slight.

(b) For years up to and including 1934 the percentages have been worked on the base of all insured persons (earlier years 16 and over, later years 16-64.) In 1935 and later years the insurable field was extended to include 14-15, but there have been technical difficulties in working January percentage to include such juveniles.

(a) Among the undertakings practising profit-sharing, some have more than one scheme in operation. The total number of undertakings with schemes in operation was 410 in 1937.

(b) Including schemes under which no bonus was earned. The figures showing the average amounts of bonus are not strictly comparable with those representing the average percentage additions to earnings, because some undertakings were able to give the amount, but not the rate of bonus.

1937 (b)	1,033	4,956,000	895,000	5,851,000

NOTE.—The statistics relate to all organisations of employees which have their head offices in Great Britain or Northern Ireland—including those of salaried and professional workers, as well as those of manual wage earners—and which are known to include among their functions that of negotiating with employers with the object of regulating the conditions of employment of their members. The figures of membership include the membership of branches in Eire and Overseas (numbering about 78,000 in 1937), but wholly exclude the membership of Unions whose headquarters are situated outside Great Britain and Northern Ireland. Some persons belong to more than one union and are consequently duplicated in the total membership figures, but the amount of duplication is relatively small (estimated at not more than 25,000 in 1937).

(a) The subdivision of the total membership into male and female is partly estimated, as some Trade Unions are unable to state precisely the numbers of males and females comprised within their total membership.

(b) The figures given for 1937 are provisional. Those previously published in respect of earlier years have been revised, where necessary, in accordance with the latest information.

NOTE—See Note to Table No. 133, p. 150.

(a) The figures in this table relate exclusively to strikes and lock-outs beginning in the years shown, and the figures as to aggregate duration relate to the total loss in working days of such disputes, including the days lost in subsequent years in cases where the strike or lock-out extended over more than one calendar year. The figures of aggregate duration shown differ, therefore, from those in Table No. 133, pp. 150-51, which gives the aggregate duration, within each year, of all strikes and lock-outs in progress in that year, whether beginning in that or an earlier year.

NOTE.—The particulars given relate in most cases to general or district rates of wages recognised by employers' and workers' organisations; in some cases special advances in wage rates have been granted in addition to particular groups of workpeople the effects of which are not included. This has been particularly the case in coal mining, in which changes in the standard rates, the effect of which cannot be stated in relation to wages in 1914, have been made. These changes have materially affected the general level of wages. An explanation of the data used, and of the qualifications attaching to the figures, will be found in an article in the Ministry of Labour Gazette for March, 1935, pages 86 to 88.

(a) The averages are as computed by the Ministry of Agriculture; they include the value of certain allowances in kind.

(b) In addition to the percentages quoted, piece rates of wages were subject to enhancements to compensate for a reduction in hours.

(c) The percentages from 1924 onwards include an enhancement given in compensation for a reduction of hours from 55½ to 48 per week in the cotton industry, and from varying hours to 48 in the hosiery industry. These percentages, therefore, exceed the actual percentage increases over pre-war weekly wage rates.

(d) The percentages given do not include the enhancement of piece rates granted in 1919 when the weekly working hours were reduced. For the higher paid time workers the percentage increases have been less than those quoted. For the years 1928 to 1935 the general advances varied with different firms, and the figures quoted are those applicable in the majority of cases.

(e) In addition to the general advances, basic time and piece rates of wages have been increased, and piece rates were also increased in 1919 in compensation for reduced hours of labour.

(f) The rates shown for July, 1914, were adopted in 1914 to operate in 1915. In 1936, weekly hours of labour were reduced from 48 to 46, without any reduction in weekly rates of wages.

(g) In 1937, weekly hours of labour were reduced from 43 to 45 without any reduction in weekly rates of wages.

(h) The weekly rates are computed by multiplying the hourly rates by the average number of hours in a full ordinary week, the summer and winter hours being taken into account for this purpose.

(i) For 1914 the rates shown are the estimated approximate averages of the rates actually paid; for later dates they are the agreed standard rates, modified for 1928, 1929, 1931 to 1936 by agreed general deductions. The figures for porters and permanent way men relate to the rates in "industrial areas" excluding London.

(j) In addition to the rates quoted, extra payment was made to drivers performing over a certain mileage per day.

(k) For entrants to this grade after 1st February, 1926, the rates were somewhat lower.

(l) Owing to replacement of trams by motor buses in certain towns, it has been necessary to reduce the number of towns covered by the figures, which consequently differ from those previously published.

(m) Free food was provided in addition. For 1914 the rates shown are the predominant rates at the principal ports; for other dates they are the agreed standard rates.

(a) Inclusive, of particulars for territory which is now Eire.

(b) Owing to a revision of the industrial groups, the figures given for 1913 are not on exactly the same basis as those for later years for any groups except Metal Extracting, Shipbuilding, Textiles, Food, Drink, Gas and Electricity. For 1913 and 1924, the figures in the Clay, Stone, etc., group include accidents in quarries and pitbanks under 20 ft. deep. For later years statistics of such accidents have been collected by the Mines Department. The number of deaths have been: 1925—8, 1926—7, 1927—6, 1928—12, 1929—8, 1930—6, 1931—9, 1932—7, 1933—9, 1934—6, 1935—8, 1936—5, and 1937—9.

(c) Figures included for Northern Ireland are provisional.

(d) Including Electrical, Textile, Constructional, Hydraulic, Ventilating, etc., Engineering and making of Machine, etc., Tools.

(a) Subject to minor fluctuations, the number of cases under the Employers' Liability Act, 1880, has steadily diminished since the passing of the Workmen's Compensation Act, 1906. The total number of cases under the former Act taken into court in Great Britain in 1937 was 32, and the total amount of damages awarded £3,180.

(a) This amount was applied in purchasing and paying off debt during the year, and under the Finance Act, 1924, did not become Old Sinking Fund, but was deemed to be expenditure within the meaning of the Sinking Fund Act, 1875.

(b) Under Section 24 (1) of the Finance Act, 1928, this surplus was issued from the Exchequer to the Rating Relief Suspense Account.

(c) Budget estimate as modified by Finance Act, 1928.

(d) The concession for Income Tax Relief on Life Insurance Premiums made during passage of Finance Bill was estimated to reduce this by £250,000.

(e) Budget estimate as modified by Finance (No. 2) Act, 1931.

(b) Since 1st April, 1928, the net receipts from Fee Stamps have been appropriated in aid of the relative Votes for Civil Services instead of being paid to Exchequer as Miscellaneous Revenue.

(c) Relief for earned income was given for the year 1924-5 by deducting one-tenth with maximum deduction of £200 from the total income to be taxed. From 1925-6 to 1930-1, this deduction was increased to one-sixth, with a maximum deduction of £250, and from 1931-2 to one-fifth with a maximum of £300.

(a) Rearranged from 1924-5 in consequence of the institution of a Statutory Sinking Fund under the Finance Act, 1923.

(b) This represents the portion of the total amount paid to the United States Government on the 15th December, 1932 (£23,956,349 7s. 4d.) which under normal conditions would be treated as interest. On this occasion, however, His Majesty's Government have reserved the right to treat the whole sum as a capital payment of which account should be taken in any final settlement (Cmd. Paper 4215, and 4217, 1932).

(c) Pending negotiations for the revision of the terms of the agreement for the funding of the Debt to the Government of the U.S.A. "token" payments, amounting to \$17,500,000, were made in respect of the interest and instalment of principal due in the year ended 31st March, 1934.

(d) "Permanent Annual Charge of the National Debt" under the Finance Act of 1928 and following years.

(e) The Permanent Annual Charge of the National Debt was fixed at £224,000,000 by the Finance Act, 1937, but a greater sum was met from Revenue.

(f) Under Section 33 of the Finance Act 1936, the charge for issues to the Road Fund was transferred to Votes of Parliament from 1st April, 1937.

(g) For details of these payments see Table No. 128 of Statistical Abstract for year 1931.

(h) As from 1930-1 payments to the Local Taxation Accounts were discontinued with the institution of the General Exchequer Contributions payable from Votes of Parliament under the Local Government Act, 1929 (Part VI) and the Local Government (Scotland) Act, 1929 (Part III) but certain remanent payments were made in the years 1930-31 to 1933-34 which are included below under other Consolidated Fund Services.

(i) Including net share of reserved taxes.

NOTE.—The figures in this Table represent the net receipts approximately. The expression "Net Receipt" means the amount actually collected within the year ended 31st March (no matter for what year tax may have been assessed or charged) less the amount refunded, etc., within the year. It necessarily differs somewhat from the payment into the Exchequer (Exchequer Receipt) in the same year, as shown in Table No. 147, by reason of the time occupied by the remittance of revenue from provincial centres to London.

(h) Including adjustments for 1922-3 with Eire in respect of revenue collected in Great Britain and Northern Ireland, but attributable to Eire, and vice versa, viz., additions to Excise revenue of £582,000 in 1924-5 and £54,000 in 1925-6.

(i) Deductions due to excess of amounts appropriated in the year over amounts deposited.

(j) The net receipt of Income Tax, etc., represents the amount of Tax actually collected within the year (irrespective of the year of assessment) less the amount of Tax refunded, etc., within the year (see note (f) on page 213). The amounts under the several schedules show the approximate net receipt of the Tax based on the assessments of income under each schedule.

(k) Including Super-Tax.

(b) * These debts have been funded (year of funding, if after 1924, marked with an asterisk) and the amounts shown represent the aggregate payments due and outstanding under the respective funding agreements.

(c) As the figures in these columns represent two distinct methods of evaluating the respective debts, a total would have no significance.

(a) Super-tax was replaced by Sur-tax under the provisions of Part III of the Finance Act, 1927. The assessments to super-tax were based on the statutory income of the preceding year and the tax was payable on the 1st January in the year of assessment. The assessments to Sur-tax are based on the statutory income of the year of assessment and the tax is payable on the 1st January of the following year. (For an explanation of the change see paragraphs 35-37 on pages 57 and 58 of the 71st Report of the Commissioners of Inland Revenue).

NOTE.—The administration and collection of Death Duties in Northern Ireland was transferred to the Government of Northern Ireland from 22nd November, 1921, under the provisions of the Government of Ireland Act, 1920. Moveable property situate in one country (Great Britain or Northern Ireland) but passing on the death of a person domiciled in the other country is liable to Estate Duty in both countries. The capital value of such property is therefore included in both sets of statistics above, but double taxation is avoided under the statutory arrangement which authorises the duty paid on such property in the country of situation to be allowed as a deduction from the duty chargeable in the country in which the deceased was domiciled.

(a) i.e., Quantities on which duty was paid, less quantities on which drawback was allowed on the goods being exported, or warehoused for exportation, either as merchandise or as Ships' Stores.

(b) Inclusive of particulars for territory which is now Eire.

(c) For spirits, beer, glucose and chicory the figures represent the quantity made and in the other cases the quantities charged with duty.

(d) Prior to 1928 the figures represent standard barrels, i.e., a barrel of 36 gallons at a gravity of 1.055°: from 1928 onwards they represent bulk barrels of 36 gallons, irrespective of gravity. For number of standard barrels retained for home consumption see page 410.

(e) Duty on Sugar and Molasses made from home-grown beet reimposed 1st October, 1924. The figures for Molasses include, Molasses delivered duty free for distilleries and for food for stock, those for 1925 include all deliveries from 1st October, 1924.

NOTE.—No adjustments have been made in respect of alterations of area or authority.

(a) The figures in ordinary type (shown against the rating authorities) in respect of each year after 1928-9 represent the total income from rates, and make up the total shown at the foot of the column. The amounts for rating authorities for the years before 1929-30 were net amounts after making allowance for the precepts paid to the precepting authorities. The figures in italics (shown against the precepting authorities) represent (as in earlier years) the amount of the precepts received from rating authorities: see also note (c). The precepts in 1929-30 were met partly from rates collected by the rating authorities and partly from the transitory grants under the Agricultural Rates Act, 1929, and Section 112 of the Local Government Act, 1929, in compensation for loss of rates, and after 1929-30 partly from rates and partly from the Block Grants under the Local Government Act, 1929. The amount of rates utilised in meeting precepts after 1928-9 cannot be stated.

(b) Including, for each year before 1930-1, about £327,000 received by the Council and paid by them by way of grant to Boards of Guardians under section 43 (1) (b) of the Local Government Act, 1888.

(c) Under the Local Government Act, 1929, Boards of Guardians were abolished as from 1st April, 1930, and their poor law functions were transferred to the Councils of Counties and County Boroughs. In addition, the responsibility for all district roads in rural districts and for certain roads in urban districts was transferred from District Councils to County Councils.

(d) Including sums raised for the managers of the Metropolitan Asylum District and for other Joint Poor Law Authorities but excluding the grant mentioned in note (b).

(e) Under the Rating and Valuation Act, 1925, Overseers were abolished as from 1st April, 1927. Rates raised to meet expenses formerly borne by Overseers are for the year 1927-8 and later years included against Town and District Councils.

(f) Including £226,898 rates raised to meet expenses of Assessment Committees constituted under the Rating and Valuation Act, 1925. Rates to meet the corresponding expenses were, prior to 1927-8, mainly included against Boards of Guardians.

(g) Including sums in respect of non-rateable Government property.

(h) The amounts shown for years prior to 1923-4 represent the assessable value under the Agricultural Rates Act, 1896, *i.e.*, the rateable value under the Union Assessment Acts of all property *minus* one-half of the rateable value of agricultural land. The amounts for the years 1923-4 to 1927-8 represent the assessable value under the Agricultural Rates Act, 1923, *i.e.*, the rateable value under the Union Assessment Acts of all property *minus* three-quarters of the rateable value of agricultural land.

(i) Partly rateable value under the Rating and Valuation Act, 1925, and partly assessable value under earlier Acts. The figures correspond with those given as assessable values for previous years and as rateable value for subsequent years. The figure of £292,373,015 in April, 1929, which included £7,435,770 in respect of agricultural hereditaments on which no rates were receivable, was reduced on the 1st October, 1929, by the derating provisions of Part V of the Local Government Act, 1929, to about £255,274,000.

(j) As from 1st October, 1929, agricultural hereditaments have no rateable value, and the net annual value of these hereditaments, which on 1st April, 1930, amounted to £29,841,221, has not been included. Subject to the omission of these hereditaments, the figures for net annual value correspond generally with those for rateable value prior to 1928-9.

(a) The figures from 1913-4 to 1928-9 (first column) represent the difference between expenditure and receipts (except rates) in respect of rate fund accounts, trading accounts and reserve, pension and other special funds. Any increase in the balances of the trading, reserve, pension and other special funds (about £6,300,000 in 1928-9) accordingly operated to diminish the net figure shown for those years. The figures for 1928-9 (second column) and subsequent years relate to rate fund accounts only, and are not affected by the increased balances in the other accounts and funds.

(b) Highways and bridges.—Including, for the year 1913-4 only, amounts in respect of ferries. Those amounts were not separated in the Local Taxation Returns for that year from amounts in respect of bridges. For the other years to which the Table relates, the amounts in respect of ferries are included against the item "Trading services."

(c) Year 1929-30.—Including £13,483,574 in respect of the transitory grants under the Agricultural Rates Act, 1929, and Section 112 of the Local Government Act, 1929, in compensation for loss of rates.

(d) Including Block Grants under the Local Government Act, 1929. For amounts, see Table 170.

(e) The totals given here for any year differ from those given for that year in Table 168 because the amount of rates received by the Local Authorities within a year does not correspond exactly with the amount of their expenditure falling to be met out of rates within the same year.

(a) For the years 1913-4 to 1928-9 (first column), the expenditure shown in this table includes expenditure which was met out of capital receipts other than from loans (e.g. receipts from Government grants for capital works, sales of property, &c.). For the year 1928-9 (second column) and subsequent years such expenditure is excluded from this table, but is included with expenditure out of loans for capital works in Table 172.

(b) Maternity and Child Welfare.—Expenditure on this service was not shown separately in the Local Taxation Returns for 1913-4.

(c) Other Public Health Services.—Particulars relating to some of the "Other Public Health Services" are not available for 1913-4 and are, for that year, included against "Other Works and Purposes."

(d) Housing, and Town and Country Planning.—Year 1935-6.—If the change in the method of accounting effected by the Housing Revenue Account set up by the Housing Act, 1935, had not been made, this figure would have been about £5,000,000, greater. Including £2,333,364 in connection with advances under the Small Dwellings Acquisition Acts—see also note (d) on page 236.

(e) Highways and Bridges.—Including, for the year 1913-4 only, amounts in respect of ferries. Those amounts were not separated in the Local Taxation Returns for that year from amounts in respect of bridges. For the other years to which the Table relates the particulars in respect of ferries are included against "Other Trading Services."

(f) Other Trading Services.—Separate particulars for 1913-4 are not available. The loan charges in respect of "Other Trading Services" are, for that year, included against item (i).

(g) The term "Loan Charges" comprises interest on and provision for repayment of borrowed moneys.

(h) Excluding unexpended balances of loans repaid to lenders or paid to sinking funds.

(e) Highways and Bridges.—The amounts of the expenditure out of loans for capital works and of the outstanding loan debt in respect of ferries were, in the Local Taxation Returns for 1913-4, not shown separately from the amounts in respect of bridges. Amounts for ferries are, therefore, in this Table included for that year against "Highways and Bridges," not against "Other Trading Services."

(f) Other Trading Services.—See Note (e) as to Ferries. The amounts of the expenditure out of loans for capital works and of the outstanding loan debt in respect of "Other Trading Services" were not distinguished in the Local Taxation Returns for 1913-4.

(g) Including sums repaid to lenders or transferred to sinking funds out of unexpended balances of loans and other capital receipts, the amounts for 1935-6 being £607,212 out of unexpended balances and £8,447,576 out of other capital receipts.

(a) The sums expended on account of "Loan Charges" are included under the different services.

(b) Including payments into Sinking Funds.

(c) For 1921-2 and subsequent years the total expenditure on Tuberculosis is included, a comparatively small proportion of which relates to domiciliary treatment. The total expenditure on Tuberculosis was £159,267 in 1914-5 and £653,211 in 1933-4.

(d) Includes clearance of insanitary areas and rehousing.

(e) In 1913-4 the cost of maintenance of Pauper Lunatics is included under Poor Relief. For 1921-2 to 1929-30 under the provisions of the Mental Deficiency and Lunacy (Scotland) Act, 1913, half cost of such maintenance was borne by the Lunacy Authority (District Boards of Control) and it therefore appears as Lunacy, the other half being shown as Poor Relief. For 1930-1, and subsequent years, under the provisions of the Local Government (Scotland) Act, 1929, the total cost of rate-aided lunatic and mentally defective poor is included under Lunacy.

NOTE.—It is estimated that (excluding gold coin held in the Issue Department of the Bank of England) gold coin to the value of £123,000,000 was in circulation in the United Kingdom on 30th June, 1914.

(a) Excluding Bank of England Notes in the Currency Notes Redemption Account from 6th August, 1919, to 21st November, 1928, and in the Banking Account of the Bank of England throughout.

(b) Inclusive of issues of Country Banks.

(c) The fiduciary issues of the Banks in Scotland amount to £2,676,350 and that of the Banks in Ireland to £6,354,494. Prior to the outbreak of the European War issues beyond these amounts were covered by gold, but at various times between 1914 and 1920 transfers were made to the Bank of England from the gold holdings of these banks which were replaced by Bank of England Notes or Currency Notes.

(d) Average for the eight weeks ended 21st November, 1928.

(e) Average for the five weeks from 22nd November, 1928. From this date the note issues of the Bank of England and the Currency Note Commissioners were amalgamated and the amount of the fiduciary note issue of the Bank of England was fixed at £260,000,000, subject to variation under Sections 2 and 8 of the Currency and Bank Notes Act, 1928. Variations under these Sections have been made during the following periods:—1st August, 1931, to 31st March, 1933—authorised fiduciary note issue £275,000,000; 15th December, 1936, to 12th November, 1937—£200,000,000; 13th November, 1937, to 12th January, 1938—£220,000,000; 13th January, 1938, to 6th December, 1938—£200,000,000; 6th December, 1938, to date—£230,000,000.

NOTE.—The prices shown are inclusive of duty. Where a range of prices is shown in the publications from which quotations are extracted the lower price has been taken in most cases, but in a few cases the average of the range has been used.

(a) Prices not available for 1913; the average prices shown are partly estimated for the years 1924 to 1926 from the quotations for descriptions of flour other than ex-mill, prices for ex-mill not being available throughout those years. From 1934 onwards prices are "to bakers" and are about 1s. 6d. more than the ex-mill prices.

(b) Prices not available for 1913; the average prices for the years 1924 and 1925 are based on the quotations available, prices for Canadian Western barley not being quoted throughout those years.

(c) Average of the seven months June—December, quotations not being available from January—May.

(c) The decrease in the years 1930 and 1931 is due to the inclusion in the figures for previous years of certain accounts which are now classed generally as dormant, i.e., accounts with balances of less than £1 which have been dormant 5 years and upwards. The number of these removals from the "Active" accounts in the United Kingdom was nearly 200,000 in 1930, and 500,000 in 1931.

(a) Number of societies making returns.

(b) Under the provisions of the Industrial Assurance Act, 1923, 129 Friendly Societies with 866,927 members and £2,446,378 funds were transferred to the category of Collecting Societies on 1st January, 1924.

(c) The figures for years prior to 1925 include Shop Clubs, numbering four in 1924 with a membership of 4,221 and total funds of £3,482.

(d) Particulars not available.

(e) Before 1933 the figures exclude Medical Societies and Societies registered under a Special Authority, which permits them to add to their normal friendly society benefits insurance against unemployment. The total number of societies involved in 1933 was 101, membership 196,523, benefits £216,152 and funds £1,205,293.

(f) Full particulars for these Societies are not available for years other than those specified in the Table.

NOTE.—Most British Joint Stock Banks are registered under the Companies Act, 1862, and, consequently, the bulk of the Capital of such concerns is included in the figures given in the above Tables. With the exception of Municipal Tramways, the majority of the Companies working tramways in the United Kingdom are registered under the Companies Acts, and their Capital is accordingly also included. Railway Companies in the United Kingdom are not incorporated under the Companies Acts, but by special Acts of Parliament, as they need powers beyond those conferred by registration under the Companies Acts. Their Capital is, therefore, not comprised in these Tables.

(a) On 30th April.

(b) Inclusive, in 1914, of particulars for territory now Eire.

NOTES.—The Corn Sales Act of 1921, which came into force on 1st January, 1923, provides that all transactions in British corn to be legally binding must be carried out in terms of the cwt. instead of the bushel or quarter. For purposes of comparison average prices for 1913 formerly shown per quarter, have been converted to per cwt. at the following rates :—Wheat—60 lbs. per bushel, Barley—50 lbs. per bushel and Oats—39 lbs. per bushel. Returns were collected from 173 towns.

Source.—Returns from Towns scheduled under the Corn Returns Act, 1882, and published in the Agricultural Statistics issued annually by the Ministry of Agriculture and Fisheries.

(a) The figures relate to firms and undertakings that employed more than ten persons on the average except in the case of Northern Ireland, where for 1924 they relate to all firms.

(b) Excluding estimated Excise duty.

(c) Not available.

(d) Preliminary figures for 1935; in general, however, the final aggregates are not expected to differ substantially from those given.

(e) Including subsidy on home-grown sugar.

(a) See notes (a) and (c) to Table 225.

(b) The figures for power applied mechanically are calculated by deducting from the total capacity of prime movers the estimated capacity required for driving electric generators which, in turn, supply current to electric motors. Power applied electrically is represented by the total capacity of all electric motors.

(c) Excluding Electricity Supply Undertakings.

(d) These figures are omitted as the power required for the generation of electricity for industrial uses is partially duplicated in the capacity of electric motors driven by purchased electricity.

NOTE.—The method of construction and the scope of the revised index number were described in the "Board of Trade Journal" of 28th March, 1935; the index was not calculated prior to 1927. Comparability is affected, to a small extent for the complete index, by the inclusion in most years of new series not previously used.

(a) Includes also various industries not specified above.

(a) Ganister is included throughout. Complete information with respect to other kinds of Silica Stone is available from 1924 only, from which year Silica Sand used as Refractory Material is also included. The latter was previously included with "Gravel and Sand."

(b) Inclusive, in 1913, of particulars for territory which is now Eire.

(c) Certain quantities of Salt Brine may have been duplicated in 1913.

(d) Fireclay from Quarries in 1913 is included with Clay, Shale, etc.—Other Sorts.

(e) Exclusive of Salt from Brine in Northern Ireland in 1924 and subsequent years.

(f) The figures for 1924 and subsequent years are not strictly comparable with those for 1913 as certain minerals previously in these classes, are now classified separately.

(g) Figures of production, employment and accidents at mines and quarries producing coal, iron ore, limestone and other minerals used in the iron and steel industry were affected by the protracted dispute in the coal mining industry in 1926.

(h) Less than 500 tons.

(i) Less than £500.

(j) In addition, 8,475 tons of partially dressed zinc ore were obtained during the years 1936 and 1937. The value of this ore, which is to be subject to further treatment before sale, is not yet known, but the relevant figures will be included in future reports.

(a) Selected so as to eliminate as far as possible the effect of holiday stoppages.

(b) The figures for 1913 are based on returns collected by the Ministry of Labour and covered between one-half and two-thirds of the workpeople in the industry in the United Kingdom. Those for 1924 and later years are based on returns collected by the Mines Department, and relate to all the mines in Great Britain.

(c) General coal mining stoppage.

(d) Average of 5 months.

Average Percentage of metal content 1937 (c) — Great Britain.	52%	29%	28%	33%	31%	—	30%	—

(a) Inclusive of particulars for territory which is now Eire.

(b) Figures of production, employment and accidents at mines and quarries producing coal, iron ore, limestone and other minerals used in the iron and steel industry were affected by the protracted dispute in the coal mining industry in the year 1926.

(c) The yearly variations in the average metal contents of the above kinds of iron ore, etc., are small and the figures shown for 1937 may be regarded as typical. In the case of the total figures, the variation is mainly dependent on the relative amounts of the various classes produced.

NOTE.—The figures are for the year ended 31st March in respect of Local Authorities in England and Wales; for the year ended 15th May in respect of Local Authorities in Scotland; and for the twelve months ended the previous December in respect of all Companies in Great Britain.

(a) The figures for 1932-3 are not comparable in all details with those for previous years, owing to slight modifications which were made in the Electricity Commissioners' form of statistical return for that year.

(b) Figures for 1930-1 and subsequent years are exclusive of intersales and interpurchases between authorised undertakings.

(k) Including telegrams dealt with entirely by Cable Companies, etc., in this country.

(l) Including privately owned and privately maintained stations having access to the public exchange system.

(m) Consequent upon the introduction of a revised method of accounting, Local calls for 1934-5 and later years represent calls value 4d. and under and Inland Trunk calls value 5d. and over instead of 2d. and under and 3d. and over respectively as in previous years. Estimated comparable figures for 1933-4 are:—(Thousands) Local 1,503,870, Trunk 76,588.

(n) In 1936-7, 12½-15 mile morning calls are included under Local calls instead of under Trunk calls as in previous years, owing to a reduction in charge from 1st May, 1936, from 5d. to 4d. (the whole year has been adjusted to the revised basis). Estimated comparable figures for 1935-6 are:—(Thousands) Local 1,734,100, Trunk 89,766.

(o) With yearly renewal of Licences the number in force at end of year is very nearly equal to the number issued in the year.

NOTES.—The above Return includes vessels belonging to the Isle of Man and the Channel Islands.
The number of persons shown as employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year. For 1926 and later years see the procedure outlined in note (e).
The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, Eire, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.
The Foreign Trade includes vessels trading or going beyond the above limits.
Some vessels known to be trading abroad are omitted from the Return, owing to the fact that no late information of the number of their crews could be obtained.
Fishing vessels employed in Trading are omitted from the Return. In 1925, 11 vessels aggregating 441 tons were so employed.

(a) Under the heading "Lascars" are included Asiatics and East Africans employed under agreements, for natives of Asia or East Africa, which open and terminate in Asia.
 (b) Inclusive of particulars of vessels registered in territory which is now Eire.
 (c) Excluding vessels of under 100 tons net.
 (d) Excluding, in 1927 and later years, vessels of under 100 tons gross.
 (e) Prior to 1926, vessels engaged during the year partly in the Home and partly in the Foreign Trade, have been separately distinguished. In 1926 and later years, vessels employed on the census date have been included in the Trade in which they were engaged on that date. Vessels not employed on the census date but employed some time during the year have been included in the Trade in which they were employed when the first crew of the vessel was engaged during the year.
 (f) The figures for 1926 and later years include seamen who, in accordance with previous practice, would have been enumerated as British. In 1926 such seamen numbered about 4,000.

(d) Includes £16,674 profit on sale of investments.

Source.—Accounts of the General Lighthouse Fund, issued annually by the Board of Trade.

IMPORTS AND EXPORTS

[The value of the imports represents the cost, insurance, and freight: or, when goods are consigned for sale, the value corresponding to the price at which sold. The value of the exports represents the cost and the charges of delivering the goods on board the ship, and is known as "the free on board" value.]

NOTE.—In the table above a comparison is made between the foreign trade of the Year 1924 and that of 1925–30 by estimating, as nearly as available data permit, the value which would be put upon imports and exports in the aggregate, if each item had the same average value per unit of quantity as was declared for goods of the same description in 1924. In this way figures are obtained, the comparison of which with the corresponding figures for 1924 enables the extent of the influence of price changes and the aggregate changes in the volume of goods imported and exported to be estimated. Similar calculations are made for the years 1930–6 on the basis of prices in 1930, and for years subsequent to 1935 on the basis of prices in that year. To facilitate comparison with earlier series, the particulars for 1924 and 1930 have also been calculated on the basis of prices in 1930 and 1935 respectively.

NOTE.—Changes in the classification of commodities as made from time to time in the original trade returns have been taken into account in the above table, and the figures for each class of goods are based on the classification in force in the latest year. In the case of 1913, however, exact comparison of classes with those for subsequent years is not possible.

NOTE.—Figures shown in this table, in respect of certain groups of commodities which are affected by changes in classification made from year to year in the original trade returns, have been, as far as possible, made comparable for the series of years shown, on the basis of the classification in use in the latest year. Where such changes do not permit of the compilation of exactly comparable figures, important differences are noted.

(a) The particulars relate to imports and home production in the British Isles as a whole.

(b) In addition to re-exports of wheat in grain all exports of wheat meal and flour of domestic produce (in grain equivalent) have also been deducted from the total imports. The amount of the exports consisting of flour milled from imported wheat as distinct from home-grown wheat, is not available.

(c) These quantities represent, in addition to the weight of flour, 23 per cent. of offal, etc., the result of the process of converting grain into flour.

(d) Inclusive of a small number of eggs, other than poultry, in 1933 and prior years.

(e) Exports of cured, salted and canned fish classified as exports of domestic produce have also been deducted from the totals of fish landed. These deductions would, however, include a certain amount of imported fish which is subsequently cured, salted or canned.

(f) The total quantity of Tongues, Hearts, Livers, Kidneys, etc., is shown with "Other Sorts of Fresh and Refrigerated Meats." In subsequent years the quantities are allocated to Beef, Mutton and Pork respectively.

(g) The quantities of meat here given are subject to revision. They are partly calculated from estimates furnished by the Ministry of Agriculture regarding the numbers of fat animals imported, to which are applied their estimates of the average dressed weights per head. These weights have, in some instances, been revised for 1935 and later years following enquiries made at the ports of entry but no information is available regarding annual variations in average weights which would permit of revised weights being applied to the numbers imported in earlier years.

The estimated average dressed carcass weights of fat animals from the principal supplying countries are as follows:—

	From Eire	From Canada
Cattle	lbs. 640	lbs. 688 (670 lbs. in 1935 and later years)
Sheep and Lambs	55 (46 lbs. in 1935 and later years)	86
Swine	180 (160 lbs. in 1935 and later years)	—

Allowance has also been made for the weight of edible offal by the addition of 10 per cent. to beef, mutton and lamb and 5 per cent. to pork.

(h) The figures are inclusive of imported fresh and frozen pork subsequently salted and preserved.

(i) Exclusive of potatoes grown on allotments.

NOTES.

With regard to Sugar, the figures in the first three lines represent the quantities entered for home consumption less the quantities over-entered and the quantities exported, on drawback, including the sugar in composite articles exported. The British refineries went out of bond as from 25th April, 1928, and in consequence the figures for 1928 and subsequent years include a much larger proportion of raw sugar and a much smaller proportion of refined sugar than in previous years. The figures in the fourth line for 1913 express, in terms of refined Sugar, the quantities of raw and refined sugar duty-paid for home consumption, less British refined Sugar exported on drawback (but not sugar in composite articles exported). From 1924 they express the estimated equivalent in sugar exceeding 98° polarisation of all sugar refined and unrefined (from 25th April, 1928, for Empire sugar only, exceeding 99° polarisation), including sugar in composite articles imported, duty paid and retained for home consumption, after deducting the sugar exported on drawback including the sugar in composite articles.

* For those articles marked with an asterisk, and also for Tea for years 1929 to 1932, the Imports less the Re-exports have been taken as the quantities retained for home consumption (with the exception of Rice and Rice Flour, for which Imports less Total Exports have been given), but no accounts of the quantities used as ships' stores are available. In the case of other articles, except Sugar and Tobacco, the quantities over-entered and those exported on drawback or otherwise after payment of duty, have been deducted from the quantities entered for home consumption in the first instance. The quantities exported from bonded warehouses or shipped on drawback as "ship's stores" are not included in the quantities retained for home consumption.

The figures for dutiable Molasses for 1913 represent the quantities entered for home consumption less the quantities over-entered or exported duty-paid and from 1924, the quantity exported on drawback, and include up to the 24th April, 1928, the molasses produced in bonded refineries in the United Kingdom from imported sugar. The refining of sugar in bond ceased as from 25th April, 1928, and the refiners thenceforth paid duty on the raw sugar instead of on the finished products (refined sugar and molasses). From that date, therefore, no information is available as to the quantity of molasses for dutiable use produced from imported sugar.

NOTES—*contd.*

As regards Tobacco, the quantity of *unmanufactured* Tobacco retained for home consumption includes Home-grown Tobacco and has been arrived at by deducting the quantity of Tobacco manufactured in the United Kingdom and exported on drawback, over-entries, and exports after payment of duty, from unmanufactured Tobacco entered for home consumption. The figures for *manufactured* Tobacco represent the quantities entered for home consumption less the quantities over-entered, and those exported after payment of duties.

(a) See note (a), p. 408.

(b) The duty on Tea was repealed as from 22nd April, 1929 and reimposed on 20th April, 1932. The figures for 1929 to 1932 represent retained imports, i.e., imports less re-exports.

(c) A standard barrel represents a barrel of 36 gallons at a gravity of 1.055° and a bulk barrel, 36 gallons, irrespective of gravity. The figures given for consumption represent the actual quantity charged with duty during the year, less the quantity on which drawbacks, etc., have been paid.

(d) The figures for 1913 include spirits used for the manufacture of recognised medical preparations, or for scientific purposes, the quantities of which are not available. From 1924 the figures exclude spirits used for these purposes; the quantity so excluded ranged from about 500,000 to about 600,000 proof gallons yearly, very largely home-made spirits.
