Principles of assessment of compensation.

- (a) no allowance shall be made on account of the acquisition being compulsory;
- (b) the value of the land, estate, interest or profit shall be taken to be the amount which the land, estate, interest or profits, if sold in the open market by a willing seller, might be expected to realize;
- (c) where part only of the land, estate, interest or profits belonging to a person is acquired under this Part, the court may take into account an enhancement of the value of the residue by reason of the proximity of improvements or works made or constructed or to be made or constructed by the council acquiring that part;
- (d) the court may have regard not only to the value of the land, estate, interest or profits to be acquired but also to any damage which may be sustained by the owner by reason of the severance of those lands from other lands belonging to that owner or other injurious circumstances affecting those other lands by that acquisition.

(2) In estimating that compensation, the court shall assess it according to what it finds to have been the value of the land, estate, interest or profits—

- (a) at the time when notice of intention to acquire was served, and
- (b) without regard to improvements or works made or constructed or to be made or constructed afterwards on the land.

168. The payment to a person to whom consideration, rent or compensation shall be paid or the payment into court of compensation upon a decision of the court shall effectually discharge the council from seeing to the application or being answerable for the misapplication thereof.

169. (1) Where—

Costs.

- (a) the acquiring council has made an unconditional offer of a sum as compensation or rent to a claimant, and

(b) the sum awarded by the court to that claimant does not exceed the sum offered, then the court shall, unless for special reasons it thinks proper not to do so, order the claimant to bear his own costs.

(2) Where—

(a) the claimant has made an unconditional offer in writing to accept a sum as compensation or rent, and

(b) the sum awarded by the court is equal to or exceeds that sum,

then the court shall, unless for special reasons it thinks proper not to do so, order the acquiring council to bear its own costs and to pay the costs of the claimant so far as such costs were incurred after the offer was made.

(3) Where the court orders the claimant to pay the costs or part of the costs of the acquiring council, the acquiring council may deduct the amount so payable by the claimant from the amount of the compensation or rent payable.

(4) without prejudice to another method of recovery, the acquiring council may recover from a claimant, as a civil debt, the amount of costs ordered to be paid by him.

PUBLIC NOTICE

The Town and Country Planning Law (Cap. 126)

CONTROL OF FINANCES OF PLANNING AUTHORITIES

By virtue of the powers conferred on me by sections 60 (1), 68 (1), 74 (1) and 75 of the Town and Country Planning Law and of all other powers enabling me in that behalf, I hereby order that every Planning Authority shall regulate, control and manage its own finances and, in so doing, shall comply with the following instructions—

FORMS AND BOOKS OF ACCOUNT

1. The following books of account should be kept by each Planning Authority—

- (a) A Cash-book;
- (b) A General Ledger;
- (c) A Receipt Book Register;
- (d) A Stores Ledger;
- (e) A Journal.

2. For the Cash-book, any foolscap book or account book suitably ruled to provide two cash columns, one for cash and the other for bank on either side, may be used. The General Ledger should be a normal ledger ruled with the standard debit and credit columns.

3. All receipts and payments must be posted in the Cash-book on the same day as the transaction is effected in such a manner as to reflect clearly the nature of the transaction. The Ledger will contain the following accounts—

- Revenue Account;
- Expenditure Account;
- Advances Account;
- Deposits Account.

Payments which do not represent final expenditure should NOT be debited to the Expenditure Account, but to the appropriate Advances Account. Any repayments of such advances will be credited thereto, so that the debit balance thereon at any time will represent an asset of the Authority. In the same way, any cash received in the form of a deposit which may be refundable will be credited to the Deposits Account.

4. The revenue transactions that are recorded in the Cash-book should be entered up daily in the General Ledger on the page provided therein for each Revenue Sub-head of the Estimates. Similarly, the payment transactions that are recorded in the Cash-book should be entered daily in the page provided for each Expenditure Sub-head of the Planning Authority Estimates concerned. At the end of each month the accounts in the General Ledger should be balanced.

5. The numbered forms—

6. All entries in the Cash-book must be supported by a Receipt or Payment Voucher except in the case of contra entries for which no vouchers are required in support. Journal Vouchers should be used in accounting for internal deductions. Each represents an extract on PAF 3 of an entry in the Journal. A Journal entry is a record of transactions such as transfers/adjustments between ledger accounts which do not involve an outside body. Such an entry constitutes an accounting authority to vary amounts shown in ledger accounts.

Approval of
Planning
Scheme.
(First and
Second
Schedules)

FIRST SCHEDULE

All that piece or parcel of land lying partly within Enugu Municipality and partly in Nkanu Division of the East Central State of Nigeria, and bounded on the north by the Achara Layout and on the west and south by the proposed Awkunanaw No. 1 Layout, and on the east by the Enugu and Port Harcourt railway line which separates it from the Enugu Campus of the University of Nigeria. It is commonly regarded as an extension of "Kenyatta" and particularly delineated on the Enugu Planning Authority Plan No. E.T.P.A. 27.

SECOND SCHEDULE

PART I.—GENERAL DESCRIPTION OF THE SCHEME

1. The land to which the Scheme relates as described in the First Schedule measures approximately 126.2 acres. The whole area is the freehold property of the Umuanibo and Umunge families of Awkunanaw. Reference to these families in the Scheme is not to be taken as implying that the Authority necessarily recognizes their title to the land covered by the Scheme as against the claims of any other persons who may assert their own interest in the land. The Scheme provides for medium to high density residential development, but there are a number of Commercial/Residential plots which are grouped around the proposed timber market located within area of the Scheme. The timber market covers an area of approximately 17.86 acres.

2. The aims of the Scheme are—

- (a) To control development within area of the Scheme which will form an extension to Achara Layout and to ensure that a reasonable standard of development is carried out in the Layout in accordance with Enugu Town Planning Authority Plan No. E.T.P.A. 27.
- (b) To organize land use within area of the Scheme in the light of general development proposals for Enugu and environs.

SECOND SCHEDULE—*continued*

LAND USE

RESIDENTIAL LAND USE

3. The plan contains altogether 304 residential building plots each having a minimum dimension of 60 ft x 100 ft. On plots Nos. 1-304, only buildings for residential purposes may be permitted to be erected. Only a single main residential building with its ancillary buildings such as servants quarters and garages shall be allowed on any of these plots. Two or more adjoining plots may on application to the Enugu Town Planning Authority, be allowed to be treated as single plot for development purposes. In this case terraced or semi-detached houses may be permitted.

4. All buildings shall be set back from the road and the set back shall be that specified on the Layout Plan of the Scheme (E.T.P.A. No. 27). They shall also have a minimum side set back of 7' 6" for bungalows, 10 ft. for two storeyed buildings, and 15 ft. for buildings with three or more storeys. In all cases the minimum rear set back shall be 10 feet. Street parking shall be discouraged, for this reason, each plot when developed, shall provide adequate facilities for parking vehicles within the premises.

5. No restriction as to the height of the building shall be imposed, but the sum total of all floor areas of all the structures (i.e., including servants quarters, garages out-houses and balconies) on any plot shall not exceed the total area of the plot; and in no case shall the total area covered by any building exceed $33\frac{1}{3}$ per cent. of the area of the plot.

6. Pending publication of Planning Authority's Building Regulation, the Enugu Urban Council Building Bye-law shall apply to the area of the Scheme to the extent that they will not be inconsistent with the provisions of this Scheme.

7. On Plots CR/1-CR/21 buildings to be used for residential and commercial purposes may be erected. The conditions governing the area of the plot to be covered by buildings, the set backs around the buildings and the number of buildings to be erected on a plot as laid down in paragraphs 3, 4 and 5 of this Scheme in respect of purely residential buildings shall apply to these plots.

PUBLIC LAND USE

8. On Plot P/1, a nursery school and/or a clinic may be built. Residential buildings may not be allowed to be erected on it. The design of any building or buildings to be erected on this plot shall be approved by the Enugu Town Planning Authority after consultations with the Head of the Town Planning Division of the Ministry of Lands, Survey and Urban Development. Generally the provisions applying to coverage, set backs and heights as shown in paragraphs 3, 4 and 5 of this Scheme shall apply to "P" plots.

9. Plot P/2 is reserved for a timber market which will be acquired and developed by the Enugu Urban Council. The detailed plan of the market shall be prepared in consultation with the Enugu Planning Authority, which Authority shall approve the plan after consultation with the Head of the Town Planning Division of the Ministry of Lands, Survey and Urban Development.

10. Parcels of land marked OS 2-10 shall be developed as parks or green areas, but OS/1 shall be developed as a playground for the benefit of the entire community.

ROADS, DRAINS AND CULVERTS

11. The total width of roads are as given in the Layout Plan No. E.T.P.A. 27. All roads, drains and culverts shall be constructed in accordance with the specifications approved by the Enugu Town Planning Authority. The detailed design of the roads, drains and culverts shall also be approved by the Planning Authority.

SECOND SCHEDULE -- *continued*

12. It shall be the responsibility of the Enugu Town Planning Authority to construct the roads, drains, etc., and for this purpose the Authority shall levy planning rates payable by the landowners or the plot holders. If, however, the landowners wish to develop the Layout themselves they should make a representation in writing to the Town Planning Authority. Specifications for any works shall be as approved by the Planning Authority on the advice of the Ministry of Works, Housing and Transport.

13. The Enugu Urban Council shall take over the maintenance of the roads, drains and culverts once they are constructed. All the roads, etc., shall therefore be constructed to the satisfaction of that body. The roads, etc., will be deemed to have been constructed to the satisfaction of the Council if the Council supervises their construction. Where the Planning Authority or landowners have undertaken the construction, the roads, drains and culverts will be deemed to have been satisfactorily constructed if the Ministry of Works, Housing and Transport so certifies. The tarred strip for all roads within the Scheme shall be of a minimum width of 22 feet.

PUBLIC UTILITIES

WATER SUPPLY

14. It is expected that the extension of water supply mains will be carried out by the Ministry of Works, Housing and Transport. The capital contribution which that Ministry will require from the Planning Authority shall be raised from the proceeds of a planning rate imposed in respect of all building plots in the layout. A planning rate order will be made as soon as the Scheme is approved.

ELECTRICITY SUPPLY

15. The electricity supply will be extended to the area of the Scheme by the Electricity Corporation of Nigeria. The extension may not prove expensive since the adjoining Achara Layout has already been supplied with electricity. The necessary capital contribution required for this extension will be provided by the Planning Authority from planning rates.

16. Easements for the installation and maintenance of sub-stations and transformers, or water tanks and booster pumps shall be reserved as required in any of the open spaces marked OS/2+8, in the Layout Plan.

Every plot holder shall provide refuse bins within their plots well away, and screened from the road. The Urban Council shall empty the refuse bins and dispose of their contents by incineration or tipping on sites approved by the Health Authority for the purpose.

19. No plot or any other part of the area of the Scheme shall be used for, or maintained as a dumping ground for rubbish, garbage or other wastes.

GENERAL

20. The minimum cost of buildings to be permitted on any plot in the area of the Scheme shall be £3,500. The purpose and the intention of this covenant is to ensure that all buildings shall be of a reasonably good quality and standard.

SECOND SCHEDULE — *continued*

GENERAL

21. All building plans for the development of any plot within the area of the Scheme shall be approved by the Enugu Town Planning Authority after consultations with the Head of the Town Planning Division of the Ministry of Lands, Survey and Urban Development. It is expected that the design of all buildings shall be of a high standard, and for this reason conditions governing submission of building plans as laid down by the Architects Registration Council of Nigeria in accordance with Decree No. 10 of 1969 shall apply throughout the area of the Scheme.

22. No building shall be permitted to be erected on any plot in the layout until such a time as the roads in the immediate vicinity of such a plot have been constructed to the satisfaction of the Enugu Town Planning Authority.

23. If before the execution of the whole or part of this Scheme, any building/structure is erected in contravention of section 11 of the Town and Country Planning Law, no compensation shall be paid if and when such building is demolished. The Planning Authority shall be advised by the Head of the Town Planning Division of the Ministry of Lands, Survey and Urban Development, and reserves the right to reject any building plan on aesthetic grounds.

*The Town and Country Planning Law Cap. 126*THE REPUBLIC LAYOUT PLANNING SCHEME
(APPROVAL) ORDER, 1971

Pursuant to subsection (1) of section 18 of the Town and Country Planning Law, the Commissioner for Lands, Survey and Urban Development has made the following—

ORDER

1. This order may be cited as the Republic Layout Planning Scheme (Approval) Order, 1971 and applies in respect of the area known as the Republic Layout, Enugu and described in the First Schedule hereto.

Citation.

2. The Planning Scheme known as Republic Layout as set out in the Second Schedule is hereby approved.

Approval of
Planning
Scheme.
(First and
Second
Schedules)

FIRST SCHEDULE

The Scheme covers all that piece or parcel of land measuring 522.5 acres and situated in the Ugwuaji Village in the Nkanu Division of the East Central State of Nigeria. The land lies immediately to the east of the Independence Layout with which it has a common boundary, and more particularly delineated on the Enugu Town Planning Authority Plan No. ETPA/28. The proposed bye-pass linking Agbani Road and Abakaliki Road passes through the area of the Scheme.

SECOND SCHEDULE

PART I.—GENERAL DESCRIPTION OF THE SCHEME

1. The whole of the area covered by the Scheme is the freehold property of the original landowners or the leasehold property of their tenants to such extent as the land has not already been further disposed of by these original landowners or tenants by the sale or lease of smaller plots of land within the areas of their over-all holdings namely—

- | | |
|---|-----------------------|
| (a) Freehold property of Umu Nnaji Ngene | } of Amehi Awkunanaw, |
| (b) Freehold Property of Ndiaga | |
| (c) Freehold property of Umu Edexchi | |
| (d) Freehold property of Umu Onaniabo Ishiagu | |
| (e) Freehold property of Umu Nga Nvene | |
| (f) Freehold property of Umu Naugwu | } of Ugwuaji. |
| (g) Freehold property of Amauzam | |
| (h) Freehold property of Akwoba | |
| (i) Freehold property of Umu Nya Ifi | |

2. The details given in paragraph 1 above as to the owners of the land covered by this Scheme are those given by claimants to the land. Reference to them in the Scheme is not to be taken as implying that the Authority necessarily recognizes their title to the land covered by the Scheme as against the claims of any other persons who may assert their own interests in the land. This Scheme sets out the manner in which the Authority, with the approval of the Honourable Commissioner for Lands, Survey and Urban Development will permit the area it covers to be developed by whichever persons may have the legal right to develop it.

3. The Scheme is planned as a neighbourhood having its own facilities namely schools, shopping centres, markets, churches, recreational areas and a light industrial area.

4. The Layout provides for the following category of plots—

442 residential plots

9 commercial plots marked C 1-C 9

26 commercial *cum* residential plots marked CR 1-CR 26

55 special plots marked S/1-S/55 and

8 public building plots marked P/1-P/8.

There is also provision for a market which forms the core of the neighbourhood centre.

PART II.—THE PURPOSE OF THE SCHEME

5. The logical trend of growth of Enugu is towards the east and north-east of the Independence Layout. The newly sited Army Barracks in that locality is bound to generate considerable building activities there. The purpose of the Scheme therefore, is firstly to organize the land use of that area thereby forestalling possible growth of slum, secondly to discourage ribbon development which already evinces itself along the main trunk roads leading into Enugu namely Enugu-Awgu-Aba Road, and Enugu-Abakalki Road, and thirdly to assist in providing much needed housing accommodation in Enugu.

PART III.—LAND USE

6. The Layout Plan provides for the following plots—

- (a) *Special Plots*.—On these plots the following classes of buildings may be built—Offices, Banks, Doctors' and Dentists' Clinics, Chemists' and Opticians' shops, Showrooms, Night Clubs, Hotels, and such like buildings. Cinemas may also be allowed on any of these plots. The plots are reasonably large and it is intended that off-street parking facilities shall be provided within them.
- (b) *Residential Plots*.—On these plots only residential dwellings may be built. Blocks of flats may, however, be erected on plots measuring up to 100' x 150' or one-quarter acre and above in areas around the neighbourhood centre or adjoining the special plots.
- (c) *Commercial Plots*.—These plots are reserved for purely commercial use, and for sale of finished products. Only Department Stores, Super Markets and buildings of that nature may therefore be erected on them. Restaurants and Cafeteria may also be allowed on any of them.
- (d) *Commercial cum Residential Plots*.—On these plots buildings to be used for both commercial and residential purposes may be permitted. The ground-floor of such buildings shall be reserved for shops while the upper-floors may be developed as flats.

- (e) *Public Building Plots*.—These plots are reserved for places of assembly such as schools, churches, clubs, community halls, museum, public library, etc.
- (f) *Petrol Filling Stations (PS/1-PS/3)*.—These plots are reserved for petrol filling stations or petrol filling and service stations. PS 1 may incorporate a complex of cafeteria, souvenir shops and other passenger services.
- (g) *Open Spaces (OS/1-OS/20)*.—OS/2, OS/4, OS/6, OS/7 and OS/11 shall be developed as playing areas while OS/1 and OS/3 shall be reserved for development as parks and handed over to the appropriate local council or organization for maintenance. The rest shall be kept and maintained as open spaces.
- (h) *Roads*.—The total width of roads are as given on the Layout Plan. All roads except Road No. 1 shall be constructed to the specification prescribed by the Enugu Town Planning Authority. It is expected that the appropriate local council will take over the maintenance of the roads after construction. It is expected that Road No. 1 will be constructed by the State or Federal Government because it is proposed as a bye-pass and an alternative to the Trunk "A" roads passing through the centre and most crowded parts of Enugu.

PART IV.—BUILDING DEVELOPMENT CONTROL

- 7. (a) No structures whatever shall be allowed to be erected on any plot in the Layout without the approval of the Chairman of the Enugu Town Planning Authority and the Head of the Town Planning Division of the Ministry of Lands, Survey and Urban Development.
- (b) It is expected that design of all buildings shall be of a high standard, and for this reason, conditions governing submission of building plans as laid down by the Architects Registration Council of Nigeria in accordance with Decree No. 10 of 1969 shall apply throughout the area of the Scheme.
- (c) The Building Regulations in force in Enugu Municipality shall apply within the area of the Scheme save that the building set backs and coverage shall be as set out below—

Set backs.—The front building set backs on all residential and commercial *cum* residential plots shall be as shown on the Layout Plan of the Scheme. The rear set back of smaller plots measuring no more than 80' x 120' shall not be less than 10 feet from the plot boundary. The side set backs shall be at least 7½ feet from the plot boundary. For larger residential plots, and commercial *cum* residential plots the rear and side set backs shall be at least 15 feet and 10 feet respectively.

The front set backs of all special plots, commercial plots and public building plots shall be no less than 25 feet from the plot boundary. Their rear and side set backs shall be no less than 20 feet from the boundary.

PART V.—BUILDING COVERAGE

- 8. The building coverage on all residential plots measuring no more than 80' x 120' shall be not more than 33½ per cent. of the total plot area. The coverage on larger residential plots and commercial *cum* residential plots shall be not more than 25 per cent. of the total plot area. On commercial plots and special plots the coverage shall also be not more than 25 per cent. of the total plot area. The public building plots shall have a coverage of not more than 12½ per cent.

PART VI.—BUILDING HEIGHTS

9. No restriction shall be placed on heights of buildings but on no account will the total floor areas of all the structures on any particular plot exceed the area of that plot.

PART VII.—REALIZATION OF THE SCHEME

10. The Scheme shall be developed by the landowners or their agents under the supervision of the Enugu Town Planning Authority. Planning rates shall be raised by the authority as provided by the Town and Country Planning Law for the purpose. Some portions of the layout shall be developed comprehensively as housing estates while in other parts plots shall be leased to individual developers who will build to their taste subject to the restriction contained in this Scheme.

PART VIII.—UTILITIES

11. *Water Supply*.—The Town Planning Authority shall be responsible for the supply of water to the area of the Scheme. The cost of this operation shall be met from the amount realized from planning rates.

12. *Electricity*.—It is expected that extension of electricity to the area of the Scheme will be found to be a sufficiently paying proposition to be of interest to the Electricity Corporation of Nigeria. Besides the area is near enough to the Independence Layout to make extension of electricity easy.

13. *Sewage Disposal*.—Sewage disposal shall be only by septic tanks and soakaway pits designed and constructed to the satisfaction of Enugu Health Authorities.

14. *Disposal of waste water*.—Waste water from kitchens, or effluents from industries shall not be channelled to public drains. All buildings shall be provided with soakaway pits approved by the Enugu Health Authorities for dealing with waste water and effluents from industrial buildings.

15. *Refuse Disposal*.—No part of the layout shall be used for final disposal of refuse. Every house in the layout shall have its own covered dust-bin which shall be kept in a fenced-off portion for emptying by the refuse collection team of the appropriate local council.

PART IX.—FINANCE

16. The Enugu Town Planning Authority shall levy the necessary planning rates on landowners or plotheolders to cover the cost of *delineation of plots in the layout*, constructing of roads, drains and culverts, supplying of water and electricity and other contingencies. The planning rate to be levied on plot-holders should be proportionate to the size of their plots. The landowners or their agents shall on leasing of any plot furnish the Enugu Town Planning Authority the names and addresses of the lessees from whom the Planning Authority shall demand the appropriate planning rate. Arrangement for the planning rate order shall be made soon after approval.

17. Where the landowners decide to develop an area comprehensively into an estate, levying of planning rates may be waived provided that the landowners or their agents themselves directly finance the cost of surveying, construction of roads and drains, supplying of water and electricity, and carry out these operations under the general supervision of the Enugu Town Planning Authority.
